MESSAGE

It is a matter of significance that the Directorate of Economics and Statistics is bringing out the "Economic Survey of Assam, 2025-26."

The Economic Survey is more than a compilation of data; it reflects the State's economic journey its strengths, challenges and emerging opportunities. In a rapidly evolving economic environment, sound policy must be guided by credible analysis and a clear understanding of ground realities. This publication provides that essential foundation.

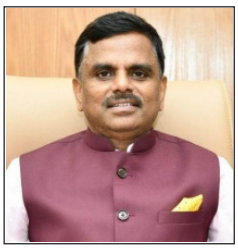

By offering a comprehensive assessment of key sectors and development indicators, the Survey supports informed decision-making and strengthens evidence-based governance. It serves as a valuable reference for policymakers, administrators and researchers engaged in advancing Assam's growth.

I commend the Directorate for its dedicated efforts and am confident that the Economic Survey of Assam, 2025-26 will continue to guide our pursuit of sustainable and inclusive economic progress.

MESSAGE

The *Economic Survey Assam, 2025-26* presents a comprehensive and insightful overview of the State's economic performance, sectoral developments, and key policy initiatives during the year. The Survey serves as an important analytical document, capturing emerging trends while also providing a factual basis for informed policy-making and evidence-based governance.

Assam continues to make steady progress on the path of inclusive and sustainable development. Focused interventions in infrastructure, agriculture, industry, human development, and social welfare, supported by fiscal prudence and institutional reforms, have strengthened the State's economic fundamentals. The Survey highlights these efforts, while also identifying challenges and opportunities that lie ahead.

I appreciate the Directorate of Economics and Statistics for their diligent efforts in compiling this publication with accuracy, clarity, and timeliness. I am confident that this Survey will be a valuable reference for policymakers, administrators, researchers, and all stakeholders interested in Assam's development trajectory.

I trust that the *Economic Survey Assam, 2025-26* will contribute meaningfully to informed public discourse and support the State's continued journey towards growth, resilience, and prosperity.

With warm regards,

Date: 04.02.2026.

(Dr. Ravi Kota)

MESSAGE

I am pleased to note that the Directorate of Economics and Statistics, Assam is bringing out the annual publication *Economic Survey, Assam 2025-26*, which presents a comprehensive and up-to-date overview of the economic scenario of the State. The publication reflects the evolving economic landscape of Assam and highlights recent trends, achievements, and challenges across various sectors.

The Directorate of Economics and Statistics, Assam serves as the nodal agency for the systematic collection, compilation, and analysis of statistical data relating to the State's economy. The *Economic Survey, Assam 2025-26* provides an in-depth assessment of the performance of all major sectors, supported by empirical evidence, analytical insights, and reliable data. It offers a factual basis for understanding the growth trajectory and developmental priorities of the State.

I am confident that this publication will prove to be a valuable reference for policymakers, planners, administrators, researchers, and other stakeholders. By facilitating informed decision-making and effective policy formulation, the Survey will contribute meaningfully to the pursuit of sustainable and inclusive development in Assam.

I take this opportunity to place on record my sincere appreciation for the dedicated efforts, commitment, and professionalism of the officers and staff of the Directorate of Economics and Statistics, Assam, whose hard work has made the successful preparation of this publication possible.

Place : Guwahati

3rd February, 2026.

(Dilip Kumar Borah, IAS)
Secretary to the Govt. of Assam
Transformation & Development Department.

FOREWORD

The Directorate of Economics & Statistics, Assam publishes the Economic Survey, Assam annually to present a factual and objective overview of the State's economic performance. This survey provides an in-depth analysis of Government initiatives, including departmental activities, schemes and programmes aimed at fostering development. Additionally, it captures key economic trends and movements, offering stakeholders a valuable resource for informed decision-making and policy formulation.

In the current edition of **Economic Survey, Assam '2025-26** efforts have been made to present and review the latest developments and trends in the sectoral performance of the State's economy. The information for this publication has been meticulously collected from various State Govt. Departments/Ministries and Departments of the Government of India. The Directorate sincerely acknowledges the valuable contributions and co-operation of all Govt. Departments/ Organisations/Institutes/Agencies whose timely provision of relevant data has been instrumental in making this publication comprehensive and insightful.

I extend my sincere gratitude to the Offices and Staff who have contributed, both directly & indirectly to the compilation and design of this publication.

I trust that this report will serve as a valuable resource for Administrators, Policymakers, Planners, Academicians, Researchers and various other Stakeholders.

Valuable comments & suggestions for improving future editions of this publication will be highly appreciated.

February, 2026

CHAPTER-I

ASSAM ECONOMY – AN OVERVIEW

AREA AND POPULATION:

Assam, a state situated between in the North-East region of India- bordering seven states namely - Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Tripura and West Bengal and two countries, namely Bhutan and Bangladesh. The geographical area of the state is 78,438 sq. km of which 98.4 percent area is rural. Assam shares about 2.4% of the country's landmass, providing shelter to 2.6% of India's population as per census, 2011. For administration and revenue purposes, the State has presently 35 districts, including six newly created districts namely Biswanath, Charaideo, Hojai, South Salmara, West Karbi Anglong, Bajali, Tamulpur and Majuli.

Assam is a state of heterogeneous population with socio-cultural and ethnic diversity. According to the Census of India, 2011 the population of Assam was 312.05 lakh of which 159.39 lakh were male and 152.66 lakh were female. The decadal growth rate of the state population during 2001-2011 was 17.07% against 17.68% growth for the country as a whole. Out of the total population, 86% population lived in rural areas and 14% population in urban areas of the state, while the percentage of rural population of the state was higher than all India average (69%).However, the urban population in the state had increased from 12.9% in 2001 to 14% in 2011.The density of the population of Assam in 2011 was 398 person per sq.km. as compare to 340 person in 2001. The sex ratio (number of female per thousand male) of Assam had increased to 958 in 2011 from 935 in 2001.

STATE INCOME:

The estimates of the State Domestic Product provide a clear picture of the magnitude and direction of change in the level of economic development of the state over time. Assam has emerged as one of the potential states in the country, registering robust growth in terms of Gross Value Added (GVA) and Gross State Domestic Product (GSDP).

Economic performance is generally assessed by the pace at which economic activity expands. By this measure, Assam ranks among the high-performing states in India. Sustained economic growth contributes significantly to improving the quality of life of the people, and Assam has consistently demonstrated better performance on this front.

According to the advance estimates, the nominal GSDP of Assam for FY 2025-26 (AE) is expected to reach ₹7,45,293 crore, as compared to ₹6,43,383 crore in FY 2024-25 (QE), reflecting a growth of 15.84 percent. The real GSDP for FY 2025-26 is estimated at ₹3,84,433 crore, against ₹3,49,100 crore in FY 2024-25 (QE), registering a growth of 10.12 percent. As per the projected estimates, the GSDP at current prices for FY 2026-27 is expected to reach ₹8.71 lakh crore reflecting a growth of 16.93 percent over the preceding year.

Assam has also improved its share in India's GDP at current prices from 1.65 percent in FY 2016-17 to 2.09 percent in FY 2025-26 (AE). At constant (2011-12) prices, its contribution has increased from 1.64 percent to 1.90 percent during the same period.

Further, the Per Capita Income of Assam at current prices for FY 2025 26(AE) is estimated at ₹1,85,429, compared to ₹1,60,417 in FY 2024 25(QE), showing an increase of 15.59 percent. The Per Capita Income of Assam at constant prices for the FY 2025-26 is estimated to be ₹93,351 compared to ₹85,503 for the FY 2024-25 (QE), registering an increase of 9.2 percent.

STATE FINANCE:

The state expects to earn revenue receipts of around Rs. 117225.97 Crore in FY 2025-26 (BE) against Rs. 96907.91 crore in FY- 2024-25 (RE) with a positive growth of 20.97 percent. Rs 43184.28 crore is expected to be earned from the State's resources and Rs 74041.69 Crore from the Centre in FY 2025-26 (BE). In FY 2023-24, the share of the State's tax and share of fund from the Centre to total revenue receipts was 37.24 percent and 62.76 percent. In FY 2025-26 (BE), the share of the State's tax to total revenue receipts is expected to be 36.83 percent.

It is expected that the state will earn tax revenue of Rs. 34823.04 crore in FY 2025-26 (BE), with a growth of 15.87 percent. The collection of Tax Revenue has exhibited an average annual growth of 12.95 percent over the last 5 years due to various measures taken by the Government to augment its own tax resources.

The state expects to earn non tax revenue of Rs. 8361.24 crore in FY 2025-26 (BE), with a growth of 56.24 percent. During the last four years, the collection of non-tax revenue has increased steadily at an average rate of 19.38 percent due to collective effort of the State Government. The share of non-tax revenue to total revenue receipts was 15.11 percent in FY 2024-25, and it is expected to rise upto 19.36 percent in FY 2025-26 (BE).

Total revenue expenditure of the state has grown to Rs. 99907.06 Crore in 2024-25 (Pre Actual) as against Rs. 94162.90 Crore in 2023-24. Total non-debt capital expenditure has grown from Rs. 21508.73 crore in 2023-24 to Rs. 26408.77 crore in 2024-25 with a growth of 22.76 per cent. Share of non-debt capital expenditure has increased from 3.74 percent in 2022-23 to 4.11 percent in 2024-25.

During the period from 2019-20 to 2024-25, average annual rate of repayment of loans is significantly higher (46.93%) than that of borrowings (25.24%). This indicate sustainable financing through improvement in Net Loan Position of the State by dint of productive investments and consequently enhanced economic activities. Debt to GSDP ratio over the last four years from 2021-22 to 2024-25 have also been consistently lower (23% – 25%) than the national average.

AGRICULTURE:

Agriculture plays a vital role in the economy of the State. Agriculture is the main source of occupation and livelihood support to 70% rural population.

The State Agriculture department has issued 164745 Nos. of Kissan Credit Card (KCC) and sanctioned limit amount is 2860.47 (Rs. In Crores) in the year 2024-25.

The Area under autumn rice is 0.39 lakh hectare, winter rice is 18.65 lakh hectare and summer rice is 4.01 lakh hectare. The total rice area is 22.86 lakh hectares in the year 2024-25.

The total crop/Gross cropped area is 40.88 lakh hectare and net crop area shown is 27.58 lakh hectare in the year 2024-25. The intensity of crop in percentage is 148.17 in the year 2024-25.

The Yield rate of autumn rice is 1436 Kg/hectare, winter rice is 2341 Kg/hectare and summer rice is 3051 Kg/hectare. The Yield rate of total pulses is 805 Kg/hectare and total Oil Seed (Excluding Coconut) is 781 Kg/hectare.

Under Prime Minister Fasal Bima Yojona (PMFBY) 263590 hectare area are covered in Kharif season in 2023 Year along with 397088 Nos. of farmers covered.

LIVESTOCK, ANIMAL HUSBANDRY AND DAIRY DEVELOPMENT:

The cattle population constitutes the largest group, with more than ten million counts as per the 20th livestock census 2019. Out of the total cattle, indigenous/non-descript cattle comprise 1.10 Cr, while the crossbreed cattle population comprises 7.69 lakhs. In the census, 4.22 lakhs buffalo were found while sheep were counted to be 3.32 lakhs in numbers. Goats and pigs comprised about 43.15 lakhs and 21 lakhs numbers, respectively during the 2019 livestock census.

The total production of milk in the state for the year 2024-25(P) was estimated at 1224.08 million litres as against 1149.71 million litres in the previous year 2023-24, thereby recording a growth rate of 6.46 % in 2024-25(P).

The total production of egg during the period 2024-25(P) for both (fowl and duck) was 642 (in million numbers), which was 622.86 (in million numbers) in the previous year 2023-24, thereby showing a growth in egg production by 3.07% over the previous year.

The total meat production in 2024-25(P) was 69.49 (in '000' Tonnes) and 68.68 (in '000' Tonnes) in the year 2023-24, thereby showing an increase of 1.17% in the year 2024-25(P) over the previous year.

FISHERY:

The Fishery sector is now emerging as one of the important sector in the state playing very significant roles in socio-economics development if the state provides rural employment, nutritional support and livelihood security thereby reducing poverty and promoting health and more than 90% of the total population of the state consumes fish as a staple diet contributing toward a high demand of fish throughout the year.

The Fish production in the state has reached a level of 5.29 lakh MT during the year 2024-25 against the estimated nutritional demand of 5.25 lakh MT. The demand for Fish for the state was calculated at 15.22 Kg/yr. per capita consumption taking 90% of the fish-eating population out of the estimated population of the state.

In the year 2023-24(QE), the contribution of the Fishery and Aquaculture sector to the State's GSDP at the current price was Rs. 2637315 lakh and Rs. 759817 lakh at constant (2011-12) price respectively. The share of the fishing and aquaculture subsector to GSVA of the agriculture and allied GSVA account for 21.7 percent and 4.7 percent of total GSDP at current prices.

Assam is endowed with vast water resource covering 2.59 lakh hectares. The mighty Brahmaputra and the Barak with their tributaries spread up to 11214 Km in 2024-25 as a riverine Fishery. There are 216 freshwater fish species and over 50 fish species having ornamental importance.

FORESTRY:

Assam is a rainbow state with blue rivers and green hills with a unique bio-diversity treasure house of rare flora, fauna and forest. Forestry is a vital sector of the state. In the language of Ahom ruler, Assam is the "Golden land". The total Recorded Forest Area in Assam is 26,836 square km. which is 34.21% of the total geographical area of Assam, as per India State Forest Report, 2023. Efforts to build a green economy in the state, 8 June, 2023 would be marked as a red-letter day since on this day Hon'ble Chief Minister of Assam announced the launch of "Amrit Briksha Andolon", 2023. To create a revolution among the people in respect of strengthening the economy through forest/plantation of commercially viable trees, for scientific plantation, the focus has been laid on commercial tree species suitable for timber, plywood making, medicinal and some more valuable trees like Chandan, Baga Chandan, and fruits which are abundantly grown in Assam. In this "Amrit Bikshya Andolon", Assam has recorded 9 Guinness records which is one of the milestones for creating forest out side Recorded Forest Areas.

At present the world famous one horned Rhino Protection in Assam is one of the challenging tasks before the Government. Due to strong steps taken by the Govt. the poaching of one horned Rhino in the state has significantly decreased. With respect to revenue collection during 2024-25, total Rs. 567.75 crore revenue has been earned by the Forest department compared to Rs.564.88 Crore during 2023-24. For the year 2025-26, revenue collected was Rs.371.60 Crore out of a target of Rs.997.00 Crore (till December, 2025).

In State Compensatory Afforestation and Fund Management and Planning Authority (State CAMPA) forest department accelerates different activities for preservation of natural forest, management of wildlife, infrastructure development in the sector and allied works and recorded Rs. 10266.62 lakh financial achievement during 2024-25 as reported by PCCF cum Head of Forest Force, Assam.

The contribution by Forestry and Logging sector toward GSDP was Rs. 6,91,592.00 lakh in 2024-25 (QE) against Rs.6,70,223.00 lakh in 2023-24 (PE) at current price registering a 3.19% growth.

INDUSTRY:

Industrial development in Assam has its genesis in the colonial period with the establishment of tea plantations, coal mining, plywood industries and hydrocarbon exploration. The State is richly endowed with natural resources including petroleum, natural gas, coal, limestone and other minerals, which continue to form the backbone of its industrial economy. Tea remains a principal industry, with Assam contributing more than fifty per cent of the country's total production and providing substantial employment.

The industrial sector constitutes a significant component of the State economy, contributing approximately one-third of Gross State Domestic Product. As per advance estimates for 2025–26, the sector has recorded robust growth, led by construction, utilities, mining and manufacturing. Manufacturing activity has demonstrated a consistent recovery in the post-pandemic period, as reflected in the upward movement of the Index of Industrial Production. The organised manufacturing sector, as captured under the Annual Survey of Industries (ASI) indicates steady expansion in terms of factories, employment, output and value addition.

Mining and quarrying continue to be major revenue-generating activities, with crude oil, natural gas, coal and limestone contributing substantially to the State exchequer. To strengthen the industrial ecosystem, the Government of Assam has accorded priority to the development of industrial infrastructure through industrial estates, parks and common facilities, supported by institutions such as AIDC and AIIDC.

The State has implemented a comprehensive policy framework including the Industrial and Investment Policy, sector-specific policies on ethanol, electronics, logistics and warehousing, and customised incentive packages for mega projects. These initiatives are complemented by centrally sponsored schemes such as UNNATI, PMEGP, PMFME and PM Vishwakarma, and flagship state programmes including CMAAA and APART, which collectively promote MSMEs, agribusiness, entrepreneurship and employment generation.

In addition to core industries, Assam has witnessed diversification into rubber, coffee, sericulture, handloom, khadi and tourism. These sectors play a vital role in rural development, women's empowerment and preservation of traditional industries. Overall, Assam's industrial development strategy reflects a balanced, inclusive and sustainable approach aimed at accelerating economic growth, enhancing investment and generating gainful employment across the State.

POWER:

In Assam the entire power industry of the State was managed by "Assam State Electricity Board (ASEB)" up to 10th December, 2004 after that it was divided into the following three entities to meet the power requirements of the State.

1. The Assam Power Distribution Company Limited (APDCL)
2. The Assam Electricity Grid Corporation Limited (AEGCL)
3. The Assam Power Generation Corporation Limited (APGCL)

From 2022-23 to 2024-25, the Gross State Value Added (GSVA) from electricity sector of Assam has grown at an average rate of 20.62 per cent per year. During the same period, impressive growth in major sectors that are directly related to power has such as Manufacturing (10%), Communication and broadcasting (15.76%), Hotels& Restaurants (22.61%) have also exhibited impressive growth patterns.

As the economy of the state has regained its momentum in the post Covid period, electricity consumption in the state has also rapidly increased. From 2022-23 to 2024-25, the total power consumption (in MU) has increased by a staggering 13.91% per year.

During this period, the per capita domestic consumption of power (both domestic & commercial) has also increased by 9.29% per annum.

As the economy of the state has gained its momentum, electricity consumption in the state has also rapidly increased. From 2022-23 to 2024-25, the total power consumption (in MU) has increased by a staggering 13.91% per year. During this period, the per capita domestic consumption of power (both domestic & commercial) has also increased by 9.29% per annum. Average Purchase Rate of power has also decreased from Rs. 6.63 in 2023-24 to Rs. 5.97 in 2024-25.

Total energy requirement of the State during 2024-25 is at 15556 MU and peak demand during the year is at 2684 MW. Average growth of commercial consumption of power in the State during the period 2022-23 to 2024-25 is 8.59% which is 4 times higher than the growth of domestic consumption at 2.01% during the same period. During 2024-25 domestic purpose has the highest share in power consumption (48.40%) followed by Commercial (16.32%), Industrial (16.24%) and Other Purpose (16.21%).

TRANSPORT AND COMMUNICATION:

During FY 2024-25, the Transport and Communication sector accounted for 5.27 per cent of the Gross State Value Added (GSVA), and its contribution is projected to increase to 5.42 per cent by FY 2026-27. Over the last four years, the sector has recorded robust and consistent growth, supported by substantial expansion in road infrastructure, rising motor vehicle density, and improved public transport services.

The road network in Assam comprises of total 74929.10 km consisting of 5612.79 km national highways and 69316.31 km of roads under PWD in Assam as on 31.03.2025. Out of 69316.31 km of PWD roads State Highway comprises 5120 km, Major District road comprises 8638 km, urban road comprises 3181.97 km and rural road comprises 52376.34 km.

On the front of railways, Assam at present has total railway route length 2571.19 km and the running track kilometre of Railways (i.e. lengh of tracks under operation) under broad gauge railway is 3153 kms as on 31.03.2025. Electrified routes have increased from 2594 Km in 2023-24 to 3374 Km in 2024-25.

Significant progress has been achieved under programmes such as PMGSY, leading to enhanced rural and inter-district connectivity. Growth in rail electrification, expansion of air transport capacity, and modernisation of inland water transport have further strengthened the transport network. On the communication front, expansion of postal services and steady growth in telecom subscribers have improved digital and information connectivity, thereby supporting economic activity and inclusive development across the State.

Further, Transport Department of Assam has collected revenue of Rs. 1893.83 crore during the financial year 2024-25 which exihibits a growth of 7.20 percent from the previous year's collection of Rs. 1716.14 crore.

Wireless subscribers in the State has increased by 6.92 % during the period 2023 to 2025. During the same period, number of wireline subscribers has increased by 28.73 percent.

LABOUR, ELPLOYMENT AND WAGES:

Labour is one of the basic factors in the factors in the process of production. In the State, the total employment in the public and private sector establishments as per the Employment Market Information (EMI) programme up to the 31st March 2024 was 11,97,700 Nos. (in public sector 4,86,500 nos. and in private sector 7,11,200 nos.) Where it was 11,54,000 nos. (in public sector 4,90,000 nos. and in private sector 6,64,000nos.) in 2023, which shows an overall 3.64% increase in employment in the year 2024.

The manufacturing sector plays the most significant role in employment generation in Assam. As reported by the Chief Inspector of Factories (CIF), Assam till 2024-25there were 8,858 nos. of factories in the state with 3,12,982 Nos. of employment compared to 8,620 Nos. of factories and 3,43,824 Nos. of employment in the year 2023-24 showing an increase of 2.69 % in number of factories and 9.85% decrease in the context of employment.

Handloom & Textile Industry also plays a significant role in the employment generation of the state economy. During the year 2024-25, this sector has 680687 nos. of weavers as part-time and 78642 nos. as whole-time weavers which are a very remarkable performance of this sector.

In rural areas, the unemployment rate was 3.5%, whereas in urban areas, the unemployment rate was 7.4 % percent as per PLFS, 2023-24, Govt. of India. The unemployment rate of India was 2.5% in 2022-23 in rural areas and 5.1 % in urban areas during the same period.

The size of registered educated job seekers is considerably low as compared previous year. From the records of the live register of Employment Exchanges, during 2024 ,the registered educated job seekers stood at 1,06,044 nos. against 8,56,546 Nos. during the year 2023.

It is to be worth mentioning here that the Govt. of Assam has launched an online portal https://sewasetu.assam.gov.in/w.e.f 27th September 2021for live registration of educated unemployment youths and since then the manual process has been completely discontinued.

In 2024, the Assam Government continued its massive recruitment drive, exceeding its promise of 1 lakh jobs to over 1.25 Lakh plus total appointments by late 2024. Key 2024 distributions included 385 candidates in October, 41 in the Education Department in July and significant recruitment in P&RD and technical roles etc.

BANKING:

According to the State level Banker's Committee Report, the number of reporting Bank Offices of all Scheduled Commercial Banks in Assam has been increased to 3185 as on

March 2025 from 3053 as on March 2024. With further expansion of the banking network, the dependence per bank office in Assam has reduced to 24.19 sq. km per branch as on March 2025, compared to 25.69 sq. km in March 2023 and 38.31 sq. km in March 2015, reflecting improved spatial penetration of banking services across the State. Average Population served by per bank branch in the State as on as on 31st March, 2025 is 9622 against all-India average of 7,390 persons per bank branch using 2011 census population and SLBC report /RBI data on number of all India bank branches.

The expansion of banking facilities in the State has augmented not only in respect of volume of deposits but also in respect of disbursement of credit. The aggregate deposit with scheduled commercial banks in Assam, which was Rs. 223478 as on March 2024 has increased to Rs. 233618 in March 2024. The total volume of credit disbursed by the banks has been increased to Rs. 153491 Crore in March 2025 from Rs. 145906 Crore in March 2024, thereby, recorded a growth of 5.19 percent. Using Census 2011 population as the base, the per capita deposit in Assam increased to **₹74,867.36** and per capita credit increased to **₹49,189.73** as on 31 March 2025. This represents a growth of **10.53 percent in per capita deposit** and a significant **34.83 percent growth in per capita credit** over March 2022, indicating improved credit deepening in the State. The Credit-Deposit Ratio (CDR) of the SCB in the State as on 31st March 2025 was 71.31 percent as per the SLBC Report, as against 79.51 percent at all India level . However, the State Level Banker's Committee Report (as on 31st March, 2023) reveals that out of 33 districts in Assam, 26 districts have crossed the 60 percent C-D Ratio benchmark fixed for Scheduled Commercial Banks. Seven districts—Dima Hasao, Hailakandi, Cachar, Hojai, Kokrajhar, Kamrup Metro and Chirang—fall within the 40–60 percent range, indicating moderate performance that requires monitoring and targeted intervention. No district is below 40 percent, which reflects an overall improvement in credit deployment across the State. Focused efforts are required in these seven districts to enable them to cross the benchmark level.

RURAL DEVELOPMENT:

The Panchayat and Rural Development (P&RD) Department, Government of Assam, is responsible for poverty alleviation, livelihood enhancement, and strengthening of Panchayati Raj Institutions (PRIs). The Department implements a range of wage employment, self-employment, infrastructure development, and social security programmes aimed at improving the quality of life in rural areas.

Key flagship initiatives include MGNREGA, which continues to generate substantial wage employment with increasing participation of women and focused interventions in tea garden areas, and PMAY-G, which has significantly improved rural housing by sanctioning and completing a large number of pucca houses for eligible households. Social security coverage is provided through NSAP and state-sponsored pension schemes, ensuring financial support to the elderly, widows, and persons with disabilities.

The 15th Finance Commission Grants have strengthened decentralized planning and infrastructure development at the Gram Panchayat level, while Mission Amrit Sarovar

(Assam Model) has contributed to water conservation, irrigation, and livelihood generation through community-managed water bodies.

Through the Assam State Rural Livelihoods Mission (ASRLM), large-scale mobilization of Self-Help Groups has empowered rural women via access to credit, enterprise promotion, farm and non-farm livelihoods, and social security inclusion. Complementary initiatives such as skill development, self-employment training, and capacity building of PRIs through SIPRD further reinforce effective rural governance and sustainable development.

SOCIAL SECTOR:

EDUCATION:

In Assam, the number of Government/provincialized under department of Elementary in Lower Primary Schools is 33875 of which 32841 are in rural areas and 1034 are in urban areas. Likewise, the total number of Upper Primary schools is 6160 of which 5855 are in rural areas and 305 are in urban areas as per UDISE 2023-24.

As per ,UDISE 2024-25 ,the average annual Drop-out Rate in Lower Primary in the State during 2024-25 is 3.8% against 6.2% in 2023-24, while this rate was 6.8% percent in 2022-23. Likewise in the Upper Primary level, the drop-out rate is 8.2% in 2024-25 and it was 9.27 in 2023-24, in secondary (Class IX-X) IT IS 17.5% dropped from 25.1%. The Transition Rate from primary to upper primary in the state is 90.3%. In 2024-25 total enrolment in lower primary schools is 1916217 and the same for upper primary is 1654836.

Further during 2024-25, the number of Teaching of Govt.Colleges/Provincialised Colleges/Govt. Model Colleges of Assam as per Directorate of Higher Education appointed are 611 and the same for the period Dec./2023 to Jan./2024 is 583.

HEALTH:

The status of health infrastructure in Assam has been improving over years. At present in 2024-25, there are 14 Medical Colleges and Hospitals, 24 District Hospitals, 3 Tuberculosis Hospitals, 2 Cancer Hospital, 16 Sub-district Hospitals, 1013 PHCs, 77 FRUs, 226 CHCs, 221 State Dispensaries 4953 Sub-centres with 30195 numbers of total beds in the state at the end of 2024-25. 3 Nursing Colleges in Guwahati, Dibrugarh and Silchar with 6 Para-medical institutions, 3 Dental Colleges, 529 Polyclinics and 2866 Diagnostics Centres as of December 2024-25. Referral Hospitals inside the state is 7 and outside the state are 31.Total beds in Health institution is 25290, MBBS Doctor 3160, Specialist Doctor 1035,Dental Surgeon 308.Till 31-03-2025 registered MBBS Doctors 29763,Post Graduate Doctors are 8595.Birth & Death registered in 2025 are 623766 & 182406 respectively with highest number of registration in Birth is 42553 in Barpeta & Death 16642 in Kamrup(Metro) in 2024-25.

***

CHAPTER-II

POPULATION

Important Features:

Assam, a state situated between 24008'N-27059'N latitude in the northeast region of India, is the gateway to the region, the premier, largest and the most vibrant of the eight states comprising the Northeast. It borders seven states namely, Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Tripura and West Bengal and two countries, namely Bhutan and Bangladesh. Its topographical asymmetry underscored by the Barail hill range sandwiched between two valleys – the Brahmaputra and the Barak, named after the two dominant rivers. Assam has a total geographical area of 78,438 sq. km (30285 sq. mile), occupying 2.4% of India's landmass, providing shelter to 2.6% of India's population. For administration and revenue purposes, the State has presently 35 districts, including six newly created districts namely Biswanath, Charaideo, Hojai, South Salmara, West Karbi Anglong, Majuli, Bajali and Tamulpur.

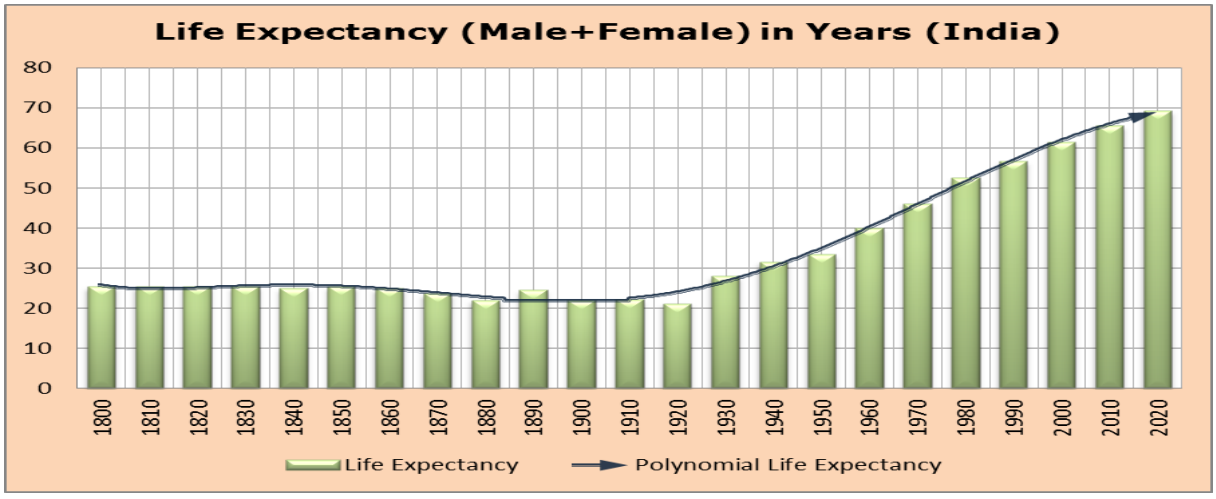

Life Expectancy at Birth:

The data available from Sample Registration Survey (SRS), 2019-23, Assam has the life expectancy at birth 68.60 where life expectancy of Male is 66.90 and Female is 70.70. Life expectancy at birth in India is Age 70.30 in 2019-23.

Table-2.1

Life Expectancy (from birth) in India from 1800 to 2020

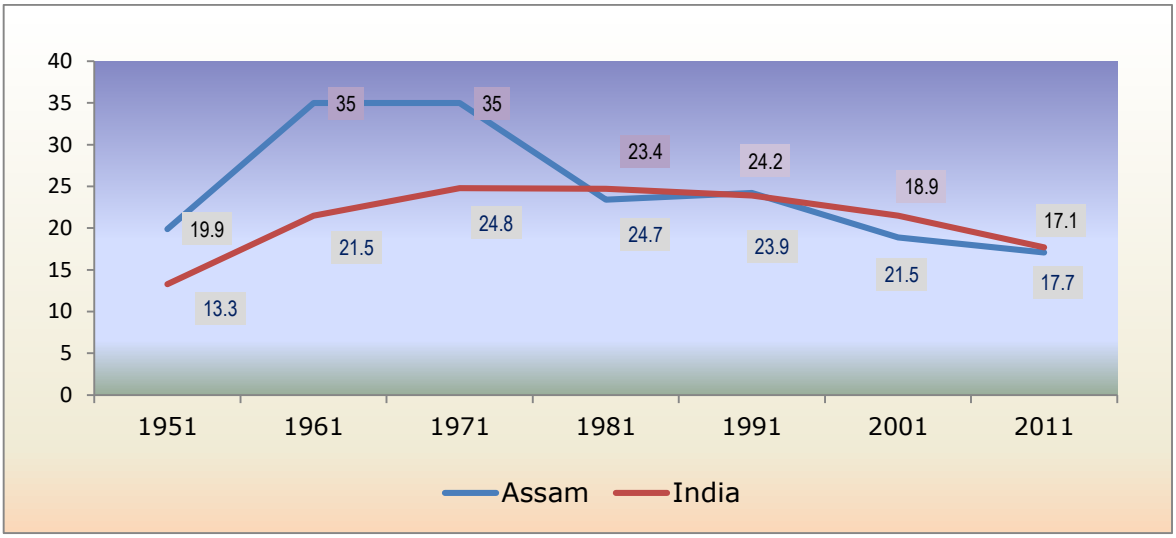

Life Expectancy in years	Years

Decadal growth of population in India and Assam:

As per Census of India, 2011 the total population of Assam is 3, 12,05,576 of which 1,59,39,443 are male and 1,52,66,133 are female. The decadal growth rate (DGR) of the State's population during 2001-2011 has been worked out as 17.07% against 17.68% for India as a whole.

Decadal Variation of Population Growth in Assam and India

Density of Population (Total persons per Sq. Km.) of Assam and India:

The density of population in Assam has increased from 340 persons per sq km in 2001 to 398 persons in 2011 census. Thus, on an average 58 more people inhabit every square kilometre in the state compared to a decade ago. The population density of India has gone up to 368 persons in 2011 census per square kilometre from 325 persons in 2001.

Table-2.2

Density of Population in NE States, Census, 2011

States	Population (Nos)	Density (Per sq km)
Arunachal Pradesh	1382611	17
Assam	31205576	398
Manipur	2964007	122
Meghalaya	2964007	132

Population: Rural and Urban:

As per Population Census, 2011, the rural population of the State was 85.9 percent of the total population. This percentage was much higher than that for All-India (69.0 percent). The proportion of rural population in the State decreased from 87 percent in 2001 to 86 percent in 2011. Out of the total rural population 51.03 percent were male and 48.97 were female. As per the Population Census, 2011, around 14 percent of the total population of the State was living in urban areas. The proportion of urban population in the State increased from 12.9 percent in 2001 to 14 percent in 2011.

Sex Ratio:

The trend of Sex Ratio in the State. The sex ratio for all ages for rural area was calculated at 960 and for urban area were 948. The sex ratio in the age-group 0-6 years is the vital indicator of future sex composition in the population in the State. Child sex ratio in the State was 962 female per 1000 male child as per Census, 2011.

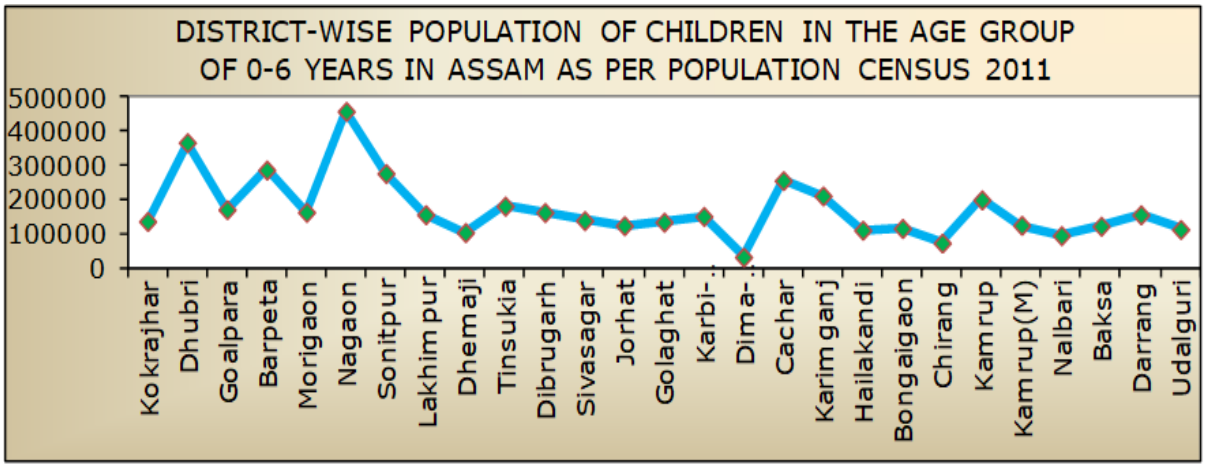

Table-2.4

Sex Ratios in Selected States

State	Rural		Urban		Total	
	2001	2011	2001	2011	2001	2011
Andhra Pradesh	983	996	965	987	978	993

Sex Ratio and Child Sex Ratios:

As per Population Census 2011, in all districts of the Sate have witnessed increase of Sex Ratio as compared to the report of Census, 2001. The highest Sex Ratio 974 is observed in Baksa district and lowest Sex Ratio is 932 in Kamrup (Metro).

The corresponding Sex Ratio in the State for the age group 0-6 years is observed highest in Udalguri district and lowest is observed in Kamrup (Metro)

On the other hand, Sex Ratio at birth (0-1 year) in Assam as per 2011 Census was calculated at 957 females per 1000 male. The Sex Ratio at birth for rural area was 958 and for Urban were 948. District wise analysis of Sex Ratio at birth shows that Dima Hasao district recorded highest Sex Ratio of 985 and the lowest is recorded in Dhemaji district with 922. The Sex Ratio of Scheduled Castes and Scheduled Tribes population in Assam were 948 and 985 respectively in 2011. In respect of rural and urban divide, the Sex Ratio for Scheduled Castes population is 945 and 963 respectively and for Scheduled Tribes population the figures are 984 and 996 respectively.

Table-2.5
Sex Child Ratios in Selected States

State	Rural		Urban		Total	
	2001	2011	2001	2011	2001	2011
Andhra Pradesh	963	941	955	935	961	939

Assam Highlights – 2011 census:

The Census Directorate of Assam highlighted the following observation after completion of the Population Census, 2011.Growth of population in the state during 1971-2011 is 113.12 percent against the national growth rate of 120.77 percent during this period.

- Assam ranks 14th in size of population among the states of India.
- Assam ranks 15th in density among the states of India.
- Assam ranks 15th in sex-ratio among the states of India.
- Assam ranks 26th in literacy among the states of India.

Table-2.8
Demographic Indicators: 2011-2021, ASSAM

Indicators	2011-15	2021-25
Population Growth Rate	12.2	9.3
Crude Birth Rate (CBR)	20.3	17.1
Crude Death Rate (CDR)	7.5	7.2
Infant Mortality Rate (IMR)	51.4	41.5
Under-5 mortality Rate	73.9	59.6
Total Fertility Rate (TFR)	2.34	2.00
Life expectancy of Males	63.51	67.01
Life expectancy of Females	66.22	69.72

Some State highlights in 2011 census, such as highest and lowest population, percentage of growth, literacy rate, sex ratio and density among the districts of Assam may be seen in the following.

Item		Highest	Lowest
Total Population		Nagaon (28,23,768)	Dima Hasao (2,14,102)
Total Rural Population		Nagaon (24,54,234)	Dima Hasao (151,613)
Total Urban Population		Kamrup Metro (10,37,011)	Baksa (12,242)
Percentage of Population Growth	**Total**	Dhubri (24.40)	Kokrajhar (5.19)
	Rural	Dhubri (27.13)	Kamrup Metro (2.93)
	Urban	Nalbari (200.34)	Sonitpur (-2.65)
Literacy Rate	**Total**	Kamrup Metro (88.66)	Dhubri (59.36)
	Rural	Jorhat (81.36)	Dhubri (56.49)
	Urban	Hailakandi (94.67)	Darrang (66.86)
Sex-ratio	**Total**	Baksa (974)	Dima Hasao (932)
	Rural	Morigaon (975)	Darrang (923)
	Urban	Hailakandi (992)	Dima Hasao (880)
Density		Kamrup Metro (2,010)	Dima Hasao (44)

SLUM POPULATION:

As per Census, 2011, thirty-one (31) towns in Assam were reporting slums against 2613 towns reporting slums in India as a whole. According to the Census of India, 2011, the Slum population stands at 1,97,266 of which 1,01,424 are males and 95,842 females. The Slum population accounts for 0.63 percent of the total population of the State. The child population (0-6years) in Slum population is 22,229 out of which 11,378 are males and 10,851 are females. The corresponding child population (0-6 years) in all India level is 8,082,743 of which male & females are 4,204,451 and 3,878,292 respectively The Slum population to the urban population of the State is 4.5 percent. The all-India figure for Slum population as per Census, 2011 is 65,494,604 of which 33,968,203 are males and 31,526,401 are females.

LITERACY RATE OF SLUM POPULATION:

The Literacy rate for Slum population is 72 percent with 76 percent for male and 68 percent for female population, according to Census 2011. The corresponding figure for literacy in all India level is 68 percent with 73 % and 62 % for male and female literacy respectively.

*****

CHAPTER – III

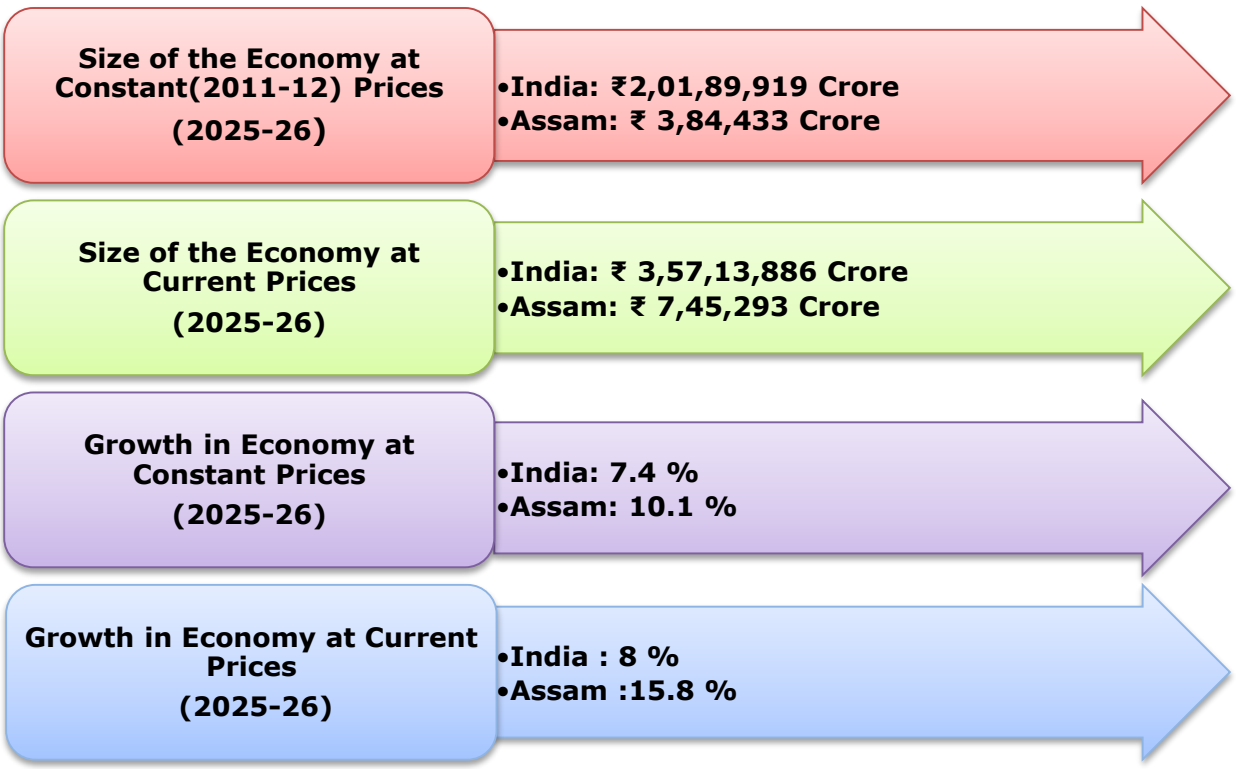

STATE INCOME

State Domestic Product (SDP), commonly known as State Income, is one of the prime indicators to measure the state's economic development. In the context of the planned economic development of the state, the SDP and Per Capita Income (PCI) play a vital role in the formulation of various plans and policies by state administrators, policymakers, and planners. The estimate of the State Domestic Product reveals the extent and direction of changes in the state's economic development levels over a period of time. Assam is one of the potential states registering high growth in terms of GVA and GSDP.

Economic performance is measured by the pace at which economic activity is growing in a country or state. Assam by that measure, is one of the high-performing states in the country. Higher economic growth helps in making the lives of the people better. Assam is consistently performing better.

"State Domestic Product" is defined as the aggregate of the economic value of all final goods and services produced within the geographical boundaries of a state, counted without duplication during a specified period, usually a year.

ECONOMY AT A GLANCE

ADVANCE ESTIMATES OF GSDP AND PCI 2025-26

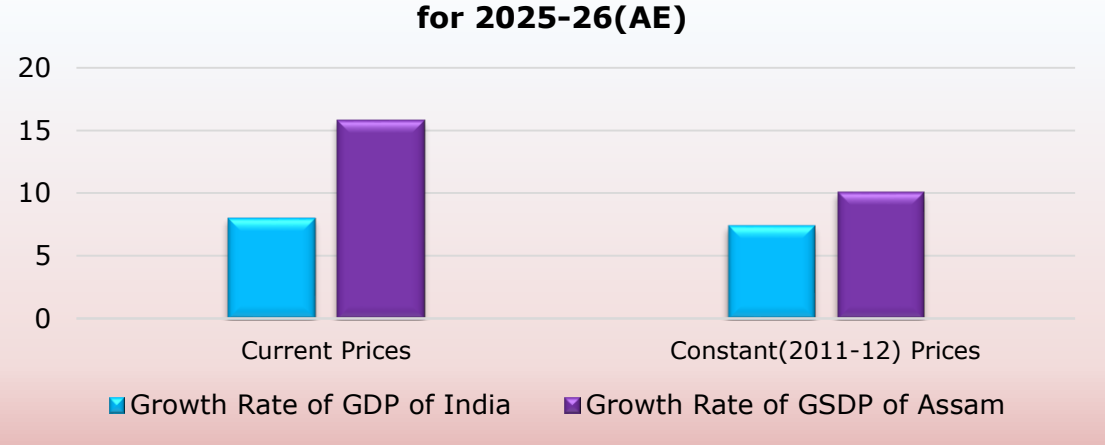

Gross State Domestic Product (GSDP)	Per Capita Income (PCI)
₹ 7.45 lakh crore at current prices	₹1,85,429 at current prices
₹ 3.84 lakh crore at constant (2011-12) Prices	₹93,351 at constant (2011-12) Prices

As per the advance estimates, the GSDP of Assam at current prices for the FY 2025-26 (AE) is likely to attain a level of ₹ 7,45,293 crore as against ₹6,43,383 crore in FY 2024-25 (QE) reflecting a growth of 15.84 percent over the preceding year. The real GSDP for Assam at constant prices for the FY 2025-26 is likely to attain a level of ₹ 3,84,433 crore as against ₹ 3,49,100 crore in FY 2024-25(QE) reflecting a growth of 10.12 percent over the preceding year.

As per the projected estimate, the state GDP at current prices for the year 2026-27 is expected to reach the level of ₹ 8.71 lakh crore reflecting a growth of 16.93 percent over the preceding year.

As per the advance estimates, the Per Capita Income of Assam at current prices for the FY 2025-26 is estimated to be ₹1,85,429 compared to ₹1,60,417 for the FY 2024-25 (QE) registering an increase of 15.59 percent. The Per Capita Income of Assam at constant prices for the FY 2025-26 is estimated to be ₹ 93,351 compared to ₹85,503 for the FY 2024-25 (QE) registering an increase of 9.18 percent.

Chart-1: Economic Growth Rate of India and Assam for 2025-26(AE)

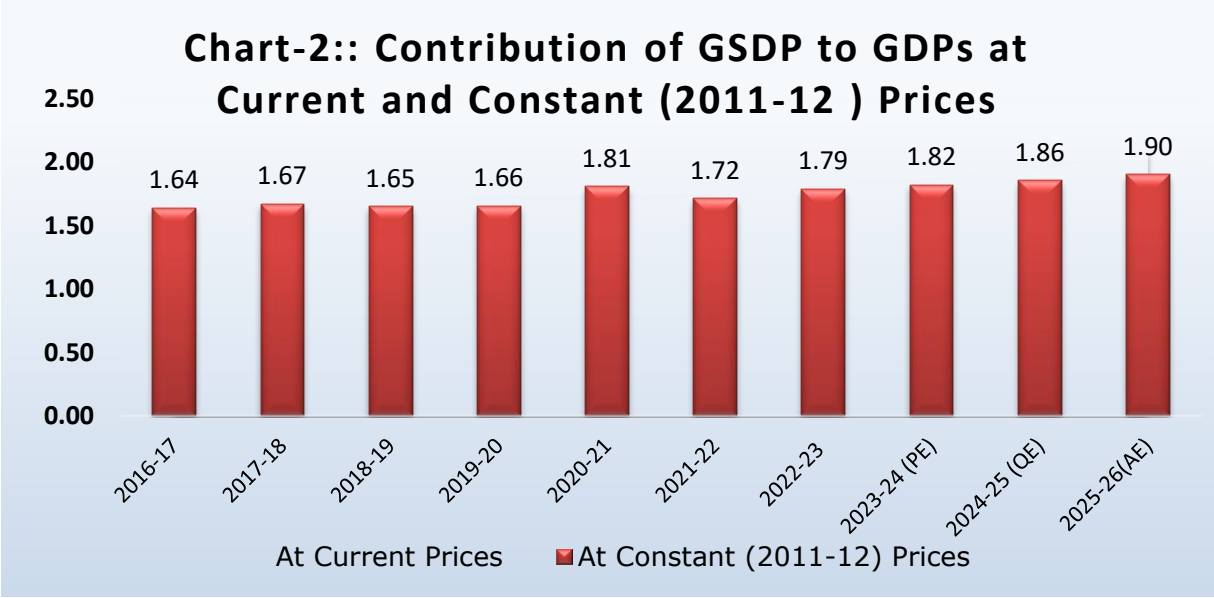

The state has improved its share in India's GDP at current prices, recording a rise from 1.65 percent in FY 2016-17 to 2.09 percent in FY 2025-26 (AE) and at constant (2011-12) prices, the contribution of GSDP to GDP has increased from 1.64 percent in 2016-17 to 1.90 percent in 2025-26(AE).

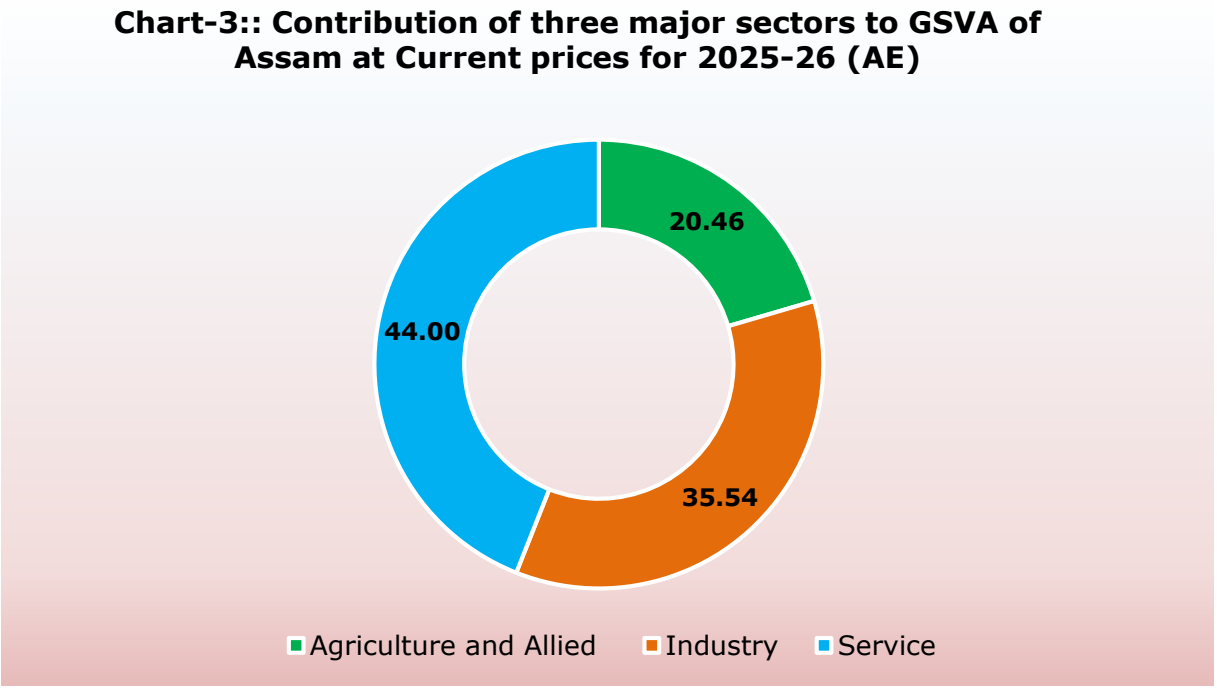

F.N. -

1. Advanced Estimates (AE) are estimates that depict how the economy/sector is expected to grow in the upcoming/ongoing financial year based on earlier performance of various sectors/indicators.

2. Quick Estimates (QE) are revised AE subject to availability of data.

3. Provisional Estimates (PE) are revised QE which become Actual Estimates subject to comparison with the Ministry of Statistics and Programme Implementation, Govt. of India and approval from the State Govt.

3.1 Gross State Domestic Product (GSDP) of Assam at current prices

Advance Estimates of GSDP are indicator-based and are compiled using the benchmark–indicator method. Under this approach, the estimates of the previous financial year (2024–25) are extrapolated using relevant indicators that reflect the performance of various sectors of the State economy. Data sourced from different State Government Departments, Central Ministries, and private agencies serve as key inputs for the compilation of these estimates.

As per the First Advance estimates of Govt. of India, the GDP of the nation at current prices for the FY 2025-26(FAE) is estimated at ₹357.13 lakh crore showing an annual growth of 8 percent over the previous year.

As per the advance estimates, the GSDP of Assam at current prices for the FY 2025-26(AE) is likely to attain a level of ₹7.45 lakh crore as against ₹ 6.43 lakh crore in FY 2024-25(QE) reflecting a growth of 15.8 percent over the preceding year.

Assam's nominal GSDP in 2025-26 (AE) is estimated to contribute 2.09 percent to the nation's GDP, in comparison to that of 1.95 Percent in the previous year. The GSDP of Assam and GDP of All India and its annual growth rate at current prices are presented in Table: 3.1

Table 3.1

3.2 Gross State Domestic Product (GSDP) of Assam at constant (2011-12) prices

Real GSDP or GSDP at Constant Prices is estimated to attain a level of ₹ 3.84 lakh crore in FY 2025-26 (AE) , against the Quick Estimates (QE) of GSDP for the FY 2024-25 of ₹ 3.49 lakh crore, registering a growth rate of 10.1%.

As per the provisional estimates of Govt. of India, the GDP of the nation at constant (2011-12) prices for 2025-26 (FAE) is estimated at ₹ 201.89 lakh crore showing an annual growth of 7.4 percent over the FY 2024-25. The contribution of the GSDP of Assam to the nation's GDP at constant (2011-12) prices is estimated at 1.90 percent for the FY 2025-26 against 1.86 percent in FY 2024-25.

The GSDP of Assam and the GDP of All India and its annual growth rate at constant (2011-12) prices are presented in **Table: 3.2**

3.3 NSDP of Assam at current prices

As per the advance estimates, the Net State Domestic Product (NSDP) of Assam at current prices for the FY 2025-26(AE) is estimated to be attained at the level of ₹ 6.78 lakh crore showing a growth of 16.7 percent over the previous year.

As per the quick estimates, the Net State Domestic Product (NSDP) of Assam at current prices for the FY 2024-25(QE) is expected to reach at the level of ₹ 5.81 lakh crore showing an impressive growth of 15.3 percent over the previous year.

3.4 NSDP of Assam at constant (2011-12) prices

As per the advance estimates, the Net State Domestic Product (NSDP) of Assam at constant (2011-12) prices for the FY 2025-26(AE) is estimated to be attained at the level of ₹ 3.41 lakh crore showing a growth of 10.2 percent over the previous year.

As per the quick estimates, the Net State Domestic Product (NSDP) of Assam at current prices for the FY 2024-25(QE) is expected to reach at the level of ₹ 3.1 lakh crore showing a growth of 8.7 percent over the previous year.

NSDP of Assam and its annual growth rate at current and constant (2011-12) prices are presented in **Table 3.3**.

3.5 Gross State Value Added (GSVA) at current prices

As per the advance estimates, the GSVA of Assam at Current Prices for the FY 2025-26(AE) is estimated to be attained at this level of ₹ 6.82 lakh crore as against ₹ 5.87 lakh crore in FY 2024-25 (QE) showing a growth of 16.1 percent over the previous year.

3.6 GSVA at constant (2011-12) Prices

As per the advance estimates, the GSVA of Assam at Constant (2011-12) Prices for the FY 2025-26(AE) is estimated to be reached at the level of ₹ 3.56 lakh crore as against ₹3.22 lakh crore in the FY 2024-25 (QE) showing a growth of 10.5 percent over the previous year.

The Gross State Value Added (GSVA) of Assam at current and constant (2011-12) is shown in **Table 3.4.**

3.7 Sectorial Composition of GSVA

The sectorial composition of the State Domestic Product (SDP) depicts the percentage contribution of different sectors to the economy over time, which not only indicates the real structural changes taking place in the economy but also facilitates the formulation of various plans and programmes for the overall economic development of the State.

The composition of Gross State Value Added by broad sectors of the economy at current prices from the years 2021-22 to 2025-26(AE) is shown in **Table: 3.5**

Table: 3.5

Composition of GSVA of Assam by broad sectors of the economy at current prices					
					₹ in Crore
Sector	**2021-22**	**2022 23**	**2023-24 (PE)**	**2024-25 (QE)**	**2025-26 (AE)**

Source: Directorate of Economics and Statistics, Assam

The contribution of the agriculture and allied sector which includes crops, livestock, forestry & logging and the fishing sector is estimated to be 20.46 percent of total GSVA at current prices for the FY 2025-26(AE). The GSVA of this sector is likely to attain a level of ₹ 1,39,621 crore in the FY 2025-26(AE) showing a positive growth of 12.54 percent.

The contribution of the Industry Sector comprising Mining and quarrying, Manufacturing, Electricity, Gas, Water Supply & Other Utility Services and Construction is estimated at 35.54 percent to the total GSVA at current prices for the FY 2025-26(AE). As per the advance estimates, the GSVA of the Industry sector is estimated to reach the level of ₹ 2,42,471 crore in FY 2025-26 with a growth of 14.27 percent.

The Service Sector, comprising Trade, Hotels & Restaurants, Transport, Storage & Communication, Financial Services, Real estate, Ownership of dwellings & Professional Services, Public Administration, Railway and Other Services is the major contributor to the economy of the State and it is estimated to be 44 percent of the total GSVA at current prices for the FY 2025-26(AE). As per advance estimates, the GSVA of the Service sector is estimated to attain a level of ₹ 3,00,216 crore in FY 2025-26 showing a growth of 19.38 percent over the previous year

The composition of GSVA by broad sectors of the economy at Current Prices is depicted in **Chart 7.**

The composition of Gross State Value Added by broad sectors of the economy at constant (2011-12) prices from the year 2020-21 to 2024-25(AE) is shown in Table: 3.6.

Table: 3.6

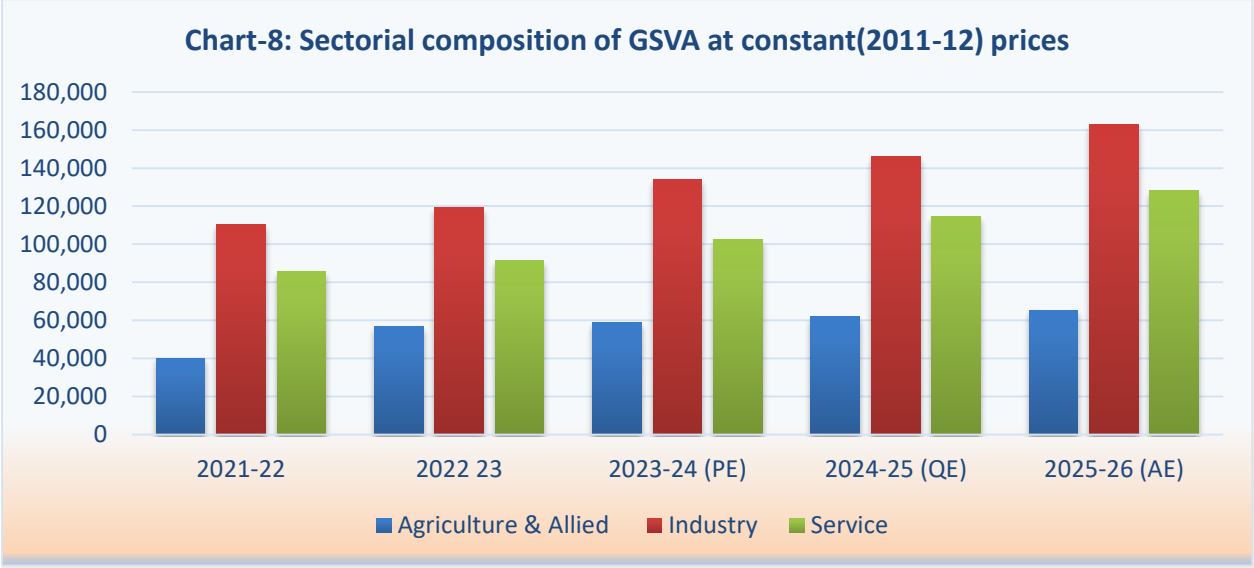

Composition of GSVA by broad sectors of the economy at constant (2011-12) prices					
					₹ in Crore
Sector	**2021-22**	**2022 23**	**2023-24 (PE)**	**2024-25 (QE)**	**2025-26 (AE)**

3.8. Per Capita Income

The Per Capita Income is derived by dividing the Net State Domestic Product by the mid-year total population of the State. The Per Capita Income is one of the indicators to measure the standard of living of residents of a State. These estimates not only serve as an indicator to assess the status of the economy among the States in the country but also throw light on the overall impact of various developmental programmes implemented by the Government.

As per the advance estimates, the Per Capita Income (PCI) of Assam at current prices for the year 2025-26(AE) is estimated to be attained at Rs.1,85,429 against Rs.1,60,417 for the year 2024-25 (QE) registering an increase of 15.59 percent.

As per the advance estimates, the Per Capita Income of the State at constant (2011-12) prices for the year 2025-26 is estimated to be attained at Rs.93,351 as compared to Rs. 85,503 for the FY 2024-25 (QE) showing a growth of 9.2 percent.

3.9 India in Global Economy

As per the data released by International Monetary Fund (World Economic Outlook, October 2025 by IMF), India is the fourth largest economy in terms of GDP at current prices (purchasing power parity) estimated $17714.19 Billion Dollars comprising a share of 8.5 % in the global economy. With an estimated GDP of more than $4.1 Trillion at current price during 2025 and with a population of 1.44 billion, India is also among the highest population-based economies of the world with a robust domestic consumption and is expected to achieve the $ 5 trillion mark by the end of 2027, contributing more than 9% of the global economy.

CHAPTER-IV

STATE FINANCE

The Government of Assam enacted the Fiscal Responsibility and Budget Management (AFRBM) Act in May 2005, which came into force on the 1st of September'2005 to ensure fiscal stability, and sustainability, improve efficiency and transparency in the management of public finances, enhance the availability of resources, remove the impediments for effective conduct of fiscal policy and prudent debt management for improving social and physical infrastructure and human development in the State.

A Medium-Term Fiscal Policy (MTFP) 2020-2025 is also placed along with this Statement, which takes into cognizance the key challenges on revenue flows in the GST regime coupled with current economic scenario and expenditure management.

With the implementation of GST in 2017, the principle of indirect taxation for many goods and services and raising revenue shifted from origin-based to destination-based. As a result, the ability to tax goods and services and raise revenue shifted from the origin or producing states to the destination or consuming states. With this, changes in the GST rates from the earlier tax rates added to the uncertainty for states to raise revenue. This was addressed through a constitutional amendment and the GST (Compensation to States) Act, 2017 that guarantees states compensation for five years for any loss of revenue arising due to GST implementation. The compensation to states is to be given out of the GST Compensation Fund, which consists of collections of a cess levied specifically to generate funds for this purpose.

The State Government mobilizes financial resources through direct and indirect taxes, non-tax revenue, share of central taxes and grants-in-aid from the Central Government to meet the expenditure on administration and developmental activities.

4. The State's Revenue

4.1 Revenue Receipts

The revenue receipts consist of (i) Tax revenue, (ii) Non-tax revenue, (iii) Share of Central taxes and (iv) Grants-in-aid from the Centre. Revenue receipts of the State are shown in Table: 4.1.

The state expects to earn revenue receipts of around Rs. 1,17,225.97 crore in FY 2025-26(BE) against Rs. 96907.91 crore in FY 2023-24 (Pre Actual) with a growth of 20.97 percent. Rs. 43,184.28 crore is expected to be earned from the State's resources and Rs. 74041.69 crore from the Centre in FY 2024-25 (BE).

Table: 4.1: Component-wise Revenue Receipts (Fig. Rs in crore)

Year	State's Own Resources			Transfer from the Centre			Total Revenue Receipts	Growth (%)

Source: Department of Finance (Economic Affairs), Govt. of Assam

The State's resources consist of Tax revenue and Non-tax revenue. The main components of the state's tax revenue are (i) Sales Tax, (ii) Agricultural Income Tax, (iii) Taxes on Profession, etc., (iv) Land Revenue including cess on Green Tea Leaf, (v) Stamp duty & Registration, (vi) State Excise Duties, (vii) Motor Vehicle Tax, (viii) Passengers & Goods Tax which includes Entry Tax (ix) Electricity Duty and (x) Entertainment Tax and GST.

It is expected that the state will earn tax revenue of Rs. 34,823.04 crore in FY 2025-26(BE) with a growth of 15.87 percent. The collection of Tax Revenue has shown significant improvement of 15% from FY 2022-23 to FY 2023-24 due to various measures taken by the Government to augment its own tax resources.

The major component of non-tax revenue is royalty on petroleum crude. Other items in this category are royalties on coal and gas, receipts from interest and dividends, and forest produce. It also includes departmental receipts like fees, fines user charges etc. The state expects to earn non-tax revenue of Rs. 8,361.24 crore in FY 2025-26(BE) with a high growth rate of 56.24 percent. During the last three years, the collection of non-tax revenue has increased tremendously due to the collective effort of the State Government. The share of non-tax revenue to total revenue receipts was 17.32 percent in FY 2023-24 and it fallen to 15.11 percent in FY 2024-25. It is likely to be achieved at 19.36% in 2025-26 (BE).

4.3 Transfer from the Centre

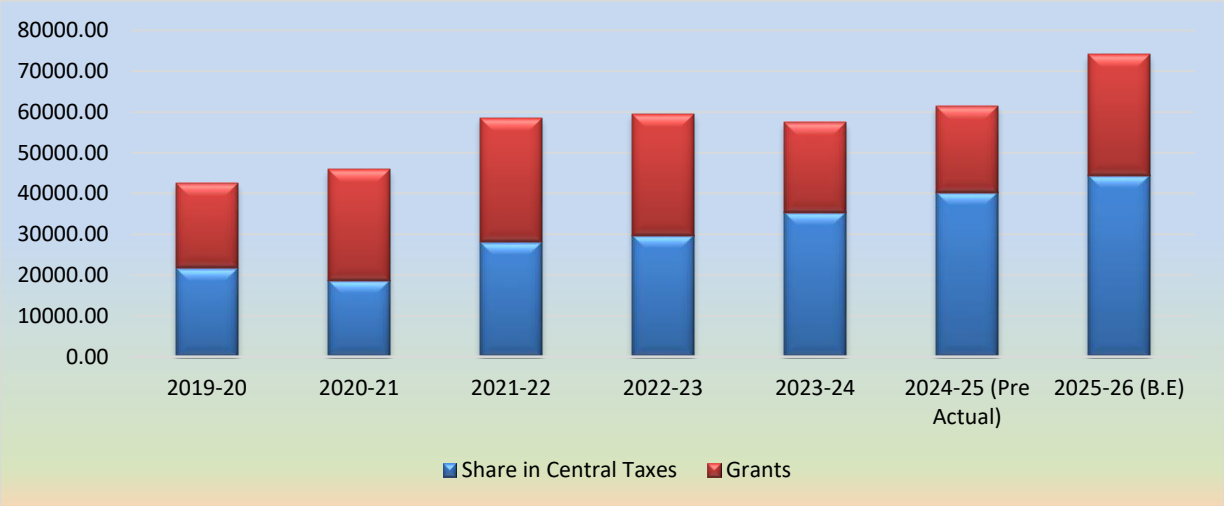

The State's share of Central taxes is received against the collection of Income Tax, Corporate Tax, Wealth Tax, Union Excise Duty, Customs Duty and Service Tax collected by the Union Government. After the implementation of GST, the two major components viz. Central Goods & Services Tax (CGST) and Integrated Goods and Services Tax (IGST) have been added to this Head. The share of Central Taxes was Rs. 35330.57 crore in the FY 2023-24 and it is expected to increase to Rs. 444494.04 crore in FY 2024-25(BE) with an annual increase of 10.53 percent. The amount of grants has faleen from Rs. 21250.08 crore in FY 2023-24 to Rs. 21250.08 in FY 2024-25 (Pre Actual) crore but is likely to grow by 39.04% to Rs. 29547.65 Crore in 2025-26 (BE). The share of the Central fund to total revenue receipts was 38.50 percent in FY 2023-24 and is expected to be at 39.91 percent in FY 2025-26(BE).

Table: 4.3: Transfer from the Centre (Fig. Rs. in crore)

Year	Share in Central Taxes	Grants	Total Central Govt. Fund
2019-20	21721.44	20705.61	42427.05

Source: Department of Finance (Economic Affairs), Govt. of Assam

FIGURE 4.5: COMPOSITION OF FUND RECEIVED FROM THE CENTRAL GOVT.

4.4 Revenue Expenditure

The main components of revenue expenditure of the State Government are - salary and pension of employees, interest payment on public debt, maintenance of law and order, out-go on account of Central and State Finance Commissions awards and other expenditures on General, Social and Economic Services. Component-wise revenue expenditure is shown in Table: 4.4.

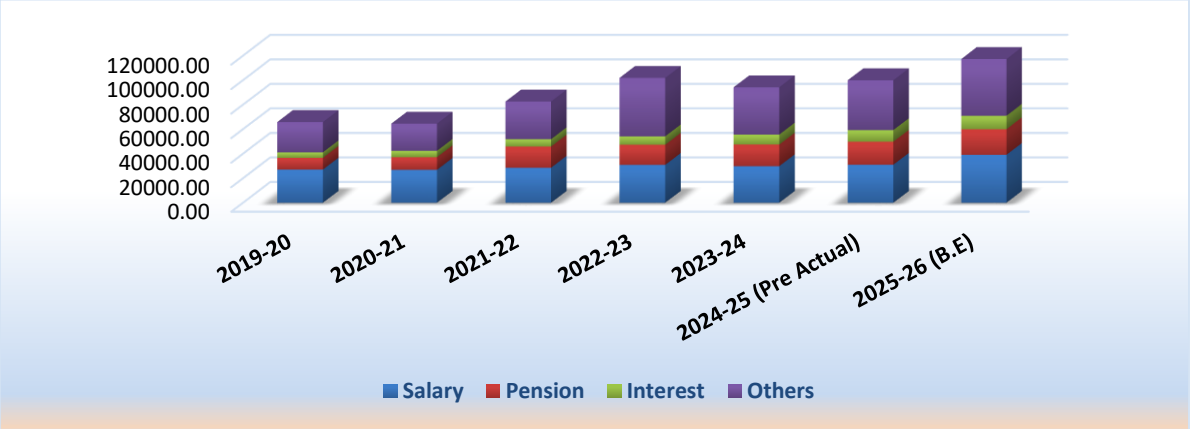

Total revenue expenditure was Rs.94,162.90 crore in FY 2023-24 and it is expected to increase to Rs. 99907.96 crore in FY 2024-25(Pre Actual) with an annual average growth of 6.10 percent. However, the major share of revenue expenditure of the State Government has to be incurred for payment of the salary and pension of the employees. During FY 2023-24, the total amount spent under salary head was Rs. 29,806.54 crore which accounted for 34.60 percent of total revenue expenditure and Rs. 36196.08 for the year 2023-24(RE) which remained at 31.65 percent of the total revenue expenditure. It is expected to increase to 33.32 percent in 2024-25(BE) with new employment generated at the Govt. sector. The share of the pension to total revenue expenditure was about 16.11 percent in FY 2023-24 and it is expected to remain at 18.78 percent in FY 2025-26 (BE).

Table: 4.4: Components-wise Revenue Expenditure (Fig. Rs. in Crore)

Year	Non-Plan Expenditure				Total Revenue Expenditure
	Salary	Pension	Interest	Others

FIGURE 4.8: COMPOISITION OF REVENUE EXPENDITURE

4.7 Trend of Revenue Expenditure

The trend of revenue expenditure is shown in Table: 4.7

The contribution of development expenditure to total revenue expenditure was 65.62 percent in FY 2022-23 and it is estimated to remain at 58.64% percent in FY 2024-25(Pre Actual). On the other hand, the share of non-development expenditure to total revenue was 41.04 percent in FY 2024-25 and it is expected to come up to 38.49 percent in FY 2025-26(BE). The share of Grants-in-Aid to total revenue expenditure is expected to rise from 0.35 percent in FY 2023-24 to 0.83 percent in FY 2025-26 (BE). However, for each year, the ratio of Development Expenditure to Total Revenue Expenditure is more than the ratio of non-development expenditure to Total Revenue Expenditure.

4.8 Non-Debt Capital Expenditure

Non-debt capital expenditure consists of capital outlay and lending. This excludes loan repayment. The trend of non-debt capital expenditure of the state is presented in Table: 4.8

Total Non-Debt Capital expenditure is expected to reach at the level of Rs. 21,508.79 crore in FY 2023-24. In FY 2024-25 (Pre Actual), it is expected that Capital Outlay and Lending will reach Rs. 26404.20 crore and Rs. 4.57 crore respectively. The share of lending to the total non–debt capital expenditure has come down from 0.70 percent in FY 2020-21 to .017 percent in FY 2024-25 and it is expected to be at 0.18 percent in FY 2025-26 (BE).

Table: 4.8: Non-Debt Capital Expenditure

4.9 Ratio of Revenue Expenditure and Capital Expenditure to Total Expenditure

Trend relating to the share of revenue expenditure and share of capital expenditure in the total expenditure for the period from FY 2019-20 to FY 2024-25(BE) is indicated in Table: 4.9

It is observed that the share of revenue expenditure has declined from 82.87 percent in FY 2019-20 to 79.09 percent during FY 2024-25 (Pre Actual) and it is expected to be at 79.94 percent in 2025-26(BE). On the other hand, the share of total non-debt capital expenditure to total expenditure was 17.13 percent in FY 2019-20 and it increased to 20.91 percent in FY 2024-25. The same is expected to be at 20.06 per cent in 2025-26(BE). The percentage of capital expenditures to GSDP at current prices has improved, registering 4.11 percent during FY 2024-25 against 3.74 percent in 2022-23 and it is expected to reach at 3.95 percent in FY 2025- 26 (BE).

*In the years 2022-23 to 2024-25, receipt of Internal Debt and repayment of Public Debt include receipt of W & M advances from RBI and repayment of the same amount during the same year implying no net value.

It is seen from Table: 4.10 that capital receipts increased from Rs.14257.60 crore in F.Y. 2019-20 to Rs.41372.01 crore in F.Y 2024-25 with an impressive annual average growth of 27 percent over last six years. Capital expenditure increased from Rs. 25468.41 crore in F.Y. 2022-23 to Rs. 43421.72 Crore in 2024-25 with an annual average growth of 34.26 percent over lat two years.

2020-21	19256.58	3569.54	15687.04
2021-22	17148.41	5177.49	11970.92
2022-23	30510.80	9471.47	21039.33
2023-24	46164.19	23166.14	22998.05
2024-25 (Pre Actual)	42541.47	19530.33	23011.14
2025-26 (B.E)	38542.52	12107.30	26435.22

*In the years 2022-23 to 2024-25, receipt of Internal Debt and repayment of Public Debt include receipt of W & M Advances from RBI and repayment of the same amount during the same year implying no net value.

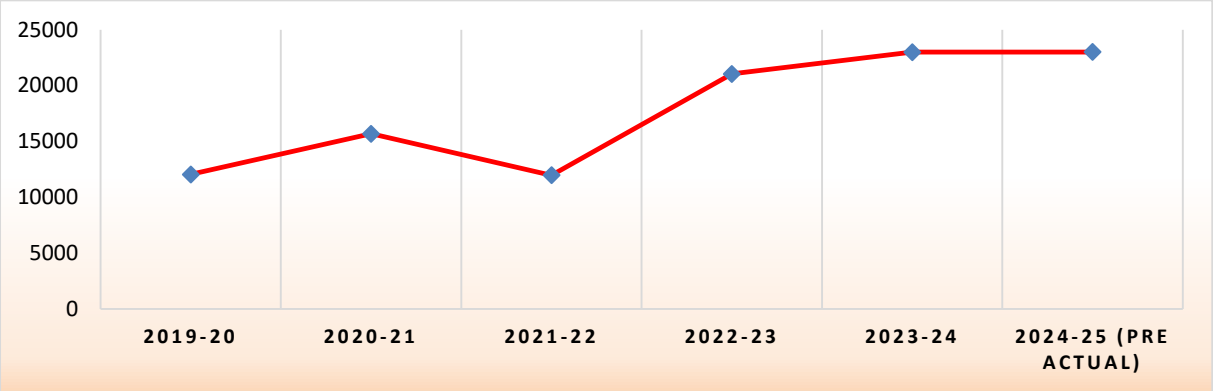

Source: Department of Finance (Economic Affairs), Govt. of Assam

The sources of borrowings of the State Government are open market borrowing, loans from financial institutions like NABARD (under RIDF, WIF schemes etc.), and loans from the Government of India against EAPs.

Table: 4.11 shows that the borrowing of the state government was Rs. 16634.53 crore in F.Y. 2019-20 and it increased to Rs. 42541.47 crore in F.Y. 2023-24 . On the other hand, the repayment of loans was Rs. 4588.75 crore in F.Y. 2019-20 and it increased to Rs. 23166.14 crore in F.Y. 2023-24. Net loans were at Rs. 23011.14 crore in 2024-25.

During the period from 2019-20 to 2024-25, average annual rate of repayment of loans is significantly higher (46.93%) than that of borrowings (25.24%). This indicate sustainable financing due to productive investments and consequently enhanced economic activities. As a result 'Net Loan Position' of the state has improved significantly over the last three years from 2022-23 to 2024-25 as shown in the figure below:

FIGURE 15: NET LOAN POSITION

4.12. Debt Stock and Interest Payment

The total debt stock and interest to total revenue receipts in terms of percentage are presented in Table: 4.12

Table: 4.12: Interest Payment to Revenue Receipts (Rs. In Crore)

Year	Total Revenue Receipts	Debt Stock (Outstanding Debt)	Interest payment	GSDP at current prices	Debt-GSDP Ratio (%)

CHAPTER-V

AGRICULTURE

The Agriculture sector plays a very important role in the socio-economic development of Assam. It is the backbone of the state's economy and holds a key position in the overall development of the state. The agriculture sector contributes a large share of the state's economy and provides a main source of occupation and livelihood support to 70 per cent rural population. At present Assam's agriculture sector contributes about 23.02 per cent of revenue to the Gross State Domestic Product (GSDP). The total number of farmer's families in Assam is 3020765 as per agriculture census 2021-22. The size of operational holdings on average is 0.85 hectares and more than 85 per cent of farmers are either small or marginal with average land holdings of just about 0.36 hectares. Agriculture Census data 2021-22 reveals that the total land under cultivation was 29.77 lakhs hectares i.e. 37.95 per cent of the total geographical land area of the State. The data thus reveal that the preponderance of small and fragmented land holdings along with insecure tenancy are the major reasons for underdevelopment of the agriculture sector in the state. The government of Assam recognised the problems associated with the state's agriculture sector and made efforts to bring rapid changes to the sector and serve the cause of farmers.

Agriculture and allied sectors comprise four key subsectors: crops, livestock, fisheries, and forestry. In 2025-26 (AE), crops account for 67.58 per cent of the total GSVA of agriculture and allied sector, while the share of livestock and fisheries in agriculture and allied GSVA stands at 11.17 per cent and 15.59 per cent, respectively. Forestry constituted the remaining 5.67 per cent of agricultural GSVA

Agriculture and allied sectors contributed 18.73% per cent to total GSDP at current prices in 2025-26(AE). There is a need to accelerate the growth of the livestock and fisheries sector to increase agricultural growth and farmer income.

AGRICULTURE CREDIT

Recognizing the contribution of farmers, the state government has issued Identity Cards to the farmers. These Identity Cards are being used to develop a database of the farmers.

In view of the necessity to ensure credit flow for investment and development of the agriculture sector, the government of Assam has introduced "zero interest crop loans" by giving 100 per cent interest subventions on agricultural loans taken by farmers of Assam to the limit of Rs.1.00 lakh. It is anticipated that this endeavour will encourage the farmers to avail agriculture loans towards building the rural economy.

Kisan Credit Cards (KCC)

The State Directorate of Agriculture, during the period 2001-02 to 2024-25 has issued 5221826 lakhs Kisan Credit Cards (KCC) and sanctioned Rs. 14711.1 crores as credit. The figures of KCC issued and sanctioned an amount of credit for the past five years are presented in Table 5.4.

TABLE – 5.4

Agriculture Credit Kissan Credit Cards (KCC) issued & financing

Sl No	Year	No of KCC-issued	Credit limit sanctioned
1	2020-21	304280	2164.66

SUPPORT SCHEMES FOR AGRICULTURE DEVELOPMENT

In addition to the provisioning of credit, to fulfil the dream of the Honourable Prime Minister for 'Harkhet Me Pani', the state government has prepared District Irrigation Plan, Annual Action Plan and State Irrigation Plan to develop irrigation facilities for the state holistically. Towards the mission to develop the agriculture sector, the Government of Assam have distributed 603 Nos. of Tractors, 2925 Nos. of Power tillers, 13 nos. of Reapers, 402 nos of Rotovators, and 8650 nos of shallow Tube Welles (STW) in the year 2024-25 (Q.E).

A. CSS-Sub-Mission on Agricultural Mechanization (SMAM)

The Ministry of Agriculture and Farmers Welfare, Govt. of India launched this scheme in the year 2014-15 to promote the use of agricultural machinery/equipment and increase the average farm power availability to the small and marginal farmers.

PROVISION OF FINANCIAL ASSISTANCE (SUBSIDY)

1) Financial assistance@95% (max Rs.9.50 lakh) for procurement of agricultural machinery to establish village Level Farm Machinery Bank (VLFMB) by selected farmers' groups to custom hire the service of machinery to local farmers.
2) For individual farmers, financial assistance of @50% to procure single agricultural machinery. Under this subsidy scheme, 730 nos. of VLFMB and 988 nos. of single machinery were distributed during the financial year 2023-24 with financial assistance of 56.30 crore. During the financial year 2024-25, 171 nos out of 250 VLFMB and 1985 nos out of 2490 nos single machinery have already been delivered till October 2024. The following table reflects the physical and financial status of SMAM in the last 3 years.

TABLE – 5.5(A)

Scheme year	Implementing year	Physical achievement	Fund received (Rs.in lakh)			Fund Utilised *(Rs.in lakh)*
			C/S	S/S	Total	
SMAM 2021-22	2021-22 & 2022-23	1.VLFMB:253 nos.	2225.00	247.22	2472.22	2472.22
SMAM, 2022-23	2022-23	1. VLFMB: 397 nos. 2. Tractor: 92 nos. 3. Power Tiller: 124 nos. 4. Paddy Thresher: 57 nos. 5. Reaper: 65 nos. 6. Rotavator: 31 nos. 7.Paddy Transplanter:02 nos 8. Combine Harvester: 01 nos. 9. Reaper cum Binder: 03 nos.	1434.38	159.38	1593.76	1593.76
SMAM, 2023-24	2023-24	1. VLFMB= 80 nos. 2. Power Tiller= 607 nos. 3. Electric Tiller= 18 nos. 4. Tractor= 02 nos	1984.00	220.452	2204.452	1818.94
Total			**5643.38**	**627.052**	**6270.432**	**5884.92**

The state government is also planning to build Majuli Island, the largest riverine island in the world as a hub of organic products with the trade mark in the name of "O Majuli". The productivity of most of the crops in the state is very low compared to the average productivity of the country. The reasons for low productivity are primarily due to erratic rainfalls and various other impediments like floods, soil erosion and sand deposition in agriculture fields, though Assam is endowed with very rich and diverse soil conditions conducive to agriculture. Despite all the constraints, the state Agriculture Department has been successful in giving an impetus to increase the production of food grains by implementing various programmes. In recent times the state has seen an increase in productivity of food grains and cropping intensity. The Department has taken steps to formulate State and District specific plans considering the agro-climatic conditions, growth potentials and specific requirements of the districts with due emphasis on use of quality

seeds of high-yielding crop varieties, adoption of multi-cropping, access to assured irrigation, use of improved farm mechanization, use of bio-fertilizers and bio-pesticides, adoption of organic farming practices, establishing market linkage and ultimately creation of employment opportunities and enhancement of income of the people. The agriculture sector in the hill districts of the State, namely East Karbi-Anglong, West Karbi-Anglong and Dima Hasao is constrained because of inadequate transport and communication facilities, infrastructure, extensive practice of traditional Jhum cultivation and non-availability of markets etc. To improve the condition of agriculture in the hill districts, the state government has emphasized the promotion of cash on horticultural crops, particularly pineapple and citrus fruits and on ginger and turmeric. Emphasis is also given to support settled agriculture in terrace lands, wherever it seems feasible in the hill areas.

B) Rural Infrastructure Development Fund (RIDF)

Shallow Tube well (STW) with Diesel, Electrical and Solar PV Operated pump set

NABARD has accorded sanction for the installation of STW projects namely 1)61100 STW Project under RIDF-XXI in the year2016-17 and 2)38900 STW Project & 3)1000 Solar PV Project under RIDF=XXII IN 2017-18. The project envisages enhancing Irrigation potential in the state by providing Diesel, Solar and electric-operated STW to small and marginal farmers to achieve higher production and productivity of farm crops.

Subsidy Pattern:

SN.	Types of Irrigation	Name of the Component	Subsidy
1	STW with Diesel Pump-set	Diesel Pump-set	75%
		Installation of STW	75%
2	STW with Electrical Pump-set	Electric Motor	75%
		Installation of STW	75%
3	STW with Solar PV Water Pumping system	Solar Photo Voltaic Water Pumping System	85%
		Installation of STW	75%
		Construction of Water Storage Tank	85%

The following table No. reflects the year-wise physical achievements of the component.

Table- 5.5(B)

Year	Component	Physical Achievement (In Nos.)
2016-17 to 2020-21	Diesel STW	34581

WEATHER AND RAINFALL

The climate of Assam is sub-tropical with warm humid summers and cool dry winters. The state is situated in a high rainfall zone with an annual average rainfall of 2297.4 mm. The state normally receives 2 per cent of the total rainfall in the winter season (January-February), 25 per cent in the summer season (March-May), 65 per cent in the monsoon season (June-September) and 7 per cent in post-monsoon season (October-December). Assam is prone to floods and drought-like situations. The state though has the natural potential to drive the agriculture sector, erratic and unpredictable weather conditions and floods have been creating adverse impacts making the farmers vulnerable to the situations.

Table 5.6 (A) presents crop season-wise rainfall patterns for the last Eight years as follows.

RAINFALL DURING 2017-2024

THE AREA UNDER CROPS

In Assam, the soil, topography, rainfall and climate are very conducive to the cultivation of paddy. Rice occupies the highest area under cultivation and this crop receives priority from the farmers as well as from the Department of Agriculture. As per the final estimates, the total area under paddy cultivation during the year 2024-25 is 22.86 lakh hectares. The following table presents the area under crops for the period 2015-16 to 2024-25.

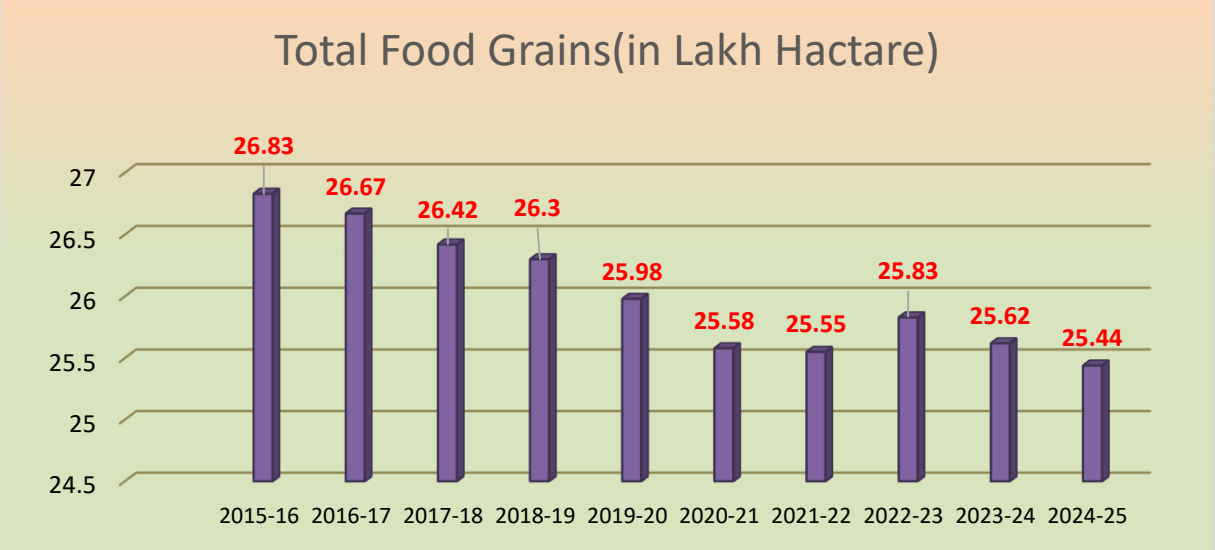

TABLE–5.7
AREA UNDER CROPS IN ASSAM DURING THE PERIOD 2015-16 to 2024-25(P)

(In lakh hectares)

PRODUCTION

Total food grain production in the state is showing a rising trend since 2011-12. The total food grains production was 6611 thousand tonnes in 2022-23 and 6209 thousand tonnes in the year 2023-24. There is a marginal decline (-6%) in the current year 2023-24 over the previous year 2022-23.

YIELD

The Yield rate of rice shows oscillations during the years 2010-11 to 2023-24 for autumn and summer rice. The yield rate of autumn rice is 1436 Kg/Hect, winter rice is 2341 kg/hect and summer rice is 3051 kg/hect. In the year 2024-25. The following table presents the yield rate of principal agricultural crops for last eleven years.

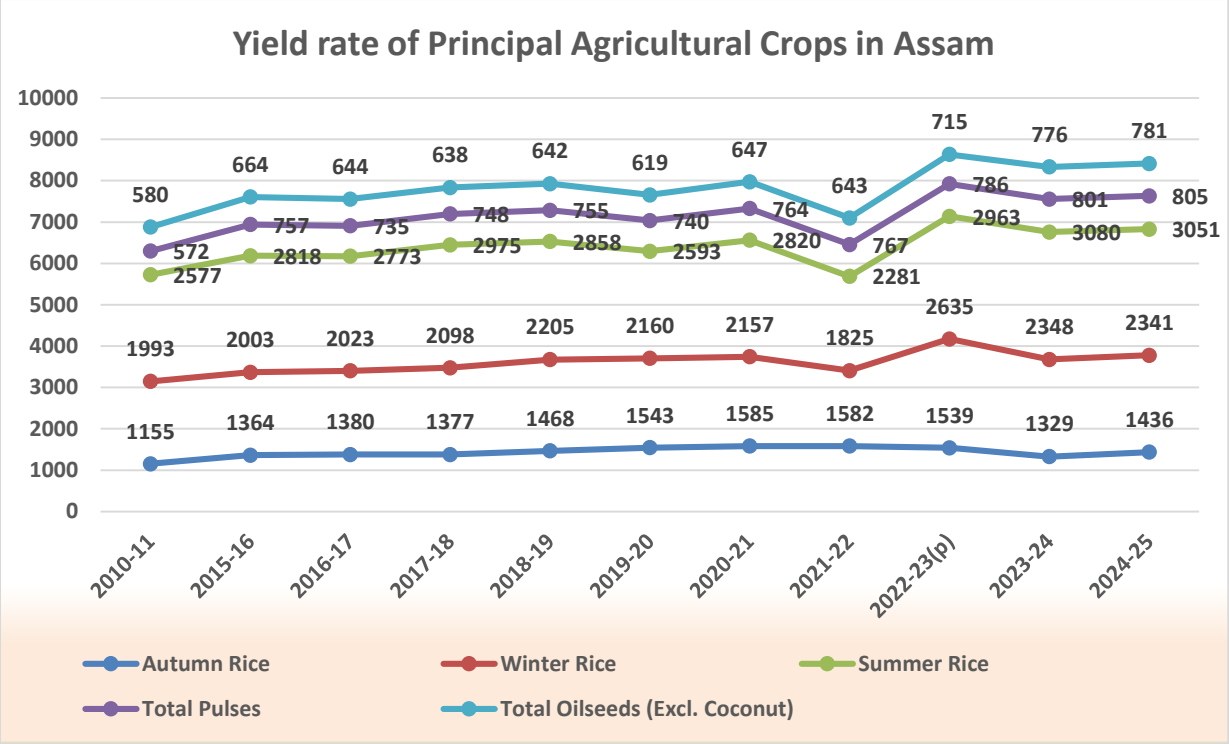

TABLE–5.8

YIELD RATE OF PRINCIPAL AGRICULTURAL CROPS IN ASSAM

Kg./Hect.

Year	Autumn Rice	Winter Rice	Summer Rice	Total Pulses	Total Oilseeds *(Excl. Coconut)*
2010-11	1155	1993	2577	572	580
2015-16	1364	2003	2818	757	664

AREA UNDER HIGH-YIELDING VARIETIES

The state agriculture department focuses on raising the productivity of the agriculture sector by adopting and distributing a high-yielding variety of seeds among the farmers free of cost. At present the farmers of the state use Mala, IR-36, Lachit, Masuri, Joya, Ranjit, Ratna, China, Biplob, and Krishna varieties of HYV seeds for rice. The following table presents the total area under high yielding variety for last eight years.

TABLE–5.9

THE AREA UNDER HIGH YIELDING VARIETY OF RICE *Area in Lakh hect.*

Year	Autumn Rice	Winter Rice	Summer Rice	Total HYV Rice area
2017-18	1.04	14.36	2.90	18.30 (75.18%)
2018-19	1.19	14.30	3.84	19.33 (79.70%)
2019-20	1.11	15.18	2.95	19.24 (79.32%)
2020-21	0.93	15.49	1.86	18.28 (77.46%)
2021-22	0.64	15.31	1.99	17.95(76.27%)
2022-23	0.45	15.17	2.51	18.13(78.57%)
2023-24	0.47	15.51	2.12	18.10(78.42%)
2024-25	0.31	15.00	2.04	17.00(74.32%)

The total figure may not be equal due to rounding off to the nearest 0. The figure in the bracket shows the percentage of the total Rice Area.

HYBRID RICE

The state Agriculture Department since 2009-10 has been putting special efforts into promoting the cultivation of hybrid varieties of rice on an experimental basis considering the high yield potential of such varieties over the conventional high-yielding varieties. The area under kharif rice (Autumn+winter) decreases up to 90.440 thousand hectares in the current year 2024-25 as against 138.089 thousand hectares in the previous year 2023-24. The area under Rabi rice (summer rice) increased from 156.616 thousand hectares in 2023-24 year up to 172.741 Thousand hactares in the current year 2024-25. The percentage of hybrid rice area to the total rice area is 12.84% in the year 2024-25. This has been presented in the following Table 5.10

TABLE–5.10

AREA UNDER HYBRID RICE IN ASSAM

(Area in '000' hectare)

Year	Kharif Rice (Autumn+Winter)	Rabi Rice (Summer Rice)	Total Hybrid Rice area	% of Hybrid Rice area to total Rice area
2018-19	91.149	100.676	191.825	7.91
2019-20	112.568	177.862	290.430	11.98
2020-21	99.29	175.00	274.29	11.26

LAND UTILIZATION STATISTICS

As per land utilization statistics for the year 2021-22, the total geographical area of the state is 78.44 lakh hectares. The total cropped/ gross cropped area is 40.88 lakh hectares and the net crop area sown is 27.58 lakh hectares in the year 2024-25. The intensity of the crop is the ratio of the net area sown to the total cropped area multiplied by a hundred. The gross cropped area, net area sown and crop intensity for the last Six years are given below.

TABLE–5.12

Year	Gross cropped area in lakh hectare	Net area in lakh hectare	Intensity of crop %
2019-20	40.05	27.09	147.84
2020-21	38.88	27.24	142.77
2021-22	38.72	27.49	140.83
2022-23	40.34	27.44	146.9
2023-24	41.22(p)	27.56	149.5
2024-25	40.88(P)	27.58	148.17

Source: Directorate of Economics and Statistics, Assam

There is a marginal decrease (1.33%) in cropped intensity in 2024-25 over the previous year 2023-24.

HORTICULTURE

Assam produces a wide range of horticultural crops including fruits, vegetables, flowers, spices, nuts, tubers, medicinal and aromatic plants. The climatic conditions and diverse landscape of the state have helped to develop diverse ecological habitats such as forests, grasslands, wetlands etc. Which harbour and sustain wide-ranging floral and faunal species in the state. The state has tremendous scope to promote the horticulture sector that can help ensure food and nutritional security, as well as enhance employment opportunities via cultivation and post-harvest management and value addition of horticulture products.

Horticulture crops occupy about 15 per cent of the gross cropped area of the State with an annual production of more than 67 lakh metric tonnes of various horticultural products. The state has now emphasized the commercialization of the sector as a priority basis.

The emphasis of the state is now on raising the productivity of various commercial potential crops through the use of better technology, management and provision of planting materials to the farmers. Moreover, emphasis is also placed on pre and post-harvest treatment, proper harvest techniques, setting up of collection centres with grading facilities, transport facilities and marketing facilities.

The Directorate of Horticulture and Food Processing of the Government of Assam has taken up some positive steps towards the creation of self-employment opportunities in the horticulture sector by helping 15,000 rural women to get themselves engaged by setting up 350 small and 4 medium fruit processing units. Assam also exports Assam Lemon to London, pineapple to Dubai, Ginger and Turmeric to Swaziland has been facilitated through APEDA-accredited exporters.

The following table presents the area production and productivity of Horticultural Crops for last eleven years:

TABLE–5.13

AREA PRODUCTION AND PRODUCTIVITY OF HORTICULTURAL CROPS FOR THE LAST ELEVEN YEARS 2014-15 TO 2024-25

Year	Fruits crops			Tuber crops			Spices crops			Vegetable crops			Plantations crops (Excluding

INTEGRATED NUTRIENT MANAGEMENT (INM)

FERTILIZER AND MANURE

Fertilizer plays a dominant role in augmenting the productivity of crops. The State Government has put thrust on promoting "Integrated Nutrient Management" (INM) and also organic farming to reduce farmers' dependence on chemical inputs and encourage optimal use of farmers' on-farm resources, economize production costs through adoption of optimum doses of fertilizer and care for the health of the soil and the ecology. The uses of bio-fertilizers, compost green manures and organic farming practices have gradually increased. In addition to the promotion of organic manure, the government of Assam however, has accorded due importance to the timely availability of fertilizers at the doorstep of farmers during peak season of cultivation. Public institutions such as AIDC, NAFED, GPSS, and other organizations - IFFCO, BVFCL, Green Chemicals Ltd, and Testa Agro Industries Limited have been playing a pivotal role in the distribution of fertilizer throughout the state. At present, there are 416 wholesale points and 6855 fertilizer sale points in Assam.

CONSUMPTION OF FERTILISER

The consumption of fertilizer in Assam is low. Farmers are reluctant to invest in fertilizer because of the fear of loss caused by heavy rainfall and floods. Consumption of fertilizer during summer and Rabi seasons is low because of the non-availability of water. The consumption of fertilizer in the state is 58.99 Kg. /hectare in 2023-24 and covering Gross Cropped Area 41,21,576(p) hectares in 2023-24. Table 5.14 presents the details of the consumption of fertilizer in Assam for the last six years.

TABLE–5.14

SOIL HEALTH MANAGEMENT

The state Agriculture Department has taken up initiatives to restore the depletion of soil nutrients and sustain the crop production system. The state has promoted the use of bio-fertilizers, micronutrients, lime, organic manures like green manures and vermicompost and FYM to increase crop productivity and maintain soil health. Of late, the use of bio-fertilizers has assumed significance due to motivational demonstration programmes of the agriculture department. Special thrust has been given to the use of Bio-fertilizer by initiating the Programme 'Input support to the agriculturist having KCC' under the state priority scheme, which has been implemented since 2006-07. Table 5.16 presents the number of soil samples tested and issued for the four years. There is no health card issued in 2021-22 & 2022-23.

INTEGRATED PEST MANAGEMENT (IPM)

For sustainable agricultural production, a key component is Integrated Pest Management (IPM). The humid sub-tropical climate and diverse eco-system of the state favour intensification of insect and pest attacks causing yield loss up to 30 percent. Excessive and injudicious use of chemical pesticides however results in many residual problems and negative externalities. To mitigate the externalities and sustain the yield of agriculture fields, the department now has started to facilitate the availability of the Bio-Control Agent (BCA) for the Bio-pesticide Intensive BPMI module, the thrust has been given to increase production of already established BCA and the newly introduced BCA in the State Bio-Control Laboratory (SBCL).

The Agriculture Department of the state is trying to popularize the use of bio-pesticides and other methods of IPM by organizing training and demonstrations. The initiatives have shown results, rising trend of consumption of bio-pesticide in the state over the years. The trend of consumption of chemical and bio-pesticides during the last four years is presented in Table 5.17.

TABLE–5.17

CONSUMPTION OF PESTICIDES

(Figure in MT in Technical Grade)

Pesticide Consumption	2021-22		2022-23		2023-24		2024-25

DEVELOPMENT OF THE SEED SECTOR

The most vital component for increasing the production and productivity of crops is the quality of the seeds used. Certified seed production is a process through which seeds are produced in conformity with the standard variety by taking specific measures. In Assam, production of certified seed has been taken up in the Field Trial Stations (FTSs), of some of the government seed farms and Assam Seed Corporation's seed farms. Despite the efforts made, there is a dearth of quality seeds in the state and the seed replacement rate (SRR) is at a low level. The State has to depend on outside sources for quality seeds for some crops every year to meet the demand immediately after the occurrence of natural calamities. To meet the growing demand and increase quality seed production, the Agricultural Department has taken the following measures:

- Expansion of Seed Village Programme;
- Production of certified seeds of Paddy, Pulse and Oilseeds in Seed Village on large scale
- To focus on capacity building of Registered Seed Growers;
- Strengthen Seed Farms to facilitate the production, processing & storage of seeds.

SEED REPLACEMENT RATE (SRR)

The State Agriculture Department has continuously made efforts towards the popularisation of improved varieties and the use of quality seeds. The SRR of some of the important crops for the last seven years is presented in Table 5.18

TABLE–5.18

SEED REPLACEMENT RATE (SRR) IN ASSAM

(Figure in %)

Crops	Seed Rate (Kg/Ha)	2018-19	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25

SEED CERTIFICATION

Assam State Seed Certification Agency (ASSCA) is the Nodal Agency, which has been entrusted with the responsibility of seed certification of namely paddy, mustard and seeds of pulses as per feasibility in the state. For planting crops namely coconuts, litchi, guava etc. are under consideration for certification. Under ASSCA there are three notified seed testing laboratories located at Guwahati, Jorhat and Silchar. The total annual testing capacity of these three notified laboratories is about 20,000 samples. Seed testing and certification guidelines are to be strictly followed for proper quality control and certification as per the set norms.

SYSTEM OF RICE INTENSIFICATION (SRI)

Adoption of the System of Rice Intensification with the use of hybrid seeds has shown significant result in annual growth of production of rice in the State. As compared to normal practices, the adoption of the SRI system enhances productivity with minimum use of seeds, fertilizers and water, thus reducing the cost of production. The SRI also helps to shorten the crop duration, which may be significant to go for another round of cropping during the year.

CROP DEVELOPMENT

To motivate the farmers to adopt the practice of double/multiple cropping the government of Assam is taking up initiatives to facilitate the cultivation of summer paddy, rabi pulses and oil seeds. The mission double cropping envisages additional coverage of 1.00 Lakh hectares presently under mono-cropping and allocates Rs. 6,200.00 Lakh. The plan is further to add 3.0 lakh hectares to increase the cropping intensity of the state to 160.0 per cent.

FARM MECHANIZATION AND IRRIGATION

Several factors, particularly, fragmented and small land holdings, farmers' poor economic conditions and non-availability of situation-specific prototypes of farm implements stand as a serious hindrance to the mechanization of agriculture in the state. However, has undertaken serious efforts to boost farm mechanization. The State Agriculture Department has taken up initiatives to procure farm equipment like tractors, power tillers and other farm machinery under externally aided, centrally sponsored and state-plan schemes for the benefit of farmers, particularly the small and marginal farmers. Estimates show farm power available per hectare of land in the state is 1.10 HP in the year 2023-24 and 1.04 HP (Q.E) in the year 2024-25.

TABLE–5.19

STATUS OF FARM MECHANISATION

(Figure in Nos.)

Year	Tractors	Power Tillers	Shallow Tube Wells (STW)	Rotovators	Farm power available [HP per hectare]
2019-20	4296	4598	25028	74	1.12
2020-21	7663	0	9708	0	1.03
2021-22	126	4676	90	367	1.04

2024-25	603	2925	8650	402	1.04(Q.E)

Source: Directorate of Agriculture, Assam

IRRIGATION

Towards the goal of increasing cropping intensity and raising crop yield provisioning of irrigation in the agriculture field is the prime necessity. Considering the uncertainties faced in the production of Kharif crops due to floods, the state Agriculture Department has put emphasis on Rabi crops by assigning top priority to develop assured irrigation facilities through the installation of pump sets (shallow tube wells and low lift pumps).

TABLE–5.20

IRRIGATION INFRASTRUCTURE CREATED BY THE AGRICULTURE DEPARTMENT

Component of irrigation	Year					
	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
Shallow Tube Wells (Nos)	29715	11335	90	6522	12527	8650
Low Lift Pumps (Nos)	0	0	1976	0	0	6921

Source: Directorate of Agriculture, Assam

Following table shows the irrigation potential created by the Agriculture Department for the last 7 years:

TABLE-5.21

IRRIGATION POTENTIAL CREATED BY AGRICULTURE DEPARTMENT & UTILIZABLE IRRIGATION

Year	Irrigation potential created during that year *(Hectare)*	Cumulative Irrigation Potential Created (lakh Hectare) (Considering 10 year running life of Pump set ie. From 2010-11 to 2019-20)
2018-19	10270	7.39 (27.15% of Net Cropped Area)
2019-20	93438	7.46 (27.63% of Net Cropped Area)
2020-21	32654	5.12 (18.98% of Net Cropped Area)
2021-22	29460	5.06(18.74% of Net Cropped Area)
2022-23	20120	2.36(8.58% of Net Cropped Area)
2023-24	33929	4.04 (14.73% of net Cropped Area)
2024-25	26650	2.89 (10.54% of Net Crop Area)

Source: Directorate of Agriculture, Assam

CROP INSURANCE

In Assam about 4.75 lakh hectares of land is chronically flood prone and about 0.94 lakh hectares of land is drought prone. To mitigate the distress of the farmers caused by crop loss/crop damage Crop Insurance is a vital policy adopted by the government. In addition to the floods and draught the farmers of the state also faced attacks of pests in the agriculture fields. The Government of India launched a Crop Insurance programme under the nomenclature "National Agricultural Insurance Scheme" (NAIS). All farmers who avail loans from financial institutions are covered under the scheme and it is optional for

non-loaned farmers. Under this scheme, 50 per cent of the premium amount is contributed as a subsidy to small and marginal farmers which is shared equally by the Government of India and State Government. This scheme is expected to be an important instrument for development in the field of crop production by providing financial support to the farmers in the event of crop failure and help in maintaining the flow of agricultural credit. This programme covers 8 (eight) crops - 3 crops in Kharif Season, 4 crops in Rabi season and one crop in summer season. The crops are-

Kharif Season	Autumn/Ahu Paddy, winter/Sali Paddy and Jute
Rabi Season	Rape & Mustard, Wheat, Potato, Sugarcane
Summer Season	Boro Paddy.

This scheme, under the area approach, not only facilitates insurance coverage to each of the notified crop damage within the defined area for widespread calamities but also on an individual basis for localized calamities such as hailstorms, landslides, cyclones and floods. National Agriculture Insurance Scheme though is being implemented in the state since 2009-10, has not been able to provide the desired solution to the risk involved in the agriculture sector due to reasons like lack of awareness, low subsidy premiums (10 per cent) for small and marginal farmers, delayed claim settlement, slow response of banks in issuance of Kissan Credit Cards have emerged as the main impediments in the successful implementation of the scheme.

MODIFIED NATIONAL AGRICULTURAL INSURANCE SCHEME (MNAIS)

The scheme is being implemented on a pilot basis in 50 districts in the country. NAIS is withdrawn from those districts in which MNAIS will be implemented.

- The unit of insurance for major crops is Village/Village Panchayat.
- The scheme is compulsory for loanee farmers and voluntary for non-loanee farmers. Uniform seasonality norms will be applicable for both loanee & non-loanee farmers.
- Sum insured can be opted up to 150% of the value of average yield. Premium subsidy is available up to the value of threshold yield/loan amount only.
- The entire claim will be borne by the implementing agency. The scheme provides account payments up to 25% of the likely claim for immediate relief to the farmers.
- Minimum indemnity level will be 70% against 60% in case of NAIS.
- Calculation of threshold yield: Average yield of last 7 years excluding up to 2 years of declared natural calamity.
- The scheme is implemented in two districts of Assam viz., Kamrup and Dhubri from the Rabi season of 2010-11.

WEATHER-BASED CROP INSURANCE SCHEME (WBCIS)

With the objective to overcome the shortcomings of delayed settlement of claims under NAIS, a Pilot Weather Crop Insurance Scheme (WBCIS) was introduced for implementation in 20 States on a pilot basis. WBCIS has been implemented in Assam since the Rabi season of 2013-14.

WBCIS is intended to provide insurance protection to farmers against adverse weather incidents. Such as deficit and excess rainfall, high or low temperature, humidity etc. which are deemed to impact adversely crop production

PROCUREMENT OF PADDY AS A MEASURE OF PRICE SUPPORT

At present Assam has a surplus in Rice production. The improvement in production and productivity is the result of better input management practices and the adoption of improved technology. Despite the progress made, the un-remunerative price received by the farmers for not having institutionalised markets is acting as a disincentive to drive the initiatives of the farmers. To ensure the interest of the farmers the state government has engaged the Assam State Agricultural Marketing Board (ASAMB) for procurement of paddy at Minimum Support Price, in addition to procurement to be done by the Food Corporation of India.

AGRICULTURE MARKETING AND STORAGE

Marketing of agricultural produce in the state is a serious problem for the farming community. Lack of organized marketing facility, lack of storage infrastructure near the field, poverty and need for money after harvest for repayment of agricultural debt and other contingencies force the farmers to dispose of their hard-earned produce at the earliest and throwaway prices. Keeping in view, the interest of farmers, the government of Assam in addition to engaging the Assam State Agriculture Marketing Board and FCI for procurement of products have developed storage capacity shown in the following Table 5.22.

TABLE -5.22

STORAGE CAPACITY CREATED BY DIFFERENT ORGANIZATIONS IN THE STATE

ORGANIZATION	STORAGE CAPACITY (MT)		
	2022-23	2023-24	2024-25
DIRECTORATE OF HORTICULTURE AND FOOD PROCESSING, ASSAM	-	-	5000
ASSAM STATE AGRICULTURE MARKETING BOARD	-	-	14000
ASSAM WARE HOUSING CORPORATION	-	-	4000
PUBLIC SECTOR	-	-	219555
TOTAL	-	-	242555

Source: Directorate of Agriculture, Assam

At present, the state has 24 Regulated Market Committees, 20 Primary Market Yards, 143 Trader's Shop, 532 Auction Platform/Retailers Shed, 806 Rural Primary Markets, 405 Wholesale Markets, One Organic Market, 18 Packaging Room, 42 Drying Platform and 15 Processing units. The Regulated Markets have been covered under AGMARKNET. As regards cold storage infrastructure in the state, there are 26 cold storages of which 23 are in the private sector and 3 in the state sector.

To assist the farmers in carrying vegetables to distant markets, the Assam State Agriculture Marketing Board provides transport subsidies to farmers. Government of Assam has taken steps to construct a three-storied market at Pamohi (Guwahati), a growers-consumers market complex at Ulubari (Guwahati), and establish 11 sale counters for marketing of farm products have been undertaking by the Government. The Department has also taken initiative for the establishment of market infrastructure, and storage facility and to eradicate the transportation bottlenecks. The rural connectivity scheme implemented under PMGSY is a major step towards the benefit of farmers to take out their agricultural products to the nearest markets.

SOME OF THE MAJOR STEPS TAKEN TO BOOST MARKETING SUPPORT AND POST HARVEST MANAGEMENT:

- The farming community has been mobilized to form 25 numbers of Farmer Producer Organizations (FPO) to secure better produce prices;
- Rural farm women have been empowered by training and providing mini processing units of pulses and oil seeds from which they can earn from their homes;
- Tie-up has been made for the export of Red Bao Paddy to the USA and the process started in 2012-13 regularly;
- Export of Pineapple cubes, orange, ginger, dendrobium orchids to other states and countries have already been started;
- Some Self Help Groups are assisted in taking up Agri-Horti activities including post-harvest management.

NATIONAL MISSION ON OILSEEDS & OIL PALM

The State is highly deficient in oil seed production. To achieve targeted area the Agriculture Department has been launching Mini-Mission-I-Development of cultivation of vegetable oilseeds crop, Mini-Mission-II-Development of cultivation of oil palm and Mini-Mission-III-Development of cultivation of tree borne oil seeds. The state has set a target of 3.75 lakh hectares under oil palm cultivation, while Patanjali Food Limited (PFL) has set a target of 60,000 hectares of plantation by 2026 in Assam.

PRODUCTION AND ESTIMATED MARKETABLE SURPLUS OF MUSTARD SEED IN ASSAM

As per statistics of the Directorate of Agriculture, Assam, production of Mustard in Assam during the year 2020-21 was 1,85,175 MT. Out of the total estimated marketable surplus of 1,85,175 MT, it is proposed to procure 45,700 MT of Mustard under PSS in the state. In consideration of the funds allocated in the budget for the financial year 2023-24,

it is proposed to implement the scheme in 6 districts for the procurement of 4554 MT. The procurement centres as per the details given Table below-

TABLE -5.23

Sl. No.	District	Production	Estimated marketable surplus(in MT)	Proposed procurement target(in MT)	Proposed procurement centre

ESTABLISHMENT OF MINI OIL MILL WITH PACKAGING UNIT

The state Agriculture Department has proposed to establish mini oil mills with packaging units. The scheme has envisaged the support of the Assam State Agricultural Marketing Board to market the products. It is also envisaged that the value addition of oilseeds will not only drive oilseed cultivation, it will also help to generate employment in the production and processing sectors.

WOMEN WELFARE SCHEME

Considering the role played by rural women in all components of agriculture and farm sector to manufacturing and marketing, the government of Assam through the Chief Minister's Vision on Women and Children, 2016 has given special thrust on women's self-help groups to facilitate their engagement and for economic upliftment.

BRING GREEN REVOLUTION TO EASTERN INDIA INCLUDING ASSAM

The Central and the State Governments have chalked out a strategy to achieve the planned growth in the agriculture sector of the country Several interventions such as Bringing Green Revolution to Eastern India (BGREI), double cropping, supply of improved seeds, fertilizer and technology equipment now have been undertaken. Under the initiative on BGREI, the government of India considers the states namely Assam, Bihar, Chhatisgarh, Jharkhand, Odisha, Eastern Uttar Pradesh and West Bengal as potential areas for increasing food grain production and productivity. The states are however mired by low credit availability, poor extension facilities and infrastructure bottlenecks. To remove the impediments on a priority basis steps have been taken emphasising better seed replacement ratio, adequate and timely availability of critical inputs, improving infrastructure facilities and other required interventions including bank credit. In Assam, the scheme was launched in 2010-11 as a sub-scheme of RKVY to overcome the

constraints limiting the productivity of rice-based cropping system in the state by adopting short-term activities related to the transfer of technology through Rice demonstration in farmers' fields along with activities about the creation of irrigation facilities to maximize agricultural production sustainably.

PRADHAN MANTRI FASAL BIMA YOJANA: THE HIGHLIGHTS

The Pradhan Mantri Fasal Bima Yojana was introduced in February 2016 to provide insurance services to farmers for their yield. It was formulated in line with the one nation–one scheme theme by replacing the earlier two schemes National Agricultural Insurance Scheme (NAIS) and Modified National Agricultural Insurance Scheme (MNAIS) by incorporating their best features and removing their inherent drawbacks.

STATUS OF PMFBY IN ASSAM

The Assam Government rolled out the Pradhan Mantri Fasal Bima Yojana from the Rabi season of 2016-17 intending to benefit about 5.5 lakh farmers but later in 2021-22, it benefited 627869 farmers. In the year 2023, the scheme covered the Kharif area of 263590 hectares and 397088 farmers. For effective rolling out of the scheme, the state plans to impart training to the officials of the agriculture department and organise publicity-cum-awareness programmes among the farmers. Table- 5.24 shows the status of implementation of the scheme in Assam during 2023-24.

TABLE-5.24

PRIME MINISTER FASAL BIMA YOJANA (PMFBY)

Season	Area covered *(Ha)*	Farmers covered *(Number)*	Sum Insured *(Rs. in lakh)*	Premium collected *(Rs. in lakh)*	Claims paid *(Rs. in lakh)*	Farmers benefited *(Number)*
Kharif 2023	263590	397088	172592.27	3389.24	Final settlement of claim in process	
Rabi 2023	174690	399324	192829.78	Calculation on going		
Kharif 2024	24210	50667	15252.61	Season on going		
Rabi 2024-25	Data not received					
After receiving the Central Share, the implementing Insurance Companies will disburse the applicable claims to the affected insured farmers						

Note: 1) After receiving the central share, the implementing insurance agency will disburse the claim amount to the insured farmers.

2) The premium rate for most crops being 2% for Kharif crops and 1.5% for Rabi crops.

SCHEME FOR MARKETING OF FRUITS AND VEGETABLES

TRANSPORT SUBSIDY SCHEME 2018-19:

Affordable transport facilities are one of the prime requisites to enable farmers to place their produce at remunerative markets. The provisioning of transport facilities also helps to reduce the number of intermediaries involved in the market chain and thus ensure fair returns to the farmers and procurement at reasonable prices for the consumers. The state has formed the Agricultural Production Management Group (APMG) for better crop planning and marketing.

The scheme proposes to provide subsidy @ Rs.2.0/Quintal per km to each selected APMG/growers Group etc. for a maximum of 2 tons per group per trip for a maximum distance of 100 Km.

The scheme had placed a supplementary demand of Rs. 250 lakh under the budget head of other agriculture programmes (2435) on subsidy for transportation support for marketing of fruits and vegetables for the year 2017-18. The physical target for transportation was approximately 20,500 MT.

OBJECTIVE OF THE SCHEME

- The objective of the scheme is to facilitate the marketing of surplus agricultural products particularly perishable fruits and vegetables from areas where surplus production takes place. The goal is to ensure a remunerative price for the farmers.
- It is also expected that the approach will encourage the growers to take up production on a commercial point.
- To facilitate the urban population to get products at reasonable prices.
- To check the fall of market price in the surplus growing areas beyond the cost of production. Subsidised transport facilities are thus required to be provided to the growers to safeguard the growers from financial losses in the harvest season.

PROCEDURE FOR SALE

1. The sale price is to be fixed by the District Agricultural Officer in consultation with farmers and on the basis of the prevailing market rate. The price list is to be displayed every day at the sale points.
2. In case the farmers of the APMGs are not getting remunerative prices the Agricultural Development Officer (ADO) will inform the District Agricultural Officer (DAO). In such cases, the DAO is to take measures to facilitate the sale of the products at identified points.

SCHEME FOR DEVELOPMENT OF JUTE GRADING AND BALING -

AIM AND OBJECTIVE

The aim and objective of the Jute grading and baling scheme is to extend facilities and modern know-how of the grading jute to the growers of the state. It is expected that grading of jute would help the growers to involve themselves in the marketing of jute to get remuneration prices of graded jute.

During 2018-19 under the scheme, it was proposed to impart training to 90 unemployed educated youth selected from the families of jute growers in three batches in the jute grading training centre located at Howly of Barpeta District. The training centre was established in 2000, but the infrastructure of the centre was damaged in 2001 due to natural calamities. Since then the centre has not been operational and the staff associated with the centre were attached to the district agriculture office, Barpeta. Now a financial proposal of Rs. 350 lakh has been made to revive the training centre. The duration of the training is planned for one month with the provision of a stipend of Rs.1000/-for each of the trainees. In addition, there is provision for food and accommodation.

Scheme of Jute Technology Mission (MM-III)		
Name of the Scheme	Approved Cost(Ruppes in lakh)	Present Status
1. Jute Market Yard at Kharupetia	100.00	in operation
2. Jute Market Yard at Baharihat	132.17	in operation
3. Jute Market Yard at Gauripur	100.00	in operation

MARKET INTELLIGENCE SCHEME (PLAN): OBJECTIVES

The scheme of market intelligence has been in operation in Assam since November 1957. The scheme originally covered seven markets, now it covers 72 important markets and representative markets and 40 commodities to collect requisite information for formulation of economic policies. The scheme is importance for formulating price policy by the state and it provides necessary support to address problems of marketing. The activities under the market intelligence scheme are to collect and dissemination of daily and weekly wholesale and retail prices of market arrival of important agricultural commodities and livestock products from the selected markets and furnish the market information to the Economic and Statistical adviser of the government of India, state government, public and private institutions and Army Head Quarter through various reports, bulletin and review. The All India Radio, Guwahati broadcasts the daily price bulletin of wholesale prices of selected agricultural commodities of important markets of Assam in the evening programme of "KRISHI JAGAT" for the best interest of growers, consumers and traders. This scheme has an annual operational budget of 150 lakh.

SCHEME FOR QUALITY CONTROL AND AGMARK GRADING (PLAN)

This scheme was introduced in the state during the year 1966-67. Agmark is a symbol of purity guaranteed by the Government. It is voluntary for the packers and millers. Under the scheme, Agmark laboratories have been established in Guwahati, Tezpur, Nagaon, Jorhat, Dibrugarh and Silchar. The principal objective of the scheme is to promote the grading of commodities like mustard oil, spices, honey ghee, wheat etc. under Agmark grading. To encourage the packers and millers to produce quality products. At present, there are six District Agmark Laboratories established in different parts of Assam.

CHAPTER-VI: IRRIGATION

The economy of Assam is basically agrarian in nature, and so easy access to agro-inputs, such as irrigation facilities is considered an important part of rural infrastructure and sustainability in the agricultural sector.

Although Assam is blessed with abundant natural water resources, irrigation is indispensable because of adverse and unpredictable weather conditions like flood, erosion and drought. Irrigation could also help leverage multiple cropping and modernization of agricultural practices in the state

Therefore, the Irrigation Department plays a vital role in socio-economic development by harnessing the rich surface and ground water resources of the state. The mandate of the Department is to supply water to cropland according to the demand of the cultivators.

There are three types of Irrigation schemes being implemented by the Irrigation Department, Assam. These are - Major Irrigation Scheme (Culturable Command Area more than 10,000 hectare), Medium Irrigation Scheme (Culturable Command Area between 2000 and 10,000 hectare) and Minor Irrigation Scheme (Culturable Command Area upto 2000 hectare). These Schemes may be of three categories. These are –

Surface Flow Irrigation Scheme: It uses surface gravity flow to convey water through canals to croplands by constructing diversion weirs. This type of Schemes consists of Major, Medium and Minor Irrigation Schemes.

Surface Lift Irrigation Scheme: Surface water is lifted by pumps from rivers, lakes, ponds etc and channelized to croplands through canals. This type of Schemes consists of Major, Medium and Minor Irrigation Schemes.

Ground Water Lift Irrigation Schemes: Ground water is lifted by installing Deep Tube wells/Medium Deep Tube wells/Shallow Tube wells and the water channelized to crop fields through canals or underground pipe networks.

Other than the Irrigation Department, Agriculture Department, Panchayat& Rural Development Department and Soil Conservation department also carries out irrigation

activities in the state. The Irrigation Department has created an irrigation potential of 8.84 Lakh Hectare up to 31/03/2025 and the Ultimate Irrigation Potential (UIP) of Irrigation schemes under the Irrigation Department as on 31/03/2025 is 12.6 Lakhs Hectare.

IRRIGATION INFRASTRUCTURE:

The category wise and status wise number of Government Irrigation Schemes executed by Irrigation Department up to 2024-25 is as follows:

Table – 6.1

Category	Number of Government Irrigation Schemes up to 31/03/2025		
	Major & Medium	Minor	Total
Surface Flow Irrigation Schemes	14	1648	1662
Surface Lift Irrigation Schemes	4	455	459
G W Lift Irrigation Schemes	0	1307	1307
Total Irrigation Schemes	18	3410	3428
PMKSY-HKKP Tube Well Points	0	245	245

Source: Chief Engineer, Irrigation Department, Assam

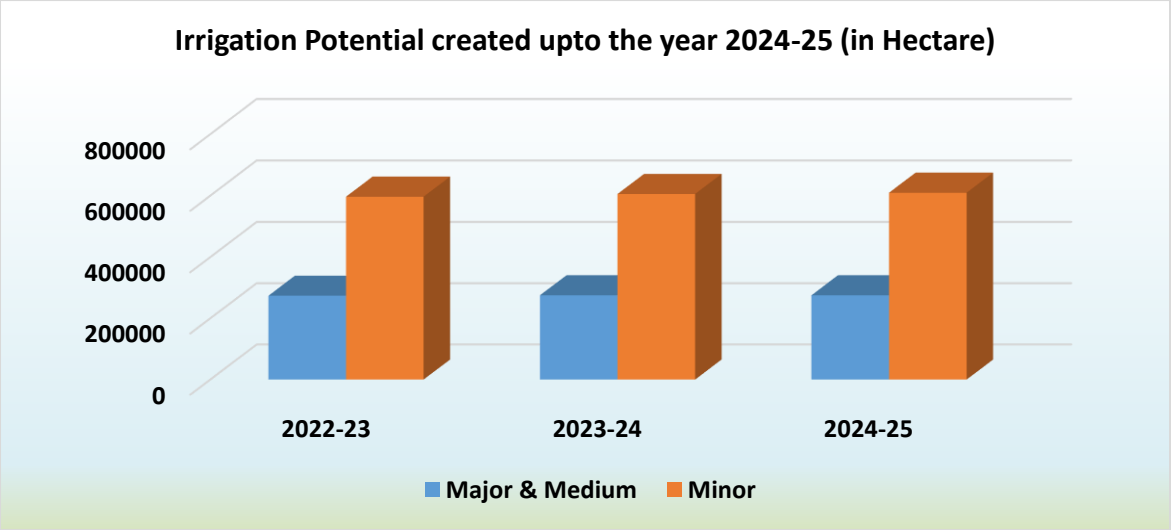

The cumulative irrigation potential created through various irrigation schemes under Irrigation Department is shown in the following table :

Table – 6.2

Year	Irrigation Potential Created up to the year 2024-25 (In Hectare)		
	Major & Medium	Minor	Total
2022-23	273936	596618	870554
2023-24	275254	605449	880703
2024-25	275254	609497	884751

Source: Chief Engineer, Irrigation Department, Assam

Figure-6.1

UTILISATION OF IRRIGATION POTENTIAL:

Irrigation Department collects and maintains the data on utilization of Irrigation potential by the Government Irrigation Schemes only. But there is no machinery to collect those in respect of private irrigation or schemes executed by Agriculture Department and other Departments/Aagencies.

Out of the cumulative Irrigation Potential Created/made available through Government Irrigation Schemes under Irrigation Department, the cultivators utilized the following in the last three years:

Irrigation potential utilized during the year (out of the cumulative potential created through Government Irrigation schemes) (Area in Hectare)

Table - 6.3

Year	Kharif crops season			Rabi & pre-kharif crops season			Total		
	Major & Medium	Minor	Total	Major & Medium	Minor	Total	Major & Medium	Minor	Total
2022-23	76887	119573	196460	2508	35988	38496	79395	155561	234956

2024-25	90880	107978	198858	10679	40754	51433	101559	148732	250291

Source: Chief Engineer, irrigation Department, Assam

The data show that there is a huge gap between Irrigation Potential Created (IPC) and Irrigation Potential Utilized (IPU). The reasons behind such a situation are:

General wear and tear of the Irrigation Schemes together with non- availability of regular fund for M&R works leading to loss of created potential.

Natural calamities like flood, storm etc. which cause damage to infrastructure of irrigation schemes leading to loss of created potential.

Erratic power supply in respect of the electrically operated irrigation schemes (Surface Lift and Ground Water Lift) in some areas.

Occasional damage of transformer, HT line and mechanical components at peak hours of water requirement.

Change of river course with respect to Surface Flow and Surface Lift irrigation schemes.

Livelihood shift by cultivators in the command areas of many schemes leading to reduction in demand for irrigation water.

Adherence of the cultivators in many areas to the traditional system of single cropping and reluctance to adopt multiple cropping.

Theft of motors/ pumps and other accessories in certain areas leading to non-functioning of the irrigation schemes.

For better utilization of Irrigation potential, 2352 Water Users' Associations (WUA) have been formed within the command areas of Irrigation schemes.

Information on Minor irrigation (excluding 6th Scheduled area)

The Scheme PMKSY- HKKP- Access to ground water, which is a component of PMKSY, had been sanctioned by Govt. of India for total Rs. 24606.96 lakh (90% Central Assistance & 10 % State Share) to complete 4779 Nos. of Tube-Well points (2344 Solar and 2435 Electrical) during the year 2019-20 to create potential of 19116 hectares in 20 Districts (bifurcated district). The scheme was completed in February 2022. In Phase-II PMKSY-HKKP-GW, 4916 tube wells points (1243 solar and 3673 electrical) were sanctioned in 10 districts of Assam to create irrigation potential 19664 Ha with total outlay of Rs. 29295.00 lakh. Up to October, 2022 a total 0f 4883 nos. tube well points were installed for creating potential of 19532 Ha. The scheme is completed in October, 2022.

Under SOPD-G, 446 Nos. of schemes were taken up from 2019-20 to 2024-25 with an approved cost of Rs. 17578.95 lakhs out of which 248 Nos. were tube-well schemes. The physical target was 129777 Ha. In the FY 2024-25, 99 Nos. of schemes were taken up and an IPC of 2159 Ha. was created.

Under SOPD-TSP, 16 Nos. of schemes were taken up from 2019-20 to 2024-25 with an approved cost of Rs. 1199.396 lakhs and physical target of 2599 Ha. In the FY 2024-25, 11 nos. of schemes were taken up and an IPC of 8229 Ha. was created.

Under SOPD-SCSP, 40 Nos. of schemes were taken up from 2019-20 to 2024-25 with an approved cost of Rs. 2757.67 Lakh and a physical target of 1635 Ha. In the FY 2024-25, 23 nos. of schemes were taken up and an IPC of 448 Ha. was created.

Regular fund is required for operation and maintenance of the existing Irrigation Schemes. In order to collect at least a minimal part of the operation and maintenance cost from the beneficiaries, the Irrigation Service Charge were introduced on adhoc basis in 1993 under the Assam Irrigation Act, 1983. The rates were subsequently revised in 2000. The current rates are shown below:

Table – 6.9

Crops	Rate per bigha (Rs)	Rate per hect. (Rs)
1. Kharif	37.50	281.24
2. Wheat and other Rabi crop	75.00	562.50
3. Early Ahu	100.00	751.00
4. Ahu	100.00	751.00
5. Jute	20.00	150.00
6. Sugarcane	29.60	222.00

Source: Chief Engineer, Irrigation Department, Assam

The charges collected from the beneficiaries are deposited to the public exchequer. The Irrigation Service Charges realized during the last three years are as follows:

Year	Irrigation Service Charges realised (in Rupees)
2022-2023	11,78,227.00
2023-2024	7,25,008.00
2024-2025	8,01,860.00

Source: Chief Engineer, Irrigation Department, Assam

Towards the goal of increasing cropping intensity and raising crop yield provisioning of irrigation is a prime necessity. Considering the uncertainties faced in the production of Kharif crops due to floods, the state Agriculture Department has put emphasis on Rabi crops and assigns top priority to develop assured irrigation facilities through installation of pump sets and progress made during the last two years are given at Table No.- 6.11

TABLE-6.10

Irrigation Infrastructure Created by the Agriculture Department

CHAPTER –VII

FLOOD AND FLOOD CONRTROL MEASURES

Water resources are essential for sustaining life, ecosystems, and human activities. They include surface water, such as rivers, lakes, and reservoirs, as well as groundwater stored in aquifers beneath the Earth's surface. These resources are crucial for drinking, agriculture, industry, and energy production. However, their availability is influenced by factors like climate change, population growth, and pollution, leading to challenges in managing and conserving them sustainably. Efficient use, pollution prevention, and integrated management practices are vital to ensuring that water resources meet the needs of present and future generations.

The State of Assam consists of two major valleys: the Brahmaputra Valley and the Barak Valley. It is geographically located between 90° to 96° North Latitude and 24° to 28° East Longitude. Assam spans a total area of 78,438 square kilometers, with 56,194 square kilometers falling under the Brahmaputra Valley and 22,244 square kilometers, including three hill districts, under the Barak Valley.

The Brahmaputra Valley has an average width of approximately 80 kilometers. Its principal river, the Brahmaputra, is one of the largest rivers globally, ranking fifth in terms of average discharge. Originating from the Kailash ranges of the Himalayas at an elevation of 5,300 meters, the river flows through Tibet before entering India via Arunachal Pradesh. It traverses Assam and Bangladesh before emptying into the Bay of Bengal.The catchment area of Brahmaputra in Tibet is 2,93,000 Sq. Km; in India and Bhutan is 2,40,000 Sq. Km and in Bangladesh is 47,000 Sq. Km. The Brahmaputra basin extends over an area of 5,80,000 Sq. Km up to its confluence in Bangladesh.

The average width of Brahmaputra is 5.46 Km. the maximum discharge of Brahmaputra at Pandu near Guwahati was recorded as 72,779 cumec on 23.08.62 and minimum discharge was recorded as 1757 cumec on 22.02.63. The average annual discharge is about 20,000 cumec and average dry season discharge is 4,420 cumec.

The Barak valley has a geographical area of 6922.00 Sq. Km excluding 3(three) hill districts. The local rainfall run off of the valley along with that of adjacent hilly areas flows through river Barak and its various tributaries and is drained out to Bangladesh. The Katakhal, Jiri, Chiri, Modhura, Longai, Sonai, Rukni and Singla are the main tributaries of the valley. The tributaries are mainly rain fed and thus, cause flood problems when precipitation occurs.

Flood and erosion are two main natural disasters being faced by the state. The flood prone area of the state is 31,500.00 Sq Km as assessed by the Rashtriya Barh Ayog. This is about 39.58 % of the total land area of Assam and about 9.40% of total flood prone area of the whole country. The flood prone area of the entire country stands at about 10.2 % of its total area. This shows that the flood prone area of Assam is four times the national mark of the flood prone area of the country. Records show that average annual area affected by flood is 9.31 Lakh Hectares. The flood protected area of the state is 16500.00 Sq. Km till date.

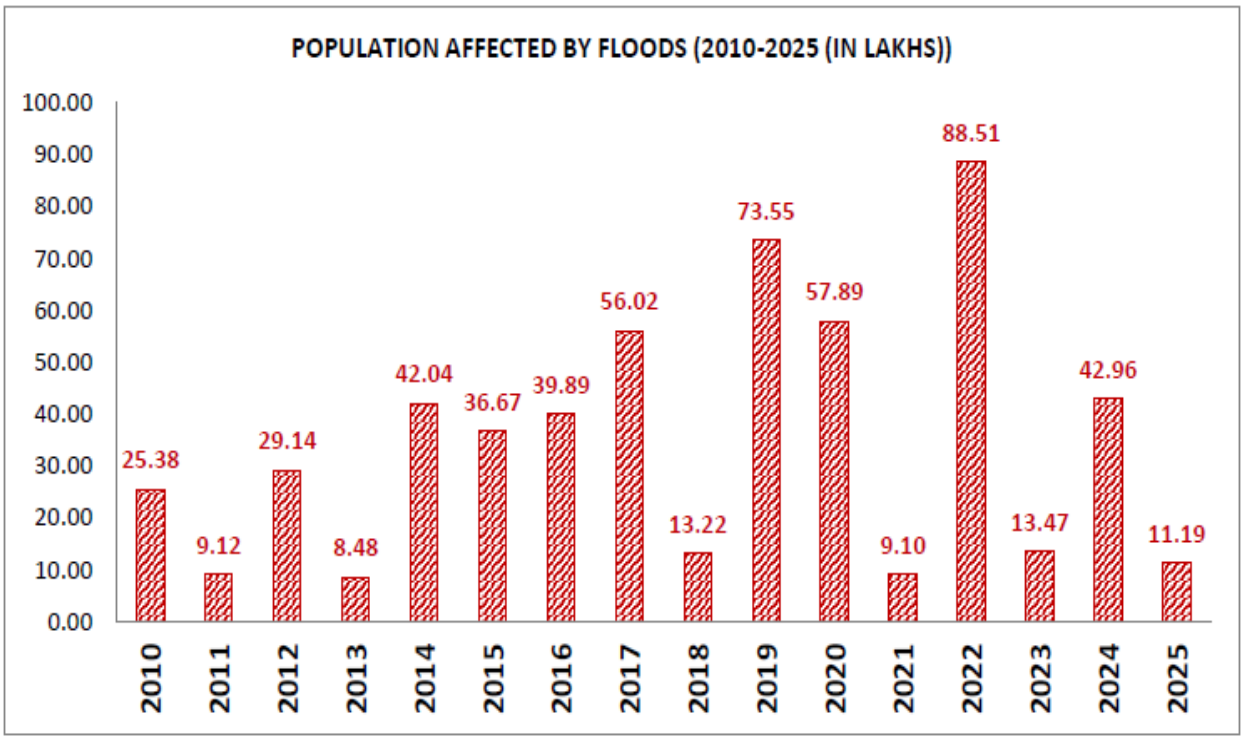

The severity of the flood problem in the state has been further aggravated by acute erosion on both banks of river Brahmaputra and its tributaries. Study reveals that an area of 4.27 Lakh Hectare of the state has been eroded by the rivers since 1950, which is 7.40 % of area of the state. The average annual rate of erosion is 8000.00 Ha.

Assam had three waves of flood in the year 2025, causing substantial loss of lives and property and severely impacting the economy of the State. Out of total 35 districts of Assam, 28 districts have been affected by flood in this year affecting approximately 11.19 lakh people in 3,255 villages. The death toll due to floods and landslides has been 36. Besides, substantial damages to standing crops, infrastructures like, roads, bridges, irrigation facilities, health facilities, schools, Livestock population etc. has also been reported from the affected districts and respective line departments.

As such, based on the damage reports received from the Districts and the Departments, fund requirement is estimated to be Rs. 2871.21 crore which includes an amount of Rs 62.98 Cr. for rescue and relief operation, Rs. 10.26 Cr. for sectoral damages other than Core Critical Infrastructure (like Fish seeds, Replacement of Animals, Assistance to Small and Marginal Farmers and Assistance to Artisans), Rs. 28.23 for damages in Housing Sector and Rs. 2769.74 Cr. for repairing and restoration of immediate nature for various infrastructure damaged during the flood.

POPULATION AFFECTED BY FLOOD

Assam is one of the most flood prone states in India. The State faces acute flood problem in the flood plains of the river Brahmaputra and Barak and other smaller river sub-basins. The extremely dynamic monsoon regime vis-à-vis the unique physiographic setting of the basin has been considered as the single most important cause for frequent occurrence of flood in this region. Historical analysis of the last fifteen years shows the problem of flood and its impact on the population every year.

Source: Assam Flood Memorendum 2025, ASDMA

FLOOD AND EROSION PROBLEM OF THE STATE

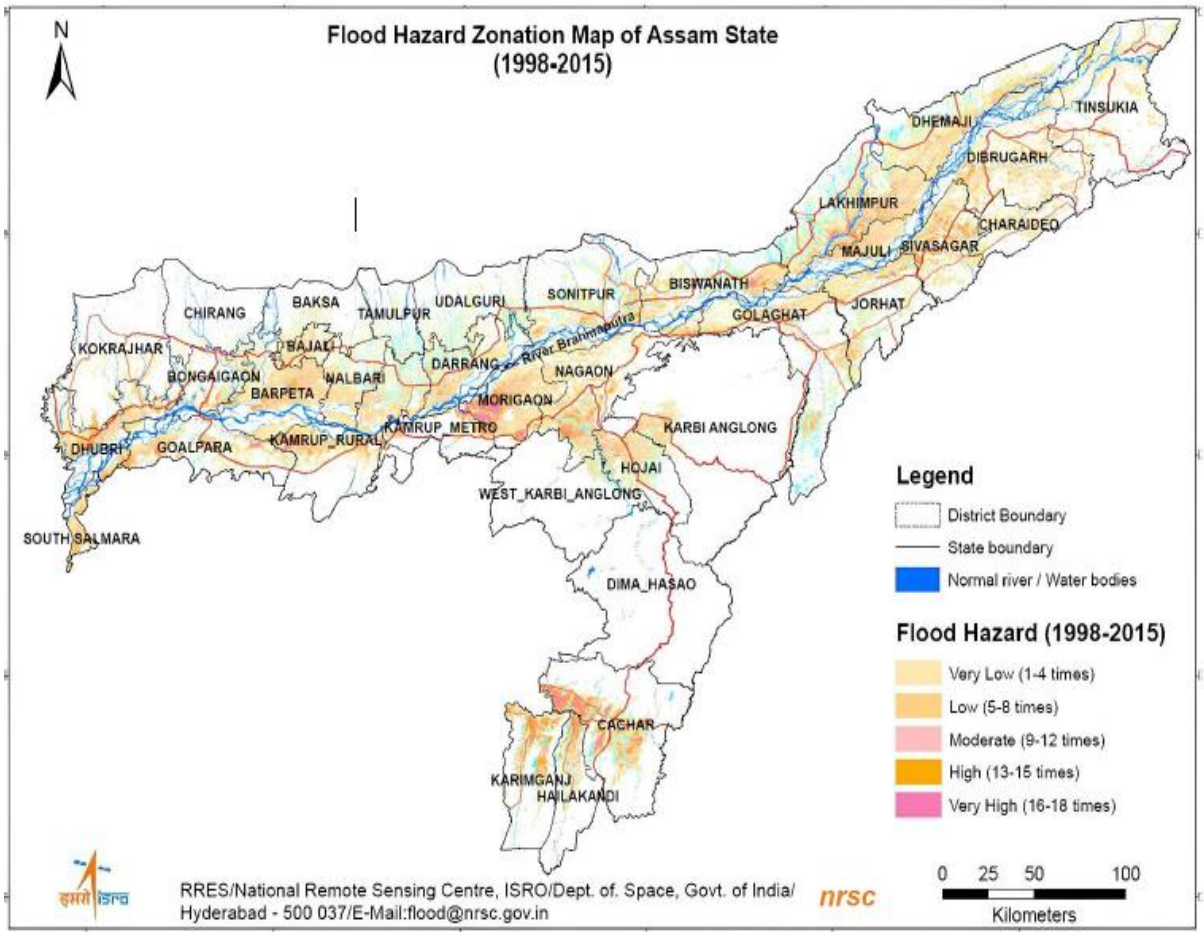

The Brahmaputra and Barak rivers, along with their 48 major tributaries and countless sub-tributaries, crisscross the plains of both valleys. Flooding, bank erosion, and drainage congestion are significant challenges faced by the state during the monsoon season. Flooding is a recurring phenomenon in this region, with multiple waves of floods causing extensive damage each year. The losses incurred by people in terms of property, crops, and livestock are enormous, amounting to hundreds of crores annually. Additionally, severe damage is inflicted on roads, bridges, schools, communication systems, and other infrastructure. These losses diminish the nation's wealth and adversely affect the state's development. During the post-independence period, Assam has faced major floods in 1954, 1962, 1972, 1977, 1984, 1988, 1998, 2002, 2004, 2008, 2014, 2016 etc. Almost every year, three to four waves of flood ravage the flood prone areas of Assam. The average annual loss due to flood in Assam is to the tune of Rs. 200.00 Crores.

In 1954, the country witnessed unprecedented floods following which the Govt. of India announced a National Policy on Floods comprising of three phases viz.-

- The immediate,
- The short term and
- The long term measures.

As per the Flood Hazard Atlas of Assam prepared by National Remote Sensing Centre (NRSC), Hyderabad using satellite data, about 28.75% (22.54 lakh hectares) of land in Assam state is affected by flood during 1998-2015.

Fig 7.1: Flood Hazard Zonation Map of Assam State

Source: Assam Flood Memorendum 2025, ASDMA

The flood control activities in Assam started mainly after the announcement of National Water Policy. Subsequently, "Outlined plan for flood control in Assam" along with various comprehensive plans were prepared and the priority areas that require immediate and urgent attention were identified.

Till date, the Water Resources Department has taken up works primarily for the general development of the rural sector and for the protection of major townships in both the Brahmaputra and Barak valley. Schemes have also been taken up to relieve the drainage congestion in the cities and other important areas.

- Construction of Embankments and Flood walls
- River training and bank protection works
- Anti-erosion and town protection works
- River channelization with pro siltation device
- Drainage improvement/ Sluices
- Raised Platform
- Flood forecasting and warning
- Flood zoning

The Water Resources Department, Assam has been implementing various flood management schemes from the beginning of 2nd Five Year Plan and is continuing till now.

Table - 7.1

Physical achievement of the Water Resources Department

Nature of Work	Total *(up to 2023-24)*	DURING 2024-25		Total *(up to 2024-25)*
		Target	Achievement	
Construction of Embankments (km)	4532.435	485.595	291.357	**4823.792**
Anti-Erosion and Town Protection Works (nos)	1280	249	150	**1430**
Construction of Major Sluice (nos)	122	38	24	**146**
Construction of Minor Sluice (nos)	545	-	-	**545**
Drainage Channel (km)	909.029	-	-	**909.029**
Raising & Strengthening of Embankment (km)	**1047.854**	**656.80**	**460.00**	**1507.854**

District wise Damage of Flood Management Structure in Assam during the flood of 2024-25

The table 7.2 shows that during the 2024–25 floods in Assam, 8 embankment breach incidents were reported across 7 districts. Each case involved a single breach, with breach lengths ranging from 10 m to 120 m. Most damages occurred in T-Dykes, indicating vulnerability of river training structures, particularly in Hailakandi (two incidents). The data highlights localized but significant structural failures requiring targeted strengthening of vulnerable embankments.

Table 7.2

District-wise Damage of Flood Management Structures in Assam (Flood 2024–25)

Sl. No	District	Embankment Type	Location / Name of Embankment	No. of Embankments Breached	No. of Breaches	Breach Length (m)
1	Darrang	T-Dyke	R/B of MPK to NH-15	1	1	20
2	Golaghat	B-Dyke	NR Dyke up to Nikori PWD Road including Krish Bund	1	1	75
3	Majuli	B-Dyke	B Dyke from Kamalabari to Gowaigaon	1	1	10
4	Nagaon	B-Dyke	B Dyke at Hatimura	1	1	25
5	Dibrugarh	T-Dyke	Flood Protection Bund Tengakhat Mouza on R/B of river Buridehing	1	1	45
6	Karimganj	T-Dyke	Longai (R/B) Embankment	1	1	12
7	Hailakandi	T-Dyke	On L/B embankment of River Katakhal from Boroitoli to confluence	1	1	50
8	Hailakandi	T-Dyke	Improvement of Dhaleswar and Katakhal Drainage Basin, Ph-II Tasla Dam	1	1	120

Note: T-Dyke = Training Dyke; B-Dyke = Breach/Bund Dyke

Assam Floods in 2025:

This year , Assam has faced three waves of floods till date, which have affected 28 districts of the state, resulting in loss of human lives, livestock and large scale damage to the dwelling houses, standing crops, infrastructure like roads, bridges, embankments, schools, AWCs etc.

Notified Flood season starts in Assam from 1st May till 31st October every year and during the period ASDMA generates daily flood situation reports digitally through DRIMS (Disaster Reporting and Information Management System). Each Revenue Circle of Assam submits an online situation report through its respective DDMAs in the DRIMS portal. Following 28 districts of Assam have been affected by floods this year viz. Barpeta, Biswanath, Bongaigaon, Cachar, Charaideo, Darrang, Dhemaji, Dibrugarh, Dima-Hasao, Goalpara, Golaghat, Hailakandi, Hojai, Jorhat, Kamrup, Kamrup (M), Karbi Anglong, Kokrajhar, Majuli, Morigaon, Nagaon, Sivasagar, Sonitpur, South Salmara, Sribhumi, Tinsukia, Lakhimpur and West Karbi Anglong as per Assam state Disaster Mnagement Authority Flood Memorandum Report 2025.

Flood Waves in Assam, 2025

The 2025 flood season in Assam occurred in three distinct waves. The first wave (31 May–22 July) was the most severe, affecting 26 districts, 2,630 villages, and over 1.04 lakh people, with 24 human lives lost. The second wave (7 Aug–5 Sept) was milder in spread, impacting 11 districts and 412 villages, with lower population impact (45,930) and one death in urban flood. The third wave (12 Sept–13 Oct) again affected 11 districts and 468 villages, with population affected rising to 1.08 lakh, and 2 human lives lost. Overall, the data indicates that the first wave was the most destructive, while later waves caused localized but significant impacts.

Table 7.3
Flood Waves in Assam, 2025

Flood Wave	Period	Districts Affected	Revenue Circles Affected	Villages Affected	Population Affected	Human Lives Lost (Flood)	Human Lives Lost (Urban Flood)
1st Wave	31 May – 22 July 2025	26	94	2,630	104,123	24	0
2nd Wave	7 Aug – 5 Sept 2025	11	30	412	45,930	0	1
3rd Wave	12 Sept – 13 Oct 2025	11	28	468	108,232	2	0

Flood management schemes taken up by W. R. Department during 2023-24

The Water Resources Department, Assam had taken up a number of flood and erosion management schemes during 2023-24 under different funding sources. These schemes include 58 schemes for Rs. 526.51 Cr under NABARD (RIDF-XXIX), 44 schemes under NABARD (NIDA) for Rs. 500.00 Cr, 32 nos. for Rs. 143.22 Cr under SOPD-G, 3 schemes under World Bank funded AIRBMP for Rs. 197.87 Cr, 4 projects at a cost of Rs. 2267.33 Cr under ADB New Loan, thereby a total of 141 schemes for Rs. 3634.93 Cr.

Assam Integrated River Basin Management Programme (AIRBMP)

Assam is among the states hardest hit by erosion flood hazards. Climate change is expected to exacerbate current hazards and lead to more frequent floods and accelerated soil erosion. Therefore, a progressive and systematic approach is needed to address the key water-related risks and opportunities in Assam. A critical first step is the development of an enabling institutional framework and building the capacities of relevant agencies for IWRM and DRM. These include the Assam Water Resources Department (WRD), Assam

Disaster Management Authority (ASDMA), and Flood and River Erosion Management Agency of Assam (FREMAA). Also, an IWRM approach integrates green infrastructure with grey infrastructure, such as flood embankments, river erosion works, and dams offers the best approach for cost-effective and resilient infrastructure. Non-structural solutions such as flood forecasting and early warning, emergency preparation, disaster response, and recovery are also necessary to fully address all elements of the DRM cycle of mitigation, preparedness, response, and recovery. Stakeholders include diverse river constituencies and users with varying levels of representation in local govt. bodies, incentives, and power.

The Government of Assam, through Govt. of India, approached the World Bank to provide support to its agenda for strengthening IWRM and DRM through the ongoing Assam Integrated River Basin Management Program (AIRBMP). The Program focuses on strengthening institutions, filling critical knowledge gaps, and implementing integrated solutions through a structured basin-wise planning process to tackle the current challenges of floods and erosion, amongst others, and to seize opportunities for climate-resilient growth and improved livelihood. The Department has taken up AIRBMP with a loan of $500 million and counterpart funding of $125 Million from the World Bank. Under Phase (I) of this program, two River Basins, one at Buridehing River and the other at Beki River, have been selected for undertaking river works under no-regret investment. The river works are as follows:-

Table: 7.4-Major provision of River work

Name of the Work/ Component	Major Provisions
Buridehing Sub -Project	Raising& Strengthening (R/S) work = 18 km Anti-Erosion (A/E) work = 18.155 km
Beki Sub-Project including Moinbori	Anti-Erosion A/E Work = 19.047 km Pro-siltation – 6 locations
(a) Beki Sub-Project	Anti-Erosion (A/E) work =13.67 km Pro-siltation – 2 locations
(b)Moinbori Variation	Anti-Erosion (A/E) work =5.41 km Pro-Siltation – 4 locations
High Priority Small River Work in Beki Basin	Anti-Erosion (A/E) work =2.17 km Pro-Siltation -2 locations
High Priority Small River Works-Buridehing	Anti-Erosion (A/E) work =1.20 km

Source: Office of the Chief Engineer, Water Resource Department, Assam

Under Phase I of the project, three river basins namely Buridehing, Beki, and Jiadhal Basins have been selected for Integrated FLOOD Risk Management Planning with Flood Forecasting and Early Warning

Climate Resilient Brahmaputra Integrated Flood and River Erosion River Management Programme (CRBIFRERMP)

The Project will focus on the main stem of the Brahmaputra River and apply a holistic, integrated, and risk-informed approach to manage river bank erosion and the attendant flood risk. The institutional capacity of Assam and the affected communities will be strengthened to enhance the climate and disaster reliance of the investment. By stabilizing 60 km of river banks, placing 32 km of pro-siltation measures, and constructing or rehabilitating 4 km of climate resilient embankments in five high-priority districts, the project will: (i) secure living spaces, (ii) reduce erosion and flooding, (iii) support-livelihoods and small farmers, (iv) create employment of opportunities for the most vulnerable riverine poor, and (v) ultimately enhance the navigability of the river.

To increase the long-term reliability and effectiveness of planning and implementing flood and river bank erosion risk management in Assam, the project will advance key WRD knowledge of modern survey practices, flood forecasting and early warning systems, erosion prediction, embankment breach models, management, asset management, risk-sensitive land use planning, and pilot nature-based solutions. The project seeks to optimize co-benefits, promote data sharing, and empower women through economic activities, enabling them to better respond to climate changes and disasters. The project is expected to benefit about 10 lakh people. The Department has taken up ADB New Loan of $200 Million and counterpart funding of $55 Million for the first phase. The projects are targeted for flood and erosion management in the main stream Brahmaputra and have been proposed in (i) Dibrugarh - Tinsukia, (ii) Morigaon, (iii) Kamrup Rural, and (v) Goalpara. The scope of the project will include bio-engineering activities using nature-based solutions for embankment slope stabilization and bank protection work.

Preparedness measures taken by ASDMA before floods:

As part of the flood preparedness initiatives, Assam State Disaster Management Authority (ASDMA) had conducted six thematic meetings for flood preparedness during March- April 2025 with all line departments, Central Agencies and stakeholders. These thematic meetings are viz. (i) Coordination for Response with responding agencies, (ii) Critical Infrastructure Preparedness, (iii) Ensuring continuity of services viz. Health, Water & Sanitation, Education, Social welfare services etc., (iv) Relief Camp Management, (v) Risk communication and (vi) Reporting and Damage Assessment as part of its preparedness this year with various stakeholders.

Besides, ASDMA also conducted multi layered review of Flood Preparedness, which includes- (i) Flood Preparedness Review Meeting by His Excellency Governor of Assam on 28th May, 2025, (ii) Video Conference with the District Commissioners by Hon'ble Chief Minister on 30th May 2025, (iii) District level Flood Preparedness review by Hon'ble Minister, Revenue & DM Department, Assam along with field visit in 6 districts (24th – 26th May, 2025), (iv) State Level Flood Preparedness Review Meeting by Hon'ble Chief Secretary, Assam on 17th May, 2025, (v) Video conferencing with the DDMAs to review flood preparedness at the district level conducted on 27th March 2025.

NDRF teams from 1st Bn. and 12th Bn. have been pre-positioned at eight (8) strategic locations of the state of Assam namely Silchar, Jorhat, Barpeta, Bongaigaon (1st Bn. NDRF), Dibrugarh, Tezpur, Sivasagar and Titabor (12th Bn. NDRF) for effective and prompt response during flood. Besides, five companies of State Disaster Response Force (SDRF) were also deployed in 58 locations of Assam along with rescue boats and deep divers. Besides, ASDMA also deployed rescue boats, AAPDA Mitra volunteers and DDRF teams in selected locations in certain vulnerable locations. These proactive preparedness measures lead to substantive reduction of human lives lost and properties during the flood as compared to the severity of the flood situation.

Further, ASDMA receives FLEWS (Flood Early Warning System) alerts from North Eastern Space Application Centre (NESAC) within 12 to 48 hrs lead time in the category of Low, Moderate, High and Very High alerts and these alerts are disseminated to DDMAs, Revenue Circle Offices, concerned authorities of the Govt. of Assam and other response agencies.

Conclusion:

Hon'ble Chief Minister of Assam reviewed the flood preparedness of the state on 30th May, 2025 involving District Commissioners of all DDMAs of Assam. Hon'ble Chief Minister instructed all the District Commissioners to establish effective coordination with NDRF and SDRF teams, to ensure a prompt response when required. Further, His Excellency Governor of Assam on 28th May, 2025 also took stock of the Flood preparedness for state of Assam.

Based on the ground assessment by the District Administrations, District Disaster Management Authorities (DDMAs) and concerned line departments of the State Government, total requirement of funds covered under SDRF/NDRF for (i) rescue & relief operation (₹62.98 crores), (ii) Sectoral damages other than core Critical Infrastructure (Fish seeds, Replacement of Animals, Assistance to Small and Marginal Farmers, Assistance to Artisans) (₹10.26 crores), (iii) Damages in Housing Sector (₹28.23 crores) and (iv) Damages in Core Critical Infrastructure (₹2769.74 crores). Therefore total estimated fund requirement for various work is amounting to ₹ 2871.21 Cr. (in words Two Thousand Eight hundred Seventy One Crore and Twenty one Lakhs only)

Government of India is therefore, requested to provide financial assistance and help the State to recover from the severe damages caused by the multiple waves of floods in 2025

***

CHAPTER – VIII

LIVESTOCK, ANIAML HUSBANDRY & DIARY DEVELOPMENT

Animal Husbandry is potentially one of the most important sectors for the rapid socio-economic development of the state. Assam's economy is predominately agrarian, with more than 70% of the population. The animal husbandry sector significantly impacts employment generation in the state and plays a vital role in income generation in both rural and semi-urban economies. The Animal Husbandry and Veterinary Department of the State has been implementing various socio-economic programmes to create gainful employment opportunities in rural areas through various developmental schemes to boost the socio-economic condition of the rural economy and act to enhance the volume of livestock and poultry products in the State to reduce the gap between demand and supply of these products.

For many poor families in rural areas, livestock can be a valuable asset and source of income, especially as climate change and limited land squeeze traditional farming in the state. They also enable diversification of land use and ensure the nutritional security of the population. The State government is investing in veterinary services, vaccinations, and increasing technology accessibility to reduce livestock mortality in the state. The main objective of the Department of Animal Husbandry and Veterinary in the state is twofold such as to provide health coverage to the livestock and poultry and to undertake livestock developmental activities for improving state income and raising the standard of living of the people. Various initiatives such as breed improvement programs, artificial insemination, and disease control measures have already been undertaken while Mobile Veterinary Unit (MVU) is introduced to provide door-to-door animal health services.

Efforts are being made to protect animal health and minimize infection risks, as well as disease control and monitoring to augment the production of annual products.

To achieve this goal, the Animal Husbandry and Veterinary Department of the State has been providing animal health care services and breed improvement facilities through 21 veterinary hospitals, 297 dispensaries, 767 Sub-Centre/First Aid Centre/SMC, 134 Block Veterinary Dispensaries, 8 Key Village Centre etc. However, the existence of a large and low productive population of non-descript animals and birds, the State has to depend on the import of livestock products from outside the State to meet the increasing demand.

LIVESTOCK POPULATION AS PER 20TH LIVESTOCK CENSUS

According to the 20th Livestock Census 2019, the Cattle population constitutes the the largest group with more then ten million. Out of the total Cattle indigenous/non-descript cattle comprises 1.1 crore while crossbreed cattle population comprises 7.7 lakhs. Buffalo comprises 4.2 lakhs while Sheep was counted to become 3.3 lakhs numbers. Goat and Pig comprised of about 43.15 lakh and 21 lakhs numbers respectively during Livestock Census 2019.

Table-8.01: Livestock population in Assam (in lakh)

Sl. No.	Livestock	2012	2019
1	a. Total Cattle	103.08	109.09
	b. Crossbreed Cattle	3.96	7.69
	c. Indigenous Cattle	99.12	101.40
2	Buffaloes	4.35	4.22
3	Sheep	5.11	3.32
4	Goat	61.69	43.15
5	Pigs	16.36	20.99
6	Horse and Ponies	0.142	0.127
Total Livestock		**190.73**	**180.90**

Source: A.H. & Veterinary Deptt

The total Livestock population in Assam was 190.73 lakh in 2012 and it decreased to 180.90 lakh in 2019 while the cattle population increased by 5.4 percent during the period from 2012 to 2019.

N.B: The 21st Livestock Census is presently undergoing and the livestock census report 2024 is yet to be published.

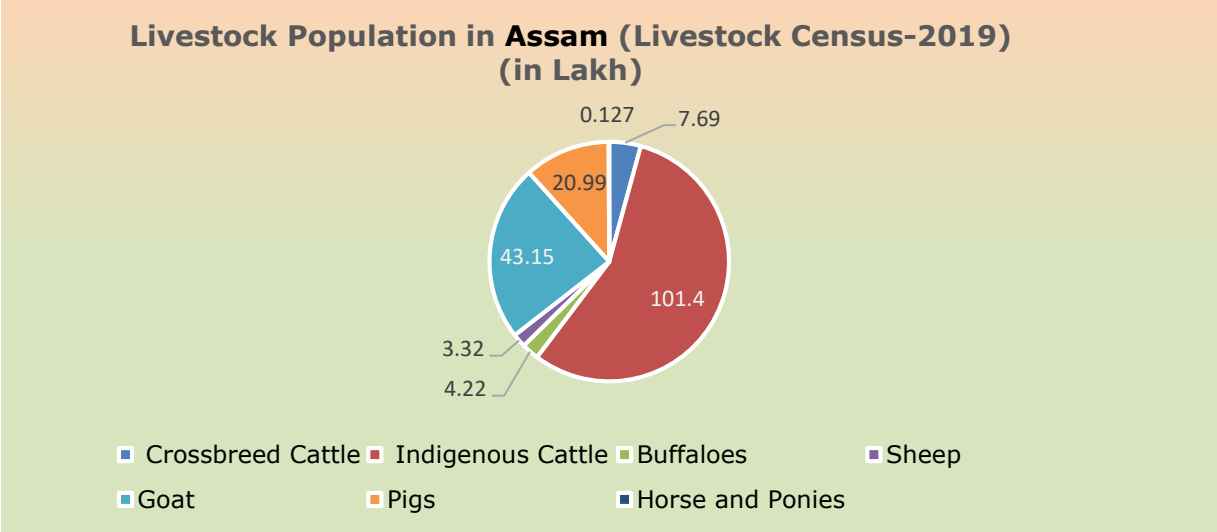

Table - 8.02 : Poultry Population in Assam *(in lakh)*

Sl. No.	Poultry	2012	2019
1	Duck	73.00	120.19
2	Poultry	187.18	331.06
	Total Poultry	**260.18**	**451.25**

Source: A.H. & Veterinary Deptt

As per Livestock Census- 2019, Assam had a poultry population of around 451.25 lakh accounting for 5.3 per cent of India's poultry population. The total poultry population in Assam was 260.18 lakh in 2012 and it increased to 451.25 lakh in 2019 with an impressive growth of 73.4 percent during the period from 2012 to 2019.

Table - 8.03: TREND OF LIVESTOCK PRODUCTS IN ASSAM

Egg (million nos.)	559.00	622.86	642
Meat ('000' tones)	57.78	68.68	69.49

RELEVANCE OF THE LIVESTOCK SECTOR IN THE STATE ECONOMY

The Gross State Domestic Product (GSDP) of the Livestock sector is shown in the Table: 8.05

Table - 8.05

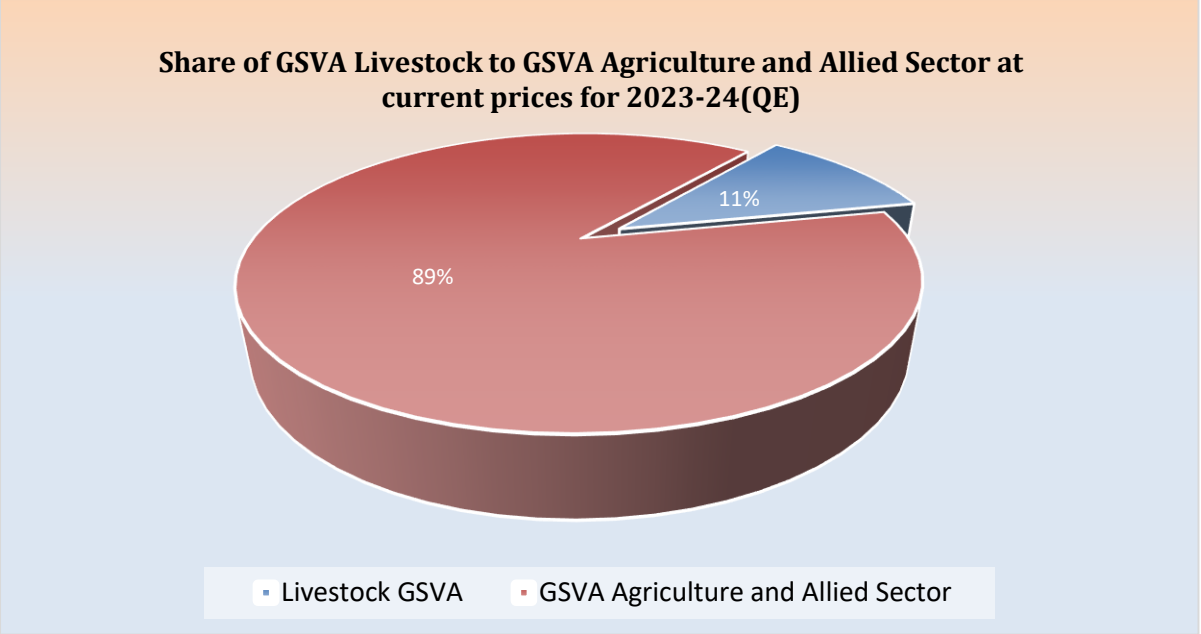

Rs. in Lakh

Current Prices	2020-21	2021-22	2022-23(PE)	2023-24 (QE)	2024-25(AE)
GSVA Livestock	906627	948638	1037835	1224621	1468662
GSVA Agriculture and Allied Sector	8191966	8003433	9703568	10943493	12346684
GSVA	30896832	37884079	44100188	51349075	58505035
GSDP	33980298	41072356	47939054	57094413	64366669
Constant (2011-12) Prices					
GSVA Livestock	480836	497010	519691	579473	598769
GSVA Agriculture and Allied Sector	3867451	4008829	4156321	4331580	4446679
GSVA	21621051	23554862	25791929	28757185	31325601
GSDP	24781923	25813969	28056984	31306457	33793341

Source: Directorate of Economics and Statistics, Headquarter, Guwahati

The contribution of the Livestock sector to the State's GSDP at the current prices has steadily decreased from 2.67 percent in 2020-21 to 2.31 percent in 2021-22, 2.16 percent in 2023-24(QE) and 2.14 percent in 2024-25(AE). On the other hand, its contribution to GSVA Agriculture and allied Sector was 11.1 percent in 2021-22 and it merely increased to 11.2 percent in 2023-24(QE).

The contribution of the Livestock sector to the State's GSDP at the constant (2011-12) prices was 1.94 percent in 2021-22 and it come down to 1.85 percent in 2023-24(QE)

ASSAM PROJECT ON AGRI-BUSINESS AND RURAL TRANSFORMATION (APART)

After the successful completion of the Assam Rural Infrastructure and Agriculture Service (ARIASP) and Assam Agricultural Competitiveness Project (AACP), the Government of Assam through the Government of India has received a loan from the World Bank for the implementation of Assam Agri-business and Rural Transformation Project (APART).

Project Development Objective (PDO): "To add value and improve the resilience of selected agriculture value chains, focusing on smallholder farmers and agro-entrepreneurs in targeted districts of Assam".

The project broadly focuses on two components under APART:

1. **PORK VALUE CHAIN (PVC):** To be implemented by the Animal Husbandry & Veterinary Department (AHVD).

2. **MILK VALUE CHAIN (MVC)**
   a. Formal Milk Value Chain: Being implemented by West Assam Milk Producers' Cooperative Union Limited (WAMUL).

   b. Informal Milk Value Chain: Being implemented by the Dairy Sector by the Dairy Development Department (DDD).

1. APART Strategy- Pig Sector Intervention

- Knowledge, attitude & practice gap analysis of all the value chain actors, customized designing of training content for capacity building and massive awareness programme on good production practices & food

safety along the value chain.

- Formation of Farmer Producer Organization (FPO**)** in production clusters to undertakethe various activities in a group basis and organized way which is difficult to perform by an individual farmer

2. MILK VALUE CHAIN (MVC): APART Strategy
Dairy Sector Intervention:FORMAL SECTOR

The focus is productivity enhancement by organizing farmers into Milk Producers' Institutions (MPIs) that eventually will get registered as Dairy Cooperative Societies (DCS) and genetic upgradation of non-descript cows using AI, improved feeding through fodder production demonstrations, bulk supplements provision through DCS and by developing linkages with crop producers (e.g. maize, mustard, legumes for crop residue).

Piggery Development

Pig Development Schemes undertaken by the A. H. & Veterinary Department, Assam:

Assam is characterized by a high proportion of tribal people for whom pig-keeping is integral in their way of life. The present population scenario of pigs in Assam comprises non-descript local varieties, exotic hybrids and genetically graded pigs. However, the large majority of the pig population in this part of the country belongs to the non-descript type. The schemes in operation under pig development are as follows:

- National Livestock Mission (NLM)
- Rastriya Krishi Vikash Yojana (RKVY)
- Assam Agri-Business and Rural Transformation Project (APART)
- Assam Milk, Meat and Egg Mission Society (AMMEMS) under CMSGUY.
- Different pig development schemes under SOPD-G, TSP, SCCP etc.

Govt. Pig Farms:

There are 19 Nos. of Govt. Pig Farms in the state. Out of 19 Nos. of Govt. Pig Farms, 10 Nos. are functional, but with lower capacity. The department is taking every possible step to make all the farms functional to their full strength with funds from different schemes like SOPDG, RIDF etc.

POULTRY DEVELOPMENT:

The Animal Husbandry & Veterinary Department, Assam is encouraging backyard poultry rearing in the state for enhancing meat ad egg production. As this sector generates employment and enhance rural income, a large number of people are directly engaged in poultry sector in the state

DETAILED ACTIVITIES RELEVANT TO DISEASE PREVENTION THROUGH INSTITUTE OF VETERINARY BIOLOGICALS, FOR THE YEAR 2021-22, 2022-23, 2023-2024

Agriculture still remains the backbone of the Indian economy and it provides employment to majority of the population. Agriculture plays a vital role not only in providing food and nutrition to the people, but also in the supply of raw material to industries and to export trade. It is understood that without a sustainable and productive growth of the agricultural sector, the other types of development in any sphere will be unstable and illusory. The increase in growth of human population has undoubtedly excreted pressure on agriculture and livestock. Even than the annual growth rate of cattle and buffalo continued to sustain mainly because of economic compulsion and increase realization on the part of the farmer about the value of the animals andalso due to the fact that various dreaded disease of livestock could be effectively controlled bythe effort of the veterinarian.

DISEASE STATUS IN THE STATE OF ASSAM

At present, HS and FMD are the two most pre-dominating large animal diseases of thestate in relation to the economy of the people. Out of four FMD serotypes prevailing in this state, the maximum number of outbreaks is found to be due to Type- 'O'. Among the economically important diseases, Haemorrhagic Septicemia is considered to be one of the major diseases occurring mostly in the riverine areas of the state and causing substantial economic losses to thefarmers in general. The disease occurs just at the beginning of the monsoon and during and afterthe flood. It occurs throughout the state but are more prevalent in the 23 flood affected districts outof 33 districts of the state and simultaneously the diseases like B.Q and Anthrax are also appearingsporadically parallel to HS posing severe threat to the bovine population. Other major diseases that occur in Assam are Ranikhet disease, duck plague, duck cholera, pigeon pox, enterotoxaemia,sheep and goat pox, fowl plague etc and many parasitic infestations.

IMMUNIZATIONPROGRAMME

Immunization Programme in Assam has been taken up through Central Sector Schemes like ASCAD, CFS-CP, PPR-EP, and NADCP and also through different veterinary dispensary and sub-center of the state by procuring vaccine produced at Biological Production Unit of AnimalHusbandry and Veterinary Department located at Khanapara Guwahati-22.

BIOLOGICAL PRODUCTION UNIT

The Institute of Veterinary Biological (IVB), Khanapara, Guwahati-22 was established in 1950. During the fourth and fifth five-year plan with the assistance of NEC it was brought into

CATTLE BREEDING PROJECT (CCBP)

Our Non-Descriptive Indigenous Cattle & Buffaloes are the main source of milk production with their very low production potentiality. So, their genetic improvement has become the top priority. CCBP, (S.E) Phase- I was launched under NPCBB with theobjective to produce Milch Cattle economically in large numbers for enhancement of milk production to be achieved through infusion of exotic inheritance, and also to combine productivity and adaptability to disease resistance including reasonable draught ability to meet the local requirements.

The operation of current bank account has been closed as per Govt. instruction and neither any funds were provided nor any schemes were assigned to this establishment from 2008 onwards. So, no schematic works were implemented during the years 2023-24, 2024-25.

ACTIVITIES OF ASSAM LIVESTOCK DEVELOPMENT AGENCY (ALDA)

Assam Livestock Development Agency mainly comprises of –Frozen Semen Bull Station (FSBS) – 1 no, Central Frozen Semen Bank (CFSB) -1 no, Frozen Semen Bank (FSB) - 18 nos, AI Training Centre- 2 nos and Active AI Centre- 836 nos which catering to –

Total Cattle Population		**1,09,09,239**
Breedable Cattle Population	Indigenous	34,85,113
	Cross Breed	3,32,702
Total		38,17,815

Flagship Activities of ALDA:

- Production of Quality semen and distribution to the AI Centers.
- Establishment of Cold Chain (Liquid Nitrogen Grid) for semen distribution – established 18 regional Frozen Regional Semen Banks (FSBs)
- Creation of awareness on Cattle breeding programme.
- Self–employment generation:- 1268 MAITRIs already working.

Physical and financial achievements of NERDDL & Animal Health Centre (2024-2025 and 2025-2026)

The North Eastern Regional Disease Diagnostic Laboratory (NERDDL) established in Guwahati in 2023 with 100% assistance from Government of India as the Referral Laboratory for the North East States. It provided referral and consultancy services to the state diagnostic laboratories of the region for economically important livestock and poultry diseases, as and when needed. It is the only laboratory to diagnose exotic diseases like African Swine Fever (ASF), Lumpy Skin Disease (LSD), Avian Influenza, Bovine Spongiform Encephalopathy (BSE) for NE States. It is also working with 2 (Two) collaborative project on "Diagnosis and control of zoonotic diseases" with integrated Diseases Surveillance Program (IDSP) of Rural Health Mission and Collaborative project under DBT on "Establishment of a Consortium for One Health to Address Zoonotic and Trans boundary Disease in India including the North East Region" with Department of Bio-technology, Government of India.

Schemes implemented by Directorate of Dairy Development, Assam under State Owned Priority Development (SOPD)

Enhancement of Overall Milk Production in Assam

- The farmers are the backbone of the dairy industry in Assam. Typically, the farmers of Assam are marginal dairy farmers producing on an average 2 lts of milk per day and they are geographically dispersed. Hence there is need to help build robust and strong farmer's organization like Dairy Cooperative Societies. ***Seed money to 144 Nos of Dairy Cooperative Societies*** has been provided in the financial year 2022-23 in order to achieve this. This has benefit about 4000 marginal dairy farmers of the state **directly.**
- In order to enhance profitability and competitiveness of our dairy farmers the directorate of dairy development has helped in the formation of Dairy Co-operative Societies (DCS) and provided input support and training to the members of the DCS under the scheme "Integrated Support Services for creation of milk surplus districts at Sadiya subdivision"
- In order to facilitate dairy business in the state of Assam, the scheme ***Establishment of Commercial Dairy Units*** is being implemented by the department which will support 17 nos of progressive dairy entrepreneurs. This is expected to enhance the milk production in the state and promote scientific dairy farming
- In the financial year 2022-23, 1.16 lakh doses of **Sex Sorted Semen was procured by the Dairy Development, Assam w**hich will result in production of about 50 thousand female calves. In the financial year 2023-24 also, 1.00 Lakh sex sorted semen for an amount of Rs. 810 lakh was procured. This initiative is undertaken to increase the female population of high yielding breeds and productive cattle which is expected to increase the milk production in the state.
- Processing capacity was established by the Dairy Development Department, Assam and is to be operationalized in collaboration with WAMUL (West Assam Milk Producers Union Limited).

Table: 8.11

7	Production of 2 nos. of documentaries on Implementation of Sex Sorted Semen	2 documentaries	10.00
8	Establishment of Milk Processing Unit, Jorhat	1 unit	123.00
Total			**3334.13**

Source: Directorate of Diary Development, Assam

Scheme wise targets and achievements under World Bank Aided Project (APART) for the last three years.

Dairy in the state is characterized by rural smallholder and subsistence production systems along with specialized dairy production belts (with improved cattle) in urban and peri-urban areas. The traditional market (informal) with either fresh liquid milk or milk products accounts for about 95% of the market opportunities for farmers. It is thus apparent that the development of the traditional market will be extremely important for the Assam dairy sub-sector as it transits to a more formal way of operating, and therefore it is necessary to inject interventions that could facilitate improvement of the market. The major objective of the Dairy Development Department under the Assam Agribusiness and Rural Transformation Project (APART) is the transformation of the informal Dairy Value Chain into a formal one through improved resilience in Production, Quality, Safety and Standards of Milk by adding value to the product with particular focus on informal market actors and dairy entrepreneurs in targeted project districts.

The project districts covered under APART - Dairy Development are Nagaon, Sonitpur, Barpeta, Karbi Anglong, Kamrup, Dhubri, Golaghat, Kokrajhar, Lakhimpur, Darrang, Cachar, Hailakandi, Sivasagar, Jorhat, Goalpara, Morigaon, Nalbari, Bongaigaon and Bajali.

To achieve the project objective, the Directorate of Dairy Development has taken up the following activities with support from knowledge partner, International Livestock Research Institute (ILRI), Kenya:

1. Market assessment through mapping of market actors of informal Dairy Value Chain through Physical assessment of the distribution of market actors in 19 project districts.
2. Assessment of human health risk in Dairy Value Chain with particular focus on the informal sector before and after interventions by assessment of the magnitude of risk from Milk and Milk Products, assessment of adulteration, microbial load, antimicrobial residue and aflatoxin, assessment of the prevalence of zoonotic pathogens like Brucella, Mycobacterium etc. and identification of critical control points.
3. Improvement and strengthening of the Lab infrastructure in dairy plants for checking quality and safety of milk /milk products traded by informal market actors. Improvement in quality in the traditional market will raise the demand and value of the products and thus income and employment. It will also help facilitate the evolution of the traditional market towards the more regulated and organized market.
4. Design, Development and Printing of training manuals for Informal Milk Market Actors, protocols for Training of Trainers (ToT), capacity building of Govt. Officials on Laboratory Technology with support from International Livestock Research Institute (ILRI).
5. Training of milk market actors – Training of milk market actors in targeted project districts on improved package of practices for quality and hygiene. The milk market actors comprise Milk Producers, Milk Traders, Sweet Makers, and Cottage Processors.
6. Formation of DCS among the interested trained Milk Producers - The transformation is sought to achieve through mobilizing the informal Dairy value chain through the strengthening of the existing Dairy Cooperatives Societies, the formation of new Dairy Cooperatives Societies wherever feasible and register them under the Assam Cooperatives Registration Act. They will be supported with capacity up-gradation, input services, market access and other linkages in the Milk value chain.

7. Linkages and Support to Market actors to run their business efficiently by providing input support and recognition for adoption of improved practices.
8. Assessment of critical need gap of existing DCS and arrangement for need-based support. Need-based interventions/ support will be provided for capacity building, value addition and technical up gradation.
9. Demonstration of Mastitis and Reproductive Health Management camp on a pilot basis to create awareness among the dairy farmers regarding diagnosis and management of mastitis and reproductive diseases in targeted clusters.

Scheme wise targets and achievements (Both financial and physical) under World Bank Aided Project (APART) for the last three years.

Table: 8.13

CHAPTER – IX

FISHERIES

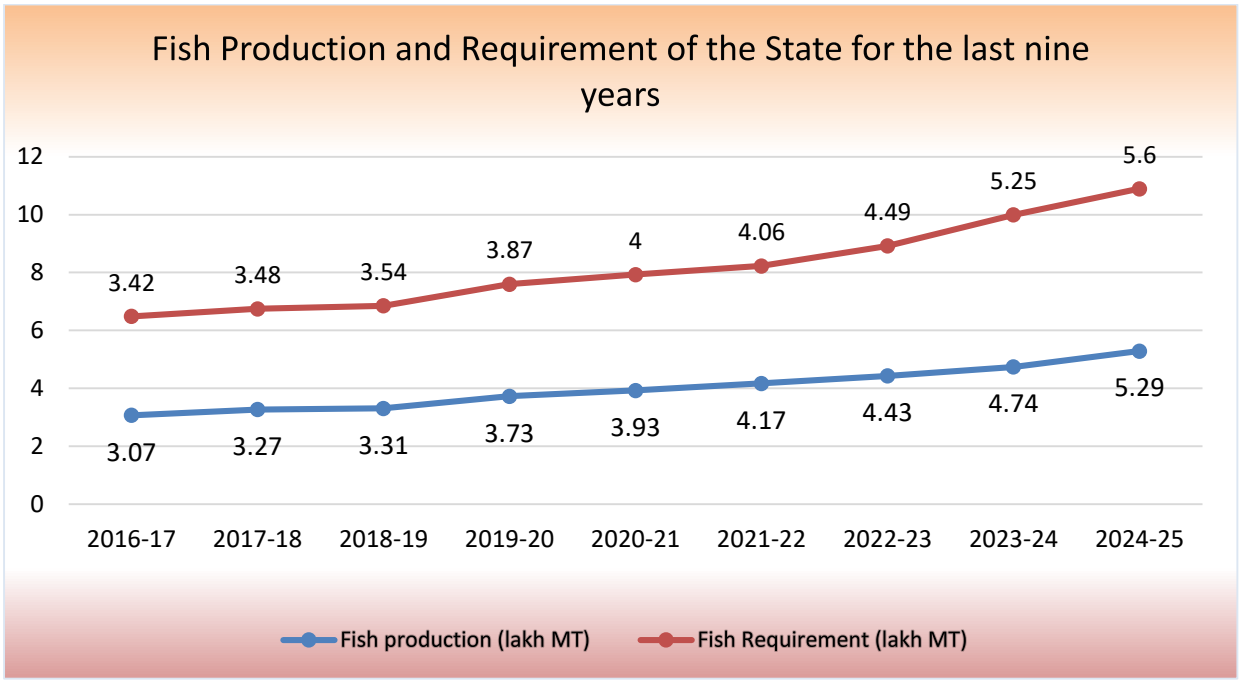

The fishery sector in Assam occupies a significant place in the Socio-economics development in the State. It has been recognised as a vital sector for both income and employment generation. Assam is endowed with vast water resources in the form of ponds, derelict water bodies and beels/floodplain wetlands etc. covering 2.59 lakh hectares. Besides this the two major river systems i.e., the mighty Brahmaputra and the Barak with its tributaries which spread up to 11304 Km as a riverine Fishery. Thus, the entire water spread areas have immense opportunities to boost fish production and promote ample employment opportunities as well as livelihood to the society and nutrition to the individual health. There are also 216 freshwater fish species and over 50 species of ornamental importance.

Considering the socio-economic importance of the sector and the untapped natural fishery resources of the State, both the Central and State Governments have given special thrust to this sector to make the state self-sufficient in fish production as well as to make the State, a hub of fish export to the neighbouring states and the countries. Accordingly, the State Fisheries Department has been implementing several development schemes and programmes for sustainable development of the sector playing an important role in solving various issues of the fish farmer and fishery entrepreneur contributing technical backstopping as well as facilitating financial and material help to them and thereby creating ample scope of employment opportunities.

Source: Department of Fisheries, Assam

The state has achieved a fish production level of 5.29 lakh MT in 2024-25 with an increase of per capita consumption to 15.22 Kg from 13.72 Kg in the previous year 2023-24. As more than 90% of the state population is fish consumers, there is a huge demand for fish throughout the year and there is an ever-increasing scope of harnessing the fish production potential to the optimum level in a sustainable manner.

Source: Department of Fisheries, Assam

RELEVANCE OF THE SECTOR IN THE STATE ECONOMY

The Gross State Domestic Product (GSDP) and Net State Domestic Product (NSDP) of the Fishing and Aquaculture sector are shown in Table-9.1.

Table- 9.1

Figure Rs. in Lakh

Fishing and Aquaculture	Constant Price (2011-12) Prices			Current Price		
	2022-23 (PE)	2023-24 (QE)	2024-25 (AE)	2022-23 (PE)	2023-24 (QE)	2024-25 (AE)
GSDP	770569	822920	875834	1555470	1737315	1942977
NSDP	710089	754115	800990	1475784	1647941	1688261

Source: Directorate of Economics and Statistics, Assam

In the year 2022-23(PE), the contribution of GSVA of the Fishery and Aquaculture sector to the State's GSDP at the current price was Rs. 1555470 lakh and it is expected to increase Rs.1942977 Lakh in 2024-25(AE) with an annual growth of 12.5 percent. At constant (2011-12) prices, the GSVA of this sub-sector to State's GSDP was Rs.770569 in 2022-23(PE) and it is expected to reach at the level of Rs.875834 with an annual growth of 6.8 percent. the share of the fishing and aquaculture subsector to GSVA of the agriculture and allied GSVA for the year 2024-25 accounts for 15.7 percent at current prices against 19.7 percent at constant (2011-12) prices.

The contribution of this sub-sector to total GSVA of the State was 3.5 percent at current prices for the year 2022-23(PE) against 3.0 percent at constant (2011-12) prices

The major functions of the Department for the overall development of the fishery sector are:

- To increase fish and quality fish seed production in the state with optimum utilization of resources
- Implementation of Fishery related schemes of the Government of Assam and Government of India,
- To identify and promote research and studies on fisheries and fishery-related areas so that benefits can be disseminated to the grass-level users,
- To collect, compile, analyze and make available adequate/relevant statistical and other information for proper planning to promote fish farming and related industries/activities,
- To prepare/support in preparation/project reports and proposals related to Fisheries and fishery-related industries,
- To provide extension services to Fish farmers/fishermen and fishery entrepreneurs.

PRESENT STATUS OF DEVELOPMENT AND MANAGEMENT OF RESOURCES

Fish production in the state has reached a level of 5.29 lakh MT during the year 2024-25 against the estimated nutritional demand of 5.25 lakh MT considering per capita consumption of 15.22 Kg/yr. The Department has taken some fish production enhancing strategies such as horizontal expansion of the fish culture area through the creation of New Pond construction, New Rearing Tank construction, Reclamation and Renovation of existing areas for pisciculture and converting low lying area to Community Tank. Further, emphasis has been given to the adoption of advanced technologies such as Recirculatory Aquaculture System (RAS), Biofloc, and Recreational Fishery etc. along with diversification of cultural techniques.

River ranching programme, and fingerling stocking at wetlands are also introduced as special activities under Pradhan Mantri Matsya Sampada Yojana (PMMSY) for augmenting and enhancing the natural productivity of river and beel through the release of quality fish seed. Simultaneously, the pen and cage culture activities are implemented under the CMSGUY scheme in some beel and wetland.

The revenue fisheries, i.e. rivers and beels are at present under the control of Assam Fisheries Development Corporation Ltd; Fisheries Administrative Departments, Government of Assam; Deputy Commissioners and Sub-Divisional Officers (Civil) and Panchayats through leasing out to individual /Co-operative societies. Moreover, few farms and low-lying areas are managed by FISHFED by itself or through leasing.

Table-9.2

Brief descriptions of the schemes/programmes implemented by the Fishery Department in the last three years are:

A. State Owned Priority development (SOPD) schemes

1. Fish & Fish Seed Farming

This is one of the major schemes implemented by the Department for the enhancement of fish and fish seed production along with other related activities and infrastructure development. Various programmes have been taken up under this scheme for the enhancement of fish and fish seed production. The following major beneficiary-oriented activities have been implemented under this scheme including general area and SCSP:

a) Extension of fish culture area
b) Upgradation and renovation of the Departmental Farm
c) Input and material Supply for increasing Fish productivity in Beneficiaries Pond as well as in departmental Farms

d) Development of water bodies through co-operative society under SCSP and supply of fish culture input in existing ponds under TSP

Additionally, a five-year project titled "Gene Bank - Scientific Conservation Programme for Indigenous Fish (SCoPIF)" is being implemented covering both experimental and natural habitats by involving the College of Fisheries, Raha. The project aims at conserving the fish biodiversity of the State with a scientific approach for the development of standardized propagation technology for selected endangered fish species to suit the local environment, developing a directory of indigenous fish species along with a database and establishing a fish gene bank.

2. Fishery Extention Service

Activities like the engagement of Matsya Mitra (Contractual Fishery extension worker); observation of National/International Fish related festivals etc., advertisement, publicity, Organisation/participation in the exhibition including publication of the Annual Administrative Report etc. are mainly implemented through this scheme.

3. Marketing and Transport of fish

Marketing of fish in hygienic conditions is one of the important aspects for consumer safety as well as encouraging more and more people to take up fisheries as a livelihood. The development of fish marketing infrastructure in the form of hygienic fish markets and retail outlets has been taken up under this scheme.

B. Rural Infrastructure Development Fund (RIDF): Department of Fisheries, Assam has been implementing different fishery-related infrastructure development programmes under NABARD instituted Rural Infrastructure Development Fund (RIDF), contributing towards agricultural growth, rural connectivity and other social sector development. Under RIDF-XXVI, 3 major projects have been implemented and under different stages of achievement. The schemes are (I) 4-wheeler refrigerated Fish Carrying Vehicles with a physical target of 70 vehicles (II) the Establishment of 44 Mini Fish Feed Plant and 5 Medium Fish Feed Plant and (III) 3- Wheeler fish carrying vehicles with insulated Ice Boxes.

In addition, the NABARD has accorded sanction for the development of 23 departmental existing fish farms under RIDF-XXVIII with an approved fund provision of Rs. 6413.96 lakh. The scheme will be implemented shortly.

C. CENTRALLY SPONSORED SCHEMES

I. Pradhan Mantri Matsya Sampada Yojana (PMMSY): The PMMSY is an umbrella scheme with two separate components namely (a) Central Sector Scheme and (b) Centrally Sponsored Scheme (CSS) component is further segregated into non-beneficiary oriented and beneficiary oriented scheme. Non-beneficiary-oriented component to be implemented by the State Government, the entire project cost will be shared between centre and state as 90% central share and 10% state share. In beneficiary-oriented components, the fund sharing pattern is 60:40 (Beneficiary share: Govt. share) for the general category and for SC/ST/Women category fund sharing pattern is 40:60 (Beneficiary share: Govt. share). The following are the main components implemented under PMMSY:

a. Construction of new pond under NEH
b. Construction of New Rearing Pond
c. Establishment of fish seed hatchery
d. Establishment of Fish Feed Mill/ Plant
e. Inputs for fish farming
f. Fingerling stocking in wetlands
g. Construction of Backyard/ Integrated Ornamental unit
h. Livelihood support to traditional fishers
i. Freshwater pearl farming
j. Boats and nets for fishers
k. Fish kiosk
l. Mini feed mill (two tonnes/day)
m. Pen culture in open water bodies

II. NATIONAL WELFARE FUND FOR FISHERMEN

Group Accident Insurance Scheme (GAIS) Under PRADHAN MANTRI MATSYA SAMPADA YOJANA (PMMSY)

Group Accident Insurance Scheme (GAIS) is now a sub-component of Pradhan Mantri Matsya Sampada Yojana (PMMSY) from 2020-21 and its implementing authority is the National Fisheries Development Board (NFDB) which was earlier implemented by FISHCOPFED. Fishermen, fish workers, fish farmers and any other categories of persons directly involved in fishing and fisheries-related allied activities collectively called "Fishers" are covered under the Group Accident Insurance Scheme (GAIS). Men or women fishers who are in the age group from 18 years to 70 years as identified by the State/UT fisheries department are insured under the scheme in two Policies i.e. Group Janata Personal Accident Insurance (GJPA) and Special Contingency Policy**.** Under GJPA the fishers shall be eligible for insurance coverage up to Rs.5.00 lakh for "Death" or "Permanent total disability". Under the Special Contingency Policy, it is up to Rs. 2.50 lakh for "Permanent partial disability" and Rs. 25,000 for "Accidental hospitalization". The premium for both policies is free for the insurers. The premium will be borne by and shared between the Central and State Governments in the ratio of 90:10 for North Eastern and Himalayan States. The Insurance cover will be for a period of 12 months and the premium shall be paid annually.

D. FISHERY MISSION SOCIETY UNDER CMSGUY

The Fishery Mission Society for Chief Ministers Samagra Grammya Unnayan Yojana (FMS-CMSGUY) is an autonomous Society under the administrative control of Mega Mission Society for Chief Minister Samagra Gramya Unnayan Yojana (MMS-CMSGUY) and Fisheries Department, Government of Assam. It is formed to contribute to achieving the goal of doubling the farm income of fish farmers in Assam in terms of fish and fish seed production by developing existing water resources through effective resource utilization scientifically and the creation of additional water bodies for large-scale fish production in a scientific way. The Fishery Mission Society also aims at Quality fish seed production and distribution at the farmer's doorstep and conservation of native, endangered and indigenous fish species by diffusing useful knowledge and extending doorstep technical support.

Ongoing Projects under FMS-CMSGUY:

1. Supply of inputs to RIDF-XXIII Project Beneficiaries for two years (Convergence Programme)
2. Capacity building of farmers under "Ghare Ghare Pukhuri Ghare Ghare Maach".
3. Cage Culture in Selected Beels of Assam (phase-I, 2020-21)
4. Cage Culture in Selected Beels of Assam (phase-II, 2021-22)

E. ASSAM AGRIBUSINESS AND RURAL TRANSFORMATION PROJECT (APART)

Sub-Component: Fisheries Value Chain

The fish value chain is to be implemented by the Department of Fisheries and the district ATMA, in collaboration with the World Fish Centre (WFC) and private sector partners. This sub-component will focus on: (i) improving the quality of the inputs such as fish seed and feed for aquaculture, (ii) increasing the fish productivity and production from the pond/tank aquaculture systems, (iii) increasing fish production through culture-cum-capture fisheries activities in the beels, (iv) promoting diversification of fish species – particularly genetically improved strains - in combination with Indian major carps in the culture systems, (v) improved post-harvest management, value addition and marketing of produce by setting up fish farmer common service centres (CSCs.).

F. Kisan Credit Card (KCC) to Fish Farmers: The Union Government, in the budget 2018-19 announced their decision to extend the facility of KCC to the farmers of Animal Husbandry and Fisheries to help them acquire loan from commercial banks, RRBs, Small Finance Banks and Cooperatives for readily purchasing pisciculture inputs such as fish seed, fish feed, lime, medicines, net, boat, vessels, bicycle/tricycle with vessels for fish harvest and for fish marketing purposes. The District-level machinery of the Fishery Department facilitates and guides the fish farmers, fishers and fish traders to obtain KCC and to submit applications to the banks in a holistic approach.

Achievements under the Schemes/Programmes implemented during 2024-25 are as follows:

SOPD: Under SOPD, the project "Gene Bank for Indigenous Fish" is being implemented through college of fisheries, Raha, under Assam Agriculture University aiming at scientific conservation for indigenous fish. Ongoing works of 6 nos Wholesale cum Retail Fish Market have been completed in the districts viz. Barpeta, Dhubri, Goalpara, Dhemaji, Morigaon and Bongaigaon. Department has established a state of the art aquarium house at Srimanta Sankardev Kalakhetra, Panjabari, Guwahati.Under SOPD the major activities includes procurement of input like fish feed, quality seed for ten departmental farms with expenditure amounting to Rs. 18.08 lakh. Seventy three nos. of youth are re-engaged temporarily as matsya Mitras for extension support to fish farmers. To check presence of chemical like formalin. Formalin testing kit and fridges preserving it has been purchased. Expenditure of Rs. 9.17 lakh has been made for this purpose. Besides, expenditure of RS. 35.00 lakh has been incurred for construction of Echo hatchery, Nursery tanks etc. for development of Garukhuti Bahumukhi Prakalpa.

Pradhan Mantri Matsya Sampada Yojana (PMMSY): PMMSY is the important flagships programme of the Government of India implemented by Fishery department and the State

has been implementing this scheme since 2020-21. Under this programme, the major activities already completed during 2024-25 are:

1. 11 Nos of Freshwater Fin Fish Hatchery established.
2. Construction of 714 hectares of new Ponds and rearing ponds.
3. 28 Nos of Fish feed mills has been commissioned.
4. 19 Nos. of Biofloc and RAS has been completed.
5. 38 Nos. of Fish Kiosk has been completed.
6. 28 hectares of Pen culture has been completed.
7. 33 hectares of fish seed stocking in beels completed.
8. 76 Nos. of cycles and Motorcycles with ice box completed.
9. Three wheelers with 55 nos of ice box have been completed.
10. Establishment of 3 numbers of Matsya Seva Kendra and distribution of 42 Nos. of boat and Net Completed.
11. 17795 numbers of Fisheries families received direct financial support for their livelihoods.

APART: Under this World Bank funded project input and material support have been provided in 120 ha of existing pond covering 169 beneficiaries through demonstration of polyculture technology of fish and 230 ha of beel fisheries have been developed for enhancing productivity of the beel covering about 945 community members by technology demonstration in beel fisheries. Under Fishery Value Chain, a total of 25 numbers Farmers Producer Company (FPC) are registered with the shareholders of 10836 farmers where main thrust of the FPC is on production and management of quality fish seed, production of fish feed by using local ingredients and the production and marketing of fish value added products. Moreover, Climate Resilient Paddy cum Fish Culture has been practiced in 100 ha. The project achieved 150 ha high yielding varieties seed rearing unit which helping the 294 beneficiaries for producing quality fish seed.

RIDF: Aiming to make available locally produced fish feed, 22 mini and three medium fish feed mills are constructed in different districts. For rapid transportation of harvested fish to the markets, 351 three wheelers vehicles with insulated ice box targeted for distribution to the beneficiaries from various districts under RIDF schemes and 231 vehicles already supplied. 190 hectares of ponds and tanks are being made. Financial credit of RS. 53.51 crores has been sanctioned and disbursed to around 9697 fishers by different bank branches across the state with hand holding support from the department.

KCC: KCC in the fisheries sector provided 9668 numbers of Kishan Credit Cards to Men and Women amounting to Rs. 53.24 Crores since its inception on 2020 February till date. The special drive to provide KCC is going on. People are involved in the fishery sector for their livelihood and availing this bank loan scheme with lucrative interest subvention.

GROUP ACCIDENT INSURANCE SCHEME (GAIS): Total 193265 men and woman within age group of 18 to 70 years who are involved in fishery activities for their livelihood are insured under Group Accident Insurance Scheme (GAIS) during the year 2024-25. These people will be secured with incentive of Rs. 5 lakh for any type of accidental death, upto Rs. 2.5 lakh for accidental partial total disability and upto 25000 for accidental

hospitalization. Already 4 such insurance claims have been settled amounting to Rs. 15.23476 lakh.

SCHEMES /ACTIVITIES PROPOSED FOR THE YEAR 2025-26

Major activities proposed under various schemes are as follows:

State Own Priority Development (SOPD) schemes:

A. Fish and Fish Seed Farming (Gen): Activities include supply of input for fish and fish seed production to 12 departmental farms.

- Procurement of formalin testing kits and fridge for storage.
- Fishery development in Garukhuti Bahumukhi Krishi Prakalpa, Darrang.
- Implementation of ongoing Project- Gene Bank- Scientific Conservation Programme for Indigenous Fishes (SCOPIF).
- Fish culture inputs in 14 ha existing pond have been proposed.

B. Fishery Extension Service: Continuation of the extension support system through the engagement of 73 Matsya Mitras, a training cum awareness programme for farmers and youth on fish farming with special emphasis on the uses of Amrit Sarovar.

C. Head Quarter Establishment: Activities related to disaster risks, reduction like procurement of fire extinguisher, awareness programme for disaster preparedness and re-electrification of the Headquarters etc. have been proposed.

D. Rural Infrastructure Development Fund (RIDF): The development of 19 nos. and 17 nos. of Departmental Fish farms are proposed under RIDF- XXVIII and RIDF- XXIX recently.

E. Pradhan Mantri Matsya Sampada Yojana (PMMSY): Under PMMSY the following major development activities are proposed for the year 2025-26:

b. Construction of new rearing ponds. The proposed area is 210 ha.
c. Livelihood support to traditional fisheries of 21000 nos.
d. 1(One) Fish value-added enterprise unit established.

One externally aided project namely the "Sustainable Wetlands & Integrated Fisheries Transformation (SWIFT)" project under the Asian Development Bank is in progress and already loan sign agreement between ADB and GoI was completed on 28th November, 2025. The tender process for development of selected wetlands in under process.

Another externally aided project namely "Assam Fisheries Development and Livelihood Project" under the Japan International Co-operative Agency (JICA)" is also in progress and loan signing between JICA and GOI was completed on 27th March, 2025 and loan agreement has become effective from 9th July 2025.

CHAPTER-X

FORESTRY

Assam is a rainbow state with blue rivers and green hills, a unique bio-diversity treasure house of rare flora, fauna, and forests. This land is described as "Mung-Dun- Chun- Kham" or the "Country of Golden Land" by the Ahom Rulers. Forest and trees are the very basis of life on our planet. Forestry is a vital sector of the State. The United Nations Forum on Forests 15 recognizes that over 1.6 billion people depend on forest for subsistence, livelihood, employment and income generation and recognised that forests provide a wide range of goods and services which create opportunities to address many of the pressing sustainable development challenges. The role of forests and trees in the provision of goods for rural communities is fundamental to their wellbeing and food security. Continuum of forest states exists between primary natural forests and plantation all of which can supply wood, fibre, fuel wood, and non-wood forest products as well as provide important ecosystem services such as biodiversity conservation, climate regularisation, carbon storage and water supply. Plantation are able to efficiently produce high quantities of wood products that may alleviate pressure on natural forests, create job that support rural development and provide range of ecosystem services, especially when established on degraded lands.

Assam, a state characterized by its hills, valleys, and a complex river system dominated by the mighty Brahmaputra, boasts a diverse range of habitats, from tropical evergreen rainforests to subtropical forests. According to the National Forest Policy, the Forest Department is responsible for managing the forests, forest products, and wildlife within the state's constitutional framework. Covering an area of 78,438 square kilometers, Assam features four distinct physiographic units: the Brahmaputra Valley, the Barak Valley, the Karbi-Anglong Plateau, and the North Cachar Hills, all of which are rich in flora and fauna diversity.

Forestry plays a significant role in Assam's economy. Under the constitutional provisions, forestry is part of the concurrent list, granting the Forest Department the authority to manage forests, their products, and oversee wildlife development. The issues of environmental protection and the conservation of natural resources—particularly flora and fauna, including medicinal herbs and shrubs—have become increasingly important from both commercial and conservation perspectives due to their extensive use in natural products.

Conservation of forest was given importance since the times of earliest rulers. The state of Assam is one of the most well-known sites in the world for unique wildlife. The conservation of various species of endangered wildlife is always a challenging task. Assam is harbouring the big mammals – like Rhino, Tiger, Gangetic River Dolphin, Asiatic Buffalo etc. The state of Assam is enriched with extensive forest area and wealth like valuable forest products and also rich with different species and strains of flora and fauna. People of Assam from time immemorial have also depended upon the forest to meet their daily needs. The government of India enacted Schedule Tribes and other forest dwellers (Recognition of forest rights) Act 2005, for recognition of rights of Schedule Tribes and other forest dwellers living in forest fringe villages from centuries on their rights to use forest resources.

Assam is home to a diverse range of forests, including evergreen, semi-evergreen, mixed deciduous, moist forests, dry Sal forests, riverine forests, moist savannahs, dry savannahs, and other miscellaneous forest types. According to the National Forest Policy, the minimum desired forest cover for proper environmental and ecological security is 33% in the tropical zone, 60% in the Himalayan and peninsular regions, and 20% in the Great Plains. Biodiversity estimates for Assam reveal a rich variety of plant and animal species found within its forests. The following table illustrates the state's significantly rich biodiversity.

Table- 10.1

Plants and Animals and their species in Assam

Sl. No.	Biodiversity Particulars	Estimated no. of species
1	Flowering Plant	3017
2	Wild Orchids	193+
3	Bamboo	42
4	Canes	14
5	Mammals	164+
6	Primates	10
7	Birds	800 (280 migrants)
8	Amphibious	60+
9	Butterfly	1500 (approx)
10	Reptiles	116 (approx)

Source: PCCF & Head of Forest Force, Assam

RECORDED FOREST AREA:

Recorded Forest Area includes all area recorded as forest in Govt. records. Both Forest cover and Recorded Forest Area (RFA) describe the extent of forest but have different meanings. The 'Forest Cover" refers to all tree patches that have canopy density of more than 10% and area of one hectare or more in size, irrespective of land use, legal status and ownership. It may include orchards, bamboo, and palms etc. The total recorded forest area in Assam is 26,836 square km. which is 34.21% of the total geographical area of Assam and 0.82% of the geographical area of the country. As per PCCF, out of total recorded forest area, total reserved forest area of the state is 12,808.17 square km. and Un-classed State Forest constitutes approx.14,028 square km which is 47.72% and 52.28% respectively of the total recorded forest area of the state. It is significant that as per ISFR 2023 assessment, except Mizoram and Sikkim, other North Eastern states have lost their Forest cover. The lost area of forest of these states were (1) Arunachal Pradesh 52.49 Sq km, (2) Assam 83.92 Sq. km, (3) Meghalaya 84.07 Sq. km, (4) Manipur 62.20 Sq (5) Tripura 100.70 Sq. km, (6) Nagaland 125.22 Sq. km.At the same time, an increase in Forest Cover of (7) Mizoram 178.42 Sq. km. and (8) Sikkim 2.88 Sq.km. was seen. Assam has witnessed a decrease of Dense Forest but an increase of Open Forest and Tree Cover as per assessment in 2023 by Forest Survey of India, Dehradun over its previous year ISFR 2021.

Some key statistics of Assam Forest

Total Recorded Forest Area (RFA) in Assam	: 26,836 (34.21% of State Geo. Area)
Total nos. of Reserved Forest	: 320 Nos.
Total Reserved Forest Area	: 12808.1735 sq km
First Reserved Forest created in the state	: Year 1878
Proposed Reserved forest (PRF)	: 126 Nos.
Total area of PRF	: 890.76 sq. km
Un-classed forests	: 14,028 sq. km.
National Parks	: 8 nos.
Wild life sanctuaries	: 17 nos. &+5.nos. proposed WLS
Total area of national parks (8 nos.) & Wildlife Sanctuaries (17 nos.)	: 5459.382 sq. km (6.96% state Geographical area)

Source: PCCF & Head of Forest Force, Assam

FOREST AND TREE COVER:

The total Recorded Forest Area (RFA) in the country as per ISFR 2023 spreads across 7,75,377 sq. km. which is 23.59 % of the geographical areas of the country. According to Forest Survey of India (FSI) Dehradun, 2023 the forest cover of Assam has decreased by 83.92 sq. km. compared to the forest cover as assessed in 2021. As per 2023 ISFR assessment, Very Dense Forest was 3189.71 Sq.km, Moderately Dense Forest was 9764.54 Sq.km and Open Forest was 15359.3 Sq km. Some more details about forest and tree cover statistics of the state of Assam as per ISFR 2023 are furnished below

Statistics of forest and tree cover in Assam as per ISFR 2023.

Recorded Forest Areas (RFA)	: 26,836 Sq. km.
Recorded Forest Area cover to Geographical area	: 34.21%

Forest Cover to total geographical area	: 36.09%.
Reserve Forest area	: 12808.17355 Sq km.
Encroachment area	: 2996.6115 Sq km.
Area under Very Dense Forest Cover	: 3189.71 Sq. km.
Area under Moderately Dense Forest Cover	: 9764.54 Sq. km.
Area under Open Forest	: 15,359.3 Sq .km.
Scrub	: 240.93 Sq.km.

Source: PCCF & India State forest report, 2023.

The State has witnessed significant change in composition of its forest cover during last few assessments made on biennial basis. For the sake of comparison, the area under different forest cover type assessed during 2015, 2017, 2019, 2021 and 2023(Table No. 10.2) may be referred. As per the assessment of 2023, very Dense Forest increased by 172.71 Sq. km. and Open Forest by 55.3sq. km. as compared to 2021 ISFR assessment. At the same time, Moderately Dense Forest has decreased by 226.46 sq.km.

Table -10.2
TREND OF FOREST COVER IN ASSAM

(Area in square km.)

Item	Very Dense Forest	Moderately Dense Forest	Open Forest	Scrub	Non-Forest	Geographical Area
As per Assessment in 2015 ISFR	1,441 (1.84)	11,268 (14.37)	14,914 (19.01)	384 (0.49)	50,431 (64.29)	78,438 (100)
As per Assessment in 2017 ISFR	2797 (3.57)	10192 (12.99)	15116 (19.27)	217 (0.28)	50116 (63.89)	78,438 (100)
As per Assessment in 2019 ISFR	2795 (3.56)	10279 (13.10)	15253 (19.44)	173 (0.22)	49,938 (63.66)	78,438 (100)
As per Assessment in 2021 ISFR	3017 (3.85)	9991 (12.74)	15304 (19.51)	228 (0.29)	49898 (63.61)	78438 (100)
As per Assessment in 2023 ISFR	3189.71 (4.06)	9764.54 (12.45)	15359.3 (19.58)	240.93 (0.31)	49883.53 (63.60)	78438 (100)

Figure-II

Forest and Tree cover outside recorded forest area (in sq. km.)

Tree Outside Forest in India (TOFI) a new initiative of the Government toward forest cover:

Tree Outside forest in India (TOFI) is a new initiative of the Government. State Govt. also participating in this programme to ward forest cover in Assam outside forest. It is a five years joint initiative by United State Agency for International Development (USAID) and Ministry of Environment, Forest and Climate Change (MoEFCC) of the Govt. of India with a united force consortium partners led by CIFOR-ICRAF, the initiative committed to expanding the area under tree outside forest for the benefit of livelihood and ecosystem in the seven states i.e., Andhra Pradesh, Assam, Haryana, Odisha, Rajasthan, Tamil Nadu& Uttar Pradesh. This is an effort to support global climate change mitigation and adaption goals. Assam also hopes that participating with this type of joint ventures will increase coverage of trees forest area up to 38% and help to create a sustainable eco-friendly zone & economic environment in the state. Moreover, the Chief Minister of Assam is also very much concerned about the forest coverage and climatic condition in the state. Launching of Chief Minister Institutional Plantation Program (CMIPP), 2022 with a same objective initiated plantation of native plant species named as 'Amrit Briksha" in the different institutional premises, coinciding with 'the Azadi Ka Amrit Mohotsava".

Amrit Briksha Andolon, 2023-A new initiative toward green economy of Assam.

In Assam's efforts to build a green economy, 8 June, 2023 would be marked as a red-letter day as Hon'ble Chief Minister of Assam announced to launch the "Amrit Briksha Andolon", 2023 on that day. To create a revolution among the people in respect of strengthening the economy through forest/ plantation of commercially viable trees, the focus has been laid on commercial tree species suitable for timber, plywood making, medicinal and some more valuable trees like Chandan, Baga Chandan, and fruits which are abundantly grown in Assam. Amrit Briksha Andolon was successfully carried out on 17th September, 2023 with "Jana bhagidary" model where Self-help Group, ASHA worker, Anganawadi Worker, Mahila Samitee, Educational Institutions, Tea Garden workers and Government officials were involved actively to successfully plant more than 1 crore plantation within 24 hours.

A total of **9 Guinness World Records** were established during the plantation.

1)Longest line of potted sapling (total 3,22,444nos) **2)**Largest number of saplings distributed (total 322444nos) at one venue in 24 hours **3**)Highest number of trees planted by a team (total 921730 nos.) in 24 hours **4)**Most trees planted by a team (total 331929 nos.) in one hour **5)** Largest potted sapling mosaic (this is a new category in Guinness world Record) **6)** Most people planting trees simultaneously (total 1229 nos. Agar seedlings simultaneously in just 58 seconds)**7)** Most viewers of environmental sustainability lesson which was live streamed on You Tube **8)** Largest photo album of people planting trees(total 7182358 nos. unique image with unique faces with planting have been uploading in Amrit Briksha Andolon portal)and lastly **9)**Most pledges received (47,28,898 nos.)for an environmental sustainability campaign. It is expected that such type of plantation would help the common people of the state to meet their future need.

3-PRONGED BENEFITS

The state of Assam will reap three-pronged benefits from the historic Amrit Brikshya Andolan- Greener Assam, Battling Climate Change and Economic prosperity.

GROWING STOCK IN ASSAM STATE FOREST:

In simple terms, growing stock is the value of all living trees in the forest area. Periodic estimation of the growing stock of wood is essential for developing National policies and strategies for the sustainable use of forest resources. Growing stock is an indicator of the sustainability and productivity of the forest. Estimation of growing stock inside the forest and outside the forest is essential for the assessment of the volume of timber or sustainable use by the people. As per 2023 estimation report, it reveals that the recent growing stock of Assam both inside and outside the forest, is 120.274 million Cum. and 24.94 million cum (total 145.214 million cum) respectively. Table 10.5 shows the growing stock of the state. It is revealed from the Table that the ever-increasing stock in the state has increased in 2023 w.r.t ISFR 2021 assessment.

Table-10.5

Growing stock of forest in Assam

(In million Cum.)

Growing Stock (GS)	2021 Assesment	2023 Assessment	Change w.r.t 2023
Growing Stock in Recoded Forest Area	112.68	120.274	7.594
Growing Stock in TOF	23.94	24.94	1
Total	136.62	145.214	8.594

Wetlands in Reserved Forest and its influence in state economy:

Wetlands are unique ecosystems that provide water and habitat for a diverse range of plants and animals. These areas of land are either temporarily or permanently covered

by water and are a crucial component of the natural resources within our ecosystem. Currently, there are 7,313 wetlands (excluding rivers and streams) in Assam, covering an area of 2,43,791 hectares, according to sources from the forest department. This extensive network of wetlands plays a significant role in Assam's economy, particularly in supporting the animal husbandry and fishing sectors, which are vital for the rural livelihoods in the state.

Bio-diversity of forest in Assam:

Forest biological diversity refers to the diversity within forests at three levels. It includes all species of plants, animals and microbes occurring in the forest, not just the tree species. If we take an over view of Assam's Forest diversity then we witness the following diversity i.e., Orchid diversity, medicinal plant diversity, Cane diversity, Aquatic plant diversity, the rich Faunal diversity, Mammalian diversity, Primate diversity, Avian diversity, Reptilian diversity, Fish diversity, Molluscan diversity and many more. In short, we may mention that there are 293 nos. orchid, 38 nos. naturally growing bamboo,14 nos. of cane ,952 nos. of medicinal plants,193 nos. species of mammalian, 100 nos. aquatic species are found in the forest of Assam. Moreover, out of 15 Indian primate species 9 are found in Assam. Besides these, the Molluscan diversity is one of the most beautiful creatures on the earth. The IUCN has identified NE Zone as a rich zone of Swallowtail butterfly under "Swallowtail conservation action Plan". As per reports by the IUCN there are 284 species of plants are to be critically endangered, 149 species as endangered, 58 species as vulnerable and 13 species are nearby threatened. In view of this, biodiversity of the state needs to be rebuild again. In this respect the state forest department has identified few thrust areas and initiated the following actions:

- Preservation of the existing bio diversities.
- Arresting the trend of existing degradation and reverting to the process of reforestation and extension of the forestry with multiple stake holders.
- Preservation and development of the existing protected area network and their expansion in suitable areas.
- Development activities and research in forestry and wildlife.
- Bridging the gaps in infrastructural and logistical fronts.

BAMBOO RESOURCES IN THE FOREST OF ASSAM:

Bamboo the most versatile group of plants in the grass family belongs to the sub-family bambusoideae of the family of Poaceae (Gramineae). Bamboos are one of the fastest growing perennial plants in the world. The North East region of India has the highest concentration of bamboo, accounting for more than 60% of the total bamboo resources of the country as a whole. Assam is rich in bamboo resources and most of its forest is richly stocked with bamboo and cane of various species. Assam bearing only 7.27 % of total country's bearing area. There are no exclusive bamboo forests in the plains of Assam. Pure bamboo forest occurred in N.C. Hills and Karbi-Anglong district. Total bamboo bearing tree area in the country is 1,54,670 Sq. km. as per 2023 ISFR report, compared to 1,49,443 Sq. km. in 2021 as per ISFR, increase of 5227 Sq. km. However, the bamboo bearing area in Assam increased to 11,246 Sq. km. in 2023 against 10,659 Sq. km. in 2021. Due to versatile character of bamboo it's capable of providing ecological, economic and livelihood security to the people. It is an integral part of the lifestyle and economy of

Assam. There are 38 numbers of Bamboo species found in the Assam Forest area as reported by the forest department. For promotion of bamboo sector in the government of India and government of Assam taken many initiatives to further develop its potentiality. Assam has become the first country's state of the art Bamboo Technology Park to boost cultivation in the state and the region. Recently to boost the Rural economy of Assam, Govt. has initiated to establish Bamboo Industrial Park in the state with collaboration of the DoNER Ministry G.O.I. which will help the local entrepreneur to establish MSME for their sustainable development. Bamboo contributes to subsistence need of about 2.5 billion people around the world. Mamboosa Jaintiana and Melocanna arundiana are the species reported only from Assam. Bamboos are cultivated in every household of Assam and people of rural area typically depend on bamboo to meet their recurring micro needs. The following Table-10.5 shows the growing stock of bamboo inside the recorded forest areas which includes culms of one year of age. It is very clear that Assam is in a significant position in respect of area of bearing trees and production also.

FOREST ROADS:

The state forest department is entrusted the task of maintenance and management of forest, forest product and wildlife in the state. For the purpose of patrolling inside the forest area of Assam, to harvest the forest produces, and for both improvement, development and creation of infrastructure, the existence of proper roads in the forests are very essential. The forest department of Assam has given special emphasis on this matter and proposed to improve the road connectivity for better protection and conservation of forest biodiversity and wildlife. Till 2025, there are 1825 km. surfaced, 24779 km. unsurfaced, 12513 km. motorable and 10947 km. non-motorable forest road in Assam.

OUT TURN OF FOREST PRODUCE & REVENUE:

Forests are sources of natural resources to be used for various manufacturing activities. In the context of conservation, forests are however not seen as a revenue generation source. The forests are, however, a source of livelihood of people living in forest fringe villages. The forests produced in the state are being harvested following the laid the principles of working plan of forest to ensure sustainability. Major forest produce in the state include industrial wood namely Teak, Shisam, Sal, Chir, Kait, Hollong, Makai, etc. and other products like pulp, match wood, round wood and fuel wood; minor forest products including bamboo, Broom Grass, Biri Leaves etc. At present, however, the major source of forest revenue are sand, gravel, stone, silt, clay, thatch etc. This out turn of forest have been contributing to Gross State Domestic Product (GSDP), so it is very essential to estimate their growing value. During 2023-24 the total out turn of Forest Department is Rs.4581.469 crore and during 2024-25 the total out turn is 5337.882 crore. The out turns of various forest produce in the state are presented in Table 10.6 and revenue generated from forests sources in the state are shown in Table 10.7. The Assam Govt. has now given importance to increasing the plantation area of Agarwood and Medicinal plants, and commercial wood in the state, expecting high-valued Agar oil medicinal plants to boost the income especially at the microeconomic level to contribute to the state economy

FOREST AND INDUSTRY:

Forests not only provide invaluable ecological services to the nation, but they also contribute significantly to environmental security. Additionally, forests play a crucial role in the economy, especially for rural and marginalized communities. They are rich sources of timber, small timber, firewood, and bamboo. Furthermore, forests create opportunities for establishing forest-based industries, such as sawmills and plywood and veneer manufacturing units, as well as small-scale industries like building materials, furniture businesses, and cane and SitalPati enterprises. These industries employ large numbers of youth, both directly and indirectly.

The government has emphasized the importance of planting Agar and Chandan saplings to encourage economic development among the general population in the state. Moreover, forest tourism, including various national parks and wildlife sanctuaries, offers employment opportunities for unemployed youth as safari guides for local and foreign tourists.

In summary, the forest sector plays a vital role in the state's economy. However, despite the sector's significant potential, the government should take more initiatives to support and uplift it.

MEDICINAL PLANTS FOUND IN ASSAM

With its vast hills and forests, Assam is the home of a variety of medicinal herbs and plants and hence is an important resource of the state. Examples of few such medicinal plants and herbs are **Neem (*Azadirachtaindica*)**,**Amlaki (*Emblicaofficinalis*)**, **Ashok/Asoka (*Saracaasoca*)**,**Brahmi (*Bacopamonnieri*)**, **Chandan (*Santalum album*)**, **Giloe (*Tinosporacordifolia*)**, **Kalmegh (*Andrographispaniculata*)**, **Pippali (*Piper longum*)**, **Sarpgandha (*Rauwolfiaserpentina*)**,**Shatavari (*Asparagus racemosus*)**, **Tulsi (*Ocimum sanctum*)**, (Blue orchid) ***Vanda coerulea***etc.

NUMBER OF TREES AND THEIR VOLUME FOR TOP 5 SPECIES IN RECORDED FOREST AREA

PROTECTED AREA - NATIONAL PARK AND WILDLIFE SANCTUARIES

The Protected Area Network (PAN) of Assam includes 8 National parks and 17 wildlife sanctuaries covering an area of about 5459.38 sq.km. constituting approximate 6.96 percent of the total geographical area of the state. Presently there are four Tiger reserves in Assam. The wildlife sanctuaries in Assam are a heterogeneous mixture of a variety of landscapes, plants, birds and animals. Suitable climatic conditions, geographical location and vast forest reserves have made Assam a favourable habitat for birds, animals and natural vegetation. The wildlife sanctuaries and national parks of the state are the breeding ground for some of the rarest global species. Many wildlife sanctuaries of Assam are home to large number of precious wildlife species from the golden langur to the one horned rhinoceros. Two national parks of the state are designated as world heritage sites by the UNESCO in 1985.

World Heritage Sites

CONSERVATION OF WILDLIFE: THE EIGHT NATIONAL PARKS OF ASSAM:

At present there are eight national parks in the state and out of these two national parks Kaziranga and Manas of the state are recognised by UNESCO as world heritage sites. The brief notes on these National Parks are as below:

1. Kaziranga National Park:

The Kaziranga National Park spread across the floodplains of the Brahmaputra River. Its forests, wetlands and grasslands are home to deer, tiger, elephant and one horned Rhinoceros .It also has the world's largest population of Asiatic Wild Buffalos and nearly 500 species of birds. It is known by world as one of the one horned Rhinoceroses home. Not just this, it's a vibrant and beautiful Tiger Reserve that hold some special and significant position in the wild life map of India. In every year, large number of tourist from home country and abroad visited to this National Park and enjoy their natural beauty. During 2024-25, total 388871 Nos. of Domestic and 17693 Nos. Foreign tourist visited to Kaziranga National Park

2. Manas National Park:

Manas National Park was declared as World heritage site by UNESCO in 1985.MNP is also declared as project tiger reserve, elephant reserve and a biosphere reserve. The Park is located in the Himalayan foothills and is contiguous with the Royal Manas National Park in Bhutan, covering an area of about 850 sq km. The Park is known for its rare and endangered endemic wild life such as the Assam roofed turtle, hispid hare, golden langur and pygmy hog. During 2024-25, total 59468 Nos. Domestic and 3367 Nos. Foreign tourist visited to Manas National Park.

3. Orang National Park:

The Orang National Park is located on the north bank of the river Brahmaputra in the Darrang and Sonitpur districts of Assam. It covers an area of 279.28sq km. The landscape, flora and fauna of Orang National Park are similar to those of Kaziranga National Park. It was established as a sanctuary in 1985 and declared a National Park on 8th April, 1999. The park has a rich of flora fauna, including the great Indian one horned rhinoceros, pygmy hog, elephants, wild buffalos, and tiger. During 2024-25, total 2787 Nos. Domestic and 56 Nos. Foreign tourist visited to Orang National Park.

4. Nameri National Park:

Declared as a National Park in 1978, Nameri National Park is in the foot hills of the eastern Himalayas in the Sonitpur district of Assam, and about 35 km from Tezpur town. The Park covers an area of 200 sq km. The Park is the second tiger reserve of Assam and is also important for the commutation of elephants. Apart from 30 species of mammals recorded in this area, the rich wildlife includes tiger, black bear, elephant, leopard, clouded leopard, pangoline, Indian wild dog, deer, calved cat, capped langur, jackals etc. various species of birds such as endangered white winged wood duck, four species of hornbill, butterflies and reptiles are also found in the park, A large numbers of tourist visited to this park in every year. During 2024-25, total 9414 Nos. Domestic and 1373 Nos. Foreign tourist visited to Nameri National Park.

5. Dibru-Saikhowa National Park:

Dibru-Saikhowa National Park is situated in the Dibrugarh and Tinsukia districts of Assam, India. Established as a Biosphere Reserve in 1995, it covers an area of 340 square kilometers. The park primarily consists of moist semi-evergreen forests, canebrakes, and grasslands. It is the longest swamp forest in Northeast India, characterized by a tropical monsoon climate that features hot and humid summers, followed by cool and typically dry winters.

This national park is a haven for many endangered species and boasts rich fish diversity. Visitors can observe various animal species in their natural habitats, including the Royal Bengal Tiger, Hoolock Gibbons, and Leopards. Additionally, it supports a number of bird species with restricted ranges.

During the 2024-25 period, a total of 2,939 domestic tourists and 24 foreign tourists visited Dibru-Saikhowa National Park.

6. Raimona National Park:

In the month of June 2021 Government of Assam declared the State's Six National Park Called Raimona National Park named after the historical Capital of Bijni estate Raimona. It is spreading over 422 sq.km. in the Kokrajhar District under Bodoland Territorial Region (BTR) combining part of RipuChirang Reserve Forest. Raimona is a home of legendary elephant and rare butterfly and also Gee's Golden Langur, the one of the most endangered Primates of the world. During 2024-25, total 3575 Nos. Domestic and 06 Nos. Foreign tourist visited to Raimona National Park.

7. Dihing Patkai National Park:

Dihing Patkai National Park as 7th National Park of the state declared by Govt of Assam in the month of June, 2021. After declaration of this park, Assam now becomes the second state having highest National Parks in country. The area of this park is around 234.26 sq. km. located in the district of Dibrugrah and Tinsukia. It is believed to be the last remaining contiguous for major elephant habitat and 310 species of butterflies and tiger and clouded leopard. During 2024-25, total 1239 Nos. Domestic and 12 Nos. Foreign tourist visited to DihingPatkai National Park.

8. SikhnaJahwlao National Park:

SikhnaJahwlao National Park as 8th National Park of the state declared by Govt of Assam in the month of March, 2025. It is spreading over 316.29 Sq.km in the Kokrajhar and Chirang District.

BIOSPHERE RESERVES

Biosphere Reserves are areas of natural and cultural landscapes extending over large areas of terrestrial or coastal/marine ecosystems. Biosphere Reserve (BR) is an international designation given by UNESCO. The biosphere reserve network was launched in 1971 by UNESCO, after the initiation of MAB-Man and Biosphere Program.

Assam has two biosphere reserves as described below.

Biosphere Reserves

Sl No.	Name of the Biosphere Reserve	Location(District)	Area in Sq. Km.	Date of Notification
1	Manas Biosphere Reserve	Kokrajhar, Chirang,Baksa, Udalguri	2837.00	14/03/1989
2	Dibru Saikhowa Biosphere Reserve	Dibrugrah, Tinsukia	765.00	28/07/1997

NATIONAL RHINO VISION:

Indian Rhino Vision (IRV) 2020 is a joint program of Assam Forest Department.It is a multi-partner program where Govt. has joined hands with the international agencies and local communities.

Rhino protection in Assam:

At present protection of the world famous one horned Rhinocerous in Assam is one of the challenging tasks of the Government. Kaziranga is the home land of this world famous one horned Rhino where its successful conservation can be illustrated with more than 85% of Rhino present in Kaziranga National Park. After formation of the present Government, it has adopted zero tolerance in respect of poaching and wild life crime. To conserve the Rhino, Govt. has initiated some strong steps like constituting of Fast Track Courts, Formation of Anti Rhino Poaching Task Force, Deployment of Additional Forces, Used Unmanned Areal Aircraft (Drone), Modernisation of Arms and Ammunitions and creation of Special Rhino Protection Force with 112 nos. of personnel etc. Due to these strong steps of the Govt. the poaching of one horned Rhino in the state has decreased significantly. Data reveals that during 2013 & 2014, the Rhino poaching was 27, but from 2015 it was decreased to 17, 2016 it was 18, 2017 it was 6, 2018 it was 7, in 2019 it was 3, in 2020 it was 2 and in 2021 it was only 1.Govt. has expected that if the protection mechanism will do their work perfectly the rhino poaching in near future could be controlled which is also a big dream of the state Govt. as well as the people of the state.

Assam State Zoo and Botanical Garden:

Assam State Zoo and Botanical Garden was established in the year 1957 with an area of 175 hect in the heart of Guwahati metro city. Presently, Assam State exhibits an impressive collection of 526 mammals, 576 birds, and 78 reptiles belonging to 112 species, both indigenous and exotic. From the revenue point of view, this zoo has a great potential in future. The following table shows the trend of visitors and revenue collection of this Zoo and Botanical Garden. The trend of visitors due to Covid-19 pandemic period had sharply decreased but due to initiative of present Govt. it has recovered gradually and the revenue collection also increased in right direction.

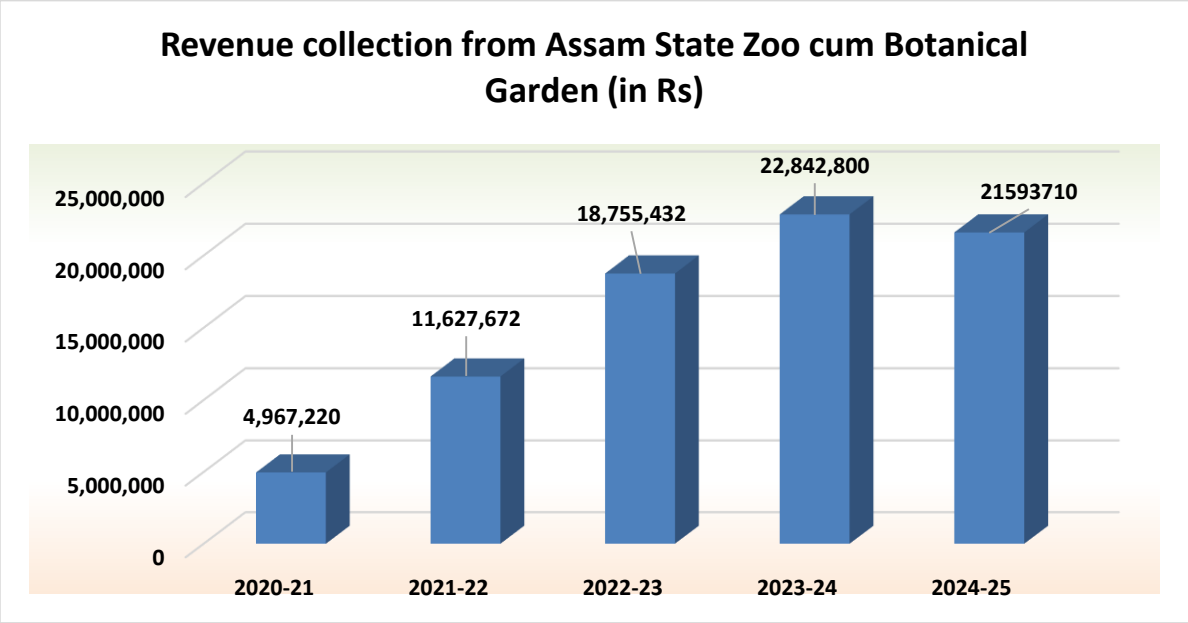

Table-10.10

Visitors and revenue collection, Assam State Zoo cum Botanical garden

Year	No. of Visitors			Revenue collection(in Rs)
	Indian	Foreigner	Total	
2020-21	193327	90	193417	49,67,220
2021-22	346298	279	346577	1,16,27,672
2022-23	677947	564	678511	1,87,55,432
2023-24	769263	1100	770363	2,28,42,800
2024-25	697696	981	698677	2,15,93,710

Figure-VI

PROJECTS ON CONSERVATION OF FORESTS AND WILDLIFE:

Centre for Wildlife Rehabilitation and Conservation:

It is known to all that in every year like human illness, animals also suffering from different morbidities and faces endangered situation. To rehabilitate and conserve this wildlife, in August, 2002 Government has established Centre for Wildlife Rehabilitation and Conservation (CWRC) through an MoU between Assam Forest Department and Wildlife Trust of India to provide emergency care, treatment, and rehabilitation of indigenous wild animals that are displaced due to various reasons-clouded leopards, black leopards, black bears, wild buffalos and many other important taxa in India. CWRC is situated near

Kaziranga National Park. Four Mobile Veterinary Service (MVS) facilities are also attached to CWRC, Kaziranga and situated in Dhola, Diphu, Kokrajhar and Seijusa. So far, CWRC has handled 4545 number of rescued animals of 246 different species.

The Pigmy Hog Conservation Program (PHCP):

Pigmy hog (Porculasaluania) (local Assamese name is NalGahari) is the smallest species of wild pig extremely rare in the wild. It is found only in Manas National Park in Assam. An adult male weighs 8 to 9 kg and their life span is only 8-10 years. For conservation of this endangered species, the Assam Forest department in collaboration with Durrel Wildlife Conservation Trust, IUCN/SSC Wild pig Specialist Group, Ministry of Environment & forest -Govt. of India, Eco-systems-India started the Pygmy Hog Conservation Programme (PHCP) with breeding of pygmy Hog in the year 1996.PHCP maintains a captive population of about 70 hogs and has reintroduced 108 hogs over ten years in SonaiRupai Wildlife Sanctuary, RG Orang National Park and Barnadi Wildlife Sanctuary in Assam.

Project Tiger:

Assam has four tiger reserves namely Orang, Kaziranga, Manas and Nameri. The first country wide tiger census was conducted in 1972 and estimated about 1800 tiger population. The tiger conservation programme, Project Tiger was launched in 1st April 1973 by the government of India. The project aims at ensuring a viable population of Bengal tigers in their natural habitats, protecting them from extinction and preserving area of biological importance as a natural heritage. The Government has taken up necessary action for intensive protection of tiger areas and stopping poaching. During 2020-21, Government has spent Rs. 460.042 lakh for Manas National Park, Rs. 131.89 lakh for Nameri National Park and Rs. 307.098 lakh for Orang National Park for all round development.

A list of the Tiger Reserves in Assam is mentioned as follows:

Sl No.	Name of the Tiger Reserve	Location(District)	Area in Sq. Km.	Date of Notification
1	Manas	Kokrajhar, Chirang,Baksa, Udalguri	2837.12	01/04/1973
2	Nameri	Sonitpur&Biswanath	454.00	01/03/2000
3	Kaziranga	Golaghat, Nagaon,Sonitpur	1030.40	03/08/2007
4	Orang	Darrang&Sonitpur	413.00	24/02/2016

Project Elephant:

There are 32 notified Elephant Reserves in the country, spread over 15 states. According to the Ministry of Environment, Forest and Climate Change, there are five Project Elephant sites in the state: Sonitpur, Dihing Patkai, Kaziranga, Dhanshiri-Lamding, and Chirang Ripu.

Project Elephant was launched in 1992 by the Government of India to provide financial and technical support for wildlife management efforts by states, aimed at protecting the free-ranging population of wild Asian elephants. The project's primary goal

is to ensure the long-term survival of a viable and conservation-resilient population of elephants in their natural habitats and migration corridors.

Other objectives of Project Elephant include supporting research on the ecology and management of elephants, creating conservation awareness among local communities, and providing improved veterinary care for captive elephants. Despite the government's initiatives, significant efforts are still needed to save and support elephants in the state.

A list of the Elephant Reserves in Assam is as follows:

Sl No.	Name of the Elephant Reserve	Location(District)	Area in Sq. Km.	Date of Notification
1	Chirang- Ripu	Kokrajhar, Chirang, Baksa, Udalguri	2600.00	06/03/2003
2	Sonitpur	Sonitpur & Udalguri	1420.00	07/03/2003
3	Dihing Patkai	Dibrugrah, Tinsukia	937.00	07/04/2003
4	Kaziranga-Karbi-Anglong	Sonitpur, Nagaon, Golaghat,Karbi-Anglong	3270.00	17/04/2003
5	Dhansiri-Lumding	Karbi-Anglong, Nagaon, Dima Hasao	2740.00	19/04/2003

Population of Rhinos, Elephants, Tiger and Swamp Deer as per Census Report:

Wild Animal	Year	Population
Tiger	2022	200
Wild Elephant	2024	5828
Rhino	2022	2895
Eastern Swamp Deer	2021	1038
Leopard	2000	248
Water Buffalo	2024	4491

Assam Project on Forest and Biodiversity Conservation Society (APFBCS):

Assam Project on Forest and Biodiversity Conservation Society (APFBCS) was constituted by Government of Assam and registered under the Societies Registration Act 1860. The Society has the mandate for planning and implementation, monitoring, coordination and management of all the activities proposed in conservation contexts under the project. The activities of the project put special emphasis on creating sustainable

livelihood opportunities for forest dependent communities with a view to promote sustainable forest management and restore forest ecosystems. The society came into existence on 28th June 2012. To achieve the goals, APFBC adopts participatory micro planning by forming Joint Forest Management Committee (JFMC) and Eco Development Committee (EDC) among the forest dependent communities. At present there are 185 EDC in different protected areas in the state and doing their works for conservation of forest.

Target and Achievement for Foreign Funding Scheme, Forest Department, Assam

Figure-VII

Man-Animal conflict Scenario of the State:

Though the Assam Forest Department has taken many steps for the overall development of the forest sector, the man-animal conflict in the present state scenario cannot be ignored. This has emerged as one of the most challenging problems for wildlife management and conservation in recent times. Human-elephant conflict has reached alarming proportions in recent years, followed by human-leopard and human-monkey conflicts. The human-elephant conflict creates considerable economic hardship for farmers by way of crop and property damage. Due to elephant disturbance in the present state scenario, most cultivators in the forest-side area have left their valuable crop fields to grow paddy or other crops. Moreover, due to monkey disturbance, cultivators have stopped growing vegetables for household and commercial use, and so on. So, there is an urgent need to estimate crop losses due to animal disturbance. Besides this, human deaths due to encounters with elephants are also a serious concern, and vice versa. The principal reasons for such conflicts are the fragmentation of elephant corridors, habitat loss, and food crises in forest areas, among others. Given this increasing man-elephant conflict, an immediate, reasonable, and acceptable solution is urgently required.

OTHER NEW INITIATIVES IN CONSERVATION CONTEXT:

The protection of forests is a key motto of the current government. The government is highly concerned about encroachment on forest land, especially in Reserved forests and Protected areas. To safeguard these areas, the government has taken strong measures to recover lost forest land and maintain the state's ecological balance. In this effort, some areas have already been reclaimed from encroachers and conserved. Restoring open forest regions, increasing the capacity of the Forest Department, and providing livelihood options for forest-dependent communities all require significant funding and various forms of support.

STATE CAMPA and its achievement during 2024-25:

The State Compensatory Afforestation and Fund Management and Planning Authority (State CAMPA) serves as a tool to promote activities aimed at conserving natural forests, managing wildlife, developing infrastructure, and other related tasks. Based on the Compensatory Afforestation Fund Act, 2016, and the Compensatory Afforestation Fund Rule, 2018, the Assam government established the State Compensatory Afforestation Fund (SCAF), Assam, on February 11, 2019, which oversees various initiatives under State CAMPA. The activities undertaken by State CAMPA during 2024-25 and their outcomes are summarised below Table.

Table-10.12

State Forest and its contribution to Gross State Domestic Product (GSDP).

The contribution of Forestry and Logging sector to the State's GSDP during 2022-23 at current price on new base year 2011-12 was Rs. 11,47,820.39 lakh and at constant price it was 2,20,314.7269 lakh. As per Provisional Estimate (PE) during 2023-24 the GSDP at current price of this sector was Rs. 6,70,223.00 lakh. Further, during 2024-25 as per Quick Estimate (QE) the GSDP of Forestry and Logging sector increases to Rs. 6,91,592 lakh at current price with a growth rate of 3.19% compared to 2023-24 (PE) and as per Advance Estimate (AE) during 2025-26 the contribution of forestry and logging sector to the GSDP at current price is expected to increase to Rs.790627.97 lakh.

Contribution of Forestry and Logging to Gross State Domestic Product at current price & Constant Price (Rs.in lakh)

Figure-VIII

Chapter-XI

INDUSTRY, TRADE AND MINING

Industrialisation in Assam traces its roots to the British period, marked by the establishment of tea estates, coal mines, plywood factories and pioneering oil exploration in this mineral-rich region. Assam proudly hosts Asia's first and the world's second oil refinery — the Digboi Refinery, commissioned on 11 December 1901 — which remains India's oldest functioning refinery and one of the longest continuously operating refineries globally. The State is richly endowed with strategic mineral and hydrocarbon resources including crude oil, natural gas, coal, limestone and granite. For decades, Assam's tea industry has been a cornerstone of its economy, accounting for over 50% of India's total tea production and serving as a key export commodity.

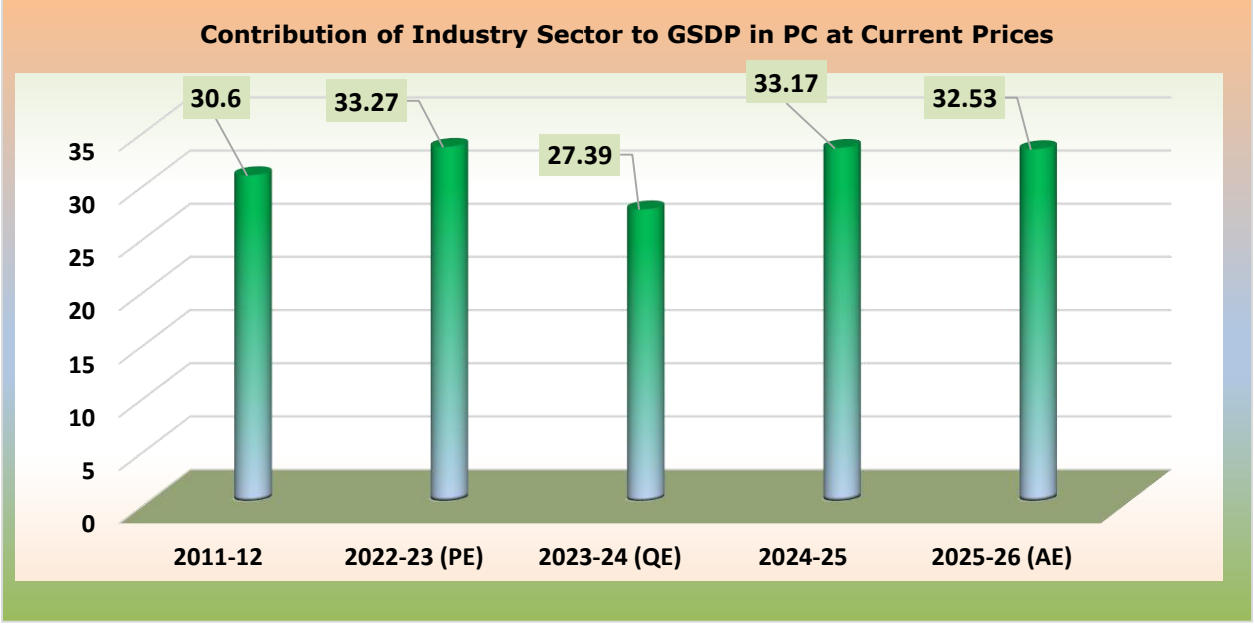

Assam's strategic location in the Northeast, with direct connectivity to East and Southeast Asian markets, supported by robust banking and financial institutions, reliable power supply, expanding communications and an evolving transportation network, significantly enhances its appeal as a destination for manufacturing and trade. This advantage is further strengthened by the Government of India's "Look East" policy.

The State's industrial base, though modest, is expanding across diverse sectors including petrochemicals, fertilisers, textiles, cement, plastics, agro-based and mineral-based industries, traditional handlooms and handicrafts, ornamental fisheries and tourism — collectively generating substantial employment. Among these, oil, natural gas and tea remain the principal contributors to Assam's industrial revenue.

CONTRIBUTION OF INDUSTRIAL SECTOR TO STATE ECONOMY

In the State Income Estimation framework, the industry sector encompasses the sub-sectors of mining & quarrying, manufacturing, electricity, gas, water supply & other utility services, and construction. According to the advance estimates for 2025-26 at current (2011-12) prices, the industry sector is projected to grow at an annual rate of 14.27%, compared to 11.49% at constant prices. At constant prices, the annual growth rates of the industry sub-sectors for 2025-26 are estimated at 5.52% for mining & quarrying, 6.97% for manufacturing, 11.96% for electricity, gas, water supply & other utility services, and 22.98% for construction. These figures are to be compared with the corresponding growth rates at current prices of 6.49%, 10.76%, 19.32% and 27.42%, respectively. For the year 2025-26, the industry sector's contribution to the State's GDP is estimated at approximately 32.53% at current prices, against 42.40% at constant (2011-12) prices.

INDEX OF INDUSTRIAL PRODUCTION [IIP] (Base: 2011-12=100)

The **Index of Industrial Production (IIP)** quantifies the rate of growth across key industrial sectors of the economy over a defined period. It encompasses three primary sectors—Mining, Manufacturing, and Electricity—which collectively represent the industrial production landscape. The IIP is compiled on a month-to-month basis and aggregated into annualised figures to assess performance trends. Like all segments of the economy, these

sectors experienced significant disruption due to the prevailing pandemic, which also impeded the timely collection and reporting of data at both the state and Union Government level. A diagrammatic representation of IIP from 2016-17 to 2024-25 is presented below:

Fig 11.2

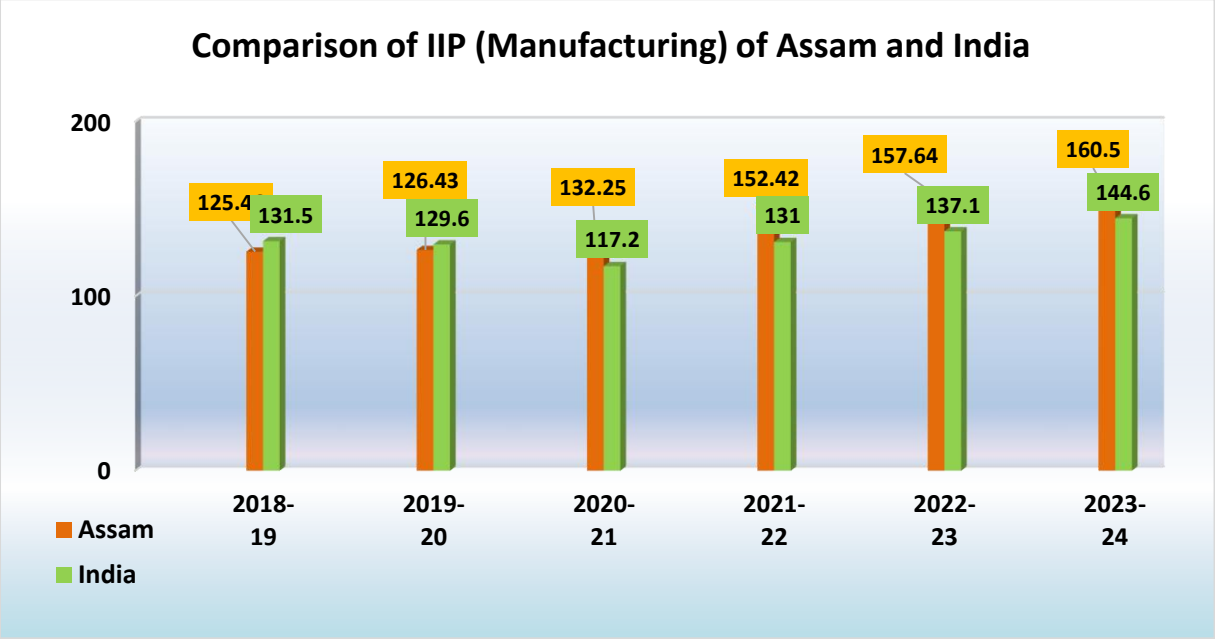

Source: National Statistics Office (NSO)

The manufacturing sector in Assam has registered a sustained upward trajectory in recent years. Except for the period impacted by the pandemic, the sector's expansion, accompanied by improvements in capacity utilisation and increased investment in manufacturing activities, reflects a positive outlook among industry participants towards future demand within the State.

The IIP of Assam vis-à-vis India for the last six years upto 2022-23 is graphically represented below in Fig 11.3.

Fig - 11.3

ANNUAL SURVEY OF INDUSTRIES (ASI)

The **Annual Survey of Industries (ASI)** is the principal source of industrial statistics for the registered organised manufacturing sector, generating estimates on key aggregates such as input, output, capital, employment, value added and related parameters. It encompasses all factories registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948, which define operational thresholds for inclusion in the survey frame.In the ASI 2023-24 results, Assam ranked 14th in terms of the number of operating factories and 18th with regard to the workforce engaged in the organised manufacturing sector.

Further, Selected characteristics of industries in Assam vis-a-vis All-India based on ASI 2023-24 are given in Table 11.1

Table-11.1
Characteristics of industries in Assam vis-a-vis All-India: ASI 2023-24

(Value figures in Rs. Lakh & Others in Number)

Characteristics	ASSAM	ALL-INDIA
No of Factories	6049	2,60,061
Workers	2,01,498	1,55,19,957
Total Input	98,88,943	1,28,68,83,003
Total Output	1,27,90,916	1,53,27,16,609
Net Value Added	24,29,180	21,03,14,335

MINING SECTOR

Table 11.2 shows the production trend of some major minerals in Assam during the last ten years.

Table-11.2
MINERAL PRODUCTION IN ASSAM

Year	Coal *('000 Tonnes)*	Natural Gas *(Utilised) MCM*	Petroleum (Crude) Oil *('000 Tonnes)*	Lime Stone *('000 Tonnes)*	Sulphur *(Tonnes)*
2014-15	797	2726	4447	681	5794
2015-16	397	2903	4513	442	4322
2016-17	600	2907	4202	1597	6571
2017-18	782	3034	4345	1432	8339
2018-19	783	3083	4222	1651	6956
2019-20	596	2931	4093	1552	5955
2020-21	40	2818	3922	1488	6545
2021-22	28	3126	3988	1680	6545
2022-23	215	3262	4164	1523	7705
2023-24 (P)	214	3187	4359	1996	9148
2024-25	200	3348	4453	1973	10177

Source: Indian Bureau of Mines

The trend shows that during the year 2024-25, production in Coal has declined while production of Petroleum (Crude), Natural Gas and Sulphur has increased.However, the production of Lime Stone has decreased. The colliery-wise data received from the Directorate of Geology and Mining; Assam have reported a total production of 199.87 thousand M.T of coal in Assam during 2024-25. Moreover, the total revenue earned by the State from extracted crude oil, natural gas, coal and limestone was Rs 3927.67Crore.

Industrial infrastructural facilities in Assam

The primary objective of the Government of Assam is to foster an environment conducive to industrialisation by developing quality industrial infrastructure and attracting investment through effective planning. To achieve this, the Department of Industries,

Commerce and Public Enterprise is actively engaged in establishing new infrastructural facilities and upgrading existing ones across various districts of the State.

In support of prospective entrepreneurs and investors, the Assam Industrial Development Corporation (AIDC) and the Assam Industrial Infrastructure Development Corporation (AIIDC) continue to develop and expand industrial parks and estates by acquiring additional land and providing essential infrastructure services, thereby facilitating industrial growth and investment in the State. Statement showing the number of UAM/UDYAM (MSME) units in Assam during 2024-25 is given in Annexure-11.1 and Industrial Estates and Other Infrastructure in the State may be seen in Annexure-11.2

Major Schemes/ Policies implemented by Industries, Commerce & Public Enterprise Department:

Industries, Commerce & Public Enterprise Department are implementing various schemes of the Government of Assam & Government of India to support and catalyse industrialisation in the state.

A.Government of Assam

Name of some important Schemes and features

1. Industrial and Investment Policy 2019

The Industrial and Investment Policy of Assam, 2019 aims to foster inclusive industrial growth, sustainable eco-friendly investments and employment generation in Assam. The policy leverages Assam's strategic location, abundant resources and connectivity to promote investments in both manufacturing and service sectors.

Key Highlights

Objectives

1. Enhanced industrial development and inclusive growth
2. Foster sustainable investments through capital formation
3. Generate employment opportunities across sectors.

Strategic advantages

1. Proximity to ASEAN economies and BIMSTEC region
2. Connectivity through East-West corridor, waterways,railways and air networks.
3. Rich resources including tea, oil, natural gas, coal, bamboo and silk.

Validity

Effective from 1st September 2019 and valid up to 5 years. The policy is extended w.e.f. 1st September, 2024 until further orders.

Incentives of the Scheme

- **Fiscal Incentives:** State Goods and Service Tax reimbursement(SGST): Reimbursement of 100% SGST paid through debit in electronic cash, ledger account as per the following scale:

	Limit of Tax Reimbursement	
Category	For units set up in areas other than special parks (specified in the next column)	For units set up in Plastic Parks, Bamboo Parks, Food Parks, Tea Parks and other parks developed by or in collaboration with state/central government
Micro enterprises	15 years subject to a maximum of 200% of Fixed Capital Investment	15 years subject to a maximum of 250% of Fixed Capital Investment
Small enterprises	15 years subject to a maximum of 150% of Fixed Capital Investment	15 years subject to a maximum of 180% of Fixed Capital Investment
Medium and Large enterprises	15 years subject to a maximum of 150% of Fixed Capital Investment	15 years subject to a maximum of 150% of Fixed Capital Investment

Other Incentives

- **Power subsidy:** @ Rs.2 per unit for a period of 5 years subject to a maximum of Rs.50 lakh per annum
- **Incentives to Private Sector Infrastructure Developer:** Incentive for private sector Infrastructure developer @30% of the cost of creation of Industrial Infrastructure (excluding value of land) subject to a ceiling of Rs.3 crore over minimum land area of 30 acres.
- **Employment Incentives:** Incentives of Rs.10, 000 to the units against each local youth employed by the units.
- **Subsidy on DG Set:** 50% generating set subsidy subject to a ceiling of Rs.20 lakh.

- **Interest subsidy on Working Capital Loan:** 2% interest subsidy on working capital loan for 5 years subject to a ceiling of Rs.50 lakh.
- **Stamp Duty Reimbursement:** 100 % stamp duty reimbursement subject to a ceiling of Rs.25 lakh.
- **Technology Transfer and Quality Certification, ZED Certification:** 75% subsidy on technology transfer subject to a ceiling of Rs.10 lakh per unit.
- **Financial Assistance to MSME listed in Stock Exchange:** 30% of the cost of public issue expenses subject to a ceiling of Rs.5 lakh for getting listed in Stock Exchange.
- **Assistance for Environmental Compliance**: Financial assistance for Environmental Compliances @50% of the capital cost subject to a ceiling of Rs.25 lakh.

2. Industrial and Investment Policy (Amendment) Assam 2023

The Industrial and Investment Policy of Assam (Amendment), 2023, notified by the Government of Assam, amends the Industrial and Investment Policy of Assam, 2019 with the objective of attracting large-scale investments and promoting employment-led industrial growth in the State.

The amendment primarily revises Clause 14 of the Policy to introduce a framework for customised incentive packages for Mega Projects. Under the amended provisions, a Mega Project is defined as an industrial unit having a minimum fixed capital investment of ₹100 crore and generating at least 200 permanent jobs.

Committee and Approval Process

Proposals seeking customised incentives are examined by an Empowered Committee constituted by the Government. The Committee is chaired by the Hon'ble Minister, Industries & Commerce and comprises seniormost secretary from key departments such as Finance, Industries & Commerce, Revenue, Power and other concerned departments.

The Empowered Committee evaluates the project proposal based on parameters such as investment size, employment generation, socio-economic impact, regional development and overall benefit to the State and recommends a suitable incentive package. The final approval of the customised incentive package is accorded by the State Government/Cabinet, based on the Committee's recommendations.

The amendment thus provides flexibility to the Government to support strategically important projects through project-specific incentives, strengthening Assam's competitiveness as an investment destination.

Till date, the Hon'ble Cabinet has approved 56 proposals involving a total investment of Rs 26,848.41 crore, expected to generate 45,020 employment opportunities. Of these, industries like Varun Beverages Ltd., Dalmia Cements NE Ltd. (Phase I), Star Cements NE Ltd., SBL Biscuits Pvt. Ltd., Gulshan Polyols, Aadhar Green Industries LLP, Kamakhya Bio-fuels Industries Ltd., Seas Biotech Pvt. Ltd., etc has already started commercial production until 2024-25.

3. The Assam Ethanol Production Promotion Policy, 2021 (as amended in 2022)

To strengthen the ethanol production in Assam and further to facilitate the upcoming ethanol units in the State, the Assam Ethanol Production Promotion Policy, 2021 was introduced and later amended in 2022.

Objectives:

1. This policy aims to achieve the following objectives for the overall growth and development of green-field new 100% ethanol manufacturing industrial units in the State with a goal of providing remunerative returns to investors, farmers and all other stakeholders:
2. To allow production of Ethanol from all feedstocks permitted under National Policy on Biofuels, 2018 and by the National Biofuel Coordination Committee.
3. To offer fiscal benefits and provide an enabling environment in Assam for the promotion of, and investment in, fuel-grade standalone new or green-field ethanol manufacturing units by facilitating and financially incentivizing potential investor.
4. To increase incomes of farmers producing feed-stock/ raw material which may be used for Ethanol manufacturing.
5. To create local employment opportunities, and foster sustainable industrial growth through promotion of new Ethanol industries.

Eligibility for type of Units:

Only green-field standalone distilleries (single feed or dual feed) producing and supplying Ethanol to Oil Manufacturing Companies (OMCs) under Ethanol Blending Programme (EBP) of Government of India, shall be eligible for incentive under this Policy.

In case of production capacity proposed by the proponent exceeds production output approved by OMCs in procurement agreement under EBP, such ethanol manufacturing units shall be allowed to sell ethanol to buyers other than OMCs, provided the entity does not violate any clauses of the procurement contract under Ethanol Blending Programme.

Incentives to Ethanol Manufacturing Units:

The Policy recognizes the need for providing additional incentives to eligible units in the ethanol manufacturing sector in order to engender further improvement in the investment prospects of that sunrise sector in the State.

Incentives under this Policy:

Available provisions of incentives and their quantum under the the Assam Ethanol Production Promotion Policy (Amendment), 2022 are as below:

Sl. No.	Type of Incentive	Quantum of incentive
1.	**Power Subsidy**	Eligible entities can claim the power subsidy proposed under the Industrial and Investment Policy of Assam 2019 or its future amendments.
2.	**Interest Subvention Incentive**	5% interest subsidy on working capital loan for 5 years subject to an overall ceiling of INR 50 lakhs per annum; in addition to the 2% interest subsidy offered under Industrial and Investment Policy of Assam 2019 as per the ceiling mentioned in the policy.
3.	**Tax-Related Incentives**	100% SGST reimbursement for a period of 5 years, upper limit being 250% of Fixed Capital Investment. [N.B. The upper limit under Industrial and Investment Policy of Assam 2019 is 150% of Fixed Capital Investment for a period of 15 years.]
4.	**Exemption of Land Conversion Fees**	100% exemption of fees for conversion of other class of land to industrial land.
5.	**Employment Cost Subsidy**	50% reimbursement (in case of male workers) and 100% reimbursement (in case of female workers) of expenditure on account of contribution towards ESI and EPF scheme for a period of 5 years for new units for those employees who are permanent residents of Assam; subject to a maximum limit of INR 1000/- per month per employee.
6.	**Skill Development Subsidy**	Skill Development Subsidy of INR 20,000 per employee or ASDM rates, whichever is lower. This incentive will be applicable only for training of employees who are permanent residents of the State.One time benefit for one employee.
7.	**Capital Subsidy**	Capital subsidy at 20% of the cost of Plant and Machinery, with maximum INR 8.75 crores.

Period of Validity of Policy:

This Policy will come into effect from the date of issue of this notification and will remain in operation till 31st March 2026.

4. Assam Electronics (Semiconductor etc.) Policy, 2023.

The Assam Electronics (Semiconductor etc.) Policy, 2023 aims to position Assam as a frontrunner in the realm of semiconductor manufacturing and electronics production, fostering, innovation, economic growth and global competitiveness. This policy endeavours to leverage Assam's strategic location, robust infrastructure, and stable governance to attract substantial investments in the semiconductor and electronics sectors. Key objectives of this policy include job creation, reversing brain drain, strengthening the value chain and positioning Assam on the global stage through strategic partnerships and trade.

Policy Period: The Assam Electronics (Semiconductor etc.) Policy, 2023 shall come into force from the date of notification and shall remain in operation for a period of 5 years.

Eligibility:

- All new units falling under "Semiconductor Manufacturing" are entitled for benefits under this policy unless specifically stated otherwise in the provisions of the policy.
- Eligible industrial units shall be allowed to take up phase wise commissioning of the total approved plant capacity within the overall prescribed time limit of 3 years for MSMEs and 5 years for large industries from the date of first fixed capital investment and avail applicable incentives in a phased manner.

Incentives under this Policy:

i. **Capital Subsidy:** Government of Assam shall provide for an additional 40% of the Capex assistance given by the Government of India. The capital subsidy will be disbursed in the following ratio in 5 years, post approval of the project by Government of India:

Commencement of Construction		Commencement of Commercial Production		
Year 1	Year 2	Year 1	Year 2	Year 3
20%	20%	20%	20%	20%

ii. **Land Related Incentives:** Government of Assam may offer land at nominal prices and free hole transfer of land rights on case-to-case basis.

iii. **Stamp duty exemption:** The Government shall extend 100% exemption of stamp duty on lease/ sale agreement of land or built-up space allotted by Government/AIDC/AIIDC/Designated Development Authorities to eligible projects/ units under this policy.

iv. **Incentives on Power supply:** Government of Assam shall provide incentives in power tariff upto 50% for 10 years from Commercial Operations Date. This shall be disbursed annually.

v. **Provision for Water supply and incentives:** The government will provide water at the project sites in the required quantities at the rate of INR 5.00/cubic metre for the first 10 years of operation. Government of Assam reserves the right to further subsidy on water tariff, upto 100%, on a case-to-case basis.

vi. **SGST Reimbursement:** For projects as defined under this policy, Government of Assam reserves the right to provide SGST reimbursement on a case-to-case basis up to a maximum of 15 years.

vii. **Payroll assistance:** In order to attract local employment, the State Government may provide Payroll Assistance of 20% of Net Wages for local employees.

viii. **Customised Incentives for Eligible Projects:** Government of Assam reserves the right to further incentivise for eligible projects such as Ecosystem Infrastructure Development, Social Infrastructure Development, Provision of Green Energy, and Accomodation Support during development and Implementation phase of the project and Connectivity Infrastructure Developemnt.

5. Assam Logistics & Warehousing Policy of Assam 2022

The Assam Logistics and Warehousing Policy 2022 was notified on 20th August 2022 and remains in force for a period of 5 years.

The policy encompasses the following categories: Integrated/ Multi Modal Logistics park (MMLP),Warehouses, Logistic park, Container Freight Station/ Inland Container Depot, Integrated Cold chain, primary processing center, Cargo electric bicycle. The applicant units can avail various fiscal incentives such as:

SlNo.	Components	Benefits
1.	Multi-Modal Logistics Park (MMLP)	Capital Subsidy @25% of FCl up to maxRs 20 Cr.
2.	Warehouse	30% of FCI up to a max of Rs 7.50 cr.
3.	Logistic park	30% of FCI up to max Rs 10 Cr
4.	Container Freight Station/ Inland Container Depot	30% subject to a ceiling of Rs 2 cr
5.	Integrated cold chain	30% of FCI up to max of Rs 3 Cr.
6.	Primary Processing Centre	30% subject to a ceiling of Rs 0.75 Cr.
7.	Cargo Electric bicycle	30% subject to a ceiling of Rs 10 lakhs.

Other Benefits.

Stamp duty reimbursement 100%.

Capacity building Incentives (gender focus) = Training cost of worker subject to a max of 50% for male workers and 60% for female workers, limited to a max 10,000 formales and 12,500 for female workers. Max claim by an entity is Rs 7.5 lakhs

Start-up incentive for research= 10 start-ups to be provided fiscal incentives with ceiling of Rs 50 lakhs per unit.

Green Logistics: Promotion of electric bicycles= Purchase incentive of 30% of MRP up to a max of Rs 10,000/- per vehicle.

6. Assam Agribusiness & Rural Transformation Project (APART)

1. Background

The Assam Agribusiness and Rural Transformation Project (APART) is a World Bank financed project implemented from January 2018 with the objective of enhancing value addition, competitiveness, and resilience of selected agricultural value chains, focusing on small farmers and agro-entrepreneurs.

Under APART, the Industries & Commerce Department, Government of Assam, through the Office of the Commissioner of Industries & Commerce (OPIU-I&C), was entrusted with the implementation of key interventions under:

- Component A- Enabling Agri-Enterprise Development
- Component B- Facilitating Agro-Cluster Development

These interventions directly addressed long-standing constraints in Assam's agro-industrial sector such as fragmented value chains, limited private investment, absence of shared infrastructure, and weak MSME institutional capacity.

2. Strategic Role of the Industries & Commerce Department

The Industries & Commerce Department played a pivotal and catalytic role in transforming Assam's agribusiness ecosystem by:

- Positioning Assam as an investment-ready agribusiness destination.
- Enabling large-scale private sector participation
- Organising MSMEs into functional Industry Associations
- Creating Common Facility Centres (CFCs) to bridge technology and infrastructure gaps
- Strengthening district-level institutional capacity through DI&CCS

The Department acted as the nodal interface between investors, entrepreneurs, district administrations, and line departments, ensuring coordinated and outcome-oriented implementation.

1. Impact of Component A- Investment Promotion & Enterprise Development

1.1 Investment Promotion (Sub-component A1)

Through structured sector scans, investor outreach, G2B meetings, and sustained aftercare
support, the Industries & Commerce Department facilitated:

- 456 investment leads generated
- 65 investors facilitated across agribusiness and manufacturing sectors
- Total investment facilitated: 4,399.06 crore

Major investment segments include:

- Ethanol & bio-fuels
- Food processing & agro-processing
- Poultry, feed mills, dairy & spices
- Cold storage, bamboo and allied manufacturing

These investments are spread across multiple districts, ensuring balanced regional industrial development and large-scale employment generation.
Additionally:

- 14 DI&CC offices were renovated to strengthen grassroots investment facilitation
- Officials underwent capacity building and exposure visits to adopt best practices
- APART-supported reforms contributed to Assam being recognised as a Top Achiever
  under BRAP 2022 (DPIIT).

1.2 Enterprise Development - Kshyamata Programme (Sub-component A2)

The Industries Department-led Kshyamata initiative significantly strengthened MSMEs and rural entrepreneurs:

- 253 entrepreneurs enrolled
- 1,557 enterprises received Business Development Services
- 923 entrepreneurs accessed institutional finance
  The programme enabled:
  - ✓ Formalisation and scaling of micro-enterprises
  - ✓ Improved access to government schemes and bank finance
  - ✓ Enhanced business skills, technology adoption, and market orientation.

This intervention directly contributed to income enhancement, entrepreneurship development, and job creation in rural and semi-urban Assam.

2. High Impact outcome of Component B- Common Facility Centres (CFC)

Common Facility Centres provide modern and shared infrastructure which enables small agro entrepreneurs to complete in organized markets.

2.1 Status and Coverage of CFCs

Sl No.	District	Finalized CFCs for districts	Name of SPV	Total Project Cost			Current Status
				Estimated Project Cost (in lakhs)	Project Share @80%	Beneficiary Share @20%	
1	Morigaon	Fruits and Vegetable Processing & Packaging facility	Morigaon Integrated Fruits and Vegetables Processors Pvt.Ltd	316.54	253.23	63.31	**Functional**
2	Lakhimpur	Kacchi Ghani Oil Processing facility	Subanshiri Enterprise Pvt. Ltd	435.11	348	87.11	**Functional**
3	Sonitpur	Value add rice processing facility (Parboil rice)	Brahmaputra Rice Clusters Pvt. Ltd	789.55	631.64	157.91	**Functional**
4	Biswanath	Mustard Oil Processing facility (Expeller)	Biswanath Mustard Oil Pvt. Ltd	261.26	209.01	52.25	**Functional**
5	Hojai	Common Facility Center of Premium Quality Rice & Rice Value Added Products	Dimoru Valley Agro Pvt. Ltd	820.74	656.59	164.15	**Functional**
6	Karbi Anglong	Fruits and Vegetable & Packaging facility	Hamren Natural Processors Pvt. Ltd	129.68	103.74	25.94	**Functional**
7	Jorhat	Value add rice processing facility	Jorhat Agro Pvt. Ltd	743.69	594.95	148.74	**Functional**
8	Kamrup (M)	Eri and Muga processing unit and design centre	Borhomthuri Pvt. Ltd	550.38	440.3	110.08	**Functional**

Source: Commissioner of Industry and Commerce, Assam

7. Mukhya Mantrir Tholuwa Udyog Bikash Asoni (MMTUBA)

The basic objective of Mukhya Mantrir Thaluwa Udyog Bikash Asoni is to provide assistance to the Handicraft Industries & Clusters which are registered with Co-operative Deptt, Govt. of Assam. It aims to promote the livelihood of artisans and boost their activities with new technology and design.

The activities identified for promotion are Bell Metal Craft, Brass Metal Craft, Fire works Craft, Jute diversified products, Cane & Bamboo, Sital Patti, Water Hyacinth Jewellery, Pottery& Terracota, Wood Carving, Decorative textile, Black smithy, Gold & Silver Smithy, Masks, Japi Craft etc.

a) **Incentives provide under the scheme** :-

- Revolving Fund for Raw Material Bank: Interest-free loans will be provided to Artisan Co-operative Societies to establish and operate Raw Material Banks etc..
- Training: Partners with institutions like NID, IIT Guwahati, and the Indian Institute of Packaging to enhance artisan skills, design, and packaging.
- Supply of Tools & Equipment: Government will allocate funds for the procurement and distribution of tools and equipment, with a maximum ceiling of Rs. 20,000 per artisan.
- Marketing Assistance: Provides marketing assistance for paper advertisements in DIPRO-approved print and electronic media.
- Infrastructure Grant: Artisan Co-operative Societies will receive an Infrastructure Grant of Rs. 15.00 lakh for constructing working sheds within a maximum ceiling of Rs. 30,000 per artisan.
- Award Scheme: The scheme includes an awards program where selected handicraft artisans from different craft industries are recognized at a state-level ceremony.

The performance report of the Mukhya Mantri Thaluwa Udyog Bikash Asoni (MMTUBA) for the last three years is as below:

Table 11.4

Sl. No.	Year	No. of Societies	Total No. of Beneficiaries	Total disbursement
1	2019 -20	13	2015	Rs.24450000.00
2	2021-22	8	526	Rs. 79,99,934.00
			102 *(for S.C. Category)*	Rs. 7,99,986.00
3	2022-23	11	1261	Rs. 1,51,99,292.00
	Total	**32**	**3904**	**Rs. 4,84,49,212.00**

Source: Commissioner of Industry and Commerce, Assam

For the FY, 2025-26, FOC is moved for the proposal of an amount of Rs. 1, 80, 77,173.00 (Proposed) from 12 societies from 10 districts covering 2306 artisans.

8. Chief Minister's Atmanirbhar Asom Abhijan (CMAAA)

1. About CMAAA and Its Objectives

The Chief Minister's Atmanirbhar Asom Abhijan (CMAAA) is a flagship programme of the Government of Assam, designed to mitigate unemployment and promote inclusive socio-economic development across the State. Under this initiative, eligible applicants in the General category are entitled to financial assistance of ₹2, 00,000, comprising a 50% grant and a 50% interest-free loan. Applicants in the Professional category (including disciplines such as Engineering, MBBS, BDS, etc.) are eligible for financial assistance of up to ₹5, 00,000 on the same grant-loan basis.

The principal objectives of the scheme are to:

- Facilitate self-employment opportunities for educated youth through appropriate mechanisms.
- Establish an entrepreneur-centric ecosystem within the State.
- Promote the creation of gainful employment in both rural and urban areas through the establishment and expansion of economic ventures.
- Provide requisite financial support to entrepreneurs and entrepreneurial groups for undertaking new or existing income-generating activities.
- Reinforce the Government's strategic emphasis on strengthening the rural economy.

Following the successful execution of CMAAA 1.0, the Government of Assam has launched the second phase of the programme, referred to as CMAAA 2.0.

2. Eligibility Criteria for Applicants

To qualify for participation in the CMAAA, applicants must satisfy the following eligibility conditions:

- Must be a permanent resident of the State of Assam.
- Must be aged between 28 and 45 years as of 1 April 2024.
- Must satisfy the prescribed minimum educational qualifications: a pass in Class X for General category applicants; and up to Class X qualification for candidates belonging to SC, ST, or OBC categories.
- Must possess relevant skills, experience, and capability to undertake an income-generating activity.
- Must hold an operative scheduled commercial bank account opened prior to 1 April 2024.
- Must have a clean credit record, with no history of default on loans from scheduled commercial banks.
- Only one eligible member per household (defined as husband, wife, brother, sister) may apply under the scheme.
- Must possess valid registration with the Employment Exchange.

In addition, applicants under CMAAA 2.0 must not have been beneficiaries under CMAAA 1.0.

3. Total Number of Beneficiaries

Under CMAAA 1.0, a total of 25,277 individuals benefited from the scheme, of whom 25,056 (99%) were from the General category and 221 (1%) were from the Professional category. Of the total beneficiaries, 74% were male and 26% were female. The beneficiary cohort comprised 55% existing entrepreneurs and 45% new entrepreneurs who successfully initiated business ventures.

For CMAAA 2.0, a total of 1, 09,155 applications have been received, including 1, 08,873 from the General category and 282 from the Professional category. The selection process is in progress, with interviews completed for all applicants in both categories.

4. Disbursement of Funds

Under the ongoing disbursement:

- Beneficiaries in the General category have received financial assistance of ₹1, 00,000 each.
- Beneficiaries in the Professional category have received grants up to ₹2, 50,000, commensurate with the amount specified in their respective Detailed Project Reports (DPRs).

The evaluation process for disbursing the second tranche of the interest-free loan to CMAAA 1.0 beneficiaries is underway. Upon completion of the evaluation, eligible beneficiaries in the General category may receive an interest-free loan of ₹1, 00,000, while Professional category beneficiaries may receive an interest-free loan of up to ₹5, 00,000.

5. Programme Impact

All beneficiaries under CMAAA 1.0 have successfully completed a mandatory three-day Entrepreneurship Development Programme (EDP). A baseline survey indicates that 84% of CMAAA 1.0 beneficiaries have effectively utilized the financial assistance provided.

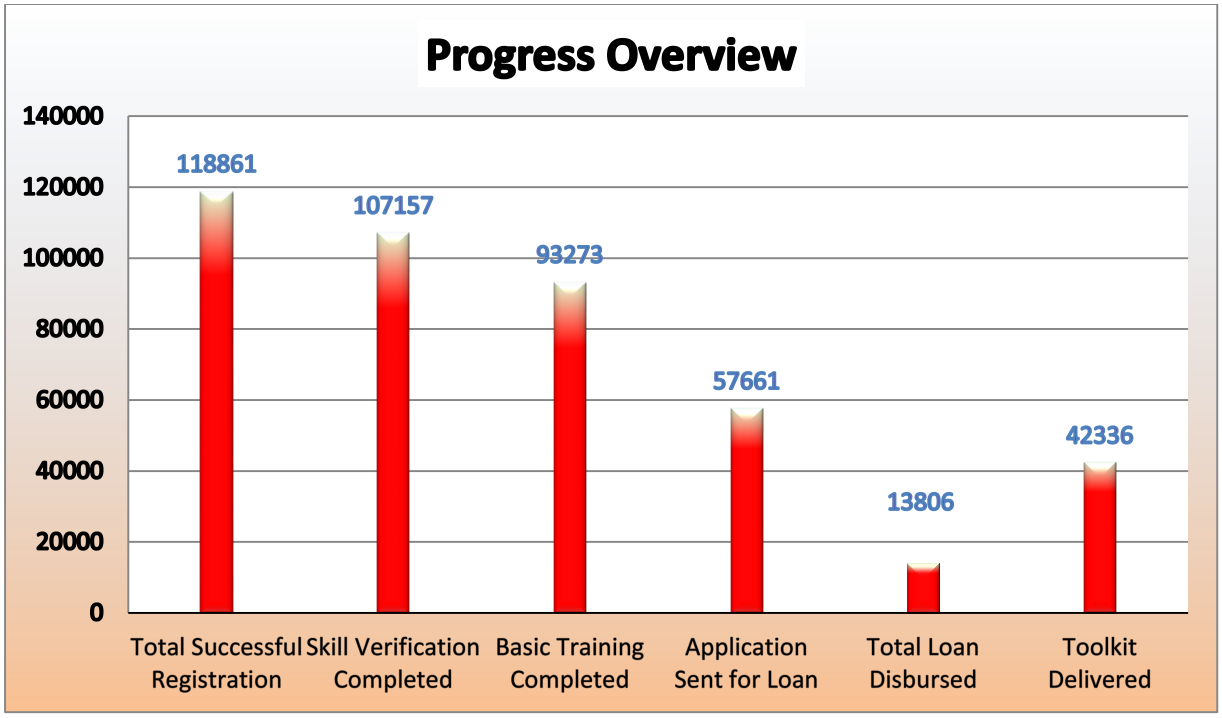

Efforts have also been undertaken to integrate CMAAA 1.0 beneficiaries with other government credit facilitation schemes, including PMEGP, PMFME, and Mudra.

PM Vishwakarma

Assam has shown remarkable progress in implementing the PM Vishwakarma Scheme during 2025, consistently ranking among the top performers across multiple indicators. The state's commitment to empowering traditional artisans and craftspeople has been evident, with most onboarded districts contributing significantly to the scheme's success.

Nationwide, Phase 1 of the scheme set an ambitious target of 30 lakh beneficiaries, achieved in 2025. Assam played a pivotal role by registering 1, 18,861 beneficiaries, placing itself among the top 10 states in performance

Fig - 11.4

Source: Commissioner of Industry and Commerce, Assam

Key Achievements

Financial inclusion was a major success. A total of 15,346 beneficiaries received sanctioned loans worth ₹143 crore, with districts such as Cachar, Nagaon, and Kamrup leading in loan sanctions.

This was facilitated through close coordination with bankers at branch, regional, and state levels, supported by the Department of Industries through regular engagements with the State Level Bankers' Committee (SLBC).

Skill enhancement formed the cornerstone of the scheme. Out of the registered beneficiaries, 93,273 completed basic training, equipping them with essential skills to boost productivity and competitiveness. Districts like Cachar, Dhubri, Kamrup Metro, Morigaon, Nagaon, and Nalbari achieved notable success.

To further strengthen artisans' capabilities, 42,336 toolkits were delivered, enabling beneficiaries to upgrade tools and improve product quality.

Capacity Building and Awareness

Assam undertook extensive initiatives to build capacity and awareness. State wide campaigns, training programs, and exhibitions promoted the scheme's benefits. Beneficiaries participated in trade fairs and exhibitions, gaining exposure to market trends and customer preferences.

Table - 11.5
Skill Development (For the year 2025)

A. Government of India:

Following schemes/ policies of Govt. of India are implemented by the Industries, Commerce & Public Enterprise Department. Schemes of Central Government being implemented by Industries and Commerce Department:

9. Uttar Poorva Transformative Industrialization Scheme (UNNATI–2024)

The Uttar Poorva Transformative Industrialization Scheme (UNNATI–2024) is an industrial development initiative launched by the Ministry of Commerce and Industry, Government of India, administered through the Department for Promotion of Industry and Internal Trade (DPIIT). The scheme is aimed at strengthening the industrial ecosystem in the North Eastern Region (NER) and catalysing new investment by incentivising industrial expansion and operational optimisation. UNNATI seeks to foster a performance-driven, innovation-oriented economy, with particular emphasis on sectors aligned to the region's comparative advantages.

The policy prioritises strategic growth sectors including Manufacturing, Tourism, Hotels & Hospitality, Healthcare, Bio-Technology, IT & ITeS and other allied segments, with dedicated support for Small and Medium Enterprises (SMEs). UNNATI provides a comprehensive incentive framework comprising capital investment support, tax exemptions, interest subventions, streamlined clearances, and access to industrial infrastructure. Detailed scheme provisions are accessible on the official portal: https://unnati.dpiit.gov.in.

The scheme covers all eight North Eastern States: Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, and Tripura. The total scheme outlay is ₹10,037 crore, and the registration window remains open until 31 March 2026.

Eligibility and Investment Thresholds

- Manufacturing Sector: Minimum investment of ₹1 crore
- Services Sector: Minimum investment of ₹50 lakh
- Micro Enterprises: Minimum investment of ₹50 lakh (Manufacturing or Services)
- Existing Units: Eligible on undertaking a minimum of 25% expansion over previous investment

Districts within the NER are categorised into Zone A (Industrially Advanced) and Zone B (Other Districts). In Assam, Kamrup Metropolitan, Kamrup, Nalbari, Nagaon, and Jorhat are designated as Zone A; all remaining districts fall under Zone B.

Scheme Incentives

1. Capital Investment Incentive (CII)

Applicable to both new and expanding units:

- Zone A: 30% of eligible investment (maximum ₹5 crore; where GST is not applicable, up to ₹10 crore)
- Zone B: 50% of eligible investment (maximum ₹7.5 crore; where GST is not applicable, up to ₹10 crore)

2. Central Capital Interest Subvention (CIS)

Interest support on term loans (up to ₹250 crore principal):

- Zone A: 3% per annum for up to 7 years
- Zone B: 5% per annum for up to 7 years

3. Manufacturing & Services Linked Incentive (MSLI)

Available for new units only:

- Zone A: Incentive up to 75%
- Zone B: Incentive up to 100%
  Eligible units receive MSLI equivalent to 100% of net GST paid (Gross GST less Input Tax Credit) for a period of up to 10 years.

Sectoral Coverage

Positive List (Service Sector) includes:

- Hotels, resorts, guest houses and allied hospitality services
- Tourism services such as homestays, houseboats, cruise services, adventure tourism, film tourism, ropeways, and amusement parks
- Heritage property restoration services
- Bio-technology and healthcare (secondary & tertiary)
- EV charging infrastructure
- IT-ITeS (Data Centres)
- Technology-oriented start-ups including EdTech

Negative List excludes:

- Tobacco and related products under CGST Chapter 24
- Petroleum/gas refinery products under Central Excise Chapter 27
- Low-value addition activities (storage, basic packaging, re-labelling)
- Cement, arms and ammunition
- Units non-compliant with environmental requirements
- Tourism services reliant solely on mobile units without fixed infrastructure
- BPO, Fin-tech, financial services and education (vocational/digital) units
- Other categories as determined by the Steering Committee

Scheme Implementation Status (as on 12 January 2026 – Assam)

- Registrations received: 507
- Proposed investment: ₹10,154 crore
- Projected employment generation: 26,512 persons

10. Pradhan Mantri Formalisation of Micro Food Processing Enterprises(PMFME)

The Pradhan Mantri Formalization of Micro Food Processing Enterprises (PMFME) Scheme is a Centrally Sponsored Scheme (CSS) of the Government of India, launched to formalize the unorganised micro food processing sector. With an overall outlay of ₹10,000 crore, the scheme aims to formalize 200,000 micro food processing enterprises nationwide during the period 2020–21 to 2025–26. The State of Assam has been allocated an overall target of 12,778 units, with a revised target of 6,000 units for the financial year 2025–26.

In Assam, the Department of Industries, Commerce and Public Enterprises serves as the State Nodal Department, with the Assam Industrial Development Corporation Ltd. (AIDC) designated as the State Nodal Agency. A dedicated State Project Management Unit

(SPMU) has been established to support scheme implementation, while the scheme is executed at the district level through District Industries and Commerce Centres (DICC). Private District Resource Persons (DRPs) are empanelled to mobilize beneficiaries and provide implementation support.

1. **Scheme Components**

   Credit-linked subsidy at 35% of capital investment, up to a maximum of ₹10 lakh, is provided for setting up or upgrading food processing units. Eligible entities include individuals, proprietorships, partnerships, FPOs, FPCs, cooperatives, NGOs and SHGs. Proposals are submitted via the online PMFME portal. Post-sanction monitoring and support for formal registrations (e.g., UDYAM, FSSAI, GST where applicable) are provided by DRPs.

2. **Seed Capital for SHG Members**

   Under this component, eligible SHG members linked to Assam State Rural Livelihood Mission (ASRLM) and Assam Urban Livelihood Mission (ASULM) may receive soft loans of up to ₹40,000 per member as grant funding to purchase machinery, packaging and raw materials. This enables SHG members to scale and transition into credit-linked subsidy beneficiaries.

3. **Capacity Building**

   Beneficiaries receive enterprise development training to enhance business skills. Training is delivered in two formats:

   - Three-day training for credit-linked subsidy beneficiaries at the district level.
   - One-day training for beneficiaries approved for seed capital support.

4. **Common Infrastructure Support**

   To strengthen supply chain linkages, credit-linked capital subsidy at 35% of eligible project cost (up to ₹3.00 crore) is provided to establish common infrastructure facilities. Eligible costs include plant & machinery and technical civil works (capped at 30% of project cost), with total project cost not exceeding ₹10 crore. Applications are invited from SHGs, FPOs, FPCs, cooperatives, federations and government organisations. Facilities operate on a pay-per-use basis.

   An Incubation Centre at Tezpur University has been supported with ₹2.73 crore to establish five food processing lines for grains, fruits & vegetables, and spices. Of this, ₹2.35 crore has been released, and the centre is operational for public utilisation to support enterprise incubation.

5. **Branding and Marketing Support**

   The scheme offers 50% grant assistance to support branding and marketing activities proposed by Special Purpose Vehicles (SPVs) created by PMFME enterprises, government organisations, FPOs, FPCs, SHGs, cooperatives and federations. Eligible expenditures include brand creation, packaging design, and development of online marketing channels.The following table depicts the Year-wise progress of the PMFME scheme in Assam

Table - 11.6

11. Prime Minister Employment Generation Programme (PMEGP)

The Ministry of Micro, Small and Medium Enterprises (MSME), Government of India introduced the Prime Minister's Employment Generation Programme (PMEGP) in 2008. This scheme, which provides a credit-linked subsidy, aims to create employment opportunities.

The Ministry of MSME administers PMEGP as a Central Sector programme, with the Khadi and Village Industries Commission (KVIC) designated as the National Nodal Agency. The implementation of the scheme is carried out by the Khadi and Village Industries Board (KVIB) and District Industries & Commerce Centre (DICC). Under this scheme, units in urban areas are eligible for a subsidy of 25%, while units in rural areas can receive a subsidy of 35%. Manufacturing sector projects up to Rs. 50 Lakh and service sector projects up to Rs. 20 lakh can be undertaken under this scheme.

The positive outcome of PMEGP

The PMEGP has proven to be a catalyst for positive results, fostering growth and development across multiple sectors. Some of the positive outcome are:

1. Income Generation
2. Employment Generation
3. Poverty Alleviation
4. Rural Development
5. Financial Inclusion.

Status

PMEGP has emerged as a vital initiative in driving entrepreneurship and employment across the state. From 1st April 2024 to 31st March 2025, a total of 3224 projects have been sanctioned worth Margin Money of Rs 9465.7lakhs. A total of 3143 projects have been disbursed worth Margin Money of Rs 9016.76 lakhs. From 1st April 2025 to 7th January 2026, a total of 1746projects have been sanctioned worth Margin Money of Rs 5795.2 lakhs. A total of 1338 projects have been disbursed worth Margin Money of Rs. 3934.55 lakhs

This has enabled individuals to establish and expand small businesses, thereby fostering self-reliance and economic growth. The achievements of PMEGP underline its pivotal role in generating self-employment opportunities and uplifting livelihoods, particularly in rural and semi-urban areas. Table 11.7 portrays the DICC's PMEGP Achievements.

Table 11.7

DICC's PMEGP Achievement						
	Financial Year	Target by KVIC			Achievement

INSPECTOR OF FACTORIES

The total number of registered factories in the state for the year 2024 reached 8858 against 8620 nos. of factories registered in 2023. The number of daily workers engaged in the factories in 2024 was 312982 which was 3432824 in 2023 and 322422 in 2022 showing a decline in 2024. The average number of daily workers engaged is about 35 per factory.

Table -11.8

Registered Factories in Assam

Year	Number of Factories	Number of Daily Workers	Average no. of workers per Factory
2020	7512	294692	39
2021	7790	305690	40
2022	8138	322422	40
2023	8620	343824	40
2024	8858	312982	35

SOME MAJOR INDUSTRIES IN ASSAM

TEA INDUSTRY:

The tea industry holds a central position in Assam's economy, with its origins dating back to the early nineteenth century when commercially produced Assam tea was first shipped to the United Kingdom in 1838. Assam remains the largest tea-producing region in India, contributing more than half of the country's total tea output and accounting for a significant share of global production. The extensive area under tea cultivation in the State includes large estates operated by reputed Indian and multinational companies as well as numerous small tea gardens established by local entrepreneurs.

According to Tea Board and State statistics, the tea sector in Assam comprises several hundred estates and gardens and generates employment for approximately seven lakh workers on a daily basis, representing a substantial proportion of the sector's total workforce nationwide. Assam tea's enduring reputation for quality and its substantial contribution to production and employment underscore its continued importance to both the State and national economy

Assam has witnessed a spurt in the growth of small tea holdings during the last three decades and there are 1.33 lakh small holdings in the year 2025 accounting for 313.52 million kg in production. Most of the Small Tea Growers (STGs) are first generation young and educated entrepreneurs who have started contributing immensely towards the transformation of socio-economic life in rural Assam. As per Tea Board of India, in 2025 there were 133833 nos. registered Small Tea Growers (with an area up to 10.12 hectares of land) in Assam covering a total area of 126067.81 ha of land.

The Small Tea Growers produced 313.52 million kg in 2025. The number of big grower tea estates (i.e. with holding above 10.12 hectares) as per the Tea Board, in the state is 763

covering a geographical area of 232864.282 ha and they have produced 321.85 million kg of tea in 2025.

The total production of tea in Assam was 675.88 million kg during 2023 and total tea production was 621.60 million kgs in 2024 and 635.37 million kgs in 2025. Year wise no of gardens, area, production and average yield of tea in the State is given in the Table 11.9 which has also been graphically depicted in Fig 11.4

Table -11.9

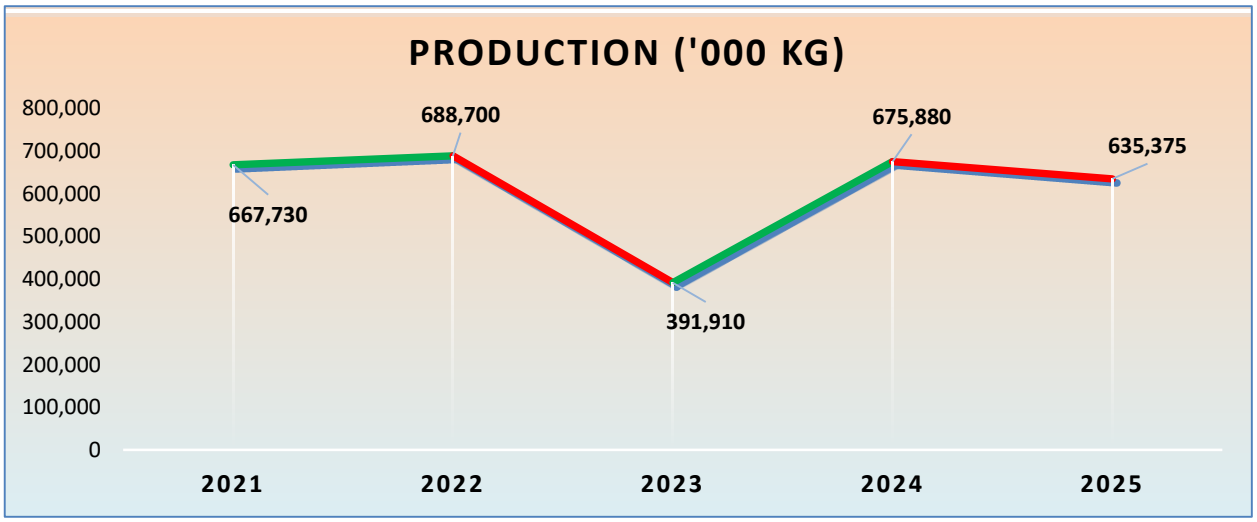

TEA STATISTICS OF ASSAM

Year	No. of Gardens including Small Tea Growers	Area under Tea ('000 hectares)	Production ('000 kg.)	Average yield (kg/Hect.)
2020	122440	347	618200	1781
2021	122440	347	667730	1923
2022	123241	348	688700	1822
2023	126310	351	391910	916
2024	134265	359	675880	1884.42
2025	133833	358	635375	1774.79

Note: Area, Production and Average yield have been estimated and subject to revision.

Fig: 11.4

Source: Tea Board, Assam

Recognizing the need to improve the profitability of the tea sector and ensure its long-term financial sustainability by promoting a shift from predominantly CTC production to increased orthodox and speciality tea manufacturing, the Government of Assam has introduced the Assam Tea Industries Special Incentives Scheme (ATISIS), 2020. This strategic intervention is intended to reduce the over-supply of CTC tea and thereby support price enhancement over time.

Under ATISIS, four key components of benefits are provided to encourage the production of orthodox and speciality teas—including green, white, Oolong, Singhpo, purple, yellow and other non-CTC specialty varieties—namely: interest subvention on working capital, orthodox and speciality tea production subsidy, subsidy for plant and machinery for orthodox and speciality tea units, and agricultural income tax holiday for eligible producers. The scheme has four components:

1. **Component-I: Interest Subvention on Working Capital Loan:** An interest subvention of 3% p.a., a maximum 20 lakhs per annum, will be provided on Working Capital Loan.
2. **Component-II: Subsidy on Orthodox or Specialty Tea Production:** An industrial unit manufacturing Orthodox tea/ Green tea / White tea / Oolong tea / Singhpo Tea / Purple Tea / Yellow tea or other Speciality tea (not manufactured through CTC (Crush, Tear, Curl) process will be eligible for a subsidy of Rs. 7 per kg against such tea manufactured in a financial year. This subsidy has been increased from Rs.7/- per KG to Rs.10/- per KG till the end of this scheme. In view of the completion of 200 years of Assam Tea, the Government has decided to increase the production subsidy to Rs.12/- for the financial year 2023-24.
3. **Component-III: Subsidy for Orthodox & Specialty Tea Unit for Plant & Machinery:** A subsidy of 25% of the cost of Plant & Machinery of orthodox or any other Speciality tea will be provided.
4. **Component-IV: Agricultural Income Tax Holiday:** Six year agricultural income tax holiday starting from Financial Year 2019-20 to 2024-25.

The State Government has announced extension of the Scheme for another 5 years i.e. till the financial year 2027-28. So far, an amount of ₹109.94 Cr. has been disbursed to 647 Tea Estates under the ATISIS Scheme. The status of achievement under the ATISIS for 2022-23 is given below:

Table: 11.10

Status of Achievement under the ATISIS

Component	Budget Provision	Physical Achievement (No. of T.E.)	Financial Achievement *(Rs. in lakh)*
Component I		253	2730.00
Component II	71.25	86	3152.00
Component III		31	524.00
Total	**71.25**	**370**	**6405.00**

Source: Guwahati Tea Auction Centre

As per the data shared by Tea Auction Centre, Guwahati Upto September of the year 2024 and 2025 overall revenue declined slightly in 2025 compared with 2024, with total revenue falling from Rs. 25,952.13 Million to Rs. 24,786.12 Million.

RUBBER PLANTATION

The rubber plantation has gained popularity in Assam due to congenial agro-climatic conditions in the state. The Rubber Board has identified Assam as a "Potential state" from the "productivity" point of view as the state has ample scope for the expansion of rubber plantations.

Between 2023–24 and provisional estimates of 2024–25, all key metrics showed positive growth. The area under cultivation increased from 79,600 ha to 94,500 ha, a rise of about 18.7%, while production grew modestly from 46,500 MT to 47,500 MT, an increase of approximately 2.1%. The tapping area expanded slightly from 37,370 ha to 37,900 ha, reflecting around 1.4% growth. Employment generation saw a substantial jump

from 254,720 to 302,400 persons, also increasing by roughly 18.7%. These figures indicate robust expansion in cultivated area and labor engagement, with relatively smaller gains in actual production and tapping. The Area and Production of Rubber has been depicted in Table 11.12 and graphically represented in Fig 11.5.

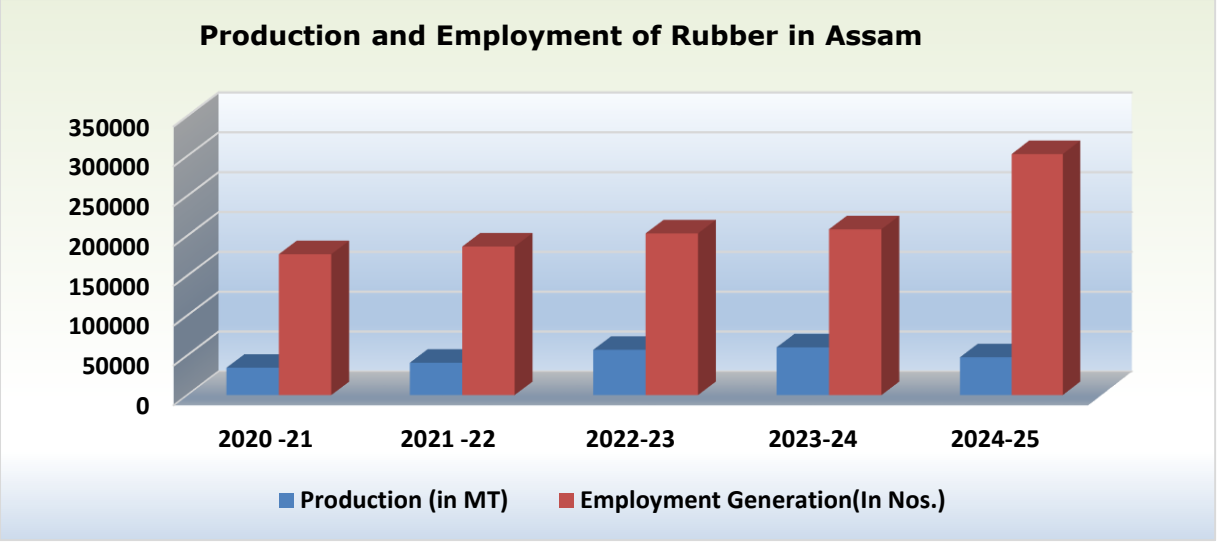

Table -11.12

Area and Production of Rubber in Assam

Year	Area *(in hect.)*	Production *(in MT)*	Tapping Area *(in hectare)*	Employment Generation *(in nos)*
2020 -21	58897	34348	29052	176771

COFFEE PLANTATION

Coffee was first introduced in Assam in 1953 in Cachar district. Pilot cultivation began in 1954 under the State Forest and Soil Conservation Department.

The Coffee Board initiated systematic activities during the IX Five Year Plan (1997–2002). Coffee promotion aimed to curb jhum cultivation, prevent forest degradation, and provide sustainable livelihoods to tribal farmers.

Assam's coffee plantations are a growing part of India's coffee map, with cultivation mainly in Dima Hasao (Haflong), Cachar, Karbi Anglong and other districts. Both Arabica

and Robusta are grown on a modest scale, adding earthy, spicy flavours to the region's agricultural output.

Areas of Coffee Cultivation

Coffee is presently grown in Dima Hasao, Karbi Anglong, and Bijni–Shantipur areas of Chirang district (BTR).

- **Dima Hasao**: Coffee development started in 1978 with a Technology Evaluation Centre (1980). The region has elevations of 1100–2300 ft, rainfall of 1500–2500 mm, red lateritic soils with high organic matter, and temperatures ranging from 7–26°C, making it highly suitable for coffee.
- **Karbi Anglong**: Coffee plantations were established in tribal blocks to promote socio-economic development. During the IX Plan, 49 ha were planted in Hapjan and Umcherra villages, but group plantations were later abandoned due to law and order issues.
- **Chirang:** (Bijni/Shantipur): Located in the foothills of Bhutan, this area has 1800–2200 mm rainfall, acidic porous soils (pH 4.5–6.2), and is ideal for Robusta (CxR) coffee. About 90% of the population depends on agriculture.

Table 11.13 depicts the production of Coffee in Assam for 2024-25

Table 11.13

Ongoing Coffee Development Schemes in the North Eastern Region

(Period: 2022–23 to 2024–25)

Background

The **Coffee Board** is implementing multiple developmental interventions in the North Eastern Region (NER) with the objective of expanding coffee cultivation, improving productivity and quality, enhancing growers' income, and providing sustainable livelihood opportunities, particularly to tribal communities.

Key Interventions

1. **Coffee Expansion / Consolidation**
   Financial assistance is provided for expansion of coffee cultivation in new suitable areas and for consolidation, rejuvenation, and productivity enhancement of existing plantations to improve overall output and farmer income.
2. **Raising of Seedlings through Group Nurseries**
   Support is extended for raising quality coffee seedlings through group nurseries to ensure availability of good planting material and proper establishment of coffee plantations.
3. **Quality Up-gradation**
   Assistance is provided for creation of infrastructure such as **baby pulpers and drying yards** to facilitate production of quality coffee and improve market realization for growers.
4. **Organic / Eco-certification**
   This initiative promotes production of organic and eco-certified coffee to enable access to high-value specialty markets. The scheme also encourages formation of grower groups/collectives to facilitate eco-certification and development of common facilities.
5. **Water Augmentation**
   Financial support is provided for creation of infrastructure for water augmentation for irrigation and wet processing of coffee, aimed at improving productivity and quality.
6. **Support for Coffee Marketing (MSS)**
   Under the Marketing Support Scheme, the Board provides complete logistical support from **farm-gate collection of estate-processed coffee** to sale through a **transparent auction platform**, ensuring fair price discovery and improved returns to growers.
7. **Welfare Measures for Children of Plantation Labourers**
   Educational stipends, merit incentives, and financial assistance for higher education are provided to the children of **SC/ST labourers** working in coffee plantations and curing establishments, particularly for those pursuing studies beyond **Class X**.

Research & Capacity Building

A Regional Coffee Research Station, established in 1985 at Diphu, Assam, over an area of 25 hectares, undertakes development of location-specific technologies for coffee cultivation in NER. The station also demonstrates scientific cultivation practices and conducts regular training and capacity-building programmes for tribal coffee farmers.

Outcome

The integrated approach covering production, quality improvement, marketing support, welfare measures, and R&D is contributing towards sustainable development of the coffee sector in the North Eastern Region with improved income security for tribal growers.

Trends of Area under coffee plantation, production, average price (As per the Indian Coffee Trade Association-ICTA) and employment generation for the last three years may be seen in Table 11.14

Table -11.14
AREA, PRODUCTION AND EMPLOYMENT UNDER COFFEE PLANTATION

Year	Area *(in Hect.)*	Production *(in MT)*	Price *(Rs. /Kg.)*		Employment Generation *(Nos.)*
			Arabica	Robusta	
2021-22	428.50	37.61	205.74	145.30	1032
2022-23	513.55	32.00	a. Cherry Rs.152/- b. Parchment Rs. 250/-	a. Cherry Rs 140/-	1223
2023-24	579.65	36.50	a. Cherry Rs. 140-180/- b. Parchment Rs. 240-280/-	a. Cherry Rs. 100-120/-	1367
2024-25	650.1	35.50	a. Arabica Cherry Rs. 180-210 b. Arabica Parchment Rs. 280-400	a. Cherry Rs. 160-200 b. Parchment Rs. 250-280	___

*Price /Kg is quoted as per the average price realized on ICTA

KHADI AND VILLAGE INDUSTRY (KVI)

With the objective of providing supplementary livelihood opportunities to rural peasants and economically weaker sections, as well as imparting skill training and employment, the Assam Khadi & Village Industries Board was established in 1955. The value of production achieved by the Board during the last three years stood at ₹2,819.10 lakh, ₹177.63 lakh, and ₹125.25 lakh during 2022–23, 2023–24, and 2024–25, respectively.

Further, during 2024–25, a total of 356 village industries units were supported under the Prime Minister's Employment Generation Programme (PMEGP), resulting in generation of 2,560 employment opportunities. The current status of production during 2024–25 is indicated in the table below.

The decline in production and sales performance is primarily attributable to acute shortage of manpower at both the field level and Headquarters level of the Assam Khadi & Village Industries Board, which has adversely affected implementation and monitoring of activities. Table 11.15 depicts the status of Khadi and village industries in Assam during 2024-25.

Table 11.15
STATUS OF KHADI AND VILLAGE INDUSTRIES IN ASSAM DURING 2024-25

Agency	Value of Production *(Rs.*	Sales *(Rs. In Lakh)*	Employment *(in Nos)*
1. KVIC	1044.9	921.79	7175

SERICULTURE

The Sericulture sector in Assam is deeply inter-wined with the cultural heritage and plays a pivotal role in its economy. Four type of Silk namely Eri, Muga, Silk and Mulberry are produced in Assam. But for Muga, Assam has been recognised as the Hub.

The origins of sericulture in this region dated back to around 3000-2000 BC with the arrival of Tibeto- Burman Groups and its prominence is reflected in ancient texts like Valmiki's Ramayana and Kautilya'sArthashastra. By 7th Century, Assam's silk was renowned, with King Bhaskaravarman of Kamrup presenting fine silk fabrics to King Harshavardhan of North India. During the Ahom Dynasty, Silk production became central to the royal courts receiving royal patronage from Ahom Kings.

Today Assam continue to lead India's silk industry, contributing 90% of the country's total Muga Silk, which is endemic to the region, and 65% of its Eri Silk, and ranks 3rd in overall silk production. Assam's Muga silk, recognised with a Geographical Indication (GI) Tag in 2007 is globally renowned for its golden hue and superior quality. The Sericulture sector support s approximately 32000 Muga reares, 5000 Mugareelers, and 10000 Weavers with 65% of the workforce comprising Women Folk. In total 300,000 Families across 8722 Villages are engaged in sericulture activities.

Table-11.16 provides details on the variety of raw silk produced in the state during the past four years.

Table -11.16
Production of Raw Silk/Yarn in Assam (in MT)

Silk / Yarn	2020-21	2021-22	2022-23	2023-24	2024-25

Source: Directorate of Sericulture, Assam

With the introduction of modern technologies such as motorised reeling, waste processing units and certified looms, the sector has enhanced both the quality and productivity of its silk, opening up new commercial opportunities. These advancements, coupled with Government support through financial assistance, have created sustainable forward linkage in value-added process such as yarn reeling, weaving, apparel, and product diversification further boosting the State's economy.

With its long-standing tradition, growing technological advancements, and commitment to sustainability, Assam's sericulture industry remains a cornerstone of the State's economy. Continued investment in the infrastructure and innovation will ensure the industry's expansion and maintain Assam's leadership in global Silk production.

The total production of silk yarn in the state however has increased from 5745.362 MT in 2023-24 to 6304.76 MT in 2024-25 recording a growth of 9.7 percent. The performance of sericulture sector is presented at Table-11.17

HANDLOOM

Handloom weaving in Assam represents a cherished generational legacy, preserved and sustained by generations of skilled artisans and deeply intertwined with the State's cultural heritage. It is a labour-intensive activity that provides significant employment, particularly for women, who constitute a substantial proportion of the handloom workforce and play a key role in its production and continuity.

The sector has continued to support socio-economic development in rural and semi-urban areas by offering livelihood opportunities and preserving traditional craftsmanship, while gradually adapting to meet market demand through increased commercial production.

The state had an estimated number *of* 78642 full time weavers and 680687 nos. of part time weavers during 2024-25. There were 210 handloom demonstration circles in the state covering 21642 villages. In 2024-25 there were 135 Handloom Training Centres in the state accommodating 1516 trainees. Combined Handloom production during the year 2024-25 in the weaver's extension service units and handloom production centres of the Directorate was 14549.92 Meters.

The Directorate has been implementing various schemes and programmes under the State Sector Schemes and Central Sector. Some of them are discussed below:

➢ SWANIRBHAR NAARI SCHEME

An initiative under the Directorate of Handloom & Textiles, Assam to directly procure handloom items from the indigenous weavers of the State through a dedicated online portal (swanirbharnaari.assam.gov.in) under the State flagship scheme, "SWANIRBHAR NAARI (SNN)" without involving any middlemen. The total no. of approved registered weavers under this Scheme to date was 5, 64,811, marking a significant milestone in the scheme's implementation.

Table 11.18 depcits the performance of the scheme.

Table 11.18

Highlights of the two phases of Swanirbhar Naari Scheme (SNN)

Phases of SNN	Weavers Registered	No.of Weavers participated	No. of procurement centres	Total no. of items procured
1st Phase	4,80,080	11,907	100 (which was later reduced to 71)	1,96,726
2nd Phase	84,731	7,938	69	3,58,166
Total	5,64,811	19,845	140	5,54,892

Source: Directorate of Handloom and Textiles, Assam

➢ THE SUALKUCHI INSTITUTE OF FASHION TECHNOLOGY (SIFT)

The Sualkuchi Institute of Fashion Technology (SIFT) was established on 30 August 2008 under the initiative of the Kamrup (Rural) District Administration to provide short-term, in-house training in textile and fashion designing, primarily targeting weavers and unemployed youth for self-employment.

The institute receives government support in the form of grants-in-aid for its operations and development. During 2022–23, ₹95.00 lakh was sanctioned and released. In 2024–25, ₹27.00 lakh was allocated, sanctioned, and released, and a similar amount of ₹27.00 lakh was provided for running and development in 2025–26. Additionally, ₹28.50 lakh has been allocated in the budget provision for SIFT for the financial year 2025–26.

➢ HANDLOOM MODEL VILLAGE

The Government of Assam has implemented the Handloom Model Village scheme at Koklabari in Baksa district with the objective of achieving sustainable economic growth through handloom development.. During 2022–23, the project covered 478 targeted weavers with a total project cost of ₹315.47 lakh, of which ₹157.72 lakh was released as the first installment. An allocation of ₹200.00 lakh was made in the budget for 2024–25 for implementation; however, the funds could not be drawn. Subsequently, for 2025–26, ₹250.00 lakh has been provided in the budget, and financial sanction of ₹157.75 lakh has been accorded for implementation of the Handloom Model Village at Koklabari.

➢ SAMARTH

SAMARTH is a skill development scheme of the Ministry of Textiles, Government of India, implemented in Assam through the Directorate of Handloom & Textiles, Assam. The scheme aims to build skilled manpower in the handloom and textile sector through structured training aligned with national guidelines.

A total of 158 training centres were approved in Assam, with an initial target of training 17,820 candidates. These centres are being upgraded into smart training centres with biometric attendance, CCTV, power backup, internet connectivity, and essential classroom facilities. Trainers are required to undergo Training of Trainers (ToT) conducted by the Textile Committee, which also certifies trainers and assesses trainees.

Each course has a duration of 300 hours, comprising 30% theory and 70% practical training, with training kits and study materials provided to trainees. Successful candidates receive skill certification and are enabled to pursue employment or self-employment in the handloom sector.

Implementation was delayed due to the COVID-19 pandemic, leading to a reduction of the training target to 6,198 candidates. Full-scale training resumed in November 2021 and is scheduled for completion by 31 March 2026. The table 11.19 showing year wise progress of SAMARTH is given below:

Table -11.19

Year	Target of Training (Nos)		Training Batch Completed	Trainees Passed Successfully	Cumulative Physical Achievement (%)	Year-wise Financial Progress (Rs in Cr)	Cumulative Financial Achievement (%)
	PHYSICAL	FINANCIAL					
2021-22	6198	Rs. 8.68 Crore	22	389	6.28%	2.051966	23.63%

TOURISM

Tourism in Assam is anchored in the State's rich natural and cultural assets, including abundant wildlife, scenic landscapes, unique flora and fauna, revered holy sites, verdant tea gardens, and vibrant cultural festivals. Eco-tourism has emerged as one of the fastest growing segments, prompting the Government of Assam to prioritise its development. While the traditional peak tourism season in the State extends from October to May, efforts are underway to establish Assam as a year-round tourism destination by promoting attractions and experiences suited to all seasons and showcasing them in national and international forums. Strategic promotional campaigns aim to enhance visibility and attract a diverse range of visitors.

The Tourism Department serves as the nodal agency responsible for policy formulation and programme implementation for the development and promotion of tourism in the State. Over the years, the Department has invested in infrastructure and supporting facilities with financial assistance from the Central Government, State Government and the North Eastern Council (NEC) to improve accessibility and visitor experience. Recent initiatives include the introduction of signature events such as the *Brahmaputra Carnival* along the banks of the mighty river, which offers cultural, adventure and lifestyle experiences for tourists, and the promotion of tea tourism as a unique product offering. The Department also undertakes guide training and other capacity-building measures to enhance service quality and support the sustainable growth of the tourism sector.

Year wise number of domestic and foreign tourist visiting the State is given in the table 11.20 below:

Table -11.20

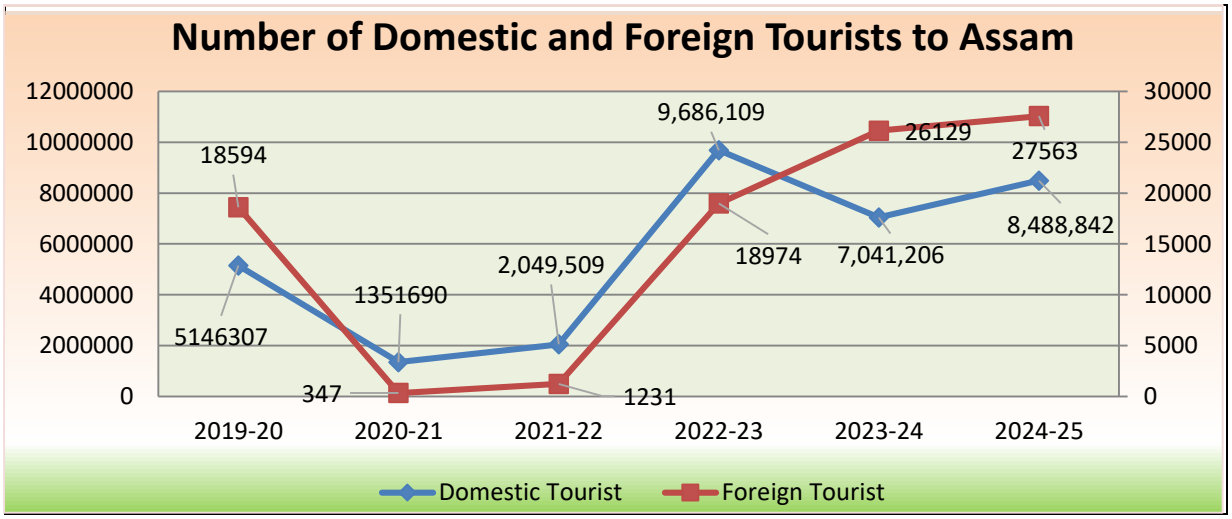

NUMBER OF INDIAN AND FOREIGN TOURIST TO ASSAM

Year	Domestic Tourist	Foreign Tourist
2021-22	20,49,509	1231
2022-23	96,86,109	18974
2023-24	70,41,206	26129
2024-25	84,88,842	27563

Key Highlights of "Tourism Policy of Assam, 2022"

The Assam Tourism Policy, 2022 is a part of Assam's strategy to enable rapid growth in the Tourism sector. This policy provides a comprehensive framework for the state's tourism sector to grow in an inclusive and sustainable manner. The policy's goals are to improve the state's tourism development framework, promote tourism related industries, and strengthen tourism support services.

Assam's tourism policy has been developed to closely align with the National Tourism policy and highlights areas where collaboration will be sought from the Ministry of Tourism. This policy will replace the five-year Tourism Policy of Assam, 2017.
Table-11.22 shows the trend of number of tourists visited the National Parks in Assam during the last five years.

ASSAM SCIENCE TECHNOLOGY AND ENVIRONMENT COUNCIL (ASTEC):

The Assam Science Technology and Environment Council (ASTEC) is an autonomous body constituted in 1986–87 under the Science, Technology and Climate Change Department, Government of Assam to implement key science, technology and environment programmes in the state. Its mandate is to identify and support areas where science and technology can drive socio-economic development, to promote and coordinate research and development, to foster scientific temper and innovation, and to advise and provide financial support to researchers and institutions for sustainable development initiatives. ASTEC executes a range of central and state schemes — spanning research and development, science popularisation, education, capacity building, environmental awareness, science centres and technology interventions — with the objective of strengthening human resources and addressing developmental challenges across Assam.

MINING

The Directorate of Geology and Mining (DGM), Assam, established in 1960 under the Mines and Minerals Department, Government of Assam, functions as the State's nodal geo-scientific agency. The Directorate is entrusted with the responsibility of providing scientific inputs for exploration, assessment, and monitoring of mineral and groundwater resources across the State. In addition, it administers mineral resources through grant of exploration licences and mining leases, auction of mineral blocks, approval and monitoring of mining plans, issuance of dealer licences, and collection of revenue in the form of royalty, fees, and rents from minerals, oil, and natural gas.

The primary objective of these programmes is to evaluate the economic potential of mineral resources, including groundwater, for industrial use and to create sustainable revenue streams for the State. Revenue collection from mineral resources remains a key performance indicator of the Directorate's functioning.

Over the last three financial years, the Directorate of Geology and Mining, Assam, has made a significant contribution to the State exchequer. Royalty and related collections amounted to ₹4,121.36 crore in 2022–23, ₹3,792.76 crore in 2023–24, and ₹3,926.67 crore in 2024–25. During the current financial year 2025–26, revenue of ₹2,339.39 crore has already been collected up to November 2025, reflecting sustained growth in mineral-based revenue mobilisation.

A major achievement during this period has been the successful auction of seven limestone blocks with an estimated total resource value of ₹62,769.26 crore. These blocks are expected to generate approximately ₹10,184 crore as royalty over a lease period of 50 years. The estimated auction premium from these blocks stands at ₹3,011.75 crore, calculated on the basis of the prevailing Average Sale Price of limestone. One of the leased limestone blocks has been operationalized within nine months of issuance of the Letter of Intent, indicating effective post-auction implementation. The total upfront payment received from all seven blocks during 2024–25 and 2025–26 amounts to ₹124.56 crore.

The Directorate has also successfully completed multiple exploration projects funded by the National Mineral Exploration Trust (NMET) and the Central Mine Planning and Design Institute (CMPDI) during 2023–24. These include exploration of limestone in the Voteranglangso area of West Karbi Anglong district, iron ore in the Lengpara area of Goalpara district, sillimanite in the Samelangso area of Karbi Anglong district, and coal in the Larbo area of Dima Hasao district. In 2024–25, four additional NMET-approved limestone exploration projects were initiated in Karbi Anglong and Dima Hasao districts, which will continue into 2025–26. Further, proposals for two G-3 level limestone exploration projects in Choto Lakhindong and Krungming areas of Dima Hasao district are under consideration of the Ministry of Mines, Government of India.

During the review period, two mining lease deeds were executed—one for a sillimanite block in Karbi Anglong district and another for a limestone block in Dima Hasao district. Additionally, six granite blocks were auctioned in 2024–25 with a sold value of ₹361.87 crore, expected to yield approximately ₹11 crore annually as royalty.

Overall, the Directorate of Geology and Mining, Assam, has demonstrated consistent progress in mineral exploration, transparent auctioning, and revenue generation, thereby supporting industrial development and strengthening the State's fiscal resources.

***

CHAPTER-XII

POWER

Power here means the electrical & solar energy which are the key inputs for overall development of the economy of the state. Electricity has direct impact on the core sectors of the economy viz. Agriculture, Industry, Irrigation, and Transport & Communication, etc. Therefore, augmentation of the Power Sector is directly related to the expansion of various economic activities of the state as well as the country.

From 2022-23 to 2024-25, the Gross State Value Added (GSVA) from electricity sector of Assam has grown at an average rate of 20.62 per cent per year. During the same period, impressive growth in major sectors that are directly related to power has such as Manufacturing (10%), Communication and broadcasting (15.76%), Hotels& Restaurants (22.61%) have also exhibited impressive growth patterns.

The growth and development of a particular region is determined to a large extent by energy availability and per capita consumption of energy. As the economy of the state has regained its momentum in the post Covid period, electricity consumption in the state has also rapidly increased. From 2022-23 to 2024-25, the total power consumption (in MU) has increased by a staggering 13.91% per year. During this period, the per capita domestic consumption of power (both domestic & commercial) has also increased by 9.29% per annum.

In Assam the entire power industry of the State was managed by "Assam State Electricity Board (ASEB)" up to 10th December, 2004 after that it was divided into the following three entities to meet the power requirements of the State.

4. The Assam Power Distribution Company Limited (APDCL)
5. The Assam Electricity Grid Corporation Limited (AEGCL)
6. The Assam Power Generation Corporation Limited (APGCL)

1. The Assam Power Distribution Company Limited (APDCL):

Assam Power Distribution Company Limited (APDCL) is to undertake distribution, trading and supply of electricity in the state of Assam in accordance with provisions of applicable law and all activities ancillary to it.

It has the mandate to develop, maintain and operate the power distribution system in the state of Assam by carrying out the business of power supply to every part of the state.

The Assam Power Distribution Company Limited has a vision to be the catalyst for holistic growth of the state by powering agriculture and industry: lighting homes – rural and urban, and generating internal resources for continually improving technology and delivery systems to induce customers' delight".

(A) Power Supply Position:

Energy requirement in Assam was worked out at 15556 MU (Million Units) for the year 2024-25. At the same time the peak demand of electricity in the state has been increased from 2576 MW in 2023-24 to 2684 MW in 2024-25. There is no shortfall of power during this period as per records.

Table- 12.1. Requirement of Electricity in Assam of last 3 years-

Item	2022-23	2023-24	2024-25
Energy Requirement (MU)	12813	13341	15556
Energy Availability (MU)	12813	13341	15556
Peak demand (MW)	2426	2576	2684
Peak Demand Met (MW)	2426	2576	2684

(Source: Chief General Manager (Com & EE), APDCL, Bijulee Bhawan, Guwahati)

Fig.-12.01. Average Energy Purchased Rate (Rs. /Kwh) of last three years

(B) Number of Electricity Consumers:

The domestic categories of consumers include Jeevan Dhara, LT (DomA, DomB) and HT (Dom) categories, while commercial categories include LT(Com) & HT(Com) categories. From the year 2023-24 to 2024-25, the number of commercial consumers in the state have increased at a rate (8.24%) higher than that of domestic consumers (2.66%). This corresponds with the boost in commercial activities in the state, as the growth of GSVA of Services Sector is recorded at 17.02% for that period.

Table- 12.3. TOTAL NUMBER OF ELEECTRICITY CONSUMERS IN ASSAM

YEAR	DOMESTIC	COMMERCIAL
2022-23	6235187	345375
2023-24	6320862	376220
2024-25	6488893	407255

Fig-12.03. Sector-wise share in Electricity Consumption

(C) TRANSMISSION, DISTRIBUTION & COMMERCIAL LOSSES:

The power supplied through various stages of transformation from sources to final consumers involves energy loss known as transmission, distribution and commercial losses.

The aggregate transmission and commercial losses in the state is 16.22% in 2022-23, which has decreased to 15.86% in 2023-24 and 15.73% in 2024-25.

The measures taken up by APDCL to bring down distribution losses are:-

1. Implementation of Artificial intelligence in recording the meter readings for accurate billing of consumers to bring down the commercial losses.
2. Energy auditing at feeder and transformer level to identify the core loss making areas.
3. Installation of smart meters.
4. Installation of energy efficient distribution transformers to reduce transformation losses
5. Energy bill payment through mobile application, UPI, prepaid wallets, etc.
6. Construction of new distribution sub stations under Asian Infrastructure Investment Bank (AIIB) Scheme for bifurcation of lengthy feeders.
7. Conversion of bare LT lines to insulated cables in theft prone areas
8. Re-conducting of 33 KV, 11 KV and LT lines under Revamped Distribution Sector Scheme (RDSS)

Table-12.5. TRANSMISSION, DISTRIBUTION AND COMMERCIAL LOSSES OF ENERGY

Item	2022-23	2023-24	2024-25
Energy Input (MUS) (At APDCL end)	10985	11828	12396
Energy Billed (MUS)	9203	9992	10482
T & D Losses (MUS)(in %)	16.22%	15.52%	15.44%
Amount Billed (Rs. in Crore)	7331	8889	9130
Amount realised (Rs. in Crore)	7408	8854	9099
Collection Efficiency (in %)	100%	99.61%	99.66%
Aggregate Transmission and Commercial Losses (%)	**23.06%**	**13.00%**	**15.73%**

(D) APDCL-RE (RURAL ELECTRIFICATION):

The Power Department has taken up a number of initiatives for electrifying the rural areas of the State under the flagship programme of Rajiv Gandhi Grameen Vidyutikaran Yojana (RGGVY), Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY) and Pradhan Mantri Sahaj Bijli Har Ghar Yojana-SAUBHAGYA. From 2022-23 to 2024-25 significant physical achievement under Saubhagya Scheme has been observed in the fronts of household electrification (103%), installation of lines (100%) and distribution of transformers (100%).

Table 12.6. Status of Electrification under SAUBHAGYA (2022-23 to 2024-25)

Particulars	Revised Target	Cumulative Achievement	% of Achievement
Household (Nos.)	1360125	1399688	103
11 Kv Line	5580.53	5580.534	100
LT Line (Kms)	20349.10	20349.086	100
Distribution Transformer (Nos)	10824	10824	100

Note: SAUBHAGYA Scheme is closed on 31.12.2020

Table 12.8. YEAR WISE SMART METERING

Year ending on	Feeders (Nos)	Distribution Transformers (Nos)	Consumers (No in Lakh)
31.03.2023	0	0	2.95
31.03.2024	1498	8915	16.31
31.03.2025	2858	65528	33.51

The consistent rise in domestic consumption of electricity can be attributed to rapid electrification in rural areas of the state leading to enhanced standard of living and

enhanced agricultural activities. Rural electrification has also led to significant increase in commercial activities in various rural areas of the state.

(E) INITIATIVES ON SOLAR POWER GENERATION IN ASSAM:

The current energy scenario and the deteriorating environmental plight even threatening extinction of humanity have compelled nations to embrace Renewable Energy research & development. Economic development of a state resembles the overall growth in various sectors. Consumption of electricity in Assam is increasing at a steady pace every year hence to reduce the conventional energy consumption growth in renewable energy field is extremely crucial.

Assam Energy Development Agency (AEDA)

- The Assam Energy Development Agency (AEDA) will ensure the convergence in the areas of New and Renewable Sources of Energy (NRSE) for the State of Assam by disseminating information to initiate, promote, support and co-ordinate all activities in the field of Renewable Energy Sources with other stakeholders and by concerted efforts of governments, local institutions, NGOs, the private sector as well as the international community towards the promotion of different DRE technologies.
- As a technical entity in new and renewable energy sources within the state, the organisation is responsible for exploring and promotion of various renewable energy technologies through different decentralized power generation models to achieve SDG7.
- The previous data pursuance of different NRSE projects may be helpful for the baseline assessment and implementation of DRE project

Power sector in India has been thriving steadily since Independence and is predicted to witness massive development in the field of renewable energy in the near future. Energy sector plays a key role in the economic growth of the country.

AEDA is implementing various types of renewable projects in the solar field, viz. Rooftop SPV, Solar Street Lights, Floating Solar Power plants since inception.

Rooftop Solar Photovoltaic Plants:

Rooftop Solar plants has become quite ubiquitous in Assam from the last few years, as this is the optimum way of utilising the free unused space on the top of the roof for minimising the electricity consumption from the utility. Table 12.9 and Table 12.10 describes the scenario of solar power projects and renewable energy plants in the state:

Table-12.9. DETAILS OF SOLAR POWER PROJECTS COMMISSIONED IN ASSAM

Sl NO.	Details	Installed Capacity Till Date (MW)
1	Large Scale (MW Generation) Grid-Connected Solar Power Plants for sale of power to APDCL	210.239
2	Grid Connected Rooftop Solar (RTS) Power Plants in different residential, social, institutional, industrial, commercial sectors etc.	160.69
3	Off-Grid Solar Power Systems	44.716
Total (A+B+C)		415.645

2. The Assam Electricity Grid Corporation Limited (AEGCL):

Assam Electricity Grid Corporation Limited, a vibrant growth oriented Public Sector Company registered under 'Company Act, 1956'. It was formed by restructuring Assam State Electricity Board in 2003 and was notified as the State Transmission Utility (STU). Its core business is to efficiently transport electrical power from electrical power bulk heads to the distribution company networks in the state of Assam. Assam Electricity Grid Corporation Limited inherited 3862 Circuit Kilometres of Extra High Voltage (EHV) lines above 66 KV voltage class and 38 numbers of EHV sub-stations having a total

transformation capacity of 1636.50 Mega Volt Ampere (MVA) at its year of formation in 2003.

After 2003 with the inclusion of new sub stations and transmission lines its transmission capacity has been increased up to 7826 MVA, line length 5248.68 Circuit Kilometres and 73 nos. of substation which includes 1 no. 400 KV (Kilovolt), 12 nos. Of 220 KV, 60 nos. of 132 KV stations as on October, 2022.

Assam Electricity Grid Corporation Limited (AEGCL) is playing a strategic role as it the largest "STU" in the North Eastern Region. It also understands it responsibility towards the entire North East India and is always extending a helping hand by way of transporting a fair share of power to the other sister States of the region.

AEGCL has consistently maintained the transmission system availability at over 99% which is at par with other National Transmission Utilities.

AEGCL vows to ever strive till all transmission bottlenecks get eradicated. It pledges to deliver unrelenting brilliance in performance, deliver power efficiently but economically, so high safety standers and is committed to respecting environmental and heritage issues.

Table -12.11: Voltage Level Existing Transformation Capacity (in MVA) as on 17.10.2022

Sl. No.	Substation Transformation ratio	Nos.	Transformation Capacity (in MVA)
1	400/220/132/33 kV	1	630

Sl. No.		Details of Components	Name of Project	Physical Progress (%)in FY 2024-25	Financial Progress (%) in FY 2024-25
1	1	Construction of 10 (Ten) nos. of GIS of voltage levels of 400/220 KV, 220/132 KV, 220/33 KV, and 132/33 KV and their associated transmission lines	"Enhancement of Intra-State Transmission System of Assam" (Assam Intra-State Transmission System Enhancement Project) (Phase-I)	Target: 51.59 Achieved: 35.51	Target: 33.21 Achieved: 28.69
2	3	Augmentation of Transformation Capacity at 18 (Eighteen) existing GSS.			
3	4	Augmentation of Transmission Line Capacity (Three Lines) (HTLS) (186 ckm)			
4	5	Augmentation of the communication backbone - Replacement of existing ground wire by OPGW (636 km)			
5	6	Procurement of Enterprise Resource Planning (ERP)			
6	7	Selection of Project Management Consultancy (PMC)			

[Source: CGM (PP&RD) AEGCL, Guwahati]

Apart from these projects AEGCL has also initiated another project: Turnkey Construction of 2x50 MVA, 132/33 kV GIS (Gas Insulated Substation) at Existing 220/132 KV Amingaon GIS (Retender) under NESIDS-OTDRI Scheme with an estimated cost of Rs. 3768.60 Lakh. However, funding from NESIDS will be limited to Rs. 3053.97 Lakh only and the excess cost of Rs. 714.63 Lakh will be funded by State Govt. as support. Physical and financial progress of the project at present are 85% and 61% respectively. Further, a project titled 'Implementation of Islanding Scheme of Guwahati" under PSDF Scheme bearing an estimated cost of Rs. 12.58 crore has also been sanctioned.

3. The Assam Power Generation Corporation Limited (APGCL):

Assam Power Generation Corporation Limited (APGCL), a company wholly owned by Govt. of Assam, is a profit-making state GENCO incorporated in the year 2003. As per the data on 2024-25, the present installed capacity of APGCL stands at 425.6 MW. From this capacity in 2024-25, gross 2285.45 MU were generated out of which 102.02 MU were auxiliary consumption and 2183.51 MU were net unit generation of electricity.

The vision of APGCL's is to achieve generation expansion up to 2000 MW by the year 2030 including power generation from renewable energy sources such as hydro and solar etc. to cope with the growing energy demand and to accelerate economic growth in the state.

To provide environment friendly, quality and reliable power to all sections of the society, by creating a value based, customer centric, employee-oriented organization, with

an aim to enhance the standard of life of the society in which the organization operates. The major objectives of APGCL are-

- Adequate availability of power by developing new Power Projects.
- Human Resources Development /Management -Reduction of Establishment cost.
- To avoid cost and time overruns on the schemes under execution through effective monitoring Systems.
- Best practices for Repair & Maintenance (R&M) of Power Houses & Electrical Infrastructure to improve quality and reliability of power.

CHAPTER-XIII

TRANSPORT AND COMMUNICATION

The Transport and Communication sector has emerged as one of the fastest growing segments of the Assam economy, playing a crucial role in enhancing connectivity, mobility, and access to services. During 2024-25, the sector accounted for 5.27 per cent of the Gross State Value Added (GSVA) of the State, and its contribution is projected to increase to 5.42 per cent by 2026-27. Over the last four years, the sector has recorded robust and consistent growth, supported by substantial expansion in road infrastructure, rising motor vehicle density, and improved public transport services. Significant progress has been achieved under programmes such as PMGSY, leading to enhanced rural and inter-district connectivity. Growth in rail electrification, expansion of air transport capacity, and modernization of inland water transport have further strengthened the transport network. On the communication front, expansion of postal services and steady growth in telecom subscribers have improved digital and information connectivity, thereby supporting economic activity and inclusive development across the State.

Transport and Communication has multidimensional effect for overall growth and development of the state economy. Growth in this sector has significant impact upon various other important economic sectors such as health & education, manufacturing, services etc. During the year 2024-25, transport & communication sector has contributed 5.27% to the total Gross State Value Added (GSVA) of the State which is expected to increase up to 5.42% in 2026-27. During the last four years the transport and communication sector has exhibited impressive growth as shown in the table below:

Table 13.1: Gross State Value Added from Transport & Communication Sector

Transport, Storage, Communication and services related to broadcasting	Year	2022-23	2023 24_PE	2024-25_QE	2025-26_AE	2026-27_Proj_E
	GSVA	2545997	2850792	3392521	4039078	4720679
	GSVA Growth	14.45	11.97	19.00	19.06	16.88

The status, role and contribution of transport sector in Assam is given below-

(A) ROADS:

The road network in Assam comprises of total 74929.10 km consisting of 5612.79 km national highways and 69316.31 km of roads under PWD in Assam as on 31.03.2025. Out of 69316.31 km of PWD roads State Highway comprises 5120 km, Major District road comprises 8638 km, urban road comprises 3181.97 km and rural road comprises 52376.34 km.

Out of the total 69316.31 km road length in the State excluding National Highway, 51726.00 km surfaced roads and 17590 km is un-surfaced. Government has always given thrust to enhance the road network in Assam. Table 13.1 reflects the different categories of road network in Assam.

Table- 13.1: Road Network in Assam (in Km)

Items	Year						
	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23	2024-25
National Highway	3900.44	3890.00	3893.00	3882.98	3882.88	3927.24	5612.79
State Highway	2530.00	2530.00	2530.00	2530.00	2540.36	2540.36	5120.00

Urban Road	1714.00	1714.00	1739.00	1739.00	1738.50	3182.10	3181.97
Surfaced Road*	28480.00	30048.00	31493.00	32605.00	46980.13	51482.00	51726.04
Un Surfaced Road	18917.00	20784.00	17284.00	16020.00	12281.04	14266.00	17590.27

[Source: Office of the Chief Engineer PWD (Roads), Assam]

Over the last six years from 2018-19 to 2024-25, surfaced road length has increased by 69%. Total expansion in road networks have been 37% during this period. It is noticeable that state highway length has more than doubled during the period 2022-23 to 2024-25.

The following road construction works have been completed under the Central Flagship Programme PMGSY from the financial year 2019-20 till 2023-24. The figure shown at

Table- 13.2: Achievement under PMGSY in Assam

ASSSAM STATE TRANSPORT CORPORATION:

Assam State Transport Corporation (ASTC) is a state government owned Road Transport Corporation of Assam which provides reliable, safe, dependable and comfortable passenger bus services within Assam and adjoining states. Assam State Transport was started as a State Government Department with two buses to run between Guwahati and Nagaon. Gradually, the transport network of the department expanded throughout the state of Assam. The state transport department was converted to a corporation on 31st March 1970.

As a step towards improvement of passenger amenities, ASTC has initiated major infrastructure development projects like the Construction of ISBT at Khanapara in Guwahati, Construction of ISBT at Tezpur and development of station building at Majuli.

RAILWAYS:

The development of rail infrastructure in North Eastern Region is one of the priority areas of the Ministry of Railways. The endeavour of the Government is to provide rail connectivity to all the sister states in the region and thereafter, extend the same to the capital cities. Out of 8 States of North Eastern Region, rail network connectivity now exists in 7 States. Sikkim is being connected with the new line project Sivok-Rangpo (44.96 km).

Assam at present has total railway route length 2571.19 km and the running track kilometre of Railways (i.e. length of tracks under operation) under broad gauge railway is 3153 kms as on 31.03.2025. Electrified routes have increased from 2594 Km in 2023-24 to 3374 Km in 2024-25. Table 13.8 below provides details of all routes and running tracks.

AIR TRANSPORT:

Assam is well connected with the rest of the country through Air Transport. The state has seven operational civil airports located at Guwahati, Tezpur, Jorhat, Dibrugarh, North Lakhimpur, Dhubri and Silchar. All major airlines including private commercial airlines are operating their flights to and from Guwahati to different locations of the country and an international flight to Thailand from Guwahati. In addition to these civil airports, small private airstrips in the interior areas are also present to address the need of the corporate houses. A new integrated terminal at Lokapriya Gopinath Borodoloi International Airport has recently been inaugurated that spans across 1.4 lakh square metres and can handle up to 13.1 million passengers annually—a sixfold increase from the previous terminal's capacity.

INLAND WATER TRANSPORT:

The Brahmaputra has 891 km navigable length of waterways from Sadiya to Dhubri as National Waterway No.2 while the river Barak has 121 km length of navigable waterways between Lakhipur and Bhanga as National Waterways No.6 for unified development of the

waterways for shipping and navigation and transportation of cargo to the North Eastern Region particularly in the states of Assam, Nagaland, Mizoram, Manipur, Tripura and Arunachal Pradesh.

The Government of Assam launched a project to transform the quality of Inland Water Transport (IWT) services and integrate high quality passenger and vehicle ferry services into Assam's wider transport network system with the financial assistance from the World Bank.

The World Bank has sanctioned an amount of Rs 770 crore towards realising this goal to Assam Inland Water Transport Development Society (AIWTDS), an autonomous society registered under the Transport Department, Government of India.

The government of Assam is implementing a World Bank funded "Assam Inland Water Transport Project" through which a comprehensive River Information System (RIS) will be set up for real-time monitoring of all boats/vessels operating on the River Brahmaputra with an Integrated Command Control Centre (ICCC). Furthermore, the National Technology Centre for Ports, Waterways and Coasts (NTCWPC) has been engaged to help implementation of Night Navigation facilities on Brahmaputra. Further, an incentive based scheme of the IWT named "Jibondinga" is being set up for an efficient and sustainable ferry service system in the State.

Directorate of Inland Water Transport is operating 94 nos. of ferry services in Brahmaputra (NW-2) and Barak (NW-16) and other tributaries for transportation of passengers. The feasibility of running river transport in 12 newly notified national waterways has been established to develop the last mile inter-connectivity in NE region.

Besides these state owned organisations, large number of private owners conducted ferry services to transport goods and passengers to the remotest hinterlands under un-organised sector by maintaining high level security measures.

From the three ferry divisions viz. Guwahati, Jorhat and Silchar, Govt. has collected total revenue of Rs. 57650648.00. Detailed division wise pessengers and goods carried are provided in Table 13.8 below:

Table 13.8: Division wise passengers & goods carried by IWT Vessels in 2024-25

CHAPTER-XIV

INSTITUTIONAL FINANCE

Institutional finance plays a crucial role in the economic development of the state by mobilizing deposits and providing credit to various sectors of the economy. The government has taken initiatives to secure institutional finance from banks and other term-lending institutions to support development programs in Assam as a supplementary financing plan. Banks and financial institutions are integral to this process, addressing the credit needs of all sections of society as well as funding infrastructure projects.

Scheduled commercial banks and nationalized banks are actively involved in extending credit to rural areas. Meanwhile, non-banking financial institutions (NBFIs) serve as financial intermediaries that contribute significantly to capital formation. These institutions address the growing financial needs of diverse segments of society, ranging from microfinance for small households to financing for corporate entities.

Banking Institution:

Commercial banks are the biggest financial intermediaries. They include both scheduled and non-scheduled banks. The Scheduled Commercial Banks (SCBs) comprises of Public Sector Banks, Regional Rural Banks (RRB), Small Finance Banks, Private Banks, Cooperative Banks and Foreign Banks. As per the SLBC (State level bankers committee report) Report, 2025 there are 12 public sector banks, 14 private banks, 6 small finance bank, 1 regional rural bank and 1 cooperative bank operating in the state. As per the SLBC Report, about two percent of the total banking offices in India numbering 3243 branch offices of SCB were functioning in the State As on 30 June, 2025. Of which 48 percent were in rural areas, 29 percent were in semi-urban areas and 22.8 percent in urban areas. The Credit-Deposit Ratio (CDR) of the SCB in the State as on 31st March 2025 was 71.31 percent as per the SLBC Report, as against 79.51 percent at all India level. The facility of onsite Automated Teller Machine (ATM) in the State was 4294 as against 255885 at All India Level as on 31st March, 2025. Growth of SCB in the State and status of deposits and credit since 2015 are given in table- 14.1 and district wise status of CD Ratio in respect of all SCBs and of RRB (AGVB) are given at Annexure 14.1 and 14.2.

Table- 14.1 Growth of scheduled commercial banks in Assam & India

Source: RBI-Quarterly Statistics on Deposits and Credit of SCBs and *Reports of State Level Bankers Committee, Assam

In Assam, there were a total of 3243 Scheduled Commercial Bank (SCB) branches (Reporting offices only) in the State as per SLBC Report as on 30 June ,2025. The share of SCB branches in Assam is two percent of the total SCB branches at all-India level and this indicates the low coverage of banking services. However, as seen from the Table- 14.1 over the period from 2015 to 2025 the compound annual growth of bank branches in Assam has been 4.71% per annum which is higher than the all-India growth of 2.66% per annum. Over 2015–2025, the number of offices in Assam grew at a substantially faster annualized pace than the national average, indicating stronger relative expansion in Assam compared to India as a whole. Assam's credit growth rate is approximately 1.5 times higher than India's, which highlights focused financial development in the state.

The distribution of bank branches (as on March, 2025) across the districts shows that only ten districts in the State have more than 100 numbers of bank branches. In other words, banking network coverage is not up to the mark in the State.

Fig.: 14.1 District wise Number of Scheduled Commercial Banks in Assam: March, 2025

Source: Reports of State Level Bankers Committee, Assam

As shown from the above Fig. 14.1 Kamrup (M) has the highest number (472) of bank branches among the districts and South Salmarah and Majuli has the lowest number (17) of bank branches.

Further, as on 31.03.2025 out of the total 3243 bank branches in the state, 1519 are Public Sector Banks, 1005 are Private Sector Banks, 464 Regional Rural banks, 162 small finance banks, 67 Cooperative banks.Number of SCB branches in rural areas is 1569, and in semi-urban and urban areas is 931 and 734 respectively. The low banking services in Assam is reflected by high population coverage per bank branch. Average Population served by per bank branch in the State as on as on 31st March, 2025 is 9622 against all-India average of 7,390 persons per bank branch using 2011 census population and SLBC report /RBI data on number of all India bank branches. Overall, it may be seen that bank branches in Assam has to serve larger population than the all-India average. In Kamrup Metro the bank coverage is best developed and population served per bank is while districts like South salmara and Majuli the condition of the bank brances is not satisfactory.

Credit-Deposit of Scheduled Commercial Banks:

Of the total 3,243 bank branches operating in Assam as on 31 March 2025, about 48.1 per cent (1,561 branches) are located in rural areas, 29.0 per cent (941 branches) in semi-urban areas, and 22.9 per cent (741 branches) in urban areas of the State. Table 14.2 presents the deposit and credit position of Scheduled Commercial Banks (SCBs) in Assam for the year 2025, excluding NEDFi, RIDF, and credit utilisation figures.

Table-14.2 Credit & Deposit of scheduled commercial banks in Assam

Items	Rural			Semi-Urban			Urban		
	2023	2024	2025	2023	2024	2025	2023	2024	2025

Source: Reports of State Level Bankers Committee, Assam

Although the rural areas have higher share of bank branches, the share of deposit and credit is higher for the semi urban and urban bank branches.

As on 30 June 2025 aggregate credits and deposit (including rural, semi-urban and urban) were Rs. 23361868 lakh and Rs. 15349169 lakh respectively.

For credit disbursement, the share of rural branches was 23.5 %, with semi-urban and urban branches sharing 28.22 % and 48.13% respectively as of 30 June 2025. This is because of capacity to save and invest in rural areas of the state continues to be highly limited.

The trend of the Credit–Deposit (C–D) Ratio of Scheduled Commercial Banks (SCBs) in Assam, which had historically remained below the RBI's indicative benchmark of 60 percent, has shown a marked and sustained improvement in recent years. The C–D ratio improved to around 61 percent in 2024, crossing the RBI benchmark for the first time in a sustained manner. This positive momentum further strengthened, and as of 30 June 2025, Assam's C–D ratio has risen to about 72 percent, indicating a substantial acceleration in credit deployment relative to deposits.

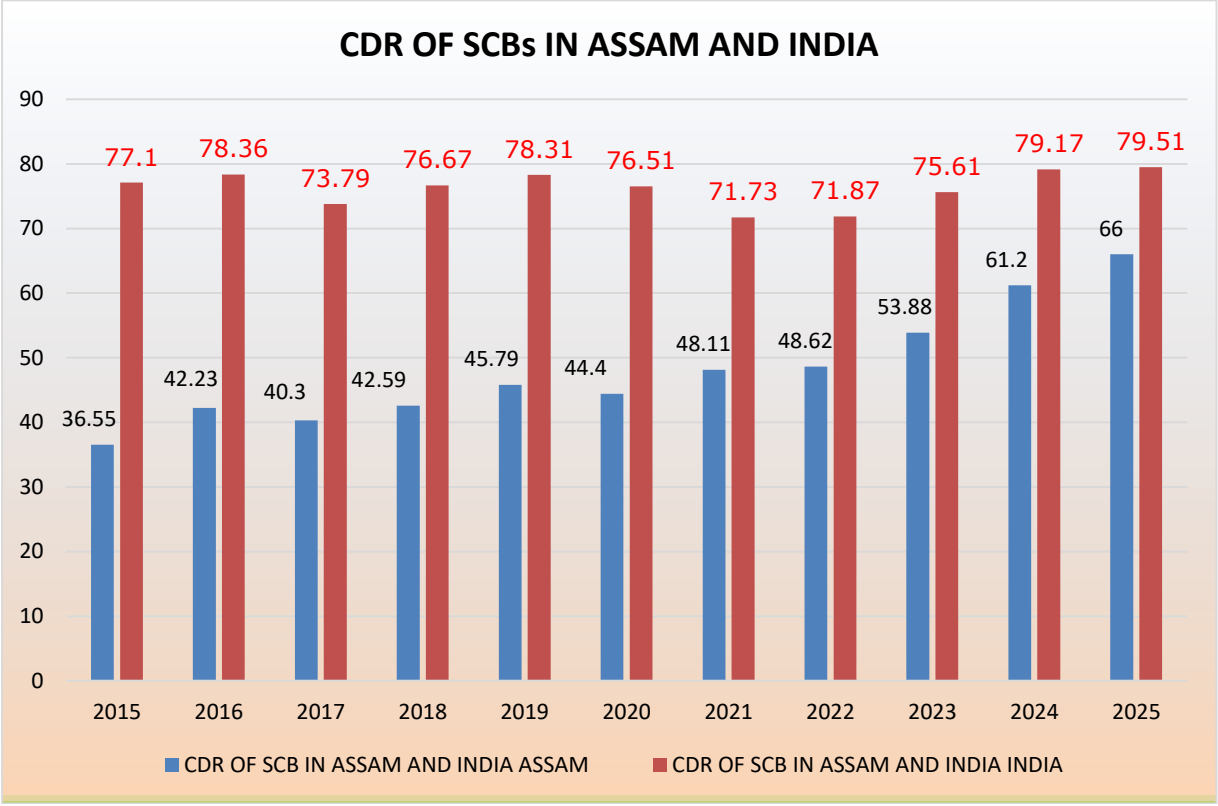

The share of aggregate deposits as on 30-06-2025 of Private Sector Banks in Assam was 21 percent and of Public Sector Banks was 71 percent respectively. Table -14.3 shows bank group wise deposits and credit of SCBs excluding Payments Banks, NEDFi and RIDF.

Table- 14.3 Bank group wise deposit and credit of schedule commercial bank in Assam (As on 30.06.2025)

District wise C-D Ratio of Assam:

As per Figure 14.3, out of the 17 districts presented, 13 districts have crossed the 60 percent C-D Ratio benchmark, indicating satisfactory credit deployment relative to deposits. As per the figure, out of 33 districts in Assam, 26 districts have crossed the 60 percent C-D Ratio benchmark fixed for Scheduled Commercial Banks. Seven districts viz. Dima Hasao, Hailakandi, Cachar, Hojai, Kokrajhar, Kamrup Metro and Chirang fall within the 40–60 percent range, indicating moderate performance that requires monitoring and targeted intervention. No district is below 40 percent, which reflects an overall improvement in credit deployment across the State. Focused efforts are required in these seven districts to enable them to cross the benchmark level.

The graph presented below shows district wise status of CD Ratio as on 31-03-2025.Even though private sector banks are functioning in Assam, the public sector banks remain the backbone of financial infrastructure in the State.

Deposit of Commercial Bank:

Deposits of SCBs increased overall by 6.17% in 2025 compared to 2024. This growth was mainly driven by a strong rise in Term deposits (↑16.98%), indicating a preference for long-term savings. In contrast, Current (-3.93%) and Savings deposits (-1.44%) declined, reflecting lower transactional and savings balances. Urban areas continue to hold the largest share of deposits, followed by semi-urban and rural regions, showing persistent urban dominance in banking deposits.

Credit Support

The public sector banks are the major supplier of credit requirements in the State. The share of credit for Private Sector Banks in Assam was approximately 28.33 percent while the same for Public Sector Banks was approximately 58.26 percent.

In order to ensure availability of credit to agriculture, weaker section of the population and other small scale sectors, the banks have to ensure at least 40 percent of the credit to these priority sectors of the economy. Approximately 54 percent of the loans from banks are made available to priority sectors in Assam as on 30.06.2025.

A trend of priority and non-priority sector advances in Assam for the last three years is at table-14.5.

Table -14.5

The Annual Credit Plan of the Banks in Assam for the year FY (2025-26) shows that against a target of Rs. 2,800,140.99 (in lakh) credits to Agriculture sector, achievement was 11.53 percent. Of the target achieved, 5.41 percent was under Crop Loan. Crop loan is one of the most important means of short-term advance extended to the farmers and

agriculturists by banks and co-operative societies and crop loan achieved amount is 5.41 %. The loan amount can be used to purchase improved seeds, fertilizers, machinery etc. The crop loans are usually repaid in single installment after the harvest. On the other hand, the high target achievement under MSME is largely due to the programmes implemented under various government schemes. Achieved amount under MSME is 42.19%. The Table -14.6 shows Annual Credit Plan performance during 2023-24 to 2024-25.

Table-14.6

Besides, crop loan there are also Kishan Credit Card (KCC) holders in the State which provide credit support to needy farmers. Kishan Credit Card scheme has facilitated augmenting credit flow towards agricultural activities. The scope of the KCC has been broad-based to include term credit and consumption needs. A total of 36508 KCC cards were issued in Assam till the end of 30.06.2025 as shown in the following Table- 14.9

Table-14.9

REGIONAL RURAL BANKS:

The two RRBs in the State, Assam Gramin Vikash Bank [AGVB] and Langpi Dehangi Rural Bank [LDRB] operating in the Brahmaputra Valley and Barak Valley have been amalgamated with effect from 1st April, 2019 as Assam Grameen Vikash Bank covering entire geographical area of the State through its network of 468 branches. Further, after amalgamation of United Bank of India (sponsor bank of AGVB) with the Punjab National

Bank, the sponsorship of the bank has gone to Punjab National Bank w.e.f 1st April, 2020. District wise deposit and credit status of RRB is given at Annexure 14.2.

Aggregate deposits of RRBs increased from ₹12,372.6 crore in March 2024 to ₹12,718.99 crore in March 2025, registering a growth of about 2.8%. Aggregate credit rose from ₹6,918.9 crore to ₹8,107.43 crore, showing a growth of about 17.2%. The Credit–Deposit Ratio improved to 63.74%, indicating better credit deployment of mobilized deposits by RRBs.

THE ASSAM CO-OPERATIVE APEX BANK LTD:

The Assam Co-operative Apex Bank Ltd was established as a State Cooperative Bank under the short-term Cooperative Credit Structure of the State in 1948. The Bank with a network of 67 (sixty-seven) branches and 6(six) zonal offices spread throughout the state extending all financial services including loans & advances, issuing of Kisan Credit Cards to small & marginal farmers of the state for seasonal Agricultural operation and other activities allied to agriculture and other Term Loan through the primary Agricultural Credit Societies (PACS) and also directly to farmers/ SHG/JLGs/Individuals/firms & companies & others. Out of 774 registered PACS (Gaon Panchayat Level Samabai Samittee) at bottom of the structure operating in the state, the Bank has adopted 543 number of PACS for economic development of farmers of which only 290 PACS has availed Credit from the Bank. CD Ratio of the Bank was estimated at 44.74% as on 30-06-2025 as against 42.58 % % as on 31-03-2024. Share of the Bank's Credit flow to priority sector as on 30.06.2025 stood at 86 % as against 85.68% for the corresponding period as on 31-03-2024 which includes credit participation for food procurement through Food Credit Consortium.

There are various important government Schemes/Projects under implementation in the State for upliftment of the poor as well as women and unemployed youth. Some of the flagship Schemes/Projects and their outcome is presented at Table 14.10

Table-14.10.

Financial Inclusion:

The basic objective of financial inclusion is to provision of banking services to underprivileged section and to unbank and under-banked regions in the country. The Government initiated the National Mission for Financial Inclusion (NMFI), namely, Pradhan Mantri Jan DhanYojana (PMJDY) in August, 2014 to provide universal banking services for every unbanked household, based on the guiding principles of banking the unbanked, securing the unsecured, funding the unfunded and serving unserved and underserved areas.

Table 14.12 shows RRBs dominate the PMJDY landscape with 61.35 lakh accounts, forming **~25%** of the state total.Public sector banks, despite having wider presence, show much lower numbers (18.03 lakh), indicating either reporting differences or a shift of rural customers toward RRBs. Private banks contribute **just 1%** of total PMJDY accounts, showing **minimal engagement** in financial inclusion schemes.

Following table-14.12 shows the status of PMJDY in the state as on 30/06/2025

Table-14.12

Status of PMJDY in Assam as on 30.06.2025 (Amount in Rs. Lakhs)

Bank Group	Total PMJDY No.	Female No	No of RuPay Card Issued	No of Aadhar Seeded
Public	18037957	10271973	9973665	9740083
Private	260627	164856	219043	82150
RRB	6135093	3869924	665226	2913893
Total	**24433694**	**14306759**	**10857951**	**12736126**

Source: State Level Banker's Committee Report, Assam.

Assam has 1.43 crore female PMJDY accounts, representing ~58.5% of all accounts. This indicates a strong gender-inclusive outreach, surpassing the national average (usually around 55% for PMJDY).

An important aspect of financial inclusion is enabling the flow of credit to small businesses. In pursuance of the announcement in the Union Budget 2015-16, the Micro Units Development finance Agency (MUDRA) was set-up and the Pradhan Mantri Mudra Yojana (PMMY) launched on 8th April, 2015. For achieving sustained expansion in the flow of credit to the non-corporate small business sector, loans up to Rs. 10 lakh without collateral are extended to borrowers under PMMY. These loans are extended through partner Member Lending Institutions (MLIs) – such as Scheduled Commercial Banks, Non-Banking Financial Companies (NBFCs) and Micro-Finance Institutions (MFIs). In turn, MUDRA Ltd. offers refinance to MLIs for PMMY loans extended by them. Status of beneficiaries under MUDRA in the State as on 30.06.2025 is given in Table-14.13.

Table-14.13 PMMY (MUDRA) status in Assam (as on 30.06.2025)

As a part of financial inclusion "ASSAM MICRO FINANCE INCENTIVES AND RELIEF SCHEME (AMFIRS), 2021" was formulated with the objective to give incentive and relief to the borrowers, who availed small loans from different Microfinance lending institutions in the State of Assam.

The objectives of the scheme are as follows:

a. Incentivizing borrowers for making regular repayments and maintaining good credit discipline.
b. Providing relief to stressed borrowers to encourage and help them to regularise their repayments.
c. Providing partial/ full relief from repaying loans to stressed, destitute borrowers with no capacity to repay.

Accordingly, the mode of disbursement of benefit has been categorised as given below:

Category-1: Borrowers who have been repaying regularly with zero Days Past Due, will be provided one-time incentive to the extent of their outstanding balance, subject to a cap of Rs.25,000/-. This is proposed as an incentive to continue maintaining good credit discipline.

Category-2: Borrowers whose payments are overdue by 1-89 days but not NPA will be considered under this category. Government will pay the overdue amount to encourage the borrowers to make timely installment payments so that their accounts remain standard and credit culture is reinforced. To incentivize such credit discipline, the Government will make onetime incentive payment of Rs.20,000/- or equal to the outstanding balance, whichever is lower.

Category-3: Borrowers whose accounts have become NPA, as per Credit Bureau verified data received from lenders will be eligible under this Category. State Government will consider providing partial or full relief based on detailed evaluation. The borrowers under this category will be further categorised into the following slabs based on the outstanding principal amount as of 31.03.2021:

a. Up to Rs.25,000
b. Rs.25,001 to Rs.50,000
c. Rs.50,001 to Rs.75,000
d. Rs.75,001 to Rs.1,00,000
e. Rs.75,001 to Rs.1,00,000
f. Rs.1,00,001 to Rs.1,25,000

The above amount is cumulative outstanding principal amount, which implies if any borrower has more than one (1) NPA loan, but not exceeding three (3) NPA loans as on 31.03.2021, then in such cases cumulative of the NPA loans will be considered for deciding the slab.

Table: 14.14

Implementation of AMFIRS, 2021 (Rs. in lakh)

Year	Budget Provision	Financial Achievement	No. of beneficiaries	Remarks
2022-23	250000	18978	97,938	Released under Category-II of AMFIRS,2021
2023-24	50000	29088	2,22,949	Released under Category-III of AMFIRS,2021
2024-25	55000	22330	80,046	Released under Category-III, Phase-II

Source: Finance (IF) Department, Assam

* Here, it is to mention that for the current financial year 2025-26, no budget provision has been allotted under this scheme

Mukhya Mantrir Eti Koli Duti paat

The Scheme- Mukhya Mantrir Eti koli duti paat has been announced in the Budget Speech, 2025-26 to recognise the contribution of tea garden workers in the growth of Tea industry in the State and provide one-time financial assistance of Rs. 5000 to all tea garden workers (both temporary and permanent) and employees, excluding tea garden management. This initiative marks the 200th year celebration of Assam Tea. A Budget provision of Rs. 34200.00 lakh had been made for the Financial Year 2025-26 for implementation of the Scheme.

Assam Tea Industries Special Incentive Scheme (ATISIS), 2020

The ATISIS Scheme was launched in the year 2020 to incentivize the tea manufacturers on production of Orthodox and other specialty tea by providing subsidy to the manufacturer on working capital loan, orthodox and specialty tea production and purchasing of plant and machinery. This scheme will help in upliftment of the tea markets in Assam. The scheme has four components:

Component I: Interest Subvention on Working Capital Loan

An interest subvention of **3% per annum**, subject to a maximum limit of **₹20 lakh per annum**, is provided on working capital loans availed by eligible tea manufacturers.

Component II: Subsidy on Orthodox and Specialty Tea Production

Industrial units manufacturing **orthodox tea, green tea, white tea, oolong tea, Singhpo tea, purple tea, yellow tea**, or other specialty teas (excluding those produced through the **CTC (Crush, Tear, Curl) process**) are eligible for a production subsidy. Initially fixed at **₹7 per kg**, the subsidy was later enhanced to **₹10 per kg** for the duration of the scheme. In view of the **completion of 200 years of Assam Tea**, the Government further increased the production subsidy to **₹12 per kg for the financial year 2023–24**.

Component III: Subsidy for Plant and Machinery

A capital subsidy of **25% of the cost of plant and machinery** is provided to units engaged in the manufacture of orthodox and other specialty teas.

Component IV: Agricultural Income Tax Holiday

The scheme offers a **six-year agricultural income tax holiday** for eligible units, applicable from **financial year 2019–20 to 2024–25**.

The ATISIS Scheme has been extended up to the financial year 2027–28, reinforcing the State Government's commitment to promoting value-added tea production and strengthening Assam's position in the global specialty tea market.

The State Government has announced that the ATISIS scheme will be extended for another 5 years i.e. till the financial year 2027-28

The Financial Year wise status is given below:

Table: 14.15
Achievement during 2023-24

(Rs. in lakh)

Component	Budget Provision	Physical Achievement (No. of T.E.)	Financial Achievement
Component I	10000.00	277	2662.28
Component II		123	6882.90
Component III		10	137.87
Total	10000.00	410	9683.05

Achievement during 2024-25

(Rs. in lakh)

Component	Budget Provision	Physical Achievement (No. of Tea Estates / Units)	Financial Achievement
Component I	—	217	2,415.98
Component II	9,915.00	132	6,966.88
Component III	—	29	521.07
Total	**9,915.00**	**378**	**9,903.93**

Source: Finance (IF) Department, Assam

A budget provision of Rs. 12000.00 lakh has been made for the Financial Year 2025-26. As of October, 2025, no amount has been disbursed to tea estates.

Orunodoi Scheme:

To ensure wholesome socio-economic development, the Government of Assam launched the Orunodoi Scheme on **1 December 2020.** The scheme aims to support families who continue to face daily financial challenges by providing assistance for ensuring healthy and nutritious meals. During the financial year 2020–21, beneficiaries with a composite annual household income of less than ₹2 lakh received financial assistance of ₹830 per family per month, effective from November 2020. Subsequently, the monthly assistance was enhanced to ₹1,000 per beneficiary from October 2021, expanding coverage to around 19 lakh families. Further strengthening the scheme, an additional ₹250 per beneficiary was introduced as a power subsidy from October 2022, thereby increasing the total monthly benefit to ₹1,250 per beneficiary.

Following the launch of the scheme, Orunodoi Month was observed in August 2022, during which a door-to-door survey of existing beneficiaries was conducted. As a result, approximately 2.2 lakh ineligible beneficiaries were excluded from the scheme, leading to an estimated annual saving of ₹330 crore.

During **2022–23**, the Government of Assam launched **Orunodoi 2.0** with an expanded and more inclusive coverage. Under this phase, apart from **Antyodaya women**, **Transgenders**, and **Divyangjan** of the State, beneficiaries of the **Deen Dayal Divyangjan Pension Scheme** and the **Indira Miri Universal Widow Pension Scheme** were also brought under its ambit. This integration resulted in the removal of nearly **1.2 lakh beneficiaries** who were receiving benefits under multiple schemes, thereby improving efficiency and avoiding duplication.

To fulfil its commitment towards the **Sustainable Development Goal (SDG) of ending poverty**, the Government undertook the inclusion of new beneficiaries under Orunodoi 2.0, raising the **total number of beneficiaries to 27 lakh**.

Subsequently, **Orunodoi 3.0** was launched on **19 September 2024**. Under this phase, a key precondition for eligibility is that the individual must be enrolled as a beneficiary under the **National Food Security Act (NFSA)**. For effective implementation, the definitions of *household*, *family*, *income criteria*, and related parameters are aligned with the prevailing **NFSA guidelines**.

A notable feature of Orunodoi 3.0 is the provision for **automatic Aadhaar seeding** of beneficiaries, which has proven to be an efficient mechanism for the direct transfer of benefits to Antyodaya households. This measure is particularly effective in Assam, as **almost all NFSA beneficiaries are already Aadhaar-seeded**, ensuring transparency, accuracy, and timely disbursement of benefits.

Table: 14.17
Financial Performance of Orunodoi Scheme (2020–21 to 2025–26)

Financial Year	Beneficiaries (Target)	Beneficiaries (Achievement)	Monthly Disbursement (Target) ₹ Crore	Monthly Disbursement (Achievement) ₹ Crore	Total Amount Disbursed ₹ Lakh
2020–21	17,35,784	17,34,353	144.07	143.95	85,022.25
2021–22	18,74,866	18,63,294	187.49	186.33	1,82,553.80

*The number of beneficiaries vary month-wise due to inclusion of new beneficiaries, self-opt out, death of beneficiary, etc.

RURAL INFRASTRUCTURE DEVELOPMENT FUND (RIDF):

To meet the infrastructure gaps "Rural Infrastructure Development Fund (RIDF)" was created in NABARD during the financial year 1995-96 with a corpus of Rs.2000 crore. The cumulative loan sanctioned to the Government of Assam under various RIDF activities amounts to **₹9,449.79 crore** (₹9,44,979.32 lakh) as on 31.03.2025.

Of the total RIDF sanctions reflected in Table-14.18, **rural connectivity (roads and bridges) accounts for only about 12.8 percent** of the sanctioned amount. The **largest share of sanctions is actually concentrated in Infrastructure for Rural Education (30.05 percent) and Flood Control (28.27 percent)**, followed by **Agriculture (11.92**

percent). This indicates that RIDF assistance in Assam is primarily directed towards education infrastructure and flood management rather than rural connectivity.

Table-14.18 RIDF projects sanctioned to govt. of Assam (Rs. **Rs. Lakh**)

Sl. No.	Activity	No. of Projects Sanctioned	Loan Sanctioned Amount	Cumulative Disb (as on 31.03.2025)

NABARD INFRASTRUCTURE DEVELOPMENT ASSISTANCE (NIDA):

RIDF is Government driven wherein limited resources are provided at concessional rate of interest with shorter repayment period to State Governments. The limited flexibility of terms and conditions and limited borrowing power of State Governments warranted opening of additional opportunity to State Governments including the well managed State Government entities to access the financial resources. Accordingly, a new window of support, NABARD Infrastructure Development Assistance (NIDA) was designed to directly fund the State Governments/State owned institutions/ Corporations on both on-budget as well as off-budget for creation of rural infrastructure outside the ambit of RIDF borrowing.

AIFA (Assam Infrastructure Financing Authority)

AIFA was formed in 2009 to take up major infrastructure projects not covered under NLCPR, EAP, and State Plan, RIDF or any other schemes. The aim and objective of the society is to take up projects of critical infrastructure for speedy overall economic and social development of the state. To keep the momentum of infrastructure going, AIFA has further taken up projects in diverse sector with tangible and quantifiable benefits in this financial year also. The projects sanctioned and taken up under NABARD Infrastructure Development Assistance (NIDA) in the financial year 2024-25 are as follows: -

Table-14.19

Projects sanctioned and taken up under NIDA in the financial year 2024-25

Sl. No.	Name of Projects	Total project cost (Amount in Crore)
1	3 Nos. of Engineering College	164.15
2	6 Nos of Model College	103.73
3	9 Nos. of Model women college	207.51
4	Aganwadi Centre under NIDA	500.00
5	Biswanath Medical College	564.42
6	Bongaigoan Medical College	500.00
7	Charaideu Medical College	557.00
8	Dhemaji Medical College	500.00
9	Golaghat Medical College	500.00
10	Jangal Balahu Khtra	50.00
11	Morigoan Medical College	500.00
12	Tamulpur Medical College	500.00

14	Old age home and child care institution, Boko	85.00
15	Chandrapur Sports complex	120.00

Source: Assam Infrastructure Financing Authority

For ensuing smooth connectivity and transportation within the state, AIFA is presently funding the implementation of various roads projects as mentioned below which was taken up under NIDA in the financial year 2024-25:

Table-14.20 Funding of AIFA for various road projects in Assam

Sl. No.	Name of Projects	Total project cost (Amount in Crore)
1	Improvement and Up gradation of DergaonChariali to Padumoni Road	93.63
2	Improvement & Up gradation of Dirakghat-Pengree Road	208.85
3	Improvement & Up gradation of Gohpur to Dholpur Road	89.71
4	Improvement & Up gradation of Kokrajhar to Rupsi Airport Road	84.97
5	Improvement & Up gradation of Padumoni to Rangajan Road	126.97
6	Improvement & Up gradation of Rowta-Misamari- kanakata Road	191.90
7	Improvement & Up gradation of Rowta to Misamari Road (Kanakata to ghagra kachari)	241.87
8	Improvement & Up gradation of Rowta to Misamari Road (Ghagra Kachari to Phulogori)	214.24

Source: Assam Infrastructure Financing Authority

AIFA is also funding projects with Grant-in-Aid from the Government of Assam. The details of such projects are as follows-

Table 14.21 AIFA Projects

SL No.	Name of the project	Total Project Cost (Amount in Cr.)
1	Tinsukia Medical College	614.93
2	Construction of integrated office cum Residence Building at Majuli	50.00
3	Assam House, Dwarka	21.76
4	Integrated Directorate Complex at Betkuchi 808.4	808.40
5	Construction of 132/133 KV 2x50 MVA Nathkuchi Substation	68.84

7	Myntriang Small Hydro Electric Project in Karbi Anglong (Completed)	35.91
8	Construcrion of Jongal Balahu Archeological site- phase II	22.88

Source: Assam Infrastructure Financing Authority

Further, many important projects in diverse sectors are beingundertaken by AIFA (Grant-in-Aid & NIDA) which would reduce theurban-rural gap and pave way towards a holisticdevelopment of therural area and the state.

NORTH EASTERN DEVELOPMENT FINANCE CORPORATION LTD. [NEDFi]:

NEDFi, till the end of March 2025, has provided financial assistance to 12195 projects for an amount of ₹5658.77 crore in Assam. The sectors assisted are agriculture & allied activities, agro food processing, bamboo & wood based, educational & training institutes, handloom & handicraft, healthcare, tourism & hospitality, etc.

As on March 2025, NEDFi has extended financial assistance of ₹676.97 crore in Assam. More than 95% of the beneficiaries under the Scheme are women which has enabled them to improve their economic status and move up above the poverty line.

Status of loan sanctioned and disbursed during the last four years may be seen at Table-14.22

Table - 14.22 Loan sanction and disbursement by NEDFI (Rs. In crore)

Year	No. of Project	PFD+MSE		Micro Finance		Total Sanctioned	Total Disbursed
		Amount Sanctioned	Amount Disbursed	Amount Sanctioned	Amount Disbursed		
2019-20	144	209.05	121.94	64.25	46.25	273.30	168.19

Source: Annual Report of NEDFi

NEDFi Micro Lending Scheme

"NEDFi Micro Lending Scheme" was launched, by Hon'ble Chief Minister of Assam, on 9th August 2022, to provide financial assistance to the micro borrowers directly, through Business Correspondents, at cheaper interest rate. As on March 31, 2025, an amount of ₹102.14 crore was extended to 9030 beneficiaries of the State of Assam under the Scheme.

North East Venture Fund (NEVF)

NEDFi, jointly with the Ministry of DoNER, had set up the North East Venture Fund (NEVF) with a corpus of ₹100 crores. As on March 31, 2025, the Fund had provided, in-principle, commitment of almost ₹73.46 crores into 46 startups in the State of Assam in sectors such as Agri and agri-allied, Health care, Biotechnology, IT & ITES, Tourism, Food Processing, Industrial products etc.

Nodal Agency for Central Subsidies

The Corporation is the Nodal Agency for disbursement of Central Subsidies under North East Industrial Policy (NEIP) 1997, North East Industrial & Investment Promotion & Policy (NEIIPP) 2007, North East Industrial Development Scheme (NEIDS) 2017 and Uttar Poorva Transformative Industrialization Scheme (UNNATI – 2024), which is administered by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India.

The Corporation facilitates disbursement of subsidies to industrial units of all the eight NE States under the Transport Subsidy Scheme, Central Capital Investment Subsidy Scheme, Central Interest Subsidy Scheme, Freight Subsidy Scheme, Central Comprehensive Insurance Subsidy Scheme & Central Capital Investment Incentive for Access to Credit of NEIDS, 2017.

As on **March 31, 2025**, an amount of **₹5874.06** crore was released under various Central Subsidy Schemes in the State of Assam. The details of disbursements under various schemes are given below.

Table - 14.23 Scheme wise disbursement of subsidies by NEDFi (Rs. in Crore)

Scheme	F.Y. 2023–2024	F.Y. 2024–2025	Cumulative as on March 31, 2025
Transport Subsidy Scheme	0.24	6.46	2306.56
Central Capital Investment Subsidy	32.29	37.72	1809

ASSAM FINANCIAL CORPORATION (AFC):

Assam Financial Corporation (AFC) was established on 19th April, 1954 under State Financial Corporation's Act,1951 with a view to provide financial assistance to micro, small and medium scale industries with the main objectives of accelerating the industrial growth of the region , promotion of self-employment etc. AFC has active presence throughout the state with 11 Branch Offices including one Microfinance Branch and the head office located in Vittiya Bhaban, Md. Shah Road, Paltan Bazar, Guwahati-8.

During FY 2024-25, the Corporation's sanction and disbursement recorded a growth rate of 1.27% and 68.4% respectively. The Corporation sanctioned loans amounting to Rs. 2085.65 lakh in FY 2024-25 as against Rs. 2059.50 lakh in the previous financial year. The sector-wise sanctions during FY 2024-25 are as follows:

Table: 14.24

The sector-wise sanctions during FY 2024-25

Sector / Project	Number of Projects	Amount Sanctioned (Rs. in Lakh)
Food Processing	1	6.65
Printing	1	89.00
Healthcare	1	14.00
Commercial and Real Estate	10	521.00
Misc. MSME	1	10.00
Tourism	12	645.00
Microfinance	4	800.00
Total	**30**	**2085.65**

Source: Assam Finance Coorporation

Regarding loan disbursements, the Corporation disbursed Rs. 2192.31 lakhs in financial year 2024-25 as against the previous year disbursement of Rs.1301.50 lakhs.

In the microfinance sector, the Corporation sanctioned ₹900.00 lakhs during financial year 2024-25 as against previous year disbursement of RS. 640.00 lakhs.

The Corporation made a recovery of Rs. 2252.72 lakh in FY 2024-25 as against Rs. 2158.14 lakh in the previous year, reflecting a growth of 4.38%, attributed to effective monitoring and intensified recovery initiatives.

The highlights of the Corporation's performance for the FY: 2024-25 is as below-

- During FY 2024-25, the Corporation sanctioned loans amounting to ₹2,085.65 lakh, showing a marginal increase over ₹2,059.50 lakh in FY 2023-24 and ₹1,910.60 lakh in FY 2022-23. This indicates steady growth in loan sanctioning over the last three years.
- The loan disbursement in FY 2024-25 stood at ₹2,192.31 lakh, which is a substantial rise compared to ₹1,301.50 lakh in FY 2023-24, though slightly lower than ₹2,398.05 lakh in FY 2022-23. This reflects strong improvement in fund deployment during the year.
- The loan recovery during FY 2024-25 amounted to ₹2,252.72 lakh, higher than ₹2,158.14 lakh in FY 2023-24 and ₹2,036.11 lakh in FY 2022-23. This shows consistent improvement in recovery performance and effective monitoring by the Corporation.

Overall, the table reflects that AFC maintained steady growth in sanctions, achieved significant improvement in disbursement, and recorded continuous progress in loan recovery during FY 2024-25.

Table -14.25

Performance highlight of AFC in FY: 2024-25 (in lakh)

Category	FY 2022-23 (₹ Lakhs)	FY 2023-24 (₹ Lakhs)	FY 2024-25 (₹ Lakhs)
Loan Sanction	1,910.60	2,059.50	2085.65
Loan Disbursement	2,398.05	1,301.50	2192.31
Loan Recovery	2,036.11	2158.14	2252.72

Source: Assam Financial Corporation

Net Profit:

The net profit of the corporation decresed signifantly from Rs. 115.28 lakh in the previous year to Rs. 49.72 lakh in the FY 2024-25 and resultant decrese is due to prudential write off of 312 nos of core NPA accounts amounting to Rs.305.14 lakh which was booked in the expenditure head.

The Net worth of the corporation grew from Rs.6842.10 lakh as on 31-03-2024 to Rs.6886.09 lakh in FY 2024-25.

ASPIRATIONAL DISTRICTS OF ASSAM:

The Aspirational District Program (ADP), launched in January 2018 by NITI Aayog, GoI, represents a pioneering initiative to catalize comprehensive development in regions grappling with various socio economic challnages identifing 115 districts nationwide for targeted intervention, the program introduces an innovative element of competition. Each month, districts engang in a dynamic process of assessment through delta ranking, fostering a sense of competition and urgency for progress.

ADP goes beyond its immidiate objectives, aliening with the broader agenda of sustainable development. With 49 Key Performace Indicators (KPIs) spanning five crucial themes- health and nutrition, education,agriculture and water resources,finacial inclusion and skill development and basic infrasturure.

Over the past five years, the seven aspirational districts of Assam, i.e. Baksa, Barpeta, Darrang, Dhuburi, Goalpara, Hailakandi and Udalguri have been actively enganed in the program under the nodal department of Transformation and Development.

One way of accelerating progress in Aspirational Districts is to focus on a few select indicators at one time and saturate them so that one can see quick impact. As part of this initiative, NITI Aayog has conceptualized a 3-month campaign, the "Sampoornata Abhiyan," to carry out a sustained campaign to achieve saturation in 6 identified indicators in ADP/ABP Districts and Blocks. The duration of the initiative was three months, from 1st July 2024 to 30th September 2024. The following table shows the districts that achieved 100% saturation for each Key Performance Indicator (KPI):

Table-14.26

100% Saturation by Indicator for each Key Performance Indicator (KPI) and District

Sl	Key Performance Indicator	Districts with 100% Saturation
1	Percentage of pregnant women registered for ANC within the first trimester	1. Baksa
2	Percentage of children fully immunized (9 11 months) (BCG+DPT3+OPV3+Measles-1)	1. Baksa, 2. Dhubri, 3. Hailakandi
3	Percentage of pregnant women taking supplementary nutrition under ICDS program regularly	1. Baksa, 2. Barpeta, 3. Dhubri, 4. Darrang, 5. Hailakandi
4	Number of soil health cards generated against soil sample collection target	1. Baksa, 2. Darrang, 3. Goalpara, 4. Hailakandi
5	Percentage of schools with functionality electricity facility at secondary level	1. Baksa, 2. Barpeta, 3. Darrang, 4. Dhubri, 5. Goalpara, 6. Hailakandi, 7. Udalguri
6	Percentage of schools providing textbooks to children within 1 month of start of academic session	1. Baksa, 2. Barpeta, 3. Darrang, 4. Dhubri, 5. Goalpara, 6. Hailakandi, 7. Udalguri

CHAPTER-XV

CO-OPERATION

Co-operation means the system of voluntarily associated working together in term of equality to eliminate their economic exploitation. International Co-operative Alliance (ICA) has defined it co-operation as a non-profit system of production and trade based upon voluntary and mutual self-help and organised in the interest of whole community. Now, Co-operative society is not synonymous with Co-operation. That is, in present economic scenario co-operative societies are undividable part of the economic system to overcome different micro needs of societies, especially in rural economy. Co-operative revolution are spurting through the socialist ideologies "all for each and each for all". The Co-operative form of organisation is an indispensable instrument of planned economic action in a democracy. A Co-operative is an autonomous association of persons united voluntarily to meet their common economic, social and cultural needs and aspirations through a jointly owned and democratically controlled enterprise.

Co-operatives play a very significant role in the socio-economic development of our State especially the rural areas of Assam. All Co-operative Societies in Assam are registered under the Assam Co-operative Societies Act, 1949, which has since been repealed and replaced by the Assam Cooperative Society Act, 2007. These societies function under the administrative control of the Co-operation Department.

The Mandates of the Co-operation Department include registration, supervision, assistance counselling audit of co-operative societies in the State. During the current year, there are 13722 **Nos**. of different Co-operative Societies including (State Level) in the State operating across almost all economic sectors viz. Agriculture, dairy, fishery, pisciculture, primary housing, consumer, Processing and Marketing, banking, healthcare, education and other agricultural and allied sectors. (**List in Annexure–I**).

These societies have contributed significantly to the state economy by generating employment opportunities, regulating market prices, and empowering women both socially and economically. These 13722 nos. of Cooperative Societies include:

- 1898 nos. of GPSS/LAMPS,
- 2867 nos. of GPBMSS,
- 01 State Level Apex Bank for short term Agricultural Cooperative Credit,
- 01 State Agricultural and Rural Development bank (ASCARD Bank) for long and medium term agricultural credit
- 01 State Level Housing Federation (HOUSEFED),
- 01 State Level Fishery Co-operative Federation (FISHFED),
- 01 State Level Co-operative Jute Mill (Assam Cooperative Jute Mill Ltd., Silghat),
- 8 nos. of Urban Co-operative Banks and various types of other Co-operative Societies.

PRIMARY AGRICULTURAL COOPERATIVE SOCIETIES

The **Gaon Panchayat Level Multipurpose Cooperative Societies (GPSS**) and large size multipurpose cooperative society in Assam are known as **Primary Agricultural Cooperative Societies (PACS)**. These societies have been playing vital role in ensuring the flow of Cooperative agricultural credit to the farmer members.

In addition to the provision of agricultural credit, PACS function as handling agents of Public Distribution System (PDS) under poverty elevation scheme of Govt. of India and the Mid- Day Meal Scheme. At present there are 1898 nos. of PACS operating in the State.

PACS need to be reoriented to strengthen their role for dealing in fertilizer, pesticides, farm mechanism, agricultural credit through KCC, supply of quality seeds and to provide forward backward scheme for micro- finance. These societies can play an important role as a financial institution for rural poor who are unable to access the benefit of institutional finance.

GAON PANCHAYAT LEVEL WOMEN MULTIPURPOSE COOPERATIVE SOCIETY

There are 2867 nos. of **Gaon Panchayat Level Women Multipurpose Cooperative Societies (GPBMSS)** in the state for Socio- economic development of women of rural areas, with a view to upgrade Self Help Groups (SHGs) under NRLM, 680 Village Organisations were registered under the Assam Cooperative Societies Act.

These societies are doing some activities like handloom, knitting, embroidery, pickle making for economic upliftment of women members. Some of the societies are doing PDS business as an agent of GPSS of their respective area of operation. The Government have taken scheme in the name and style of "**Samannita Mahila Samabai Sabalikaran**" and "**Samabai Biponi**" for the betterment of the society during the year 2017-18 and 2018-19.

ASSAM STATE CO-OPERATIVE APEX BANK LTD.

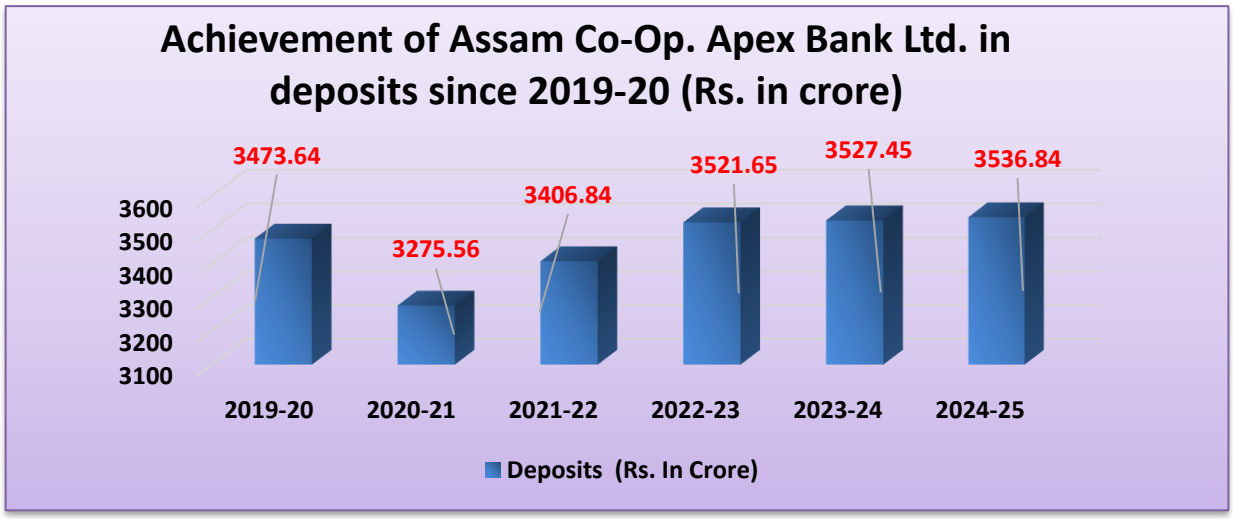

Assam has two tier short terms Agricultural Cooperative Credit Structure, the **Assam Cooperative Apex Bank Ltd**. At the top and **Primary Level Agricultural Credit Cooperative Societies** at the grass root level. GPSS and LAMPS were entrusted with the responsibility to disburse agricultural credit to the farmer members. The Assam Cooperative Apex Bank Ltd. is managed by an elected Board of Directors and a professional Chief Executive. Presently, it has 68 branches and it adopted core banking solution successfully. The bank has provided all types of advance facilities to the customer to access advantage like others Nationalised Bank like ATM facilities to its customers for smooth running of the banking business. The performances of the Assam State Cooperative Apex Bank Ltd. for the last consecutive six years are given below.

Table -15.1

Performance of the Assam State Cooperative Apex Bank Ltd. Since 2019-20.

Figure-*I*

Source: Registrar of Co-operative societies.

From the above diagram and data table, it is revealed that the performance of Apex Bank Ltd. in deposit of this Bank after post covid period is very significant . The increasing of deposit from Rs. 3275.56 crore in the year 2020-21 to Rs.3536.84 crore in 2024-25 shows that the confidence of general public in respect of awareness in banking savings in co-operative bank is increasing, creating a positive revolution in Co-operative movement. Like this, in investment also, the Co-operative Apex Bank Ltd. has overcome its trap and put its track in upward trend.

THE ASSAM APEX COOPERATIVE FISH MARKETING AND PROCESSING FEDERATION LTD. (FISHFED)

The Assam Apex Cooperative Fish Marketing and Processing Federation (FISHFED) is being handed over to Fishery Department, Govt. of Assam with a decision of the Cabinet.

ASSAM COOPERATIVE JUTE MILL LTD.

Assam Cooperative Jute Mills Ltd. at Silghat (1959) in Nagaon District is one of the most successful Cooperative Industries in Assam. This Industry is earning profit continuously and has been awarded with ISO certificate. The society has taken initiative to expand one unit of Assam Cooperative Jute Mills Ltd. at Bihdubi with Rs. 47 Crores from NCDC in 2017-18. The Central Government had provided Rs. 240.60 lakhs as grant-in-aid. The State Government had also written off accumulated tax liabilities of pre closure period to the tune of Rs. 96.00 lakhs & Rs. 46.39 lakhs. Further, the State Govt. had provided 50% power subsidy for 5 years from 01/01/1986 to 31/12/1990 amounting to Rs. 48.12 lakhs for its rehabilitation. The Mill had liquidated most of the old liabilities and also acquired some assets out of those funds, but could not put in sound financial footing up to the year 1992-93 in spite of sufficient subsidies from the Govt. for its revitalization.

Figure-III

TRENDS OF URBAN COOPERATIVE BANKS IN DEPOSIT AND LOAN ADVANCES

DAIRY COOPERATIVES

There are 880 numbers of primary dairy cooperatives societies and three number of regional level milk union namely 1) West Assam Milk Producers Ltd. (WAMUL), 2) East Assam Milk Producers Cooperative Union (EAMUL), 3) Cachar and Karimganj District Milk Producer Cooperative Union Ltd. (CAMUL). Though there is vast potential in the dairy sector, the growth of the dairy cooperative societies are not satisfactory. A number of primary cooperative societies like Sitajakhala Dugdha Samabai Samiti Ltd. (SJDUSS), Kamdhenu Dairy Cooperative Society, Sundarpukhuri Dairy Cooperative Society etc. are performing well. The management of WAMUL, EAMUL and CAMUL were handed over to the National Dairy Development Board (NDDB) New Delhi a years back with a view to revive those weak organisation towards a successful dairy cooperatives in the line of AMUL model. For the development of dairy cooperatives, government has been providing financial assistance to these cooperative in a phase manner.

HOUSING COOPERATIVES:

There are more than 200 numbers of Primary Housing Cooperatives with one apex level society, HOUSEFED, Assam is rendering service to its members, This federation has provided housing facilities to the Central and State Government employees and loan for dwelling houses to the low and middle income people in the urban and rural areas. Data regarding the performance of HOUSEFED are placed below –

Table: 15.4
Performance of HOUSEFED placed below:

Name of Societies	Year	Nos. of Societies	Nos. of member	Paid up share capital	Paid up working capital	Value of sales
				Rupees in lakh

CONSUMER COOPERATIVE

There are 38 types of Urban Consumer Store with more than 372 affiliated Primary Consumer Store in the state. These Cooperative societies extends service to the urban people and in maintaining the price line. The Wholesale Consumer Cooperative Societies

are involved in procuring and selling of essential commodities and other products subsidised rate. These procured essential item required scientific storage for their proper preservation for long period.

Karimaganj Wholesale Consumer Cooperative Society Ltd., Mahabhairav Consumer Cooperative Store Ltd. of Tezpur, NRL Employees Consumer Cooperative Societies Ltd. of Golaghat begged the best performing Consumer Cooperative Societies award during the year 2016-17.

OTHER COOPERATIVES

There is a large number of Cooperative like poultry, piggery, duckery, goatery, pisciculture, cane and bamboo industries, brick industry, transport and communication, rickshaw puller, bee keeping, blacksmith, bell metal, utensil manufacturing, tourism etc. in the state. The financial assistance to these societies will go a long way in enabling economically weaker section of the society to achieve their economic upliftment.

ASSAM STATE COOPERATIVE UNION (ASCU)

The Assam State Cooperative Union (ASCU) is an apex level cooperative organisation for promotion of cooperative education, training, publicity and propaganda activities in the state of Assam. It was registered vide registration no. ASCU-29/2055 -56, dated 12/09/1955.

The aims and objectives of ASCU:-

1) To promote and develop cooperative movement in Assam
2) To educate, train and guide people and to assist them in their efforts to build and expand the cooperative sector.
3) To serve as an exponent of cooperative union.
4) To propagate and publicize the cooperative principles and ideas in order to create public opinion in favour of the movement by holding seminars, conference etc.
5) To arrange for inter- state study visit of successful cooperatives in other cooperatively developed states of India.

The Infrastructure Support under Rural Infrastructure Development Fund (RIDF)

The State Cooperation Department has undertaken initiatives to strengthen rural storage infrastructure through the construction of rural godowns in various **Gaon Panchayat Samabai Samity (GPSS), Large Area Multipurpose Cooperative Societies (LAMPS)** and other Cooperative societies with assistance under the **NABARD sponsored Rural Infrastructure Deveplopment Fund (RIDF**) scheme.

The Govt. have released mobilization advance for an amount of Rs. 24.08 lakh for construction of 105 nos. of rural godowns under RIDF in the year 2017-18 and released amount of Rs. 195.87 lakh as state share for construction of 244 nos. rural godowns during the year 2017-18. As on 1st December/ 2018 out of godowns, construction of 222 nos. of godowns have been completed and the remaining are in progress.

CHAPTER-XVI

PRICES & PUBLIC DISTRIBUTION SYSTEM

The economic activities as well as the purchasing power of the people of a country are greatly influenced by the changes in commodity prices. Changes in prices of commodities and services affects the standard of living of the people. Therefore, it is crucial to monitor the price behavior of an economy to regulate and frame economic policies accordingly.

Price Index acts as a barometer to study the price scenario of an economy. It is a Statistical device that measures the relative change in price level with reference to time/geographical location and other characteristics. Different indices helps the state government to adopt policies or offer compensation to eliminate the effect of increasing price levels.

PRICE SITUATION IN ASSAM

The purchasing power of commodities is significantly influenced by the fluctuations in their retail prices. An increase or decrease in retail prices directly affects consumers' purchasing power, which in turn impacts their living conditions. Retail price is defined as the amount paid by the consumer, inclusive of all taxes but excluding any discounts. To monitor the variations in price levels, the Directorate of Economics and Statistics, Assam, collects retail price data for 28 essential commodities from 27 urban and 26 rural centres across the state on a weekly basis.

PRICE INDICES

Price Indices helps in assessing the inflationary or deflationary condition of the economy. Both Wholesale Price Index (WPI) and Consumer Price Index (CPI) are measures of inflation. While, Wholesale Price Index (WPI) considers the price volatility of the Wholesale markets; the Consumer Price Index (CPI) on the other is based on the Prices of the Consumer purchases from the retail trade market.

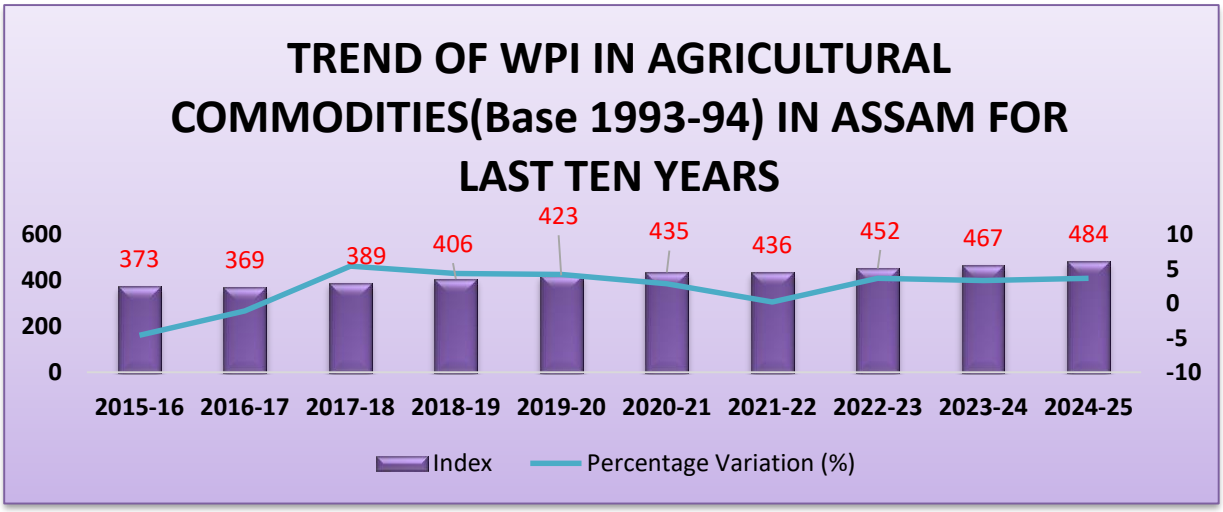

WHOLESALE PRICE INDEX OF AGRICULTURAL COMMODITIES WITH BASE 1993-94 IN ASSAM

The Directorate of Economics and Statistics compiles the Wholesale Price Index (WPI) of Agricultural Commodities (**Base 1993-94=100)**. It covers 34 commodity items. The table 16.1 shows the WPI of Agricultural commodities in Assam from the year 2015-16.

TABLE-16.1

INDEX NUMBER OF WHOLESALE PRICES OF AGRICULTURAL COMMODITIES IN ASSAM FOR LAST TEN YEARS

Year	Index	Percentage Variation (%)
2015-16	373	-4.60
2016-17	369	-1.07
2017-18	389	5.42
2018-19	406	4.37
2019-20	423	4.19
2020-21	435	2.84
2021-22	436	0.23
2022-23	452	3.67
2023-24	467	3.32
2024-25	484	3.64

Index of Wholesale Price has increased to 3.64 percent in 2024-25 as against 3.32 percent in 2023-24. The month to month trend of WPI of agricultural commodities in Assam is depicted through the Table 16.2 given below:

TABLE NO-16.2

CONSUMER PRICE INDEX NUMBERS

The Consumer Price Index numbers represent the average changes in the prices over time as paid by the ultimate consumer for a fixed basket of goods and services. The Directorate of Economics and Statistics compiles and records some of Assam's important Consumer Price Indices. The different types of Consumer Price Indices of Assam are presented in the paragraph given below:

CONSUMER PRICE INDEX NUMBER (GENERAL) FOR RURAL, URBAN & COMBINED

The National Statistics Office (N.S.O.), Ministry of Statistics and Programme Implementation, G.O.I. has introduced a new series of Price Indices with base year 2012 for

all India and States/UTs separately for Rural, Urban and combined. The annual average Consumer Price Index Number of Assam (with base 2012=100) for Rural, Urban and Combined for the year 2025 stood at 193.3,195.9& 195.8 and that of All India Index at 196.8,193.1 & 195.1 respectively as shown in Table 16.3. (A)

There is a trend in the Index in 2025 as compared to 2024 decrease by -0.565% (Rural), increase by 2.72% (Urban) &1.08% (Combined) for Assam and increase by 1.92% (Rural),2.55% (Urban) &1.77% (Combined) respectively for All India.

CONSUMER PRICE INDEX NUMBER FOR INDUSTRIAL WORKERS (CPI-IW)

This Index is the oldest among the CPI indices as its dissemination started as early as 1946. Consumer Price Index Number for Industrial Workers (CPI-IW) measures a change over time in the prices of a fixed basket of goods and services consumed by industrial workers.

CPI-IW is mainly used for the determination of Dearness Allowance (DA) and Variable Dearness Allowance (VDA) which is paid to the public sector employees besides fixation and revision of minimum wages in scheduled private sector employees respectively. It is also used for measuring inflationary trends of the economy which is used for framing policy in the country to compensate the general public for the adverse effect of price volatility. Since its inception in 1946, the Labour Bureau, Ministry of Labour, Govt. of India has been compiling CPI for Industrial Workers. The Price data for CPI-IW are collected from the selected centres of each state. At present, there are six centres in Assam, viz; Kamrup, Biswanath, Doomdooma (Tinsukia), Golaghat (Numaligarh), Sivasagar and Labac (Silchar). The data collected from the six centres are sent to the Labour Bureau for CPI-IW compilation.

The Labour Bureau Compiles the index of individual centres and releases it every month. The index with the base year 2016 is timely recorded by DES and the state index is compiled based on the six-centre index. The CPI for Industrial workers (CPI-IW) of the previous base year, i.e. 2001=100 is compiled by the state based on linking factors as provided by the Ministry of Labour and Employment. The following Table 16.4 shows CPI-IW (Base 2016=100) for 2024 and 2025.

TABLE-16.4

Source: Labour Bureau, Govt.of India

In 2025 (based on 11 Month Average), the CPI (IW) in Assam increased to 365.3 from 363.0 in 2024. i.e. an increase of 0.63%, while all India CPI-IW increased by 2.62%. (407.8 in 2024 to 418.5 in 2025).

CONSUMER PRICE INDEX NUMBER FOR AGRICULTURAL LABOURERS AND RURAL LABOURERS (CPI-AL/RL)

The Labour Bureau, Shimla has been compiling CPI numbers for Agricultural Labourers for 20 states including Assam (Base year 1986-87). CPI-AL is being utilized for the fixation and revision of wages engaged in agricultural occupation under the Minimum Wages Act, of 1948. At all India levels from 20 states 600 villages have been selected to collect the retail prices and this data is being utilized for the computation of index numbers. The collection of retail prices in the selected villages has been entrusted to the Field Operations Division (FOD) of NSSO, Govt. of India.

The CPI Numbers for Agricultural Labourers for the State of Assam and All India with Food and General Index for the years 2022 to 2025 are presented in Table 16.6 given below:

TABLE NO–16.6

CONSUMER PRICE INDEX NUMBERS FOR AGRICULTURAL LABOURERS (CPI-AL) IN ASSAM AND ALL INDIA FOR THE YEAR 2022 TO 2024 (Base: 1986-87=100)

PUBLIC DISTRIBUTION SYSTEM

The Public Distribution System is a major instrument of the Government's food control policies for providing food security in India through affordable food distribution and emergency management system. It helps ensuring availability of food grains at affordable prices thereby helping to eradicate poverty by serving poor who are nutritionally at risk. Public Distribution System in India is perhaps the largest distribution system of its type in the world. Public Distribution System is operated under the joint responsibility of the Central and the State governments. The Central Government has taken the responsibility for procurement, storage, transportation and bulk allocation of food grains etc. The responsibility of distribution food articles to the consumers through the network of fair price shop rests with the State governments. In Assam, the Food and Civil Supplies Department looks after the allocation and distribution of food grains, identification of families below poverty line, issue of ration cards and supervision and monitoring of stock position and distribution of food articles etc. by the fair price shops. The department is also entrusted with the responsibility of procurement of paddy and rice under 'Minimum Support Price' scheme under the 'The Food Management Policy' of the Ministry of Food and Public Distribution of Govt. of India to ensure remunerative price to the producers for their

agricultural produce and to provide the procured food grains to the consumers fairly at reasonable and affordable price.

(1) Scheme wise Targets and Achievements (Both financial and physical) under Central Sector and Centrally Sponsored Schemes for the last three years.

A. National Food Security Act'2013: The National Food Security Act'2013 was launched in the month of December'2015 throughout the State of Assam. As per TPDS Control order 2015, the targeted number of beneficiaries under NFSA'13 in the state is 2,51,89,775**.**

The target was fixed by the Government @ 84.17 % in respect of Rural Areas and 60.35% in respect of urban areas on the Census population of 2011 census report.

A total **63,54,380** nos. of PH families covering **2,23,32,024** nos. of Population and a total **6,68,252** nos. of AAY families covering **21,33,980** nos. of population have been selected (Grand total PHH and AAY families **70,22,632** numbers and Population **2,44,66,004** numbers) as per online allocation report of NFSA rice for the month of December, 2025. The sub allocation of NFSA Rice is made online.

The dispatch of fund in respect of Transportation and Commission cost of Rice under NFSA Rice in last three years are as follows- (both Central and State Share)

YEAR	TRANSPORTATION COST *(In Rs.)*	COMMISSION *(In Rs.)*
2022-23	**227,68,07,715**	**373,81,07,466**
2023-24	**156,72,74,289**	**260,95,97,362**
2024-25	**249,85.72,093**	**358,22,44,360**

B. Pradhan Mantri Ujjwala Yojana Scheme: -A social welfare scheme launched by Govt. of India with an objective to make clean cooking fuel such as LPG available to the rural and deprived household and promote usage of green & clean energy.Under the scheme, free LPG connections have been provided to the BPL households on the basis of the socio Economic Caste Census (SECC database) exercise initiated in the year 2011.

Govt.of Assam has installed around 50 Lakh nos.of LPG connections under the scheme through the oil Marketing Companies-IOCL, BPCL & HPCL. As on June 2025, total PMUY connections in Assam is 50,02,489. PMUY connections are released in the name of Women Head of Family under the present scheme of PMUY, LPG connection is provided free of cost with the following items.

→One no.of 14.2 Kg domestic cylinder or 2 nos.of 5 Kg domestic cylinders

→One no.of pressure Regulator

→One no.of connecting safety Hose

→One no.of Burner of approved quality

The items are provided free of cost including the cost of LPG for the first refill at the time of releasing the connection (Security Deposit for Cylinder & Pressure Regulator are not collected from beneficiary)

Monthly subsidy for PMUY Beneficiaries per refill

→ Original price per cylinder refill – Rs.902/-(at Guwahati city)

→General Subsidy from Central Govt.-Rs 52/-

→Central Subsidy from Central Govt –Rs 300/-

→Current Price per refill –Rs.550/-

Govt.of India approved another 25 Lakh LPG connections under PMUY.

C. Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY): The Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) scheme was launched in the month April, 2020. Through this scheme, the Govt. of India was providing free rice @5kg. Per person per month for both AAY and Priority Household card holder families covered under NFSA till December, 2022 in addition to regular quota of NFSA rice. However, Govt of India had decided to continue the PMGKAY Scheme by merging the Scheme with the National Food Security Act-2013 from January'2023 and has been providing @35kg of rice per AAY card holder family and @5kg of rice per month per person for Priority Household (PHH) Card holder family covered under NFSA'2013 at free of cost from January'2023 onwards.

PMGKAY is fully centrally sponsored scheme and there is no financial involvement of the State Govt. The dispatch of fund in respect of Transportation and Commission cost of Rice under PMGKAY in last two years are as follows-

Year	Transportation Cost	Commission
2021-22	162,52,67,276	162,42,95,580
2022-23	132,37,59,152	257,73,60,888
2023-24	Nil	Nil
2024-25	Nil	Nil

D. One Nation One Ration Card (ONORC):- This programne was launched by Hon'ble Prime Minister on 30th June 2020 across the country. The main objective of the scheme is to allow all NFSA beneficiaries, particularly migrant beneficiaries, to claim either full or part food grains from any Fair Price Shop (FPS), which is ePOS enabled, in the country through existing ration card in a seamless manner and back at home other family member on the same ration card (if any) can also claim the balance food grains. Assam was on-boarded on the ONORC platform w.e.f. June 2022.

There are two Major Components of ONORC scheme:

- Installation of ePOS devices at Fair Price Shops.
- Aadhaar Seeding of NFSA Beneficiaries.

As an objective of ONORC Scheme, a total of **34,307** nos. of ePOS devices have been installed in the FPS across the state of Assam from Nov'21 till March'22 as part of the FPS automation project. The devices are used for online transactions and eKYC updation/Aadhaar seeding to ensure 100% automated distribution of food grains using biometric authentication and prevent pilferage of food-grains and curb duplicity in NFSA beneficiary data. And accordingly, online transaction of food grains are being done through the installed ePOS devices. Further, Aadhaar authenticated online transactions have been made mandatory by State Govt. As a result, online distribution of foodgrains has increased from **4.47% (in Nov'21) to 98.46% (till December'2025).** Till date, **99.5%** of Aadhaar Seeding of NFSA beneficiaries and Ration Card, Ekyc verification of beneficiaries has been completed for more than 84%

Financial year	Fund release (In Rs.)
2022-23	42,88,47,036
2023-24	42,57,98,000
2024-25	74,53,45,280

(2) Scheme wise Targets and Achievements (both Financial and Physical) under State Sector for the last 3(three) years.

A. Aamar Dukan:To prevent the price hike and to give partial relief from the burden to the poor consumers on the Essential Commodities, the Government of Assam has taken an innovative scheme namely "Aamar Dukan". The Fair Price Shop Holder (licensee) are eligible for the scheme of "Aamar Dukan". The Deputy Commissioners/Councils Head are the authorities to select the Fair Price Shop (License) holder for the above scheme. A total **5623** nos. of Fair Price Shop Holder (licensee) are functioning in the State of Assam. The Members of the "Aamar Dukan" Scheme are dealing 23 nos. of selected Essential Commodities, out of which, 22 nos. are non PDS Commodities and 1(one) is PDS Iodized salt. The Consumers can purchase their required items from the "Aamar Dukan" at a price lesser price than that of open market.

Financial Year	Target	Achievement against Target	Fund released (In Rs.)
2022-23	229	153	1,01,32,000/-
2023-24	206	119	78,80,775/-
2024-25	175	175	87,76,800

- The items distributed through AAMAR DUKAN –
- **i.)** Rice. **ii)** Branded / premium rice. **iii)** Sugar. **iv)** Gur. **v)** Pulses. (Masur Dal) **vi**) Pulses. (Moong Dal) **vii)** Packaged iodized salt (Tata, Nirma, Captain Cook etc.)**viii)** Biscuit and confectionary **ix)** Packaged Atta. **x)** Packaged Maida. **xi)** Packaged Suji. **xii**) Toothpaste **xiii)** Soaps (bathing and washing) **xiv)** Packaged tea. (Tata, Golaghat, Nameri etc.)**xv)** Spices (MDH, Sona, etc age marked/FPO products) **xvi**) Packaged Ghee. **xvii)** Packaged Butter. **xviii**) Chana gota. **xix)** Moonggota. **xx)** Potato. **xxi)** Onion. **xxii)** Edible oils. (Mustard, Soya, Dalda, Vegetable Refined etc.) **xxiii)** PDS iodized salt.

- **Aamar Dukan On Wheels** ; For employment of educated un-employed youth and as well as to prevent the price hike on the Essential Commodities, the Government of Assam has taken up another innovative scheme namely " AamarDukan On Wheels " in the Year of 2017-18. The Government of Assam has fixed a Target of 200 nos.of "Aamar Dukan on Wheels" in the Financial Year of 2017-18. The Govt.of Assam has also proposed for dealing 23 nos.of Essential Commodities, Out of which, 22 nos.are non PDS Commodities and 1(one) PDS Iodized salt by the "AamarDukan On Wheels" and the Govt. has proposed to increase the items upto

Financial Year	Target	Achievement against Target	Fund Released (In Rs.)
2017-18	200	145	72,50,000/-
2018-19	220	193	96,00,000/-
2020-21	Nil	Nil	Nil
2023-24	Nil	Nil	Nil
2024-25	Nil	Nil	Nil

Construction of Godowns : The GOI had sanctioned an amount of Rs.957.52 lakhs to the Govt. of Assam during the 2017-18 for construction of 16000 MT Food Storage Godowns under Central Sector Scheme in 6 (six) locations (Gauripur 5000 MT, Howly 2000 MT, Simaluguri 1000 MT, Bongalmara 2000 MT, Dhekiajuli 5000 MT and Majuli 1000 MT). The construction work of 6 nos. Godowns are completed.

The physical and financial achievement of the scheme in the last 3(three) years as follows:-

Financial year	Financial achievement		Physical Achievement	
	Budget provision	Expenditure	Target	Achievement
	(Rs. In lakhs)	*(Rs. In lakhs)*		
2018-19	957	29.72	6 nos. of Godowns	5 nos.are under progress
2019-20	957	631.11/-	6 nos. of Godowns	1 no.of Godown completed 100% and 4 nos.are in progress
2021-22	257	150.35685	6 nos. of godowns	5 nos of Godown completed 100% and 1 nos godown is work under progress
2022-23	879.21	166.06144	6 nos. of godowns	6 nos of Godown completed 100%
2023-24	(During 2023-24 Rs.267.75 Lakhs received from GOI and disbursed to Bank Account through PFMS)	267.75	6 nos. of godowns	6 nos of Godown completed 100% in the Financial Year 2022-23

B. **Samabai Sabalikaran Yojana:-**Government of Assam, Food and Public Distribution Department introduced a new Scheme "SAMABAI SABALIKARAN YOJANA" from 1st April, 2021 for granting of financial assistance to GPSS/WCCS/LAMPS of the State for service rendered by them in the Supply Chain Management of food grains (NFSA Rice) @Rs. 26.35/- (per qtl.)

Financial year	Fund release
2022-23	34,62,99,454
2023-24	34,45,80,582
2024-25	54,00,62,220

Distribution of Subsidised Masur Dal, Sugar & Salt: The State Govt. under the vision of Hon'ble Chief Minister has started distribution of subsidized Masur Dal, Sugar & Salt each to all the NFSA card holders from Nov.'2025 onwards @1kg per ration card. Rate of each of the commodities for Nov.'2025 & Dec.'2025 are as follows:

→Masur Dal @Rs.69/- -kg
→Sugar -@ Rs.38/-kg
→Salt @Rs.10/-kg

However from the month of Jan.'2026 onwards, the rates of the commodities will be revised as
→Masur Dal -@Rs.60/--kg
→Sugar-@ Rs30/- -kg
→Salt @ Rs.10/--kg

The percentage of distribution status for the month of Nov'2025 & Dec.'2025 are as follows:

Commodity	Nov'2025	Dec.'2025
Masur Dal	89.47%	97.31%
Sugar	89.36%	96.98%
Salt	89.56%	97.10%

(7) **AFFORDABLE NUTRITION AND NOURISHMENT ASSISTANCE SCHEME:** ANNA scheme was launched on April/2019 to provide Rice at free of cost to the tea garden beneficiaries and @Rs.1/-per kg to other than Tea Garden beneficiaries covered under NFSA, initially from the month of May,2019 to March,2020. The Tea Garden Beneficiary was provided rice at free of cost under the scheme and the beneficiary of other than Tea Garden area was provided rice @Rs.1/-per kg. Later on from the month of April, 2020 onwards the Govt.has decided to provide free rice to all the beneficiary covered under NFSA and are being provided rice to the beneficiaries at free of cost.

Financial year	Fund release
2019-20	59,40,00,000/-
2020-21	524,11,75,000/-
2021-22	529,26,65,000/-
2022-23	244,21,65,000/-

***

CHAPTER – XVII

LABOUR, EMPLOYMENT & WAGES

Labour is one of the basic factors in the process of production. It necessitates a relationship between employees and employer which in other terms is called employment, where the labourers rent the services in exchange for wages from employers. The employers can be large corporate houses, NGOs or other businesses, or the Government. With the passage of economic development, more and more employment opportunities are created. In earlier days workers and employees had not been much respected over the years. The employers were to some extent, unscrupulous. But those days have gone and nowadays the welfare part of the employees has been merged with the creation of employment opportunities. These days the relationship between employers and employees has been enriched with the concept of value judgment, mutual respect, and trust. On the other hand, the Government has also implemented some laws to protect the employees from unscrupulous behaviours of the employer class. Economic growth always results in the generation of employment opportunities which in turn results in poverty alleviation. In the context of employment, there arise two aspects i.e. labour supply and Labour Force Participation Rate (LFPR). **LFPR refers to the proportion of a country's working-age population meaning the working or seeking work in the labour market at the prevailing wage rate**. The working age population refers to people aged 15 to 64 years. This indicator is split by age as well as sex group. The Ministry of Labour and Employment of the Govt. of India has been emphasizing the matter of improvement of life and dignity to protect the interest and welfare aspects and to ensure social security of the labour force both in organized and unorganized sectors by enacting various Labour Laws. These laws regulate the terms and conditions of service and employment of workers. The State Governments are also competent to enact legislation, as labour is a subject in the Concurrent List under the Constitution of India.

PERIODIC LABOUR FORCE SURVEY (PLFS)

The Periodic Labour Force Survey (PLFS) is conducted regularly every year by the **National Statistical Office (NSO)**.It includes studies and analyses on various aspects such as Households and Population, Labour Force, Workforce, Employment in the Informal Sector and conditions of employment, Earnings from employment, Hours worked Unemployment, Technical education, vocational/technical training, and number of years in formal education, Employment status among social groups, Employment status among major religious groups, etc. **The National Statistical Office (NSO) conducted the last Periodic Labour Force Survey from July, 2023 to June ,2024**. Out of the total number of 12,743 FSUs (6,975 villages and 5,768 UFS blocks) allotted for the survey at the all-India level, the number of households surveyed was 1,01,920 (55796 in rural areas and 46,124 in urban areas) and the number of persons surveyed was 4,18,159 (2,42,546 in rural areas and 1,75,613 in urban areas). Estimates of the labour force indicators are based on the usual status i.e. Primary Status and Subsidiary Status (ps+ss) approach and current weekly status approach for classification of the population by activity statuses. The reference period for the usual status i.e. ps+ss approach is for 1 year and for the current weekly status approach, it is for 1 week.

LABOUR FORCE PARTICIPATION RATE

The labour force participation rate (LFPR) is defined as the percentage of persons in the labour force among the persons in the population. The result of the PLFS Report 2023-24 reveals that the Labour Force Participation rate in respect of the age group 15 years and above according to the usual status approach in Assam is 68.50 percent in rural areas, 55.80 percent in urban areas and 66.90 percent taking urban and rural areas as a whole against the all-India rate of 60.10 percent. The **17.1** given below shows the Labour Force Participation Rate for persons aged 15 years and above in the State.

Table-17.1
LABOUR FORCE PARTICIPATION RATE (IN PERCENT)
IN USUAL STATUS (ps+ss) 2023-24, (Age group 15Yr.and above)

(Fig. in percentage)

Fig.17.1

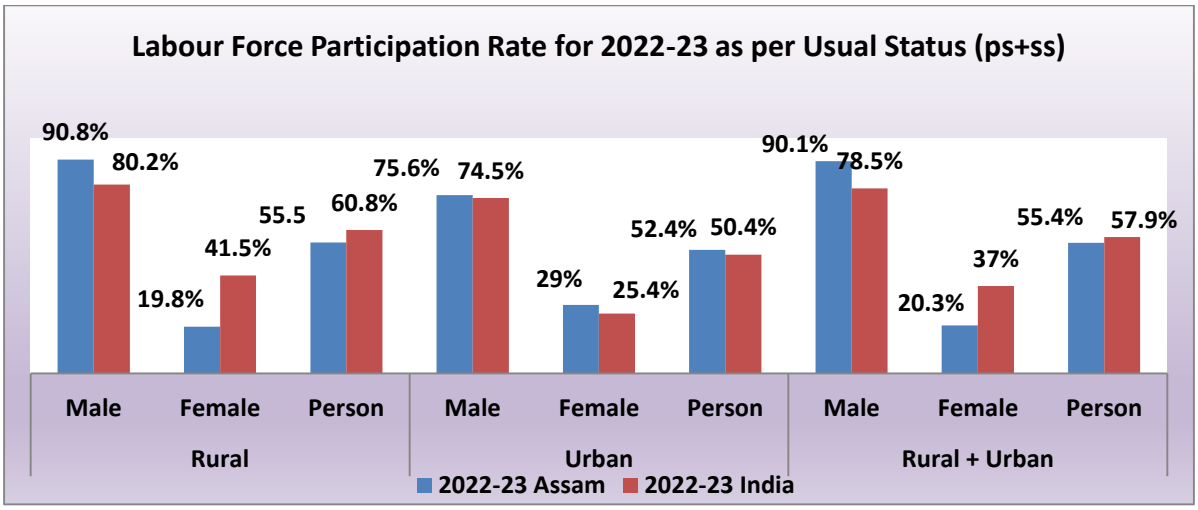

Figure 17.1 is consistent with **Table 17.2**, where it has been observed that LFPR in Assam according to usual status (ps+ss) is high among rural males which is 83.80% compared to urban male counterparts with 80.20% in the year 2023-24. The same situation has been observed for females as well, where LFPR in rural areas is 52.80% and 31.50% in urban areas during the same period. It is observed that female LFPR was higher in rural areas than in urban areas.**Table 17.2** shows the trend of the Labour Force Participation Rate for persons aged 15 years and above in the State as well as All India Level from 2021-22 to 2023-24.

Table-17.2

FEMALE LABOUR FORCE PARTICIPATION IN ASSAM

The labour force participation rate shows the gender gap present in employment opportunities. It is calculated as the labour force divided by the total working-age population. Female LFPR not only shows the extent of women's willingness to work but also its increasing trend reflects the elimination of social and institutional bottlenecks present concerning women's participation in the labour force, especially in a country like India. As shown in Figure 17.2 the female LFPR in Assam(52.8% in rural) was above the national rate(47.6%) in the year 2023-24 but the same were

less than the all-India rate for the year 2021-22 and 2022-23. In the case of urban areas, it is higher than the national level for the years 2022-23(29.0%) and 2023-24(31.5) but the same was a little bit less than the all-India female force participation for the year 2021-22.

Fig.17.2

WORKER POPULATION RATIO (WPR)

The worker population ratio is one of the major estimates of the employed persons. **Worker Population Ratio (WPR)** is the percentage of persons employed among the persons in the population. In other words, it is the ratio of total number of workers to the total population in a country and expressed in terms of percentage. Worker population Ratio reflects the proportion of the population engaged in the production process which also tells us about the employment situation in an economy. Higher WPR usually reflects a higher proportion of the population engaged in production activities and vice-versa. It is very important to have a high WPR which will boost the economy in the process of growth and in further cases development. Table 17.3 shows the Worker Population Ratio (WPR) for both Rural and Urban areas from 2021-22 to 2023-24.

Table-17.3

WORKER POPULATION RATIO (RURAL + URBAN) IN ASSAM IN USUAL STATUS (PS+SS) SINCE 2021-22 to 2023-24.
(Age group 15Yr.and above)

(Fig. in Percentage)

Year	Assam		India	
	Male	Female	Male	Female
2021-22	76.8	26.8	73.4	31.7
2022-23	88.9	19.6	76.0	35.9
2023-24	80.20	48.10	76.3	40.3

Source: Annual Report PLFS 2021-22, 2022-23 & 2023-24 MoSPI

In comparison to overall Indian parameters of WPR, that of Assam is poorer in female participation ratio. In 2021-22, the female WPR of Assam was 26.8% compared to the national percentage of 31.7%. It is also observed that the female WPR vis-à-vis male WPR, the difference is

wider in the case of Assam (50.0%) in comparison to overall India (41.7%) in 2021-22 which are 69.3% (Assam) and 36.0% (India) respectively in 2022-23. For the year 2023-24, it was 23.0% in the case of Assam compared to all of India at 36.0%.

Fig.-17.3

Table 17.4 shows gender-wise Worker Population Ratio both in rural and urban areas in the context of Assam as well as All India level during the period from 2021-22 to 2023-24.

FEMALE WORKER POPULATION RATIO

The Table-17.5 shows the Female Worker Population Ratio in Assam from the year 2021-22 to 2023-24 for both rural and urban. In the context of the **Female Worker Population Ratio (FWPR),** it is observed that there is quite a discrepancy which also questions gender equality in terms of its contribution to the economy. It is shown that the WPR of females shares inequality in terms of their participation in the total Workforce. The figure shows that the rate of growth of female WPF in Assam is different for both rural as well as in urban areas. In rural areas, females have substantially increased up to 50.9% during the period 2023-24 but it decreased to 19.3% during the

period 2022-23 compared to 27.9% in 2021-22. While in urban areas the rate of increase was 25.3% in the year 2022-23 which has shown better participation over the previous year's rate of 18.1%. In the year 2023-24, it shows 27.8% participation which was approximately 2.5% more than the previous year.

Table-17.5
FEMALE WORKER POPULATION RATIO (RURAL AND URBAN)
IN ASSAM FROM 2021-22 TO 2023-24
ACCORDING TO THE USUAL STATUS (PS+SS)
(Age group 15 Yrs and above)
(Fig in Percentage)

Year	Rural	Urban	Total
2021-22	27.9	18.1	26.8
2022-23	19.3	25.3	19.6
2023-24	50.9	27.8	48.1

Source: Annual Report PLFS 2021-22, 2022-23 & 2023-24 MoSPI

It is observed that the rate of growth of female WPR in Assam is different for both rural as well as in urban areas.

Table-17.6
FEMALE WORKER POPULATION RATIO (RURAL AND URBAN) BOTH IN ASSAM AND INDIA
FROM 2021-22 TO 2023-24IN USUAL STATUS (PS+SS)
(Age group 15 Yrs .and above**)**
(Fig. in Percentage)

Year	Rural		Urban		Total	
	Assam	India	Assam	India	Assam	India
2021-22	27.9	35.8	18.1	21.9	26.8	31.7
2022-23	19.3	40.7	25.3	23.5	19.6	35.9
2023-24	50.9	46.5	27.8	26.00	48.1	40.3

Source: Periodic Labour Force Survey Reports, 2021-22, 2022-23 and 2023-24, MoSPI

The Table-17.6 shows that India's female Worker population ratio in rural areas has increased from 35.8% to 40.7% from the year 2021-22 to 2022-23. In Urban areas, Worker population ratio has increased marginally from 21.9% in 2021-22 to 26.0 % in 2023-24. It is observed that while comparing Assam with national-level data, female WPR is quite discouraging for the year 2021-22 and 2022-23 consecutively particularly in 2022-23 it was negative but there was a substantial increment i.e. 50.9% of WPR for the year 2023-24 which is more the all India WPR i.e.46.5%. On the contrary, female WPR in urban areas in Assam has recorded an increasing trend during the period.

Increasing female WPR in Assam is not only a good sign for the economy but also represents that more females are coming out to show their participation in the production process. Such acts can be seen as an improvement in the economy in terms of its socio-economic condition which can be expected to improve further with proper implementation of employment opportunities.

UNEMPLOYMENT

The unemployment rate gives us the number of unemployed persons in the total labour force. It is calculated as the percentage of persons unemployed among the persons in the labour force. The Unemployment Rate among the persons aged 15 years and above who were available for work but could not get work during the reference period is shown in Table 17.7 below. In rural areas, the unemployment rate is 1.5 percent whereas in urban areas the unemployment rate is 6.1 percent in Assam during the year 2022-23 whereas the unemployment rate at all India levels is 2.4 percent in rural areas and 5.4 percent in urban areas during the same period. According to the usual status i.e. Primary Status and Subsidiary Status (ps+ss) approach as seen in the graph Table 17.7 the female unemployment rate in Assam was 6.8% which was higher than the male rate was 3.3% during 2020-21 and similarly the male rate was 3.8% and the female rate was 4.1% in the year 2023-24 which was more than the all India figure as shown in the Table-17.7

The study reveals that the female unemployment rate in urban areas of the State during the year 2023-24 was 11.8% which is significantly higher than the unemployment rate of 3.5 % in rural areas as seen in Table 17.7.It is also clear from Table 17.8 that the Female unemployment rate in Assam as a whole is higher at 4.1 percent in comparison to the all-India figure of 3.2 percent during the year 2023-24 which was significantly higher compared to 2019-20 i.e 13 %. But Assam is still on the back foot in the case of women's empowerment and participation in employment in different sector.

Source: Periodic Labour Force Survey Reports, 2019-20, 2020-21, 2021-22, 2022-23 MoSPI.

Of course, the decline in both male as well as female unemployment rate in Assam has been steeper than the Indian rate in the duration 2019-20 to 2022-23. While the male unemployment rate in Assam has come down to 1.3% in 2022-23 from 6.7% in 2019-20, the female unemployment rate has fallen to 3.4% from 13.6% in the same period. It is observed that the female unemployment rate in the state has been undergoing heavy fluctuations. However, fluctuations can be observed in both male and female unemployment rates in the state, although the male unemployment rate hasn't witnessed peaks and troughs as sharp as the female unemployment rate.

Most of these fluctuations can be attributed to the rural sector. Urban areas of Assam witnessed a decreasing trend in female unemployment rate (18.3% to 12.7%) during the period from 2019-20 to 2022-23 but it has fluctuated in nature. The same for rural males declined steadily from 6.8 % to 1.2 % from 2019-20 to 2022-23 as shown in Table 17.7. Similarly, the rate for urban males has recorded a decreasing trend during the same period. In most of the years, the unemployment rate in Assam has been hovering above the national rate. Most of it can be attributed to the high female unemployment rate. However, the rates have come down below the national level (1.7% in Assam against a national rate of 3.2%) in the year 2022-23. This is primarily due to a sharp fall in both male (6.8% to 1.2%) and female (12.8 % to 2.7%) unemployment rates in the rural areas as shown in Tables 17.7 and 17.9 as well.

Female Unemployment Rate

If we look at the All India average, the rate of female unemployment has reduced from 4.2% in the year 2019-20 to 2.9% in the year 2022-23. In Rural areas, the rate of female unemployment has reduced from 2.6% to 1.8% during the period 2019-20 to 2022-23. However, in urban areas, the rate of reduction in female unemployment rate is 9.1% April-June, 2023 compared to 9.5 in the same quarter of the previous year. The unemployment scenario of females in the context of India is shown below in Table 17.9 and Figure- 17.4 respectively.

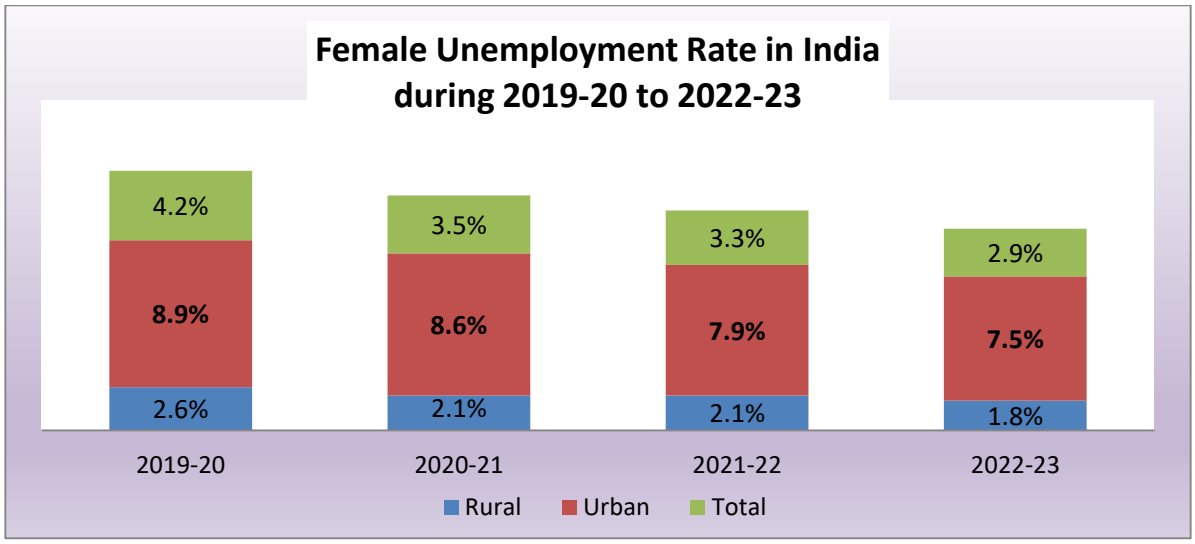

In the context of Assam, the scenario is overwhelming. Comparative study shows that the rate of female unemployment is higher in Assam than the national average. Total female unemployment has decreased from 13.6% to 3.4% during the period from 2019-20 to 2022-23 and a similar receding trend has been observed in the case of rural female unemployment, from 12.8% to 2.7% during the same period. However, the trend is the opposite in the case of urban female unemployment. In urban areas, the female unemployment rate is observed to have increased from 18.3% in the year 2019-20 to 19.6% in the year 2021-22 shown in table 17.7.Of course, the rate has shown a decreasing trend till the year 2022-23 recording a rate of 12.7%. The rate has recorded a very fluctuating path during the period from 2019-20 to 2022-23. Further Table 17.9 and Figure 17.4 show the trend of the female unemployment rate at all India levels.

Figure- 17.4

Employment Market Information

Employment market information (EMI) is an important unit of Employment Exchanges that deals with the collection of all sorts of labour market information. This unit is solely responsible for the timely collection of Employment market information on manpower for both the public as well as private sector. Data collected through the EMI programme is reported through an 'Establishment Reporting system'. There are 31 districts of Employment Exchange in the state. The main objectives of the EMI Programme are as follows:

A) To provide information about the structure of Estimated Employment in the Public as well as Private Sector Establishment.

B) Occupational-cum-educational profile of employees in the Public and Private Sector on regular intervals.

C) Identify an occupation that has characteristics of a given industry.

D) To assess Manpower shortage in the Organized Sector.

E) Implementation of "Employment Exchanges (Compulsory Notification Vacancies) (CNV) Act, 1959".

EMI programme is not free from demerits. One of the major drawbacks of the EMI programme is that it does not cover Employment in the unorganized sector. Apart from that self-employment, part-time employment, defence employment, and employment in household works and non-agricultural establishments employing less than 10 workers in the private sector do not fall under the arena of such a programme.

EMPLOYMENT IN THE PUBLIC AND PRIVATE SECTOR IN ASSAM

The total employment in the public and private sector establishments under the EMI programme in 2023 was 11,54,000 nos. (In public sector 4,90,000 nos. and in private sector 6,64,000 nos.) Whereas it was 11,22,200 nos. (In the public sector 4,87,1000 nos. and the private sector 6,35,100 nos.) in 2022 which shows a slight increase in the public sector & substantial increase in the Private sector. The increase in employment in the public sector is attributed to the various employment-generating schemes taken by the State Government.

During 2023, female employment in the public sector was 93,900 nos. and in the Private sector was 3,17,800 nos. Whereas the female employment in the public sector was 90,400 nos. and in the Private sector was 3,10,000 nos. in 2022.The year 2023 which shows an increasing trend in female employment compared to the year 2022.

In parallel , the total employment in the public and private sector establishments under the EMI programme in 2024 was 11,97,700 Nos.(in public sector 4,86,500 nos. and in private sector 7,11,200 nos) where it was 11,54,000 nos (in public sector 4,90,000nos. and in private sector 6,64,000nos.) in 2023, which shows an increasing trend in employment in the year 2024.

During 2024 female employment in public sector was 96,700 nos. and private sector was 3,52,300 nos . Whereas in 2023, female employment in public sector was 93,900 nos and in the private sector 3,17,000 nos which shows an increasing trend in female employment in the year 2024.

The trend of employment in public and private sectors from 2022-2025 as per data collected through the **Employment Market Information Programme** is shown below.

WOMEN EMPLOYMENT IN ORGANIZED SECTOR

It is felt that to become a developed economy the rate of women's participation in the service sector is very essential in the present scenario. We can see that the employment share of women in the organized sector has shown an upward trend in recent years in Assam which has a positive impact in the economy of the state.

The following table reveals that the employment of women in the organized sector in the State was 411.8 thousand in 2023which is 35.68 percent of total employment in the organized sector as against 400.0 thousand in 2022 which is 35.64 percent of the total employment in the organized sector. In 2024, the employment of women in organized sector in the State was 449.0 thousand

which 37.49 percent of total is. Up to June, 2025 the employment of women in organized sector was 448.7 thousand which 37.38 percent of the total employment is. This ascertains the increasing participation of women in the organized sector in Assam.

UN-EMPLOYMENT SCENARIO IN THE STATE

The State has at present 52 nos. of Employment Exchanges comprising establishments of 47 general, 1(one) special, 1(one) for unskilled applicants and 3 (three) Employment Information and Guidance Bureau. Moreover, there are 29 Employment Information and Assistance Bureaus to guide unemployed youths to employment.

The size of the registered job seekers is considerably high, which is a great challenge before the growing economy of the State. From the records of the live register of Employment Exchanges, the registered educated job seekers stood at 20,10,517 Nos. in 2023 as against 11,53,971 nos. in 2022.The registered educated job seekers stood at 21,16,561 in 2024. An upward trend in overall size of the registered job seekers can be seen in each year.

The detailed distributions of the registered job seekers are shown in Table -17.13

Table – 17.13
EMPLOYMENT THROUGH EMPLOYMENT EXCHANGES

Year	Total Registration	No. on Live Register	Vacancy Notified (In nos.)	Placement against vacancies (In nos.)

2023	8,56,546	20,10,517	2,062	2,572
2024	1,06,044	21,16,561	10,009	2,095

Source: Directorate of Employment and Craftsmen Training, Assam

Observing the burning problem of unemployment in the State, the Government of Assam has taken some positive initiatives to decrease the burden. Pertaining to this initiative, Govt. has decided to capture the actual nos. of unemployed youths in the State. The State Govt. has launched an online portal for live registration of educated unemployed youth in the District Employment Exchange Offices. It is to be worth mentioning here that the Govt. of Assam has completely discontinued the manual process of registration of job seekers and started online registration services for jobseekers through https://sewasetu.assam.gov.in/portal w.e.f27th September'2021. State Govt. also started different employment-orientated programmes/schemes to engage more unemployed youth in full-time or part-time and create opportunities for their self-employment.

DISTRIBUTION OF APPOINTMENTS IN ASSAM IN THE YEARS 2024

In 2024, the Assam Government continued its massive recruitment drive, exceeding its promise of 1 lakh jobs to over 1.25 Lakh plus total appointments by late 2024 highlighting a focus on transparency and merit –based across various departments.

Major recruitments-

(i) By late September 2024, the state reached a total of 1,25,030 recruitment candidates, surpassing the initial 1 lakh job promise.

(ii)On July, 2024: 41 appointment letters were distributed to the Education Department, pushing the total count to 97,495 at that time.

(iii) On October 7, 2024: 385 candidates were given appointment letters at the GMCH Auditorium.

(iv) Focus area: Significant hiring occurred in the Public works, Public health Engineering and Rural Development Department.

(v) Further, in late 2025 (extending from 2024 plans), the State Government continued to distribute appointment letters for ADRE Grade III & IV positions.

AVERAGE DAILY WAGE RATE IN RURAL AREAS

As per data collected by the Directorate of Economics and Statistics, Assam, the Average Daily Wage Rate of skilled, unskilled and other agricultural labourers shows a more or less steady upward trend. The wage rate in rural areas shows that for both skilled and unskilled labour, the wage rate of male ploughman reapers and harvesters is increasing trend. The following Table-17.16 shows the trend of the average wage rate in rural areas in Assam.

Table-17.15
Average daily Wage Rate in Rural Areas in Assam. (In Rs.)

Year	Skilled Labour Wage		Un-skilled Labour Wage				Other Agricultural labour	
	Carpenter	Black Smith	Plough Man	Herdsman	Reaper and harvester

EMPLOYMENT GENERATION PROGRAMME

Our economy is developing at a fast pace but still, a major part of the population who are poverty-ridden, illiterate and lacking requisite skills need support to earn. Keeping this in mind the Central Government and the State Government have initiated and implemented many programmes for self and wage employment generation as well as for the creation of production of assets through various organizations like the Panchayat and Rural Development Department, Directorate of Industries and Commerce, Agriculture Department, etc. The achievements of some of these programmes are briefly discussed as follows:

RURAL SELF EMPLOYMENT AND TRAINING INSTITUTES (RSETI)

Rural Self Employment and Training Institutes (RESTI) provide skilling for self-employment. RSETI program is a three-way partnership between the Ministry of Rural Development (MoRD), Government of India, the State Government and the Sponsoring Banks. MoRD provides grant –in – aid to the sponsoring Banks for reimbursement of training costs of the rural poor and infrastructure support for each RSETI building. Banks are mandated to open at least one RSETI in their lead District to provide training to rural youth to take up self-employment entrepreneurship ventures. State Government provides land for RSETI's permanent infrastructure & reimbursement of training cost. Target group RSETI programme is rural poor youth in the age group of 18-50years.

Table-17.16

Physical Progress of RSETI Scheme in last 3 (three) years-

Financial Year	Target	Trained	Settled
2022-23	13,605	14,328	10,184
2023-24	15,000	15,744	11,702
2024-25	26,000	26,097	19,080

Source-Assam State Rural Livelihood Mission, P&DR Department.

NAMO Drone Didi Scheme-

NAMO Drone Didi Scheme was launched by Govt. of India on 30th of November, 2023 under the Ministry of Rural Development to promote women led development and empower rural women through advanced technology in agriculture. This initiative aims to integrate women self-Help Group (SHG) members into the modern agri-tech landscape by training and deploying them as Drone Didi and drone Service Providers. The Lead Fertilizer Companies (LFCs) are the implementing agencies of the scheme. In Assam, two LFCs namely IFFCO and Brahmaputra Valley Fertilizers Corporation limited (BVFCL) have trained a total of 27 SHGs members from 10 Districts with the help of Guwahati-based RPTO (Remote Pilot Training Organization). Now, the Didis are providing drone services in farmlands on a rental basis. Total cumulative income Rs.7,90,616.

ASSAM STATE RURAL LIVELIHOODS MISSION SOCIETY (ASRLMS)

DEENDAYAL ANTYODAYA YOJANA–NATIONAL RURAL LIVELIHOOD MISSION (DAY-NRLM)

ASRLMS has been implementing the DAY-NRLM in the State since the 11th of November, 2011, with the objective of enhancing the social and economic empowerment of the rural poor in Assam. It has been designed as a multipronged approach to strengthen the livelihoods of the rural poor by promoting SHGs, providing skill development and placement for youth for wage-based occupations in different private/business organizations and imparting self-employment-oriented training. ASRLMS has undergone various phases of learning and has demonstrated significant successes till date in terms of the formation of quality Self Help Groups, their financial assistance and sustainability. Attention has been given to the assessment of the status of the SHG movement in

the state, bringing good SHGs into Village Organization and Cluster Level Federation fold, further support and facilitation required, on bank linkages to SHGs and how the programme is to be implemented in a mission mode in a phased manner. The Mission envisages empowering rural women Self Help Groups (SHGs) with capacity building, credit linkage and market support. All products produced by these SHGs are sold under the brand name 'ASOMI', where the word itself is an amalgamation of alphabets A-Atmo, SO- Sohayok, M- Mahila Gootor, I- Identity Porichoy. ASOMI also evokes the identity of Assamese people. Till March2025, the total SHGs under NRLM is about 6623 and the cumulative progress in the state is 3,59,000.These SHGs are further organized to higher-level federations like Village Organizations (VO) and Cluster Level Federations (CLF) to provide a common platform for collective action for socio-economic development. Total of 19,563 VO and 757 CLF have been promoted under ASRLM since its inception.

DEENDAYAL UPADHYAYA GRAMEEN KAUSHALAYA YOJANA (DDU-GKY)

Deen Dayal Upadhyaya Grameen Kaushalya Yojana (DDU-GKY) is the Skill Training and Placement program of the Ministry of Rural Development Govt. of India.The DDU-GKY Programme started in Assam in the year 2015-16 with a funding ratio of 90:10 from the Centre and State respectively. It is uniquely focused on Rural Youth between 18-35 years from poor families with a vision to transform rural poor youth into an economically independent and globally relevant workforce and provide them with jobs having regular monthly wages and emphasis on their sustainable employment. It is a part of the National Rural livelihood Mission (NRLM-The mission for poverty reduction and promoting rural livelihoods). Physical Progress for last 3 (three) years are shown below-

Table-17.17

Year	Training Target	Achieved	Placement Target	Placement
2022-23	24694	12532	17286	6828

MAHATMA GANDHI NATIONAL EMPLOYMENT GUARANTEE ACT (MGNREGA)

The Mahatma Gandhi National Employment Guarantee Programme was introduced during the 11th five-year Plan to give wage employment opportunities (100 days work) to the rural poor during the lean agricultural season when they require wage employment to boost their purchasing power to supplement their income requirement for livelihood. The other objective of the Act is to create durable community assets for the development of rural infrastructure for the upliftment of the quality of the rural people.

Table-17.18

PRIME MINISTER EMPLOYMENT GENERATION PROGRAMME (PMEGP)

Pradhan Mantri Employment Generation Program is a credit-linked subsidy scheme merging two schemes Pradhan Mantri Rojgar Yojana and Rural Employment Generation Programme. The scheme was launched back in 2008 by MSME to provide financial assistance to set up new enterprises. The maximum admissible cost of the project/unit is 50 lakhs for the manufacturing sector and 20 lakhs for the service sector. During the first five months of the financial year 2021-22, the approval of projects under the PMEGP increased to 59.61%.The KVIC is the nodal agency for implementing the PMEGP scheme at the national level and the State level the scheme is implemented by the state KVIC Directorate, State KVIB and the District Industries and Commerce Centers and Banks. The Government subsidy under the scheme is being routed through the KVIC to the identified Banks. Units in Urban areas are eligible for subsidy of 25%, while units in rural area can receive a subsidy of 35% of the project.

KHADI & VILLAGE INDUSTRIES COMMISSION

Khadi & Village Industries Commission (KVIC) was established under the Khadi and Village. Industries Commission Act, 1956, is a statutory organization under the aegis of the Ministry of MSME. The main objectives of KVIC include: -

- The social objective employing in rural areas;
- The economic objective of producing saleable articles; and
- The wider objective of create self-reliance amongst people and build up a strong rural community spirit.

The performance of DICC under PMEGP for the year 2024 -25 upto 2025-26 (as on 08-01-2026) is reflected in Table 17.20 below.

Table–17.19
DICC's PMEGP Achievement

Sl No.	Financial Year	Target by KVIC			Achievement	
		No of Projects	MM involved(in Lakhs)	No of Employment	% of MM disbursed against Target	No. of Employment against target
1	2024-25	3852	10553.02	42372	85.33	34573
2	2025-25 (as on 08/01/2026)	2427	7575.98	26667	51.93	14718

Small Scale Industries/Micro, Small and Medium Enterprise (MSME)

The Micro, Small and Medium Enterprises (MSME) sector has emerged as a highly vibrant and dynamic sector of the Indian economy over the last five decades. It contributes significantly to the economic and social development of the country by fostering entrepreneurship and generating the largest employment opportunities at comparatively lower capital cost, next only to agriculture. The small-scale industries sectors have a major contribution towards creating employment in the State. Presently the small-scale industries have been subdivided into Micro, Small and Medium Enterprise under the Micro, Small and Medium Enterprises Development (MSMED) Act 2006. A Number of statutory and non-statutory bodies work under the aegis of the Ministry of MSME which include the Khadi Village Industries Commission (KVIC), the Coir Board of India and the National Small Industries Corporation (NSIC). Government of India Scheme envisages financial assistance to State Governments for setting up new and modernizes existing Mini Technology Centres.

Up to the year 2024-25, there were total 10, 21,226Nos.,out of which 10,14,028 of Micro, 517 Nos. of Medium and 6681nos. of small Enterprises units have been registered in Assam under the UAM/UDAYAM portal of GoI. The following Table-17.20 shows the district wise MSME units registered in the state up to the 2024-25

FACTORY EMPLOYMENT

Manufacturing generates more economic activities than other sector. The establishment of the factory is more important in the state for speedy development in the production and employment perspective. As reported by the Chief Inspector of Factories till **2024-25** there were **8,858** Nos. of factories in the state with **3,12,982** Nos. of employment compared to **8,620** Nos. of factories and **3,43,824** Nos. of employment in the year 2023-24 showing a 2.69 % increase in the number of factories and 9.85% decrease in the context of employment.

HANDLOOM & TEXTILE INDUSTRY AND EMPLOYMENT OPPORTUNITY

Handloom & Textile Industry plays an important role in the socio-economic life of the people of Assam particularly in rural areas. It is one of the major ways of earning livelihood next to agriculture of the people of Assam. As such the Govt. of Assam is paying more importance for the upliftment of weavers and other workers by launching various schemes relating to the handloom & textile industry. Handloom & Textile Industry also plays a significant role in the employment generation of the state

economy. During the year 2024-25, this sector has **680687** nos. of weavers as part-time and **78642** nos. as whole-time weavers which is a very remarkable performance of this sector.

SERICULTURE AND EMPLOYMENT GENERATION

The Sericulture industry of Assam has evolved a unique world identity of the state. It includes four endemic silk-producing insects viz. Eri, Muga, Mulberry and Tasar. Although sericulture activities are commonly practised in some other states of the N. E. Region, Assam ranked highest among all in terms of production of different varieties of silk. Assam has tremendous potential of producing these silkworms whereas the state has already occupied the lion's share i.e. 90% of total Muga silk and 65% of Eri Silk produced in the country and ranks 3rd in overall silk production. The following Table-17.21 shows the nos. of villages and families engaged in the sericulture activities in Assam.

CHAPTER–XVIII

PANCHAYAT & RURAL DEVELOPMENT

Panchayat and Rural Development Department

Panchayat & Rural Development (P&RD) Department is responsible for allevation of rural poverty, enhancement of rural livelihood by creation of self-employment to the people living below the poverty line through implementation of various schemes and programmes and to to strengthen the Panchayati Raj Institution (PRIs). The Department is concerned with empowering the PRIs to enable them to increase the capacity of the rural poor through self-employment generation programs and by developing critical infrastructure in the rural areas. With this mandate, the P&RD department has been developing different schemes for development of rural infrastructure and upliftment of the quality of life of rural people. The schemes implemented by the department are broadly classifies into three categories.

i. Self-Employment
ii. Wage Employment
iii. Welfare schemes for the Disabled, Widows & other down trodden people living below poverty line.

SCHEMES IMPLEMENTED BY THE PANCHAYAT & RURAL DEVELOPMENT DEPARTMENT:

1. MGNREGA: Mahatma Gandhi National Rural Employment Guarantee Act.

2. PMAY-G: Pradhan Mantri Awas Yojana- Gramin.

3. NSAP: National Social Assistance Programme.

4. Central Finance Commission Grant.

5. State Finance Commission Grant.

6. MAS: Mission Amrit Sarovar.

MAHATMA GANDHI NATIONAL RURAL EMPLOYMENT GURANTEE ACT (MGNREGA)

MGNREGA was launched in 2005 and introduced in Assam during the year 2006, and has been implemented for more than a decade for overall rural development by creating wage employment avenues and livelihood through asset creation by natural resources management and infrastructure development. Also, various strategies are being developed to create new avenues for the socio-economic upliftment of rural livelihoods by covering the vulnerable section of the society.

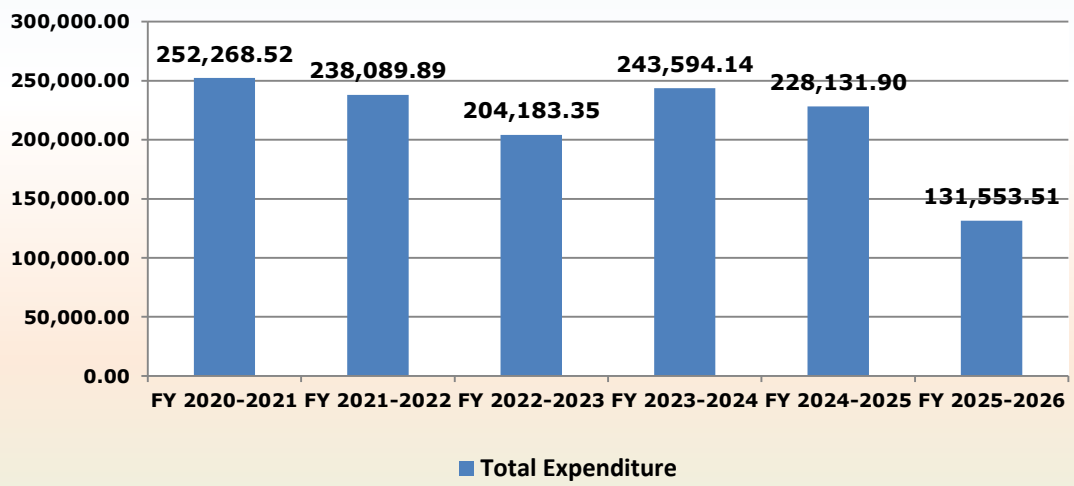

Given below are some detailed data representing the expenditure incurred under MGNREGA schemes for FY 2021-22 to FY 2025-26 (till 18th December**,** 2025) for the state of Assam.

TABLE-18.1: Year wise Expenditure Incurred under MGNREGA for Assam

Financial Year	Total expenditure incurred on wages (In Cr.)	Total expenditure incurred on material (In Cr.)	Total expenditure incurred (In Cr.)
2021-22	201427.3	30821.42	238089.89
2022-23	178623.71	16063.24	204183.35

Source: Commissionerate of Panchayat & Rural Development, Assam

FIG- 18.1: TOTAL EXPENDITURE (RS IN LAKHS)

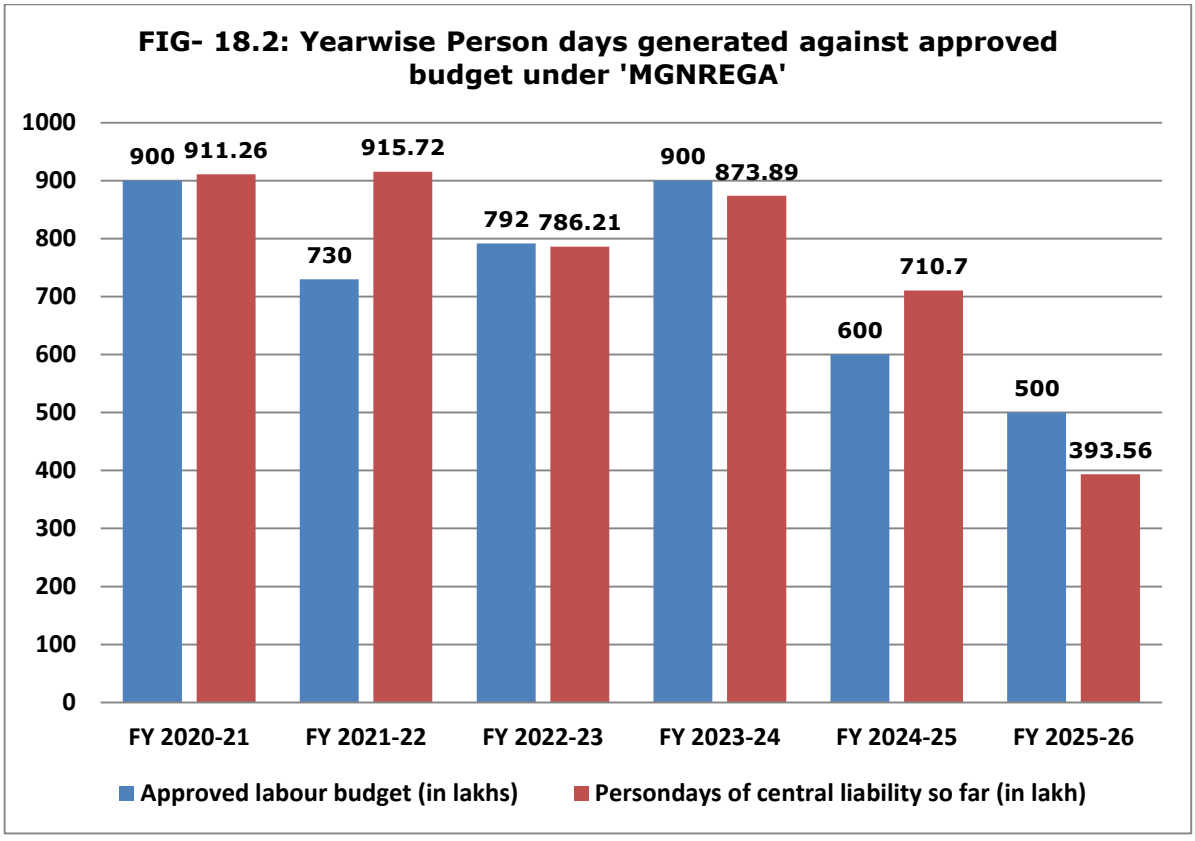

During the financial year 2021-22, 915.72 lakh mandays were generated against the approved labour budget 730.00 lakhs mandays due to increase in demand of work. For the financial year 2022-23 against the approved labour budget of 792.00 lakh person days, 786.21 lakh person days were generated. For the financial year 2023-24 against the approved labour budget of 900.00 lakh person days, 873.89 lakh person days were generated. For the financial year 2024-25 against the approved labour budget of 600.00 lakh person days, 710.70 lakh person days were generated. Similarly, in the current financial year, 500.00 lakh Person days have been generated against the approved Labour Budget of 393.56 lakh till date.

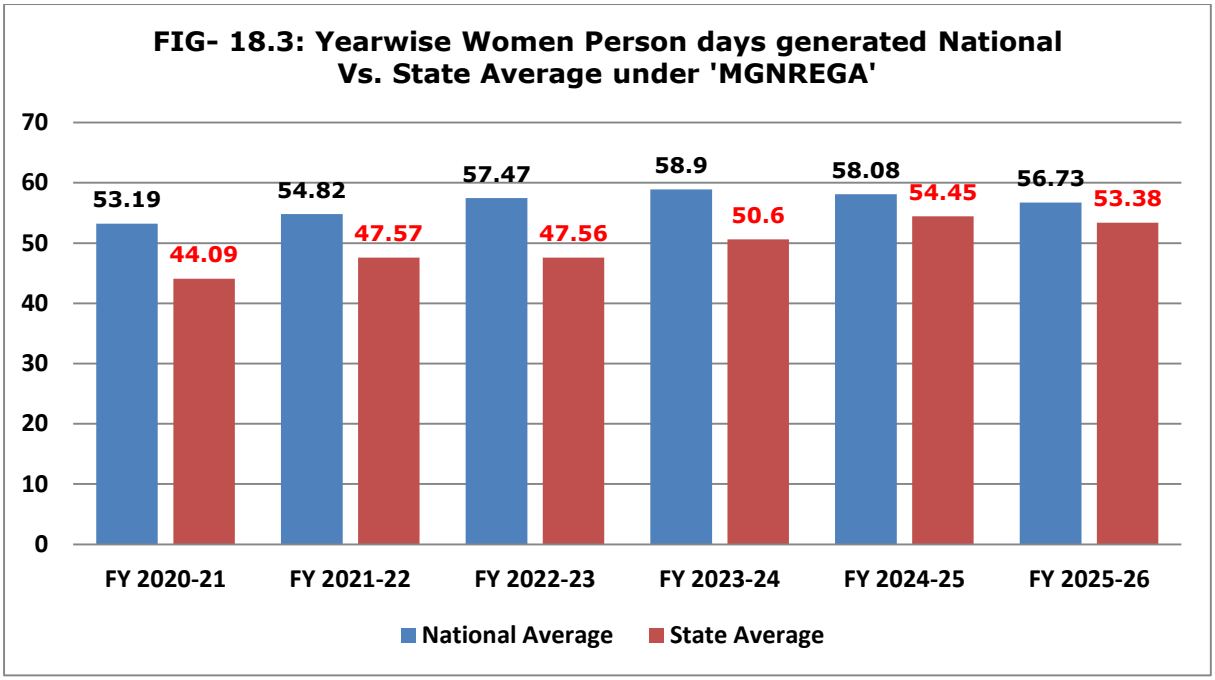

In Mahatma Gandhi NREGA, employment has been provided to the wage earners as per their demand on requirement. Since Mahatma Gandhi NREGA is a gender-neutral Scheme and lays emphasis on participation of women, given below is the data of percentage of person days provided to women in Assam under Mahatma Gandhi NREGA for FY 2021-22 to FY 2025-26 (till 18th December, 2025) for the state of Assam.

TABLE-18.2: Person days generated under MGNREGA for Assam

Financial Year	Total Person days Generated (In Lakhs)	Women Person days (in%)
2021-22	915.72 Lakhs	47.57
2022-23	786.21 Lakhs	47.56
2023-24	873.89 Lakhs	50.6
2024-25	710.7 Lakhs	54.45
2025-26	393.56 Lakhs	53.53

Source: Commissionerate of Panchayat & Rural Development, Assam

In addition to this, 2,07,187 households in Assam have completed more than 90 days of employment under MGNREGA in the FY 2024- 25. As of 18th December, 2025, a total of 1,16,219 households in Assam have completed more than 90 days of employment under the MGNREGA during the fiscal year 2025-26. For FY 2024-25, a total 8,30,260 number of schemes have been completed under MGNREGA. Currently,1,96,570 number of schemes have been completed in FY 2025-26 till 18th December, 2025 under MGNREGA.

Govt. of Assam has also taken following new initiatives under MGNREGA:

Special emphasis on Tea garden area

Tea Garden workers of Assam are one of the biggest contributors to the organized work force. Only about 50% percent of the total population under Tea Garden Area is employed in the tea gardens as permanent and casual labours and the remaining working age population either migrates out or engages in manual work away from the gardens, therefore the living standard of the tea garden labourers is very low. During the period from December to February, the activities in Tea industry reduce, thereby reducing generation of employment by the industry.

As part of new initiative under MGNREGA, the State Govt. has decided to provide 100 days of work to Tea Garden workers under MGNREGA during the lean season.

Person days Generated in Tea Garden Areas:

- FY 2021 - 2022 : 27,79,000
- FY 2022 - 2023 : 66,47,000
- FY 2023 - 2024 : 56,92,606
- FY 2024 - 2025 : 71,49,325
- FY 2025 - 2026 : 26,87,387 (Till 18-12-2025)

New Convergence Initiative

In the current financial year following convergence scheme is proposed for taken up under MGNREGA:

Construction of Embankment:

It is planned to construct new embankment in convergence mode with Water Resource Department and MGNREGA. Wage expenditure will be made from MGNREGA and material expenditure made from Water Resource Department after getting approval from competent authority.

Construction of Pavers Block:

Construction of Pavers Block Road in convergence with SOPD and MGNREGA. It is planned to construct maximum 1 KM of road per GP covering all districts of the State.

PRADHAN MANTRI AWAAS YOJANA GRAMIN (PMAY-G)

The Pradhan Mantri Awaas Yojana Gramin (PMAY-G) is a flagship scheme of the Government of India aimed at providing affordable housing to the rural population. The scheme aims to provide pucca houses with basic amenities to all eligible houseless households and households living in kutcha and dilapidated houses in rural areas.

Since the program's inception and in alignment with the program's objective, i.e. 'Housing for All', Assam has received a target of 29,87,868 from the Ministry of Rural Development, Govt. of India. From the target, 29,06,826 PMAY-G houses were sanctioned under SECC and Awaas+ in Assam and 20,89,255 houses were completed till January 2026.

The PMAY-G scheme coincides with the Agenda of Sustainable Development's first goal, 'no poverty by 2030'. Sustainable Development Goal 1 or SDG 1 aims to eradicate extreme poverty and reduce inequalities.

Under PMAY-G, eligible beneficiaries receive financial assistance of Rs 1,30,000 from the government to construct their homes. The scheme also emphasizes the use of environmentally sustainable construction practices and promotes the adoption of clean energy technologies.

By addressing the housing needs of the rural poor, PMAY-G contributes to SDG Goal by lifting people out of extreme poverty, reducing inequalities, and improving living conditions. It recognizes the importance of adequate housing as a fundamental human right and a key driver for overall development and social progress.

NATIONAL SOCIAL ASSISTANCE PROGRAMME (NSAP)

It is a centrally sponsored programme to promote social security through financial support to families living below the poverty line. Under NSAP, there are four schemes being implemented in the state namely- i) Indira Gandhi National Old Age Pension Scheme (IGNOAPS), ii) Indira Gandhi National Widow Pension Scheme (IGNWPS), iii) Indira Gandhi National Disability Pension Scheme (IGNDPS) and iv) National Family Benefit Scheme (NFBS).

The National Social Assistance Programme (NSAP) in Assam during FY 2024–25 recorded significant outreach across districts under its three major pension schemes. The Indira Gandhi National Old Age Pension Scheme (IGNOAPS) supported 6,77,720 beneficiaries, while the Indira Gandhi National Widow Pension Scheme (IGNWPS) covered 1,11,599 beneficiaries, and the Indira Gandhi National Disability Pension Scheme (IGNDPS) assisted 31,777 beneficiaries. Districts such as Nagaon (41,003 old age pensioners, 6,449 widows, 2,181 disabled), Kamrup (39,862 old age, 5,252 widows, 921 disabled), and Dhubri (35,644 old age, 7,098 widows, 2,118 disabled) reported the highest coverage, reflecting concentrated demand and effective implementation. Smaller districts like Majuli and Dima Hasao recorded comparatively lower figures, indicating demographic and geographic variations in beneficiary distribution.

Financial expenditure under NSAP in Assam for FY 2024–25 amounted to ₹25,991.98 lakh for IGNOAPS, ₹16,810.18 lakh for IGNWPS, and ₹1,151.35 lakh for IGNDPS. The highest spending was observed in Nagaon (₹2,056.46 lakh for old age pensions, ₹944.16 lakh for widow pensions, ₹79.63 lakh for disability pensions) and Kamrup (₹2,244.64 lakh for old age pensions, ₹781.37 lakh for widow pensions, ₹29.72 lakh for disability pensions), reflecting their large beneficiary base. Districts such as Dhubri, Cachar, and Goalpara also reported substantial allocations, while smaller districts like Majuli (₹326.71 lakh old age, ₹83.70 lakh widow, ₹7.08 lakh disability) and Dima Hasao (₹119.74 lakh old age, ₹85.72 lakh widow, ₹3.49 lakh disability) recorded relatively modest expenditures. This distribution highlights both demographic concentration and fiscal prioritization across Assam.

STATE SPONSORED SOCIAL ASSISTANCE PROGRAMME:

The Swahid Kushal Konwar Sarbajanin Briddha Pension Achoni, Assam's universal old-age pension scheme, achieved extensive coverage during FY 2024–25, benefiting 1,049,348 elderly citizens with a total expenditure of ₹33,475.17 lakh. Districts such as Nagaon (65,340 beneficiaries, ₹2,313.18 lakh), Lakhimpur (54,797 beneficiaries, ₹1,556.18 lakh), and Morigaon (51,622 beneficiaries, ₹1,588.03 lakh) recorded the highest figures, reflecting strong implementation. In contrast, smaller districts like South Salmara-Mancachar (2,391 beneficiaries, ₹111.14 lakh) and Dima Hasao (4,714 beneficiaries, ₹135.35 lakh) reported lower coverage, consistent with their population size. Overall, the scheme demonstrates Assam's commitment to universal social security, with equitable financial distribution aligned to demographic needs.

FINANCE COMMISSION GRANT

Under 15th Finance Commission Grant, a total amount of Rs. 6549.65 Cr. has been allocated for the PRIs for the period 2020-21 to 2025-26, out of which an amount of Rs. 5480.13 Cr. has already been received from Govt. of India till now, which is 84 % of the total allocation. Out of which an amount of Rs. 3581.35 Cr. has been utilized by PRI districts till date and 220159 Nos of schemes are undertaken under sectors like sanitation, drinking water, renovation and repairing of existing GP Office Buildings, Govt. School buildings, Anganwadi Centres, Health Centres & Sub Centres, Other Govt. Health institutions, Veterinary Dispensary, creation of community ponds, Open field & stage for sports & cultural activities, Creation of Park & Gymnasium, Roads etc. located in GP areas.

For successful implementation and sustainability of the Piped Water Supply Schemes (PWSS) in the long run, constructed under Jal Jeevan Mission, P&RD Deptt, the Public

Health Engineering Department and Panchayat and Rural Development Department are working closely in convergence mode. The Operation and Maintenance of these PWSS have been borne by the PRIs to ensure regular supply of potable drinking to the rural households once it is handed over to the PRIs by the JJM. The primary O&M expenses are remunerations to the Jal Mitras engaged under the PWSS, chemical expenses for treatment of the water and electricity charges of PWSS schemes are borne from tied component of 15th Finance Commission Grant by the PRIs. till date 14772 PWSS are handed over to the Panchayati Raj Institutions.

MISSION AMRIT SAROVAR: ASSAM MODEL

The objective of construction/development of Mission Amrit Sarovar is to ensure ground water recharge and availability of water for irrigation purpose for the farmers. It will also act as an income generating asset through pisciculture, horticulture and commercial plantation. It has been targeted to complete atleast 75 nos of Amrit Sarovars in every district of Assam.

In the Assam model, the Amrit Sarovar is being constructed on at least 1 hectare pondage area with a water holding capacity of at least 10,000 cubic metres. The Assam model of Amrit Sarovar is conceptualized with minimum 1 Hectare of pondage area, 3 layers of commercial plantation, chain link fencing, flag hoisting platform, working shed for user groups and solar lighting. Mission Amrit Sarovar was formally launched by the Hon'ble Prime Minister on National Panchayat Day on 24th April, 2022. The foundation stone for the Amrit Sarovar in Assam will be laid by the Hon'ble Prime Minister on 28th April, 2022.

The main objective of the Mission Ammit Sarovar is water conservation through excavation of Amrit Sarovar at the rate of 75 nos per district. Amrit Sarovar (Assam Model) will not only ensure availability of water to the residents of the villages for agriculture activities, but will also act as an income generating assets for user groups through pisciculture & commercial plantation.

As per Govt. of India (MoRD) target of Amrit Sarovar in Assam is 2625. Assam has achieved total excavation of 2966(112.99%) as per BISAG-N. Out of which 2787 has been executed by P&RD and 178 by other departments (soil conservation etc.).

Amrit Sarovar in Assam is done on convergence mode with Fisheries Department and Chief Minister Samagra Gramya Unnayan Yojana (CMSGUY) by Panchayat and Rural Development Department, Assam. Approval received from CMSGUY for excavation of Sarovars is Rs 607.46 Cr. Total Estimated cost under CMSGUY is Rs. 356.46 Cr and total fund received from CMSGUY is Rs. 356.46 Cr in three tranches - Rs. 182.00 Cr in the 1st Tranche and Rs. 125.00 Cr in the 2nd tranche and Rs. 49.46 Cr in 3rd tranche. Total fund utilised by districts as on date 19-01-2026 is Rs. 290.8 Cr (81.57%).

In order to ensure sustainability, most of the completed Amrit Sarovars situated in the government land have been handed over to Cluster Level Federations (CLF) under ASRLM which are being treated as user group which will lead to sustainable livelihood generation for rural women and lead to their empowerment. According to data received from the districts, out of a total of 2,120 Amrit Sarovars situated on government land, 1,426 have been handed over to the CLFs. However, of these, 595 Sarovars are reported to have various issues. In addition, 619 Sarovars have been handed over to village committees. The handover process for the remaining 75 Sarovars is still pending. Discrepancies were identified between the Amrit Sarovar survey reports submitted by ASRLM and the

Commissionerate of P&RD. Consequently, instructions were issued for accurate verification.

As per the instructions received from Hon'ble Chief Minister of Assam via letter no CMO.1/2024/4785 Dated 13/08/2024 it was mentioned in Office Memorandum no. E404491/701011/2024, that in 863 nos of Amrit Sarovar situated in Govt. Land which could not be taken over by Cluster Level Federations (CLFs), it has been instructed that the Amrit Sarovars are to to be handed over to the appropriate authority/ village committee with prior approval of District Level Committee chaired by the Guardian Minister. If in some cases the appropriate authority finds it difficult to determine the genuine allottees, District Commissioner will decide it through transparent auction process in a free and fair manner.

MISSION AMRIT SAROVAR: (PHASE II)

In the Financial Year 2025-26 it is proposed to implement Amrit Sarovar 2.0 through SOPD in convergence with MGNREGA and Finance Commission Grant Fund, at 30 Numbers of Amrit Sarovar per district covering at least 1 acre water area (maximum 1 Hectare) out of which 20 Numbers of Brownfield through redevelopment, reclamation, and expansion of existing ponds and 10 numbers of newly constructed Amrit Sarovar. Total budget for excavation of Amrit Sarovar with barbed fencing and iron gate under SOPD, for 1 hectare pondage area is Rs. 141.89 Cr.

ASSAM STATE RURAL LIVELIHOODS MISSION

(A)Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM)

Deendayal Antyodaya Yojana-National Rural Livelihoods Mission (DAY-NRLM) is being implemented by Assam State Rural Livelihoods Mission (ASRLM), in the State of Assam have crossed several milestones. Till March 2025, a total of 39.33 Lakh rural households across all blocks and districts of Assam have been mobilized to promote a total of 3.59 Lakh Self-Help Groups (SHG) ever since its inception in 2011. These SHGs are being organized further to higher level federations like Village Organizations (VO) and Cluster Level Federations (CLF) to provide a common platform for collective action for socio-economic development. The Status of promotion of these Community Based Organizations as on March 2025 is as follows:

TABLE-18.3: The Status of promotion of Community Based organizations as on March 2025

Description	Number (in Lakhs/Units) (Since Inception)
Total Rural Households Mobilized	39.33 Lakh
Total Self-Help Groups (SHGs) Promoted	3.59 Lakh
Village Organizations (VO) Promoted	19,563
Cluster Level Federations (CLF) Promoted	757

Source: Assam State Rural Livelihood Mission

The Community Based Organization (SHGs, VOs and CLFs) promoted under ASRLM are provided with various funds like, Revolving Fund (RF), Community Investment Fund (CIF), etc. RF is provided to the eligible SHGs to inculcate the habit of thrift and accumulate their own funds towards meeting their credit needs in the long-run and immediate consumption

needs in the short-run. Till March 2025, a total of 3,41,085 SHGs have been provided Revolving Fund amounting to a total of Rs. 644.34 Cr.

TABLE-18.4: Status of Revolving Fund Disbursement for the FY 2022-23 to 2024-25

Sl. No.	Financial Year	Total Number of SHGs provided Revolving Fund	Amount of Revolving Fund provided (in lakhs)
1	FY 22-2023	29503	6740.4
2	FY 23-2024	9794	2250.75
3	FY 24-2025	6623	1626.60

Source: Assam State Rural Livelihood Mission

Community Investment Fund is provided to the SHGs in order to facilitate them to initiate a sustainable livelihood practice. The CIF is a grant to CLF, however, it is a loan to VO, SHG and Members. Till March 2025, a total of 2,17,920 SHGs have been provided Community Investment Fund amounting to a total of Rs. 1089.60 Cr.

TABLE-18.5: Status of Community Investment Fund Disbursement for the FY 2022-23 to 2024-25.

Sl. No.	Financial Year	Total Number of SHGs provided Community Investment Funds (CIF)	Total Amount of Community Investment Funds provided to SHGs (in lakhs)
1	FY 22-2023	12724	19086.5
2	FY 23-2024	14075	21113
3	FY 24-2025	12606	10341.9

Source: Assam State Rural Livelihood Mission

With the concerted efforts over the years, the Assam State Rural Livelihoods Mission (ASRLM) has made substantial progress in empowering rural women through Self-Help Groups (SHGs) by promoting income-generating activities. These activities are supported financially through Revolving Funds (RF), Community Investment Funds (CIF), or bank loans. Credit from Banks helped in many ways to the SHG members in creation of sustainable livelihoods income. For the fiscal year 2024-25, the Ministry of Rural Development, Government of India had set a target of 1,76,800 SHGs for credit linkage with banks. ASRLM has successfully achieved a credit linkage for 1,75,357 SHGs, which accounts for 99.18% of the target. In terms of financial achievement, SHGs received loans totaling ₹5987.61 crore, surpassing the target of ₹4,100 crore with 146%. Since the inception of ASRLM, 7,64,545 loans amounting to ₹17,700.36 crore have been disbursed to SHGs by various banks. Approximately 86% of SHGs have availed at least one dose of bank credit so far. To support this initiative, ASRLM has deployed 1928 nos. of Bank Sakhis who provide guidance and assistance to SHG members throughout the process.

TABLE-18.6: SHG Credit Linkage performance under ASRLM for last 3 years

Year	Target		Achievement		% (Target vs. achievement)	
	No. of SHGs	Amount (Crores)	No. of SHGs	Amount (Crores)	No. of SHGs	Amount (Crores)
2022-23	134,430	1,540	1,33,105	3,199	99%	207%
2023-24	176,800	4,100	1,65,708	4,852	93.73%	118%
2024-25	176,800	4,100	1,75,357	5,987.61	99.18%	146%

Source: Assam State Rural Livelihood Mission

The Assam State Rural Livelihoods Mission (ASRLM) has catalyzed a silent economic transformation across rural Assam by mobilizing over 39 lakh households into Self-Help Groups (SHGs). Through these collectives, lakhs of women have gained access to credit, developed entrepreneurial capacities and begun participating meaningfully in the local economy. Building on this foundation, ASRLM has actively facilitated the transition of women from group-based borrowing to individual enterprise loans, a step in the graduation pathway of rural women entrepreneurs. In the financial year 2024–25 alone, 21,685 ASRLM-supported women entrepreneurs successfully obtained individual loans from banks. The total disbursements to these women were Rs 270.5 crores with average loan size of Rs 1.25 lakh. This underscores the potential among SHG members to scale their businesses, formalize their enterprises, and access higher levels of capital.

Mobilizing credit from banks to individual SHG members has been initiated by ASRLM from the later parts of FY 2023-24. This initiative aims to provide financial support to women entrepreneurs from SHGs, offering them individual credit through government schemes or bank-specific products developed for Women-led Enterprise Financing (WEF). The progress made so far in last 2 years in this segment is highlighted below:

TABLE- 18.7: Year-wise Target and Achievement of individual Enterprise Loan Disbursement to Women SHGs

Sl No	Year	Target (In Nos.)	Ach Nos.	% Ach	Target Amount(in Cr)	Ach. Amount (In Cr.)	% Ach
1	FY 2023-24	9000	2643	29%	NA	30.75	NA
2	FY 2024-25	40000	21685	54%	400	270.5	68%

Source: Assam State Rural Livelihood Mission

ASRLM is committed to secure the future of rural women through enrollment in various social security schemes offered by the Government of India and the Government of Assam. As on March, 2025, a total of 747 Bima Sakhis have been engaged to look after the

insurance and pension schemes namely Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY), Pradhan Mantri Suraksha Bima Yojana (PMSBY), Pradhan Mantri Jan Arogya Yojana (PMJAY), and Atal Pension Yojana (APY). The year wise achievement in terms of enrolment of SHG members under the schemes in the last three financial years as mentioned below:

TABLE-18.8: The status of SHG members enrolled under various schemes

	Number of SHG members enrolled (in lakh)			
Financial Year	**PMJJBY**	**PMSBY**	**PMJAY (Cumulative total)**	**APY (Cumulative total)**
FY 2022-23	22.19	25.60	26.94	4.01
FY 2023-24	23.06	26.76	32.41	5.13
FY 2024-25	26.87	30.71	33.28	6.62

FARM LIVELIHOODS

ASRLM recognises the importance of sustainable livelihoods for the enhancement of the income of SHG members' households. Under Farm Livelihoods, interventions like adoption of Agro-ecological Practices by the members, capacity building on livestock production and management, value chain development projects, organic farming, etc. have been undertaken. Agro-ecological practices are promoted to improve soil health, conserve water, reduce reliance on synthetic inputs, and enhance biodiversity. These practices include techniques like crop rotation, intercropping, composting, and integrated pest management. ASRLM utilises a community-based approach, empowering women and other marginalised groups to adopt agro-ecological practices. Community Resource Persons (CRPs) are trained to provide support and guidance to farmers in adopting these practices.

ASRLM also focuses on livestock interventions as a key strategy to improve rural livelihoods. ASRLM aims to enhance income and employment opportunities for the rural population by promoting livestock rearing, particularly among landless labourers and small/marginal farmers. ASRLM provides training on improved livestock management techniques, including feeding, breeding, and disease control.

Additionally, ASRLM has taken the promotion of AgriNutri gardens as a key component of its efforts to improve food and nutritional security among rural communities. These gardens are designed to enhance access to nutritious food through the cultivation of vegetables and fruits, contributing to both household income and dietary diversity.

The three major initiatives, i.e. Agro-ecological Practices and Livestock intervention, had been started in the FY 2019-20, and promotion of Agri-Nutri Garden had been started from FY 2020-21. Year-wise progress (addition of members) has been given below:

TABLE- 18.9: Yearwise Coverage of Mahila Kisans under Farm Livelihood Interventions

Financial Year	No. of MahilaKisans covered under Agro Ecological Practice (AEP) interventions	No. of MahilaKisans supported under livestock interventions	No. of Mahilakisans households having Agrinutri garden
2022-23	807383	612111	1499259
2023-24	788580	544281	872071
2024-25	442424	267199	533619

Source: Assam State Rural Livelihood Mission

Apart from the above, the following are some of the key interventions undertaken under Farm Livelihoods-

I) Promotion of Producer Groups (PGs):

A Producer Group is a primary collective of SHG members, promoted under NRLM, where all members are involved in similar production-based livelihood activities. The PG enables them to: Improve production, Access inputs and services, Aggregate and market their produce, Enhance bargaining power and income. ASRLM has promoted and supported 6,848 Producer Groups under Value Chain Interventions across the state, with 4,55,927 Mahila Kisans (women farmers) associated with these groups. The major commodities produced by the Producer Groups include Paddy, Backyard Poultry, Piggery, Goatery, Mustard, Maize, Horticultural crops, Seasonal Vegetables, Honey, Spices, Assam lemon, Mushroom, and Dairy products. Additionally, under NRLM, Rs. 73.875 Crores as Working Capital and infrastructure funds have been released to the 3896 nosof Producer Groups during the financial years 2021-2022 to 2024-2025.

II) Promotion of Farmer Producers Company:

A Farmer Producer Company (FPC) is a legal entity registered under the Companies Act, formed and owned by a collective of farmers or producers—primarily Self-Help Group (SHG) members—to enhance their income through collective production, aggregation, value addition, and improved market access.

In FY 2021–22, with technical support from the Foundation for Development of Rural Value Chains (FDRVC), ASRLM established the Xotphul Mahila Kisan Farmers Producers Company in Tinsukia district, Assam. This initiative aims to develop value chains for ginger and speciality rice, with a goal of covering 10,000 women farmers across three blocks. Currently, 4,200 Shareholders have been onboarded, and the business of Speciality rice and ginger has started. The total turnover of Xotphul Mahila Kisan Farmers Producers Company is Rs. 53.2 Lakhs so far.

During the financial year 2023–24, ASRLM, functioning as a Cluster-Based Business Organization (CBBO), has successfully registered 59 all-women Farmer Producer Companies across 54 blocks from 19 districts under the 10K FPO Scheme of the Ministry of Agriculture and Farmers Welfare, Government of India. These FPCs collectively have a

shareholder base of 40,440 Mahila Kisans. All 59 FPCs have commenced both input and output business operations, with 47 FPCs obtaining Seed Licenses from the Department of Agriculture. Additionally, all 59 FPCs have collectively received a Matching Equity Grant amounting to ₹2.68 crores, and 49 FPCs have recorded a total turnover of Rs. 84.81Lakhs-till date.

Apart from this, ASRLM has also promoted an additional 20 all-women Farmer Producer Companies in four districts of Assam, supported through HDFC Parivartan (HDFC Bank's CSR initiative) in partnership with Sesta Development Services (SDS), as part of its convergence efforts.

III) Integrated Farming Cluster (IFC):

An Integrated Farming Cluster (IFC) is a cluster-based approach under NRLM that brings together 250–300 SHG households from 2–3 nearby villages to promote diversified and sustainable livelihoods, covering more than 1.05 Lakhs Households. Each household adopts 3–4 high-potential farm and non-farm activities with a focus on improving productivity, enabling value addition, and strengthening market linkages, aiming to enhance household income through integrated and collective efforts.

ASRLM is implementing a total of 350 Integrated Farming Clusters (IFC) across 34 districts, covering a total of 105,400 SHG households. Further, under the IFC-NRETP project, a total 20 nos. of community-owned Livelihood Service Centre (LSCs)-Custom Hiring Centres have also been established.

IV) Organic Farming:

Organic farming, promoted under NRLM, is a sustainable practice that avoids synthetic fertilizers and pesticides. It is encouraged to ensure safe food, reduce input costs, and enhance the livelihoods of SHG members. Certification is done through PGS-India under the Ministry of Agriculture & Farmers Welfare. Under NRETP Organic Village Clusters, more than 20,000 SHG members have been federated under 696 Local Groups, which have already received Organic Certification under the Participatory Guarantee System (PGS). The NRLM Organic Project Phase-I (FY 2021-22), 20 blocks have been covered and in 40 clusters with 359 local groups formed, 10,784 Mahila Kisans have been covered. All 359 local groups have received PGS-India Organic certification and the first scope certificate. In the phase II (FY 2023-24), the project covers 100 blocks and 200 clusters, with 1328 local groups formed, benefiting 50,682 Mahila Kisans. In the extended phase III (FY 2024-25), the project covers 67 blocks and 134 clusters, with 896 local groups formed, benefiting 33,545 MahilaKisans.

ASRLM always envisages convergence with various line departments and other organizations, institutes, etc., for the benefit of the SHG members. A summary of convergence under the Farm Livelihoods sector has been given below:

NAMO Drone Didi scheme:

NAMO Drone Didi Scheme was launched by Govt. of India on 30th of November 2023, under the Ministry of Rural Development, to promote women-led development and empower rural women through advanced technology in agriculture. This initiative aims to integrate women Self-Help Group (SHG) members into the modern agri-tech landscape by training and deploying them as Drone Didi and Drone Service Providers. The Lead Fertilizer

Companies (LFCs) are the implementing agencies of the scheme. In Assam, two LFCs, namely IFFCO and Brahmaputra Valley Fertilizers Corporation Limited (BVFCL), have trained a total of 27 SHG members from 10 districts with the help of Guwahati-based RPTO (Remote Pilot Training Organization), i.e., AMTRON, to obtain a DGCA license to fly and use a drone as per the Drone Act 2021. Now, the Didis are providing drone services (spraying fertilizers and pesticides) in the farmlands on a rental basis. Total cumulative income: Rs. 7,90,616.

A-HELP (Accredited Agent for Health and Extension of Livestock Production):

The A-HELP program is a collaborative initiative of the Department of Animal Husbandry & Dairying (DAHD), Government of India, and the National Rural Livelihoods Mission (NRLM) under the Ministry of Rural Development. It aims to strengthen veterinary service delivery through trained SHG women at the village level. These women, known as A-HELP workers, act as a crucial link between farmers and veterinary services. The Pashu Sakhis promoted under ASRLM are engaged by the Department of Animal Husbandry and Dairying for implementing various government schemes related to animal health, breeding, and livestock development. As on March 2025, a total of 150 Pashu Sakhis from 12 Districts are engaged as trained A-Help Workers.

Amrit Sarovar:

The Amrit Sarovar initiative, launched in April 2022 under the Ministry of Rural Development, aims to rejuvenate 75 water bodies per district to promote water conservation and sustainability through community participation. In Assam, Amrit Sarovars located on government land are being handed over to Cluster Level Federations (CLFs) under ASRLM for livelihood promotion. ASRLM has undertaken fishery-based interventions in collaboration with CLFs to enhance rural incomes.

So far, a total of 836 Amrit Sarovars have been successfully taken over by CLFs, out of which 395 are currently utilized for fishery activities. Capacity building has been conducted for 17,462 SHG members on sustainable aquaculture. Further, 256 Sarovars have been harvested, generating an income of ₹13.85 lakh.

(B)Deen Dayal Upadhyaya Grameen Kaushalya Yojana,(DDU-GKY)

Deen Dayal Upadhaya Grameen Kaushal Yojana (DDU-GKY) aims to skill the rural poor youth and provide them with jobs having regular monthly wages or above the minimum wages. It is an initiative of the Ministry of Rural Development, Government of India that seeks to promote rural livelihoods and a part of the National Rural Livelihood Mission (NRLM). DDU-GKY follows a 3-tier implementation model. The DDU-GKY National Unit at MoRD functions as the policy-making, technical support and facilitation agency. The DDU-GKY State Missions provide implementation support and the Project Implementing Agencies implement the programme through skilling and placement projects. The course curriculum and duration of the courses/trades is developed by the respective Sector Skill Councils (SSCs) and the duration of the courses ranges from 3 months to 12 months. The target age group is 18-35 years and the minimum educational qualification required is Class V passed. The DDU-GKY programme started in the year 2015-16 in Assam. The scheme is funded in the ratio 90:10 from Center and States respectively.

TABLE-18.10: Physical Progress for last three Years

Year	Training Target	Achieved	Placement Target	Placement Achievement
2022-23	24694	12532	17286	6828
2023-24	23777	10615	16644	8638

(C) Rural Self-employment training Institutes (RSETIs)

Rural Self Employment and Training Institutes (RSETI) provide skilling for self-employment. RSETI program is a three-way partnership between the Ministry of Rural Development (MoRD), Govt of India, the State Government and the Sponsoring Banks. MoRD provides grant-in-aid to the sponsoring Banks for reimbursement of training costs of the rural poor and infrastructure support for each RSETI building. Banks are mandated to open at least one RSETI in their lead District to provide training to rural youth to take up self-employment entrepreneurship ventures. State Government provides land for RSETI's permanent infrastructure & reimbursement of training cost. Target group of RSETI programme is rural poor youth in the age group of 18-50 years.

TABLE-18.11: Physical Progress of the RSETI Scheme in last 3 years:

Financial Year	Target	Trained	Settled
2022-23	13,605	14,328	10,184
2023-24	15,000	15,744	11,702
2024-25	26,000	26,097	19,080

CAPACITY BUILDING AND TRAINING FOR PRI'S, OFFICIALS AND OTHERS:

The State Institute of Panchayat and Rural Development was established as one of the core distinguished institution of Assam with the objective of becoming a premier training institute in the field of conducting training programmes and rural development. The Institute was registered under Societies Registration Act 1860 during the month of April, 1998 and thereafter, administrative and financial autonomy was conferred by the Government. The Institute organizes various training programmes under the aegis of the Ministry of Panchayati Raj, Ministry of Rural Development and Government of Assam for the elected representatives of three tier Panchayati Raj Institutions, different courses for officials of Rural Development, Panchayati Raj, front line workers of Line Department, representatives of CBOs, NGOs, SHGs and rural people through its vast network of 2 (Two) Head Quarter campuses at Guwahati, 1(One) no. State Panchayat Resource Centre, 12 (Twelve) nos. of Extension Training Centres and 11(Eleven) nos. of District Panchayat Resource Centres located in different parts of Assam wherein SIPRD do not have any Extension Training Centres.

The mission of the State Institute of Panchayat and Rural Development is to focus on the qualitative development in the ongoing rural development programmes and sensitize the elected representatives of Panchayati Raj Institutions to be proactive through capacity building activities. Capacity building is considered to be the fundamental part in the

development efforts through which the delivery system can be made more effective. The community and rural development plays an important role in the process of accelerating the socio-economic development of rural areas with a view to increasing the income level and quality of life of the rural people.

As envisaged by the Ministry of Panchayati Raj, Government of India, the SIPRD, Assam has given special thrust on localizing Sustainable Development Goals through capacity building and training. The institute has been regularly organizing training programmes on localizing SDGs in a decentralized manner on the 9 (nine) thematic areas that have been identified by the Ministry. The institute has been organizing the training programmes for the elected representatives of PRIs, officials, SHG members jointly on localizing SDGs in a saturation mode. In each theme, the institute targeted to cover 5000 members of Gaon Panchayats in every year. During the year 2024-25, there were no elected bodies in three tiers Panchayati Raj Institutions. So the Institute could not organize any training for the Elected Representatives of PRI's during the period. Focus has been given on synchronizing GPDP with SDGs. GPDP is the entry point in the villages for localising different thematic areas of SDGs. SIPRD has already been working in the field to create the base for meaningful GPDP in the last couple of years and from this localising SDGs will take off. The institute has already deputed the Faculties of SIPRD and its District Centres to adopt at least five GPs so that they can provide the handhold support to the GPs for attainment of SDGs in two to three identified themes in a phase manner. The SIPRD, Assam since last couple of years has been organizing training on the following Sustainable Development Goals:

- ☐ Theme 1: Poverty Free and Enhanced Livelihoods Village.
- ☐ Theme 2: Healthy Village.
- ☐ Theme 3: Child-Friendly Village.
- ☐ Theme 4: Water Sufficient Village.
- ☐ Theme 5: Clean and Green Village.
- ☐ Theme 6: Village with Self-sufficient Infrastructure
- ☐ Theme 7: Socially Just & Socially Secured Village
- ☐ Theme 8: Village with Good Governance.
- ☐ Theme 9: Women Friendly Village.

The SIPRD has already signed MoU with Central University, Tezpur, Central Institute of Technology, Kokrajhar. The institute has also tie up with Assam Agriculture University and its colleges, KVKs, TISS, Guwahati. Different colleges have been coming up to sign MoU with the SIPRD for various training programmes of their students.

UNICEF, Assam field office has already set up a Resource Centre in the SIPRD for development of women and children in the villages. The UNICEF has also been coordinating with the institute for development of women and child friendly GPs in the state. The Institute has taken up a planned approach towards building the capacity of the elected representatives of panchayats in the light of devolution of functions, functionaries and funds to Panchayati Raj Institutions in the State.

Capacity building and training has now become very important aspect of proper planning, implementation and monitoring of various rural development programmes for the welfare of the people living in the rural areas. Strengthening of Panchayati Raj Institutions through capacity building and training is also an important aspect for decentralization of the governance and for socio-economic development of the rural areas. The Ministry of Panchayati Raj, Ministry of Rural Development, other Ministries and State Government has given special thrust to building the capacity of the elected representatives of PRIs, functionaries and other stakeholders for strengthening of Panchayati Raj Institutions and proper planning, implementation of rural development programmes. Considering these, the State Institute of Panchayat and Rural Development is supposed to impart training to a large number of stakeholders. During the year 2024-25, the Institute prepared a comprehensive annual training action plan to impart training to 2,16,858 persons on different training programme, covering various subjects. In 2024-25, the Institute organized 3773 courses and cover 162720 persons of various clientele groups on different subjects.

The Institute has been playing its role with a sense of commitment and facilitates in bringing about qualitative changes in programme implementation through a process of training and information dissemination.

TABLE-18.15: TRAINING PERFORMANCE OF SIPRD DURING 2021-22 TO 2024-25

Sl. No	Year	No. of Courses targeted	No. of Participants targeted	No. of Courses conducted	No. of Participants covered

Source: The State Institute of Rural Development

Infrastructure development at Gaon Panchayats & VCDCs/VDCs:

Under RGSA, Ministry of Panchayati Raj has been providing financial support for development of physical infrastructure at Gaon Panchayat level through construction of new Gaon Panchayat building with a cost of Rs. 20.00 lakhs. During the financial year 2023-24, 116 Gaon Panchayats have been taken up for construction of new buildings in different districts. Besides this, 213 VCDC buildings in BTR areas have been constructed. Similarly, 28 VDC buildings in Dima Hasao and 26 VDC buildings in Karbi-Anglong are being constructed for which the institute has already sanctioned and released the 1st Instalment to the Autonomous Councils of Dima Hasao and Karbi-Anglong. During the financial year 2024-25, the Ministry of Panchayati Raj has also approved the proposal for construction of 178 new Gaon Panchayat Buildings for which the institute has sanctioned and released the 1st tranche of 1st Instalment to the state. The institute will soon sanction and release the funds to the concerned Zilla Parishads to start the construction works.

Desktop computers to the Gaon Panchayats:

During the financial year 2023 - 24 under RGSA, 500 Desktop Computers have been distributed to 500 Gaon Panchayats. Similarly, under the Action Plan 2024-25, the Ministry of Panchayati Raj has approved the proposal for providing desktop computers to 687 Gaon Panchayats of the state. The institute has already initiated the process for procurement of the Desktop Computer through Gem Portal.

Construction of women hostel:

The Ministry of Rural Development, Government of India has approved the proposal for an amount of Rs. 820.00 lakhs for construction of G+ 5 women hostel with a capacity to accommodate 100 participants at a time. After completion of the building, the institute will be able to organize more residential training programmes especially for the women representatives of PRIs as well as women functionaries.

***

CHAPTER-XIX

SOCIAL SECTOR

Social Sector Development is one of the most rewarding investments available to promote national development. With this view, the State Government has been making all possible efforts to develop social sector in the state, according to desired priorities. Development of social activities like education, health, family welfare, safe drinking water, sanitation, welfare programme for women, children, SC & ST sub sectors, development of marginalized groups and backward regions etc. have assumed fairly important. The Government is committed towards overall development of all sections of society.

EDUCATION:

Education is one of the key inputs for balanced social & economic development. Education empowers people with skills & knowledge which ultimately help to boost economic growth. A number of schemes have been initiated by the Government for encouraging development of education among various sections of the population in the State. Development in these sectors can build up strong edifice of a stimulating economy in terms of rising income and employment opportunities, productivity, technology advancement and finally enhanced quality of life in the State. Education may be both formal and informal. Formal education consists of Pre-school, Primary, Upper Primary, Secondary to Senior Secondary, Technical or non-technical or may be Vocational in form.

PRIMARY & UPPER PRIMARY EDUCATION:

In Assam, the number of Government/Provincialized Schools/Institutes under department of Elementary in Lower Primary schools is 33875 of which 32841 are in rural areas and 1034 are in urban areas. Likewise, the total number of Upper Primary schools is 6160 of which 5855 are in rural areas and 305 are in urban areas as per UDISE 2023-24.

DROP-OUT RATE:

As per, DISE 2023-24, the average annual Drop-out Rate in Lower Primary in the State during 2023-24 is 6.90 against 8.49 in 2022-23, while this rate was 6.02 percent in 2021-22. Likewise in the Upper Primary level, the drop-out rate is 9.27 in 2023-24 and it was 10.33 in 2022-23. The drop-out rate, registered highest 11.55 percent in West Karbi-Anglong followed by 11.20 in South Salmara in the Lower Primary level while lowest is 2.78 in Jorhat. Similarly, in the upper Primary Level, this rate is highest 16.85 in Dhubri followed by 16.36 in Nagaon and the lowest 0.36 in Dhemaji. During the period 2023-24. The Transition Rate from primary to upper primary in the state is 84.1.

PUPIL-TEACHER RATIO:

The Pupil-Teacher Ratio (PTR) or Student-Teacher Ratio is the number of students who attend a school or university divided by the number of teachers in the institutions. The Pupil-Teacher Ratio in the Lower Primary level of the State during the year 2024-25 has been 20 as it was 21 during 2023-24. Similarly, in the Upper Primary level the PTR during

the period is 19 in 2024-25 which was same 19 in 2023-24. The table & graph below shows the PTR of Lower Primary and Upper Primary in the State during 2023-24, 2022-23 and 2021-22, as per U-DISE 2023-24.

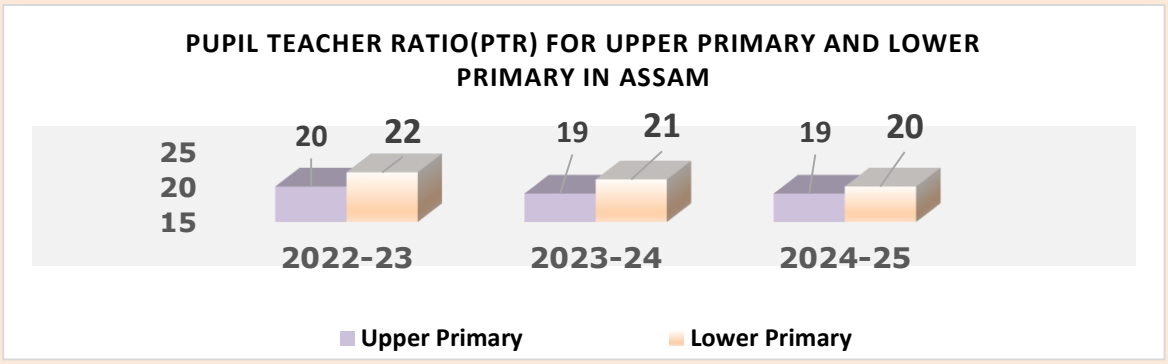

Table : 19.1

Pupil Teacher Ratio in Upper Primary & Lower Primary School, Assam

2022-23		2023-24		2024-25	
Lower Primary	Upper Primary	Lower Primary	Upper Primary	Lower Primary	Upper Primary
22	20	21	19	20	19

(Source: U-DISE, 2024-25)

Fig.:-19.1. PTR IN LOWER PRIMARY& UPPER PRIMARY LEVEL IN ASSAM

(Source: U-DISE, 2023-24)

GROSS ENROLMENT RATIO (GER):

The National Education Policy 2020 (NEP 2020) identified universal education as a key priority, with several initiatives aimed at transforming the education sector and empowering the nation's youth. At the heart of the NEP vision to achieve 100% Gross Enrolment Ratio (GER) till secondary level by 2030, it is necessary to measure GER.Gross Enrolment Ratio or Gross Enrolment Index is a statistical measure used in the educational sector and by the UN in its Education Index to determine the number of students enrolled in school at several grade levels (like elementary, Secondary school and Senior Secondary school).

Table: 19.2

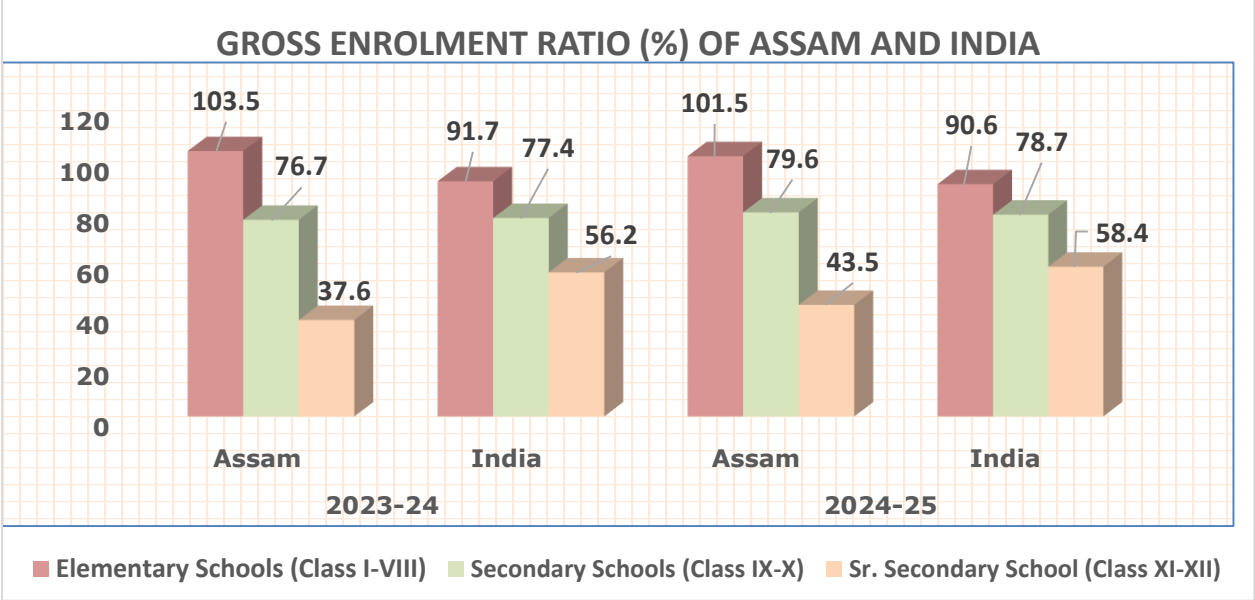

GROSS ENROLMENT RATIO (%) OF ASSAM & INDIA

Category	2023-24		2024-25	
	Assam	India	Assam	India
Elementary Schools (Class I-VIII)	103.5	91.7	101.5	90.6
Secondary Schools (Class IX-X)	76.7	77.4	79.6	78.7
Sr. Secondary School (Class XI-XII)	37.6	56.2	43.5	58.4

(Source: U-DISE+, Ministry of Education GOI, 2024-25)

The above Table shows that the Gross Enrolment Ratio at Elementary schools (Class I-VIII) during 2024-25 IS 101.5 and in 2023-24 was 103.5 while it was 109.8 during 2021-22, showing a decrease GER in Assam. In Secondary School (Class IX-X), the GER during 2024-25 is 79.6 and in 2023-24 was 76.7 and in 2021-22 it was 74.5 and is same in 2020-21 (74.0). However, the Gross Enrolment Ratio at Sr. Secondary School level is quite low, i.e. during 2021-22; it was 40.1 and has decreased to 37.6 during 2023-24 and increases to 43.5 in 2024-25, as per U-DISE+ 2024-25, Ministry of Education GOI and RBI publications. It may also be noted that GER greater than 100% might indicate presence of over or under age children in a particular level of education, inter State migration etc.

Fig. - 19.2.
GROSS ENROLMENT RATIO OF ASSAM & INDIA

(Source: U-DISE+ 2024-25, Ministry of Education GOI)

Samagra Shikha:

Under Samagra Shikha Abhiyan the different activities undertaken by the government for elementary and secondary level are as follows-

Elementary Level:

The activities undertaken in the elementary level of schools during 2023-24 by the government are--

a. Distribution of Free Textbooks: Free Textbooks has been distributed to 41, 51,498 learners from class I to VIII s in the Academic Year 2023. Total 42,21,050 students were provided FTBs before the commencement of the academic year 2023-24.
b. Free School Uniform: The state provided free uniform to all girls, SC, ST and BPL Boys of Govt./Provincialized LP/UP and composite schools covering 39,49,458 students in 2023-24.

INCLUSIVE EDUCATION:

Under Inclusive Education component of SSA, different activities are conducted where all the field level functionaries play a vital role, to create public awareness, to provide

physical and academic support in school and home base situation and provide remedial teaching programme etc.

Samagra Shiksha - the Integrated Scheme on School Education envisages the 'school 'as a continuum from pre-school, primary, upper primary, secondary to Senior Secondary levels. The Scheme covers all children with Special needs with one or more disabilities as mentioned in the scheduled of disabilities of Right of Persons with Disabilities (RPwD) Act, 2016 studying in Government, Government Aided and local body School. The vision of the Scheme is to ensure inclusive and equitable quality education from pre-school to senior secondary stage in accordance with the Sustainable Development Goal (SDG) for Education.

Samagra Shiksha Assam focuses on increasing access to education, enrolment and retention of all children in school as well as improving the quality of education.

Target Group/beneficiary of the scheme:

The scheme covers all children from pre nursery to senior secondary stage studying in Government, local body and government-aided schools, with one or more disabilities as defined under the Rights of Persons with Disabilities Act (2016) namely:

Kasturba Gandhi Balika Vidyalaya (KGBV): Kasturaba Gandhi Balika Vidyalaya (Type-II, III & IV) are residential school for girls for facilitating out of school children belonging to SC, ST, OBC, Minority category and children of families of below poverty line. A total of 81 KGBVs are functioning in educationally backward blocks (EBBs) and in one town. Out of 139 KGBVs functioning in Educationally Backward Blocks(EBB) and in one Town across the state.

During 2024-25:

- A total of 81 KGBVs sanctioned with seat capacity of 11,450 children.
- Out of the total target, all 81 KGBVs operationalized with coverage 8194 children.
- Out of the total sanctioned KGBVs (81) in 67 KGBVs classes up to XII approved.

Type wise KGBV, Seat capacity and enrolment, 2024-25

Type	No.of KGBV	Seat Capacity	Enrolment
II	9	900	790
III	72	10675	10009
IV	70	5670	5183
Total	151	17245	15982

Social Category wise coverage of children (In Type II, III, IV), 2024-25

Category	SC	ST	OBC	Minority	General (BPL)	Total

Guideline also provided to all Govt./ Prov. Schools of the state to purchase sports equipment as per MHRD's guideline in 2024-25.
8	Community festivals	It is a programme to make the students familiar with culture of various communities, co-scholastic activities as well as different community festivals was organised in selected clusters covering 1,232 clusters. Assam is among the leading state in volunteer's registration under Vidyanjali 2.0 initiatives. Assam occupies top position in assets/material assets/materials contribution with 1,01,046 ceiling fans, 7,769 exhaust fans and 20,002 other equipments.

Gunotsav: Gunotsav is an initiative to bring qualitative improvement in schools education system. It is a comprehensive census base evaluation covering four broad areas viz. Scholastic (learning outcome), Co-scholastic & other areas, community participation & contribution, availability & use of infrastructure. Children from classes I to IX of Government /Provincialised, Tea Garden Model School, Adarsha Vidyalayas, KGBV and Residential Schools were covered in Gunotsav. Schools have been graded on the basis of performance as 'A+'.'A','B','C','D' with weightage of grading of school –Scholastic 90%, Co-Scholastic and other areas 5%,Community participation & Contributions 5%. Notably 7846 schools achieved A+ for two consecutive years i.e. Gunotsav 2024 & 2025.

Comparison of Grading of schools in Gunotsav

Grade	No. of Schools	%	No. of Schools	%
	2024		2025	
A+	11593	35.76%	13300	40.79%
A	14932	46.05%	13952	42.79%
B	4605	14.20%	4243	13.01%
C	1032	3.18%	891	2.75%
D	261	0.81%	218	0.67%

Gunotsav Integration: The Assam Government has made Gunotsav a regular part of the state Academic Calendar and introduced a 10% weightage of marks from Gunotsav in the Annual Examination emphasizing its importance in the state's education system.

SECONDARY LEVEL:

The activities undertaken in the secondary level of schools during 2023-24 by the government are—

Capacity Building of Members of School Management Committee (SMDC):

The importance of effective science teacher training in Indian schools cannot be overstated. Well-prepared teachers play a pivotal role in shaping the quality of science education. Their ability to inspire students, nurture a profound understanding of scientific principles, encourage critical thinking and problem solving skills is paramount. To address this need, Samagra Shiksha, Assam has taken significant steps by signing MoU with two esteemed institutions viz-IIT-Guwahati and Dibrugarh University.

Under these agreements, a five-day, in-service residential science teacher training program has been initiated. This program was conducted in multiple batches to accommodate a total of 1400 science teachers at the secondary level. The program was hosted at IIT, Guwahati for 1000 teachers, while another 400 teachers are benefiting from training at Dibrugarh University. The training was provided by faculties of different departments of IIT-Guwahati and Dibrugarh University on teaching methodology of Chemistry, Physics, Biology, Mathematics and general English. These initiatives aim to enhance the capabilities of science teachers, ultimately ensuring a brighter future for students and the nation as a whole.

Pre-Primary Education:

With the amendment to the Indian Constitution which made primary education a fundamental right for every child. The launch of **Samagra Siksha Abhiyan (SSA)** by the Govt. Of India aimed at universalization of the primary education in India.

There are primarily three learning goals highlighted in the **NIPUN Bharat guidelines** as well as the NCERT Preschool Curriculum which correspond to the various domains of development -

Goal 1:– ***Children maintain good health and well-being*** corresponds to physical development (gross and fine motor skills) creative and aesthetic development as well as social and emotional development.

Goal 2 :– ***Children are effective communicators***

Goal 3:– ***Children become involved learners and connect to their immediate environment.***

Activities conducted in Convergence with SCERT –Assam:

a. Development of Workbook for the students of Ka Shreni.
b. Development of "Hand book for Teachers" and "Theme based activity book for Teacher" of pre-primary in 9 medium of instruction for Ka Shreni.
c. Development of Vidya Pravesh - a three-month school readiness module for children in class – I
d. Development of Teacher Instruction and Worksheet for three-month readiness package for Grade I students
e. Training completed for 12033 teachers on ECCE on face-to-face mode.

Functioning of Kasturba Gandhi Balika Vidyalaya (KGBV) Type –IV: The "Kasturba Gandhi Balika Vidyalaya (KGBV) type –IV" is a 100 bedded Girl Hostel for free boarding & lodging of SC/ST/OBC/ Minority girls and girls from weaker sections of the society at Secondary level covering class-IX to XII under Samagra Shiksha. The hostels are being constructed with the unit cost Rs155.35 lakh in the Educationally Backward Blocks (EBB) with a financial pattern of 90:10 share between

Vidya Samiksha Kendra(VSK):

- Space for establishing VSK has been identified and initiated for renovation through state PWD Department.

5.Literary Pension:

Literary Pension are given to reputed Writer/Author of the state who have outstanding contribution in the literary field of Assam at a rate of Rs.8000/- per month and Rs.50,000/- as one time literary award during the year 2022-23 to 2024-25..
The year wise number of pensioners are as below-

Year	Nameof Award	Number of Pensioner	Amount released
2022-23	Literary Pensioner	23	Rs.1,84,000/-p.m.
2023-24	Literary Pensioner	23	Rs.1,84,000/-p.m.
2024-25	Literary Pensioner	3	Rs.24,000/-
	Literary Awardees	28	Rs.14,00,000/-
2025-26	Literary Pensioner	10	Rs.80,000/-
	Literary Awardees	18	Rs.9,00,000/-

TECHNICAL EDUCATION:

Technical education in Assam started with the establishment of Prince of Wales Institute of Engineering and Technology at Jorhat before independence in 1927. It was followed by Assam Engineering Institute and Assam Engineering College in Guwahati in 1948 and 1956 respectively. At present, there are 7 Govt. Engineering Colleges and 26 Polytechnic Institutions in Assam. Besides the state-run technical institutes, there are two national level institutes, the National Institute of Technology (NIT), Silchar and Indian Institute of Technology (IIT), Guwahati.

The following Tables (19.9 and 19.10) depict the enrolment statistics of students in these government run engineering and polytechnic institutions in Assam.

MEDICAL EDUCATION:

The Directorate of Medical Education, Assam is entrusted with the task of generating human resources like Doctors, Nurses, Technicians, Physiotherapists, Pharmacists and other Health personnel to meet the growing needs of not only the State but the entire North Eastern region. The government of Assam proposes to establish five new medical colleges in Glaghat, Dhemaji, Morigacn, Bongaigaon and Tamulpur Medical Colleges. The new AIIMS being established near Guwahati with the active support of the Government of India, will start its operations soon giving an impetus to the medical education in Assam.

The Table below shows that in eleven (11) numbers of educational institutions under the Directorate of Medical education in Assam, the total enrolment is 1376, of which 358 are female and total number of teachers was 2033 in 2023.

Table:- 19.11. EDUCATIONAL INSTITUTIONS UNDER DIRECTOR OF MEDICAL EDUCATION ASSAM, 2024

HEALTH AND FAMILY WELFARE:

Health care performance in Assam exhibits sustained improvements over the years. These improvements are the outcomes of concentred and continued efforts of the Government towards establishing an efficient system of health care and family welfare through effective planning, financing, human and resources management, and infrastructure and supply chain management. The State Government has taken consistent initiatives to reduce prevailing regional disparities and gaps in the access to safe drinking water, sanitation facilities, public and private health care infrastructure rural infrastructure, and access to preventive and medical care, public hygiene, information system on health care and nutrition and skilled manpower.

The TFR has reduced from 2.9 in 2005 to 2.2 in 2018. As per NFHS 5 report, the total unmet need in the State is reported as 11%, while the unmet need for spacing is 4.1% (NFHS 5). Kamrup district reported the highest total unmet need (17.6%), while Biswanath

reported the lowest (5.3%). Approximately 60.8% of married women reported to avail any modern method of family planning in the State (NFHS 5); with sterilization acceptance being 9% among females and 0.1% among males.

NATIONAL HEALTH MISSION (NHM)

Government of India launched the National Health Mission (NHM) to carry out necessary architectural correction in the basic health care, delivery system. The Mission's approach is relating health to determinants of good health viz. segments of nutrition, sanitation, hygiene and safe drinking water. It also aims at mainstreaming the Indian systems of medicine to facilitate health care. Various measures were taken by National Health Mission (NHM) for child and mother's health.

The National Health Mission encompasses its two Sub- Missions, The Nation Rural Health Mission and the National Urban Health Mission. The main Programmatic components include health systems strengthening in rural and urban areas, Reproductive –Maternal- Neonatal Child and Adolescent health and communicable and non-communicable diseases. The core public health mandate of the National Health Mission is to provide equitable, affordable and quality health care services to the people of Assam.

The State Government along with National Health Mission has taken up schemes to strengthen existing health facilities and also to build new public health infrastructure in Rural, Hilly, Char, and Tribal and Tea Garden areas to reduce Infant Mortality Rate (IMR), Maternal Mortality Rate (MMR) and Crude Birth Rate (CBR) in the state.

STATUS OF HEALTH INFRASTRUCTURE IN ASSAM:

The status of health infrastructure in Assam has been improving over the years. In 2025

- There are 14 Medical Colleges and Hospitals, 24 District Hospital,17 Sub-District Hospital 3 Tuberculosis Hospitals, 3 Leprosy Hospitals, 1 Cancer Hospital, 226 CHC,1013 PHCs, 4953 Health Sub centre ,87 FRUs, 2 Ayush Medical College , 4962 Ayushman Arogya Mandir (AAM),130 Mobile Medical Unit,15 Boat Clinic ,1448 Ambulance with 30195 numbers of total beds,128 Ayush Medical College beds in the state at the end of Nov.2025.
- 3 Nursing Colleges in Guwahati, Dibrugarh and Silchar with 6 Para-medical institutions, 3 Dental Colleges, 279 Polyclinics and 488 Diagnostics Centres as of December 2023-24.
- Referral Hospitals inside the state is 7 and outside the state are 31.
- Birth & Death registered in 2023 are 599750 &168201 respectively with highest number of registration in Birth is 36630 & Death 15090 in Kamrup (Metro)

AIFA (Assam Infrastructure Financing Authority):

Assam Infrastructure Financing Authority (AIFA) was formed in 2009 to take up major infrastructure projects not covered under EAP state plan, RIDF or any other schemes. To keep the momentum of infrastructure going. AIFA has further taken up projects in diverse sectors with tangible and quantifiable benefits in this financial year. The projects sanctioned and taken up under NIDA in the financial year 2024-2025 with completion period March/2026 are as follows-

Table: 19.12
Projects sanctioned for the financial year 2024-25

Sl. No.	Name of Projects	Total project cost
1	Construction of TamulpurMedical College& Hospital	500.00
2	Constructionof Dhemaji Medical College& Hospital	500.00
3	Constructionof Golaghat Medical College& Hospital	500.00
4	Construction of Bongaigaon Medical College & Hospital	500.00
5	Construction of Morigaon Medical College& Hospital	500.00
6	Construction of Charaideo Medical College& Hospital	557.00
7	Construction of Biswanath Medical College & Hospital	564.42
8	3 Numbers of Engineering Colleges	164.15
9	6 Numbers of Government Model Colleges	103.73
10	9 Numbers of Women Model Colleges	207.51
11	Construction of 2000 Anganwadi Centre in various Districts of Assam	500.00
12	Construction of Old Age Home and Child Care Institution in Boko, Kamrup, Assam	85.00
13	Construction of Sports Complex at Chandrapur, Kamrup Metro, Assam	120.00

AIFA is presently funding the implementation of various road projects which were taken up under NIDA for smooth connectivity and transportation within the state as follows-

Sl. No.	Name of Projects	Cost (In crore)
1	Improvement and upgradation of Dirakgate to Penegree Road	208.85
2	Improvement and upgradation of Rowta to Misamari Road (Rowta to Kankata)	191.90
3	Improvement and upgradation of Dergaon Chariali to Padumoni	93.63
4	Improvement and upgradation of Padumoni to Rangajan	126.97
5	Improvement and upgradation of Road from Kokrajhar to Rupsi Airport	84.97
6	Improvement and upgradation of Gohpur Dholpur Road	89.71
7	Improvement and upgradation of Rowta to Misamari Road (Kankata to Ghagra Kachari)	241.87
8	Improvement and upgradation of Rowta to Misamari Road (Ghagra Kachar to Phulogurii)	214.24

Source: Assam Infrastructure Financing Authority

AIFA is also funding projects under Grant-in Aid from the Government of Assam as follows-

Sl. No.	Name of Projects	Cost (In Crore)
1	Construction of New Medical College and Hospital at Tinsukia	614.93
2	Construction of integrated office cum Residence Building at Majuli	50.00
3	Construction of New Assam House Sector-13,Dwarka,New Delhi	21.66
4	Construction of Integrated Directorate Office Complex, Betkuchi	808.40
5	Construction of 1321/133 KV 2X50 MVA Nathkuchi Substation	68.84
6	Construction of Jongal Balahu Archeological Site-Phase-II	22.88
7	Assam House,New Delhi(Completed)	56.46
8	Mynuriang Small Hydro Project in Karbi-Anglong (Completed)	35.91

HEALTH INDICATORS IN ASSAM, 2021:

The health indicators released by Registrar General of India (RGI) shows that the under the Five-Year Mortality Rate in Assam is still high than the all-India rate. The neo natal mortality is also higher than that of India.

The Table below shows a comparison of some health indicators of Assam and India.

TABLE:-19.13.TRENDS IN SELECTED HEALTH INDICATORS, 2021

Activity	Total		Rural		Urban	
	Assam	India	Assam	India	Assam	India
Crude Birth Rate (CBR)	20.6	19.3	21.7	20.9	14.1	15.9
Crude Death Rate (CDR)	6.6	7.5	6.7	7.9	6.3	6.6
Infant Mortality Rate (IMR)	34	27	36	30	16	18
Neo-Natal Mortality Rate	19	20	20	42.5	10	28.5
Under 5 Mortality Rate	43	41.9	42	82	19	52

(Source: SRS Bulletin October 2021, NFHS-5 2019-20)

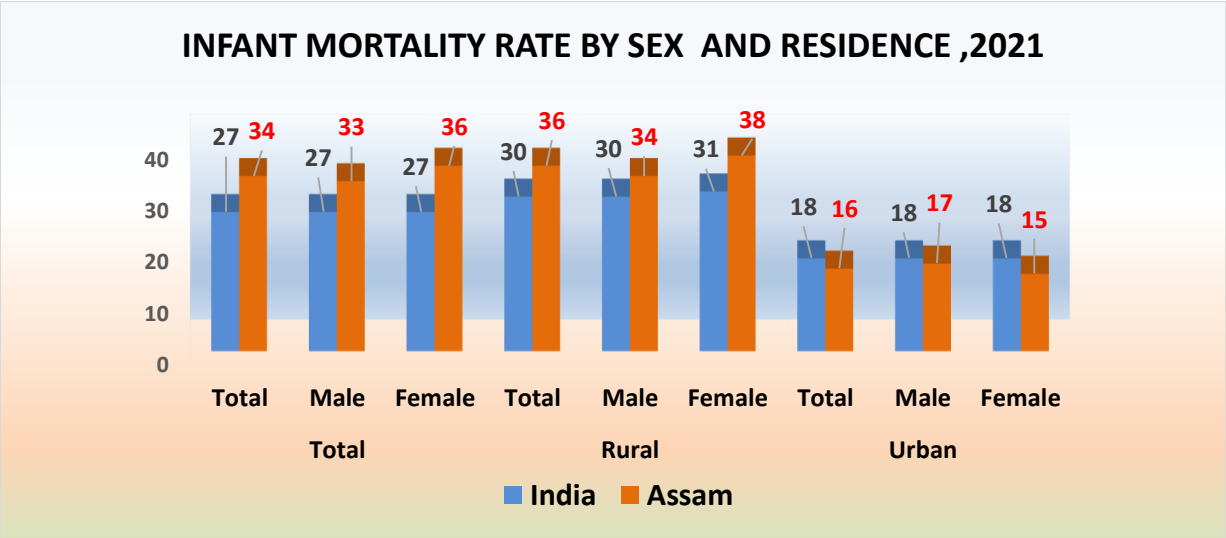

Table: 19.14.

INFANT MORTALITY RATE BY SEX AND RESIDENCE, 2021

	Total			Rural			Urban		
	Total	Male	Female	Total	Male	Female	Total	Male	Female
India	27	27	27	30	30	31	18	18	18
Assam	34	33	36	36	34	38	16	17	15

Fig.:-19.3. Infant Mortality Rate, 2021

(Source: SRS Bulletin 2020)

The Crude Birth Rate (CBR), Crude Death Rate (CDR), Infant Mortality Rate (IMR) and Total Fertility Rate (TFR) of Assam since last five years are given below in the Table:

Table:- 19.15.

CBR, CDR, IMR & TFR OF ASSAM, 2021

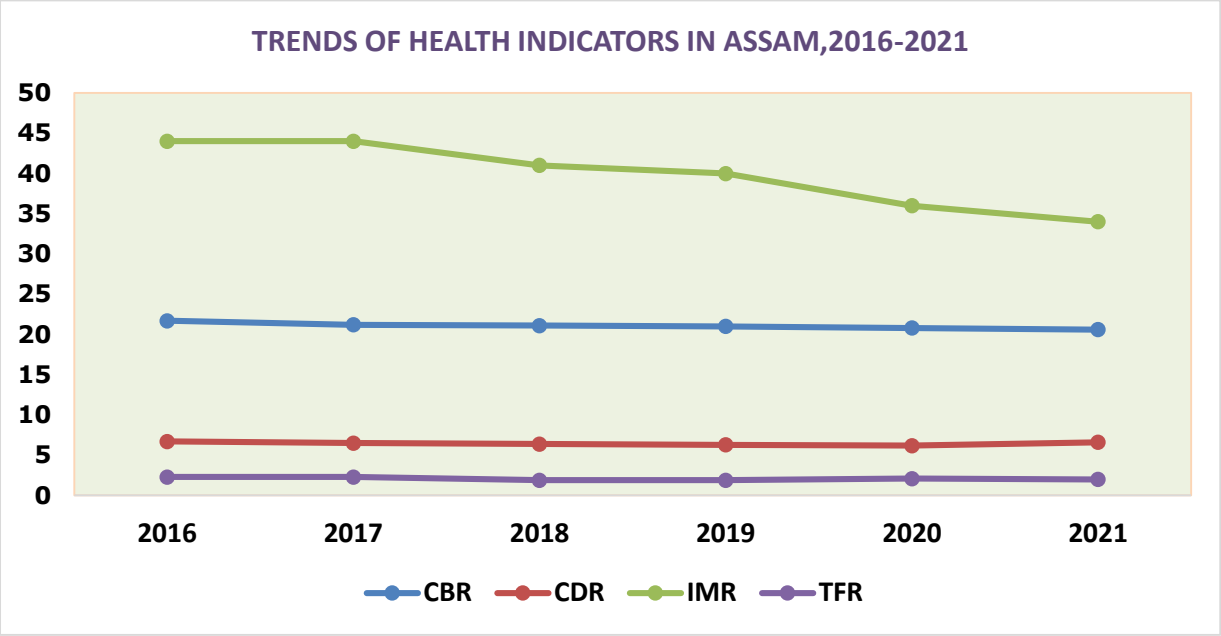

Year	CBR	CDR	IMR	TFR
2016	21.7	6.7	44	2.3
2017	21.2	6.5	44	2.3
2018	21.1	6.4	41	1.9
2019	21.0	6.3	40	1.9
2020	20.8	6.2	36	2.1
2021	20.6	6.6	34	2.0

(Source: SRS Bulletin 2025)

In 2021, the birth rate for Assam was 20.6 births per 1000 inhabitants. Birth Rate in Assam fell gradually from 21.7 births per 1000 inhabitants in 2016 to 20.6 births per 1000 inhabitants in 2021. Similarly, Crude Death Rate has also shown a declining trend from 6.7 deaths in 2016 to 6.2 in 2020 to 6.6 deaths per 1000 inhabitants in 2021. Likewise, Infant Mortality Rate of the state is falling significantly due to various health related measures taken up by Government of Assam. The IMR of the state in 2021 is 34 deaths per 1000 live births, while it was 44 in 2016 and 40 in 2019. In India, IMR in 2021 is 27 deaths per 1000 live births. Similarly, the Total fertility Rate has come down from 2.3 in 2016 to 2.0 in 2021, which is below the replacement level of 2.1.

The following graph reveals the trend of Crude Birth Rate (CBR), Crude Death Rate (CDR), Infant Mortality Rate (IMR) and Total Fertility Rate (TFR) in Assam since 2016 to 2021:

Fig.:-19.4. TRENDS OF HEALTH INDICATORS OF ASSAM, 2016-2021

LIFE EXPECTANCY:

The World Health Organisation (WHO) defined life expectancy as the average number of years that a person expects to live in full health. Life expectancy varies by geographical area and by era. Life Expectancy of a person or population group depends on several variables such as their life style, access to health care, diet, economic status and the relevant mortality and morbidity data. However, as life expectancy is calculated based on averages, a person may live for many years more or less than expected. According to the latest data published in 2019-2023 life Expectancy in India is: Male 68.5, Female 72.5 and total Life Expectancy is 70.3.In the same way Life expectancy in Assam is Male 66.9, Female 70.7 and total 68.1

Table 19.16 for life expectancy of Birth in India & Assam

	1970-75	2016-20	2017-21	2018-22	2019-23
India	49.7	70	69.8	69.9	70.3
Assam	45.5	67.9	68	68.1	68.1

Source: SRS Bulletin, 2025, Census India, Ministry of Home Affairs, SRS data for 2024 & 2025 not released.

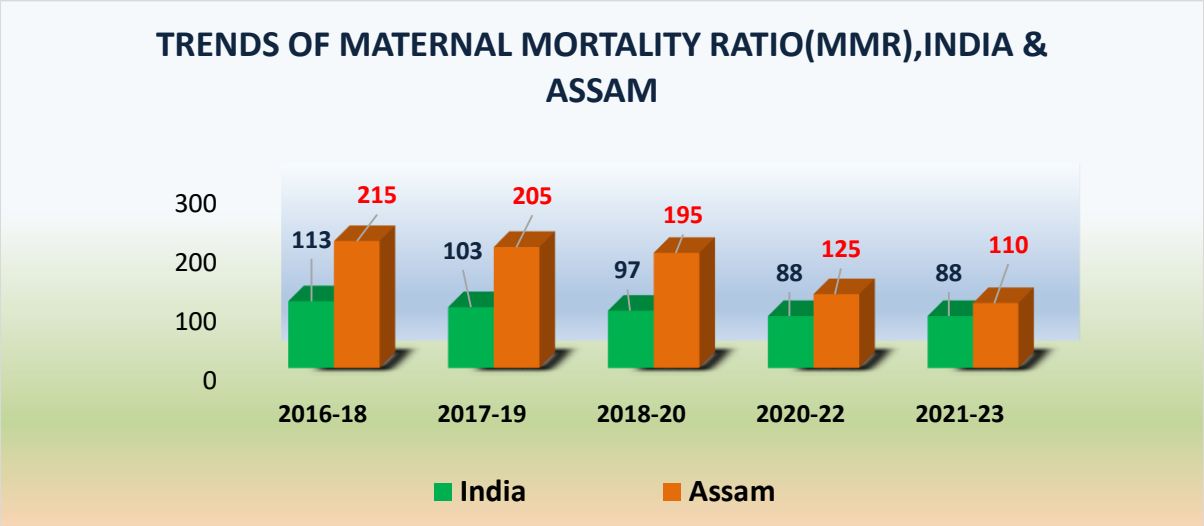

MATERNAL MORTALITY RATIO (MMR):

Maternal Mortality Ratio (MMR) is the Annual number of Female deaths per 100,000 live births from any cause related to or aggravated by pregnancy or its management. The Maternal Mortality Ratio of Assam and India from 2004-06 to 2018-20 is presented through the graph given below:

Table: 19.5.

TREND OF MATERNAL MORTALITY RATIO IN ASSAM & INDIA

Period	India	Assam
2016-18	113	215
2017-19	103	205
2018-20	97	195
2020-22	88	125
2021-23	88	110

(Source: SRS Bulletin, Registrar General of India)

The above graph depicts that there is an overall decline of the Maternal Mortality Rate (MMR) during the period from 2016 to 2023. However, the rate is still very high in Assam in comparison to All India rate due to some major factors like infections and anaemia during childbirth especially among rural women. There is a downfall of MMR at the All-India level from 113 in 2016-18 to 88 in 2021-23. Likewise, at the state level, downfall in the MMR was from 215 to 110. During 2017-19 the MMR of the state is 205 from while it was 215 during 2016-18 against the all-India level the rate is 97 in 2018-20 and 103 in 2017-19. Factors responsible for downfall in MMR includes increase in institutional deliveries, involving private doctors to provide free health check-ups to the pregnant women at government hospitals, decline in child marriage, reduction in teenage pregnancies etc. Moreover, a facility in public hospitals and health centres, free drugs and diagnostics among other incentives to pregnant women has led to the increase in admission for delivery in Government hospital.

PUBLIC HEALTH (SANITATION & DRINKING WATER):

The Ministry of Drinking Water and Sanitation, Government of India, is the Nodal Ministry for the overall policy, planning, funding and coordination of two flagship programmes of the Government of India, namely, the National Rural Drinking Water

Programme (NRDWP) for rural drinking water supply and the Swachh Bharat Mission (Gramin) [SBM (G)] for sanitation in the country.

1) Swachh Bharat Mission:

In Assam, **SWACHH BHARAT MISSION (G)** has aimed at to provide Individual House Hold Latrin (IHHL) facility to every household in Assam. More than 32 lakh Individual Household Latrines (IHHL) have been constructed and almost 4 lakh dysfunctional toilets have been converted to functional toilets. In the year 2024-25, the physical target and achievement in case of household toilet was 76285 target and 5915 constructed respectively.

Jal Jeevan Mission (JJM):

JJM is envisioned to provide safe and adequate drinking water through individual household tap connections by 2025 to all households in rural India. The programme will also implement source sustainability measures as mandatory elements; The Jal Jeevan Mission will be based on a community approach to water and will include extensive Information, Education and communication as a key component of the mission. JJM looks to create a Jan Andolan for water, thereby making it everyone's priority. With the launch of JJM, Rural Water Supply and Sanitation Project for low-income states (RWSS-LIS) stands subsumed into JJM.

Table: 19.16.

PHYSICAL ACHIEVEMENT UNDER JAL JEEVAN MISSION (JJM)

State	Total Rural Household		Households covered with Functional Household Tape Connection (FHTC)		Households covered without FHTC

SOCIAL WELFARE:

The Social Welfare Department, Govt. of Assam has been divided into two separate departments namely Women and Child development and Directorate of Social Justice and Empowerment. The contribution of women and child developments implementing various schemes for the welfare of the Persons with Disabilities so as to bring them equally to the mainstream of the society to live with honour and dignity. In pursuance of the Persons with Disability Act, 1995 (now RPwD Act,2016) and through various welfare measures, necessary efforts have been made to give them an empowerment in the fields, such as, Health, Education, Employment, Self-employment, Sports and other all activities. The schemes are as follows:

Women and Child Development:

The Women and Child Development, Government of Assam aims at improving the nutritional status of women adolescent girls and child in the age group of 0-6 years and provides pre-school education to children of 3-6 years of age. The department also works

on the aspect of women's safety and empowerment. The Department has been implementing various schemes launched by the Government of India as well as by the State..

The Women and Child Development attains its goals and objectives through implementation of three missions namely**:- (i) Saksham Anganwadi & Mission POSHAN 2.0 ,(II) Mission Shakti and (iii) Mission Vatsalya.** The schemes are as follows:

Saksham Anganwadi & Mission POSHAN 2.0

A) Integrated Child Development Services (ICDS) Scheme:

Integrated Child Development Services is World's largest community-based programme and is centrally –sponsored scheme and will provide the following six services to the beneficiaries.

1. Suplementary Nutrition (SNP)
2. Health & Nutrition Check-up
3. Immunization
4. Non-Formal Education for Children in Pre-School
5. Health & Nutrition Education
6. Referral Services

This services are provided from **Anganwadi Centres** and staffed with frontline Anganwadi workers & helpers. The Scheme is implemented through 62,142 nos. Anganwadi Centres (AWC) In the State. It is funded by Central and State Government in the ratio 90:10 for general assistance and 90:10 for supplementary nutrition for all states of NE region.

B) Supplementary Nutrition Programme:

The Department of Women and Child Development is implementing Supplementary Nutrition Programme as one of the major services through which nutritious food items are provided to the target groups. The programme is implemented to bridge the gap between

the Recommended Dietary Allowance(RDA) and the Average Daily Intake (ADI) of nutrient(calories and protein).The prime objective of the programme is to address the issues of Mal nutrition, elimination of micro nutrient deficiency relating to iron, iodin, vitamin A etc. and reduction of chronic energy deficiency. Under this programme the following provisions are available-

Take Home Ration: In the year 2024-25 **Under Supplementary Nutrition Programme**, the State has provided Take Home Ration i.e. instant dal khichidi, multigrain suji halwa etc. as Micronutrient Fortified Energy Dense Food to the beneficiaries as stated below-

	(In Nos.)
i) Pregnant Women	1,52,510
Ii) Lactating Mother	96,660
iii) Children in the age –group of 6 month to 3years	10,10,130
iv) Pre-School Children of the age 3-6 years	14,42,900
v) Severely malnourished children	4,35,936
Total:	**31,38,136**

Hot Cook Meal: Supplementary Nutrition Programme (SNP) of Anganwadi Services, targets children aged 3-6 years as part of Mission Saksham Anganwadi. Two type of food items are distributed in the form of Hot Cook Meal i.e. Instant Dal Khichidi and Multigrain Suji Halwa as micronutrient fortified energy, dense food. Further to bring the compatibility with the local food habits,the locally available vegetables ,herbs & spices and ghee etc. added to instant dal khichdi and different nuts in Multigrain Suji Halwa. For this purpose funds are being released to the joint bank account of Angawadi Centre Management Committee (AWCMCs).

Table-19.18

C. Mission Poshan 2.0

As a part of Hon'ble Chief Minister's CONCLAVE HELD ON 27TH-28TH July, 2024, where focus on improving POSHAN Index. POSHAN Abhiyaan, Assam has organised 'Swasthya aaru pori-pusti Mela' along with talk on Menstrual Health' in collaboration with State Hub

for empowerment of women during the period of 16th Dec., 2024 to 21st Dec., 2024 across all the districts positively impacting POSHAN index. The programme witnessed extensive public participation including involvement of local MLA, MP and active collaboration between WCD (Women and Child development) and Health Department. Various activities and camps including T3, Nutrition counselling, RBSK screening street plays, formation of kishori sevika group etc. were organised to improve community outreach and deliver essential health and nutrition services.

To address malnutrition among U-5 children in Assam, POSHAN Abhiyaan, Assam has initiated the intersectoral convergence to strengthen the referral percentage of severely Acute Malnourish (SAM) children to Nutrition Rehabilitation Centres (NRCs) and other health facilities across Assam. The National protocol for Management of Malnutrition Children (CMAM) WHICH WAS JOINTLY LAUNCHED BY THE MoWCD (Ministry of Women and Child Development) & MoHF (Ministry of Health & Family welfare) which lays down Ten (10) essential steps/services for management of malnutrition in children. In order to smooth implementation of the protocol and create awareness among community, training on CMAM protocol has been organised by SPMU, POSHAN Abhiyaan Assam in phase manner to all Supervisors and Poshan officials.

Jan Andolan activities such as Poshan Pakhwada, Poshan Maah, World Breastfeeding Week, Complementary Feeding Week, Ek Ped Maa Ke Naam, Swachata Hi SEVA Campaign have been organised by POSHAN Abhiyaan every year creating mass awareness considering Jan Bhagidari.

An initiative has been taken to prepare and launch "Social & Behavioural Change" training module for supervisors and handbook for AWWs in collaboration with UNICEF, Assam. The training have already been initiated to resource pool members of the department as well as to AWWs of the state.

An initiative has been taken in Udalguri district to combat anaemia, improve beneficiary coverage and consumption of FA tablets amongst beneficiaries through interdepartmental convergence with Health, Agriculture and Education department.

(ii) MISSION SHAKTI: Ministry of Women and Child development have introduced Mission Shakti, a concerned effort in a mission mode to ensure gender equality, women empowerment and to strengthen women safety and security.

Achievement Report of Mission Shakti:

Special Drives and Campaigns-

The SANKALP Hub for Empowerment of Women is the Project management unit of women centric schemes of Mission Shakti under WCD Department .36 such units or hubs one at the state and 35 at the district are established and are functioning. However, Beti Bachao Beti Padhao, Pradhan Mantri Matru Vandana Yojana, Nari Adalat, Gender Budgeting are also implementing by SANKALP Hubs, Plantation Drives, observation of important days like World Menstrual Hygiene Day, International Women's Day, National Girl Child Day, Day against superstitious Beliefs.16 Days Campaign against gender based violence are conducted by SANKALP Hubs at state and district level to make community sensitise on gender equality and on Govt. schemes available for women and girls. A Handbook on schemes for women and girls and another handbook for stakeholder's to organise special mahila sabha and Bal Sabha are developed in collaboration with UNICEF and P & RD respectively.12,213 numbers of women have been linked with various Govt. schemes and services (MWCD'S Dashboard Data)

AT STATE LEVEL:

16-Days Campaign for Ending Gender Based Violence : It is a global campaign that runs annually from November 25(International Day for the Elimination of Violence against Women) to Dec.10(Human Rights Day).During these days ,awareness campaign and promote action against gender based violence are done. The Ministry of women and child development launched the 'Bal Vivah Mukt Bharat' (Child Marriage free India) campaign during 2024.As a part of this initiative, a pledge was taken to eradicate child marriage and empower girls through education and protection.

Pledge taking ceremony on 25th Nov./2024

A pledge taking ceremony during the **16th Days of Activism Against Gender-Based Violence** is a powerful way to unite communities, raise awareness and inspire action. These ceremonies were held at schools, workplaces, government offices and public spaces on 25thNovember (International Day for the Elimination of Violence against Women)

State level programme on use of GBV(Gender Based Violence) Training tools for district officials of Mission Shakti held on 29th Nov.2024.The SANKALP HEW(Hub for Empowerment of Women) in collaboration with the WAY (We Are Young) Foundation have developed a training cum IEC(Information, Education and Communication) materials on Gender Based Violence in video mode namely –stories in Motion. These videos were made as a mode to train the stakeholders on Gender Based Violence in connection with the observation of 16 days of Activism. State Hub for Empowerment of Women organised a day long state level Programme on launching of Gender Based Violence Training tools and training of District officials of Mission Shakti on the tool.

Playing of Radio Jingle from 1st Dec, 2024

Radio jingles were composed and broadcasted for 60 seconds, with the use of jingles, key messages about SHE-box (Sexual Harassment Electronic- Box) which is an online portal of Ministry of WCD, GoI, One stop centre, Emergency Response Support System Numbers 112,181 and 1098 etc. were played on air.

Table-19.21

Physical and financial achievement for the last three years under the Scheme:-

(Rs.in lakh)

Sl.No.	Year	Budget Head	Physical Achievement		Financial Achievement	
			Target	Achievement	Target	Achievement
1.	2022-23	Central Share	4150.27	2146.54	3735.31	1930.99

		State Share			450.65	422.66

All the schemes have been implemented during the year 2024-25 will an estimated amount of **Rs.520555.32 lakhs**.

CHAPTER-XX

SUSTAINABLE DEVELOPMENT GOALS (SDG)

1. Introduction

1.1 Overview of the Sustainable Development Goals (SDGs) and India's Commitment

The Sustainable Development Goals (SDGs), adopted by all United Nations Member States in 2015 under the 2030 Agenda for Sustainable Development, represent a universal call to action to end poverty, protect the planet, and ensure peace and prosperity for all by 2030. The 17 Goals and 169 associated targets embody an integrated vision of economic growth, social inclusion, and environmental sustainability.

India has demonstrated strong national commitment to the SDGs by aligning its policy architecture and development priorities with the global framework. The NITI Aayog serves as the nodal agency for coordinating and monitoring SDG implementation across States and Union Territories, advancing the principles of cooperative and competitive federalism. The launch of the SDG India Index in 2018 marked a major milestone in this journey, enabling States to measure and benchmark their progress across the 17 Goals through a data-driven and comparable framework. Over successive editions, the Index has become a central tool for evidence-based policy making and inter-State learning.

Recognising the unique developmental context of the North-Eastern Region (NER), NITI Aayog, in collaboration with the Ministry of Development of North Eastern Region (MDoNER) introduced the North Eastern Region District SDG Index in 2021. This initiative localised SDG monitoring to the district level, ensuring that progress is captured at the most granular administrative unit. It also encouraged States to integrate SDG priorities into their planning frameworks, fostering bottom-up development and local ownership of the 2030 Agenda.

Within this national and regional framework, Assam has emerged as an early adopter and proactive leader in SDG localisation. The State's institutional readiness, strong monitoring mechanisms, and integration of SDGs into its development planning have positioned it as a key contributor to India's collective SDG progress. Transformation and Development Department, functions as the nodal department for research, policy guidance, and interdepartmental coordination on SDGs. The subsequent formulation of Assam Vision 2030, Assam Agenda 2030, and the State and District Indicator Frameworks underscores the State's sustained commitment to translating the global goals into actionable local strategies.

2. NER District SDG Index: Framework and Methodology

2.1 Genesis and Scope

The North Eastern Region (NER) District SDG Index was jointly developed by NITI Aayog, the Ministry of Development of North Eastern Region (MDoNER), and the United Nations Development Programme (UNDP). It is the first regional-level tool for tracking SDG progress across all eight North Eastern States.

The first edition of the NER District SDG Index (2021–22) covered 103 of the 120 districts across the region and established a baseline for future assessments. The **second edition** (2023–24) expanded coverage to 121 out of 131 districts, reflecting improved data availability and institutional collaboration across the States.

The Index is modelled on the NITI Aayog's SDG India Index, ensuring methodological consistency, comparability, and analytical robustness. It provides granular, district-level insights into the pace of SDG achievement in the region, enabling targeted policy actions and resource prioritization.

2.2 Methodology and Data Framework

The NER District SDG Index 2023–24 assesses the performance of 121 districts across the eight NER States against 84 indicators covering 15 SDGs (excluding Goals 12 and 14 due to data constraints).

- Data Sources: 41 indicators are sourced from central ministries/departments, and 43 from state-level sources, ensuring both national comparability and local relevance.
- Normalization: Indicator values are standardized using the min–max normalization method, rescaling data to a 0–100 range.
- Computation: District-level SDG scores are derived as the arithmetic mean of normalized indicator scores under each Goal, which are then aggregated into an overall composite score.
- Classification: Based on the composite scores, districts are categorized into four tiers:
  - Aspirant: 0–49
  - Performer: 50–64
  - Front Runner: 65–99
  - Achiever: 100

This framework provides a uniform and data-driven mechanism to evaluate district performance, identify developmental gaps, and promote inter-district learning.

3. Coverage Expansion and Data Improvements

The second edition of the Index (2023–24) represents significant progress in both coverage and data quality:

- District Coverage: Expanded from 103 of 120 (86%) districts in the first edition to 121 of 131 (92%) districts in the second edition.
- Data Strength: Enhanced district-level data reporting and validation mechanisms have led to improved accuracy and completeness across the region.
- Assam's Participation: Assam achieved full inclusion of 33 districts, with verified data for 64 out of 84 indicators, reflecting strengthened data governance and institutional readiness.

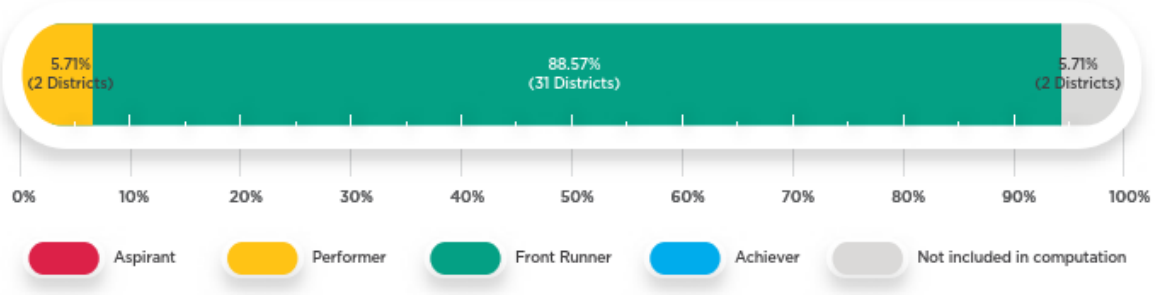

4. Assam's Performance and Key Outcomes

Assam has demonstrated notable advancement in the 2023–24 edition, emerging as one of the Front Runner States in the North Eastern Region. The State's composite score improved from around 68 in 2021–22 to 75.2 in 2023–24, marking a rise of over 7 points and a visible shift from the "Performer" to the "Front Runner" category.

4.1 Positive Trends and Key Achievements

Assam, with the highest number of assessed districts (33) in the Northeast, shows substantial improvement in the 2023–24 Index compared to 2021:

• Overall Progress: 31 districts are now classified as Front Runners; the remaining 2 are Performers. This is a significant increase from 2021 (23 Front Runners, 4 Performers, 6 un-scored)

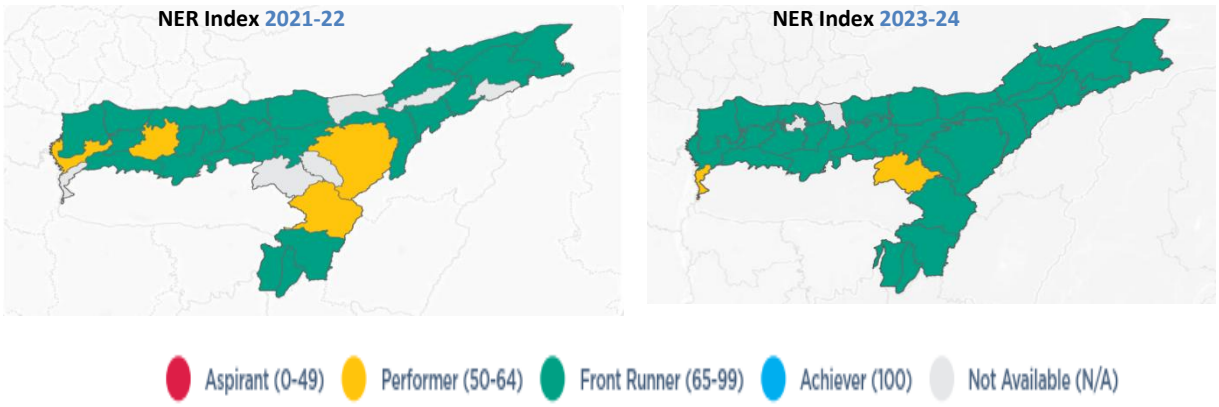

• Data Contribution: Assam submitted validated data for 64 out of 84 indicators, enabling scoring for all 33 districts, reflecting enhanced data governance.

• Scale & Complexity: This progress is notable given Assam's size, population (~3.1 crore), and diverse developmental challenges compared to smaller NE states.

• Ranking of Districts: Three Assam districts lie in the 0–25 rank band, eight fall between 26–50, eleven sit in 51–75, another eight occupy 76–100, and two are positioned above the 100-rank mark. This distribution signals steady state-wide progress while clearly highlighting where targeted administrative support can be most effective.

4.2 Comparative Trend and Category Shift

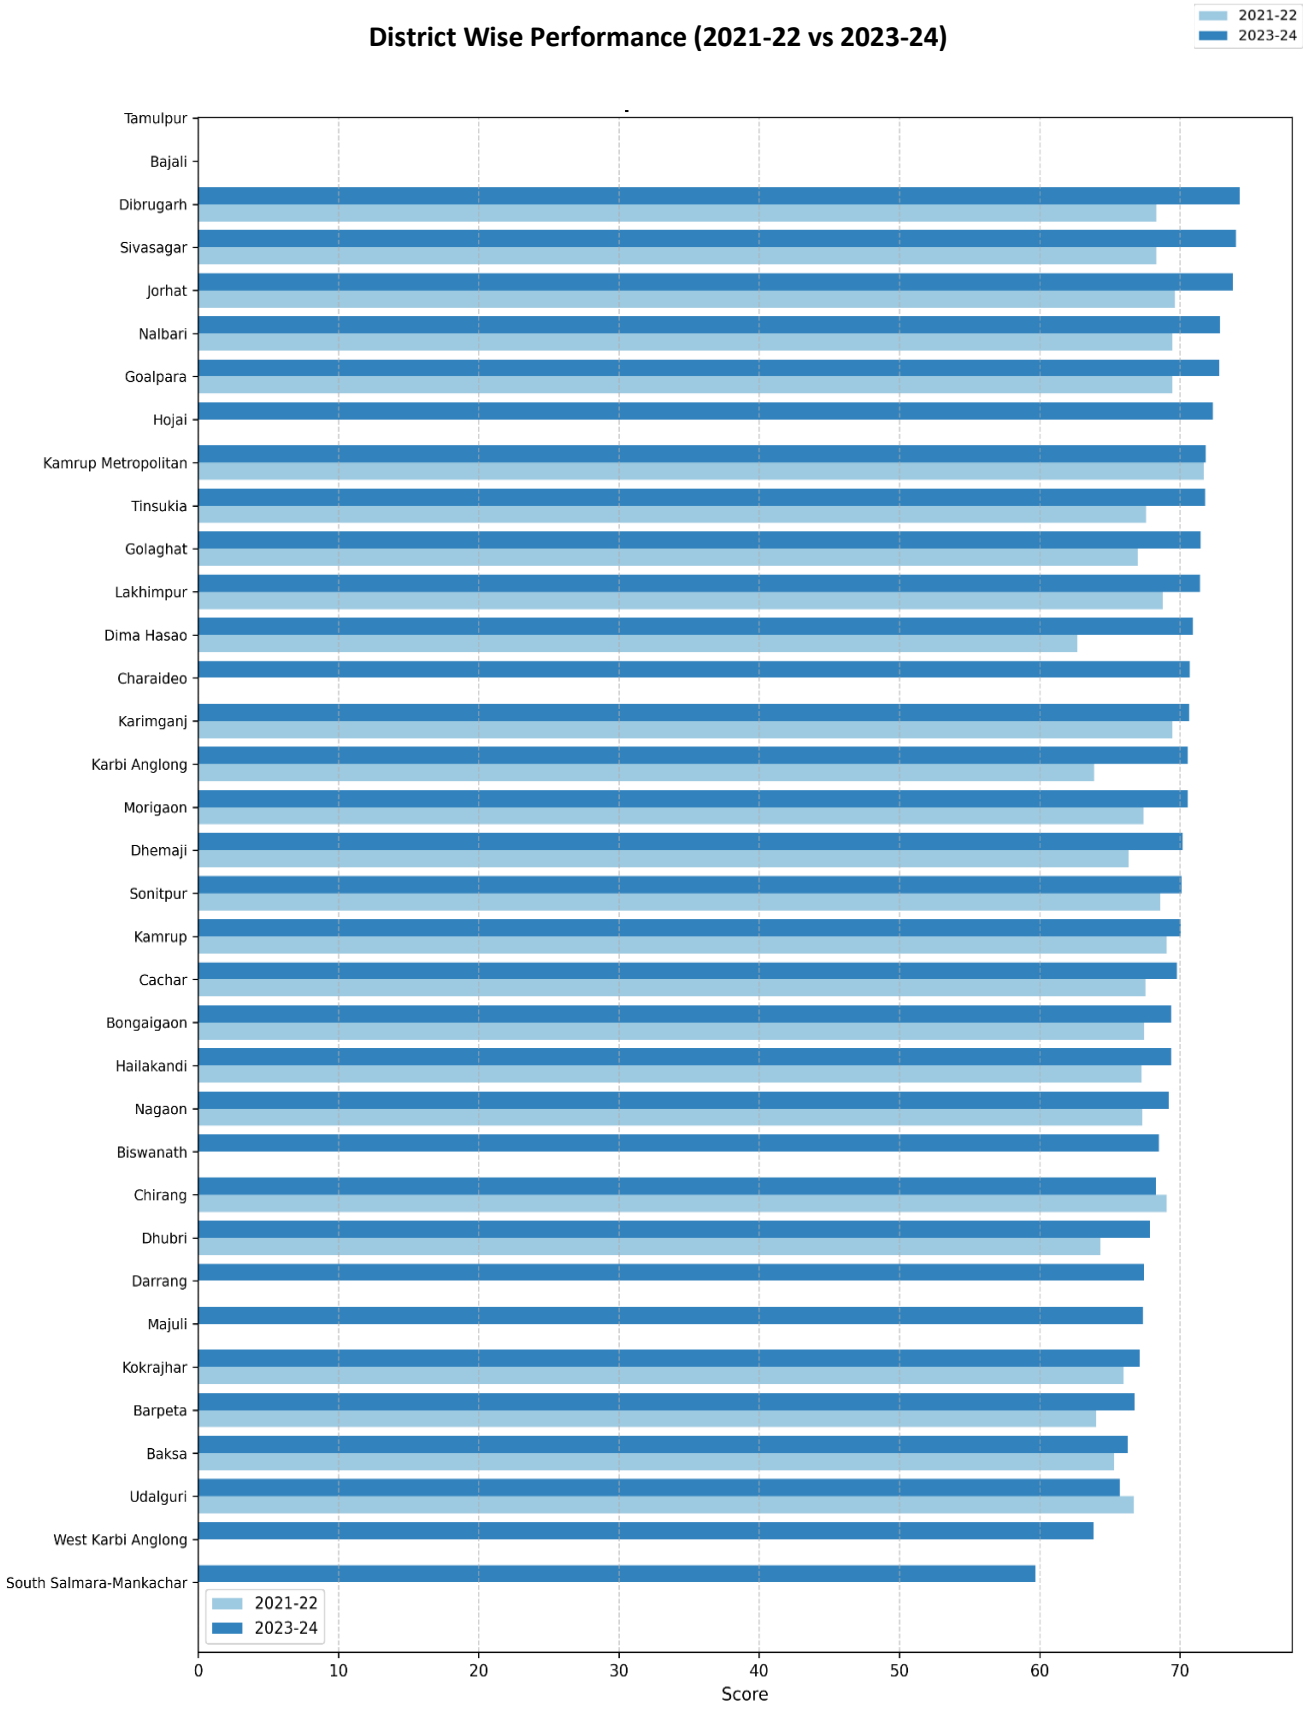

Edition	% of Front Runner District	% of Performer Districts	Coverage
2021-22	62%	38%	28 of 33 districts
2023-24	85%	15%	33 of 33 districts

This trend reflects Assam's strengthened policy delivery, improved interdepartmental coordination, and expansion of social safety nets

4.3 District-Wise Distribution of Scores

District	Rank within State	Score 2023-24	Score 2021-22
Dibrugarh	1	74.29	68.33

5. Goal-wise Progress: Assam's Sectoral Advancements

Assam's improvement reflects coordinated interventions across multiple SDG dimensions, integrating social protection, economic empowerment, and environmental resilience.

SDG 1 & SDG 8 – No Poverty / Decent Work and Economic Growth

- Orunodoi 3.0: Covers over 37 lakh women-led households, strengthening income security.
- Mukhyamantri Mahila Udyamita Abhiyan (MMUA): Empowers 40 lakh rural women through entrepreneurship grants.
- Chief Minister's Atmanirbhar Asom Abhiyan (CMAAA 2.0): Promotes self-employment and youth livelihoods.

SDG 2 – Zero Hunger

- Enhanced MSP for paddy (₹2,300/quintal) and incentives for maize and mustard benefiting 40,000+ farmers.
- Procurement of 11,102 MT mustard ensures remunerative returns and strengthens agri-economy.

SDG 3 – Good Health and Well-being

- ₹4,257 crore redevelopment of GMCH and upgrade of district hospitals under the Assam Health Infrastructure Development Project (AHIDP).
- Expansion of Ayushman Assam and Chief Minister's Free Diagnostic Programme improved health access.

SDG 4 – Quality Education

- Mukhya Mantrir Nijut Moina Scheme: Direct transfers to 4 lakh girl students to reduce dropout rates.
- ASAP (World Bank Project): Strengthens early education, teacher capacity, and STEM learning infrastructure.

SDG 5 – Gender Equality

- Procurement of 11 lakh Gamosas from 5.64 lakh women weavers enhances cultural identity and women's income.
- Gender Budgeting Units institutionalized across key departments to ensure inclusive policy planning.

SDG 6 & 7 – Clean Water, Sanitation, and Energy

- 95% tap connection coverage under Jal Jeevan Mission.
- Rapid LPG coverage expansion and solar rooftop installations under Assam Solar Energy Policy (2023).

SDG 9 – Industry, Innovation, and Infrastructure

- Implementation of Industrial and Investment Policy of Assam (2023) and Ease of Doing Business reforms.

- Development of Bamboo Park, Plastic Park, and Tea Park clusters to strengthen MSME competitiveness.
- Expansion of **road infrastructure under Asom Mala**and **PM Gati Shakti** for seamless connectivity to industrial zones and economic corridors.
- Construction of major **flyovers and bridges,** including the **Guwahati–North Guwahati Bridge, Dispur–Khanapara Flyover,** and the **Bogibeel and Dhubri–Phulbari bridges**, enhancing urban mobility and inter-district connectivity.
- Upgradation of **LGBI Airport (Guwahati),** development of **Rupsi Airport**, modernization of **river ports at Pandu and Dhubri**, and improvement of **railway connectivity** to boost regional trade and logistics efficiency.

SDG 11–15 – Environment, Urban Resilience, and Ecosystems

- Mission Basundhara 2.0 digitized over one crore land records.
- Smart City initiatives and solid waste management systems in Guwahati and Dibrugarh.
- Kaziranga Landscape Restoration Project and Assam Green Mission reinforce climate and biodiversity goals.

SDG 16–17 – Governance and Partnerships

- Mission Sadbhavana improved citizen service delivery through time-bound grievance redressal.
- SDG Coordination Cell, Assam, facilitates inter-departmental data monitoring aligned with NITI Aayog frameworks.

6. Key Insights and Way Forward

- Balanced Progress: Assam demonstrates steady advancement across social, economic, and environmental dimensions, with reduced inter-district disparities.
- Data Strengthening: Expansion from 28 to 33 districts with validated data reflects improved monitoring capacity.
- Convergence of Schemes: Flagship programmes— Orunodoi, MMUA, CMAAA 2.0, Nijut Moina—drive measurable SDG-linked outcomes.
- Targeted Attention Needed: Focused support is required for South Salmara-Mankachar, West Karbi-Anglong, and Baksa to achieve uniform progress.
- Vision 2047 Alignment: Continued synchronization between the SDG Index and Assam Vision 2047 will ensure sustained, inclusive growth.

7. Conclusion

The NER District SDG Index 2023–24 positions Assam as a data-driven, reform-oriented, and socially inclusive state in the North East. The steady rise in Assam's composite score and near-universal district coverage highlight significant strides in governance, welfare delivery, and institutional coordination. Going forward, Assam's emphasis on equitable regional development, climate resilience, and gender empowerment will be pivotal to achieving the 2030 Sustainable Development Goals and realizing the broader vision of Viksit Assam @ 2047.
